

STOCK DEPRECIATION CHARGED TO PIERCE

Sensational Allegations Made by St. Louis Bank—Ex-Senator Bailey Involved.

St. Louis, April 26.—Charges that Henry Clay Pierce depreciated the value of the stock of the Nashville Terminal railway were made at the taking of depositions today in the suit of the National Bank of Commerce against Pierce for the recovery of 15,000 shares of the Nashville Terminal, or their equivalent, \$1,500,000.

The charge was made by George Lockett Edwards, counsel for the bank. Attorney Edwards asked Pierce if, when the terminal stock was pledged with the bank as security for a loan, there was a bond issue of but \$1,000,000 against the property.

"I don't know," said Pierce. "I don't know," said Pierce. "I don't know," said Pierce. "I don't know," said Pierce. "I don't know," said Pierce.

We hold fast to the traditional American home, the single-family house, and we are not prepared to surrender it to the modern requirements, adding to its conveniences and its comforts, but not surrendering it on any of the specious pleas advanced by those whose interests make them see an advantage in the multiple dwelling type of housing.

In placing out children in homes, written recommendations should be depended upon entirely, but visits to the homes should follow, said Marcus M. Flagg at the afternoon welfare meeting.

With telegrams pouring in from the white house, and from the governors of many states, the nation-wide aspect of the Southern Sociological congress looms larger every hour.

President Woodrow Wilson sent a wire from Washington that his best wishes for an earnest and successful meeting were with the 1,500 delegates in Atlanta.

Governors now and far have wired to Atlanta, and here are a few messages which indicate that the spirit of the nation are on the progress which this convention will make.

BIG LEGAL FIRMS TO JOIN FORCES

Reported That Slaton & Phillips and Rosser & Brandon Will Soon Become One Firm.

Two of the best known and most powerful law firms in Atlanta are soon to join forces and form one partnership, according to a report that is generally current in legal circles.

When an attempt to verify the report was made Saturday, Mr. Phillips was the only member of either firm who could be seen and he refused to discuss the matter, saying that it was one about which he could not talk at present.

Warner's Safe Kidney and Liver Remedy RESTORED HEALTH

Mr. Frank Brownell writes: "Nearly 18 months ago I commenced using Warner's Safe Kidney and Liver Remedy. I was troubled a great deal with my kidneys. My brother told me of a case where a neighbor had been given up by several doctors telling him his case was hopeless. After using five bottles of Warner's Safe Kidney and Liver Remedy I felt well again. I know of another cure since mine of a party who was in a very bad condition from kidney trouble but who was restored to good health by Warner's Safe Kidney and Liver Remedy."

Young man, did you know that specific blood poison is one of the most serious troubles that you can possibly have and you know that if you are not properly cured that it will remain in your system for years and then break out anew after you had thought that you were cured. And did you know that this disease will affect your offspring and that it will show up until the third generation, when it is not entirely eradicated from the system?

A twenty-five cent box is said to be enough to cure the worst feet.'

with the school flag and colors on their bosoms, they walked along like so many little soldiers all the way to the cemetery.

And they were orderly too. It was only when some veteran smilingly asked them to give the "yell" that their unusually decorous demeanor was thrown aside for the instant.

Red Men Came Next.

Representatives from the Red Men, the Junior Order of United American Mechanics, the American Mechanics, the Odd Fellows, and the Knights of Pythias followed.

The parade ended with a rear guard that formed the most important feature. Column after column, the Confederate veterans marched on.

For the day, their Years had dropped from them, and they marched as well as they did 50 years ago. Some few were compelled to ride in carriages and wagons, which were driven in the rear, together with equipages bearing members of the Ladies' Memorial association inmates of Old Ladies' home, the mayor, members of the city council and representatives from the Atlanta Chamber of Commerce.

Reverently, solemnly, the column moved on, along Peachtree street to Washington, where they turned past the state capitol, and on out to the cemetery.

The exercises were held at the confederate monument, in charge of the Ladies' Memorial association. Mrs. W. P. Anderson, chairman of the cemetery committee, looked after the principal details.

Professor W. M. Slaton acted as chairman. Dr. Dunbar Ogden, pastor of the Central Presbyterian church, delivered the opening prayer.

Professor Slaton made a brief address in introducing Dr. Charles E. Lee of Macon, the principal speaker.

South Not the Rebel.

"We have come to declare anew that the south was not the rebel," declared Professor Slaton. "Everything that was done was within our constitutional rights. It was but a year or so ago that a great northern orator, the son of a great northern general, told the people of Nashville that it was the north that had rebelled, and not the south."

"I do not refer to this to bring back bitter memories," he continued. "It is only to show you that today, at least, the south is recognized as having been in the right."

Dr. Lee opened his address with a brief eulogy to the soldiers that had fought for the rights of their people.

"We thank God," he said, addressing himself to the veterans that were seated around the monument, "that we are blood of your blood."

"The south doesn't forget its heroes. Yet we do not know the names of all. There is only one who does. All who died in the shock of battle, all who have fallen after the war, under the weight of increasing years and infirmities—all of these are known to God. And you, you who are looking forward to the time when you go into the great beyond, you, too are known to God."

Honor Living and Dead.

"We are here to honor the living

Photo by Francis E. Price Staff Photographer. Boys of the grammar schools of the city snapped as they crossed the viaduct and came into Whitehall street. The youngsters made a splendid appearance and were greeted with cheers as they marched between thousands of spectators.

and the dead. We honor all who died for the cause. Whether they lie under some great monument like this, or whether they lie in the soldier's nameless grave on the field of battle, makes no difference.

And we are here to honor the leaders—the men who left their homes and their families, to lead the armies of their country. And all for the simple gratitude of an impoverished country.

"Nor can we forget the privates—the simple men who left their homes to become the mainstay of the whole great army."

We bow, too, to the women of the south. They are the women who doubted not, and sent their sons and husbands out to fight the women that filled the great war hospitals. Gentlemen, thank God that we have sprung from these women."

"Again—and I am proud to say it—we must honor the faithful slaves that for four years stayed on the plantations and guarded the women that were left behind. Their actions were the greatest proof that we can find of the greatness of the south."

"In but a brief span of time, when compared with the eternity that usually is needed for the evolution of a race, the people of the southland converted a savage tribe into men and women that were able to show such

loyalty as this. There is your proof of the greatness of the south!"

We Must Honor the Cause.

"But most of all, we must honor the cause. Great as were the southern men and women who fought and suffered 50 years ago, the ideals that they held before them, and tried to live up to, were greater still, and it is to these ideals that we must bow with greatest reverence. Oh, that they may never cease to be as high!"

Leaving his main topic for a while, Dr. Lee spoke of the cause of the war.

"Some few northerners," he said, "still say that we fought to keep our slaves. I hope that this statement is made through ignorance—I know it is false."

"I know of my own knowledge that many southerners bought slaves simply to free them. Most of our soldiers never owned a slave. Fight to keep slaves? Why, we didn't care enough about it."

"We were simply fighting for the cause, the sovereignty of the individual state. We were fighting for realisms of the same kind as those that incited the other three great revolutions among the English speaking races."

"Nor were these principles defeated when we surrendered at Appomattox. They can only be fought out in the hearts and consciences of men—not on the field of battle."

Wars Are Not Over.

"The wars are not over, though. Since the civil war we have been through three more campaigns—but in the fields of citizenship and behind the plows. And we have many more battles to fight."

"We fought and defeated the carpet-baggers, the northerners who came down here to instill in the hearts of the newly enfranchised negroes the spirit of hatred. We have fought and defeated poverty. When you veterans came home, you had, but your manhood, your land and your God. Yet you have built up a wonderful land. Cities have risen out of the ashes, and prosperity is everywhere."

"But there are many other enemies, bitter ones. We must fight ignorance, that the race of the great southland may never decrease in its standards. We must face the negro question, which is graver today than ever before. We must elevate them so that they will not be able to drag us down."

"The other problems must be fought—emigration, labor, the double standard of morality, child labor and white slavery. Our fathers would face these and defeat them. Had they the youth and vitality that was once theirs, and it behooves us to do it for their sake, if for nothing else."

Dr. Lee, in his conclusion, to the effects of the war, he said: "One thing done by the conflict was the vanishing of suspicions and enmities between southerners and northerners. We are today but one great nation—rivals, but brethren, none the less."

"And upon this united country may the great God of nations—that God that loves all, white and black, northerner and southerner—bestow His blessings."

REPORT OF STATE REGENT
(Continued)

Boulders were unveiled at Chehaw by Council of Safety Chapter, American, June 14, by Lyman Hall, Waycross, Coloraine, July 29; Battle of Bachaway/Nochaway Swamp, Stone Castle Chapter, Dawson, November 14.

The boulders were all unveiled with appropriate exercises, details of which will be given by local chapters, and by chairman of historic sites, Mrs. Charles C. Holt, as well as the work contemplated for 1913.

Your attention should be called to the article by Stiles A. Martin, in Atlanta Constitution, February 23, of the "Thrilling Stories of Georgians Who Died in Flight to Free Texas," and his suggestion that it would be fitting to erect a memorial at Macon, where the first meeting in Texas' behalf was held. This is worthy of your profound consideration. We have funds for making historic sites, and would recommend that the chairman of this committee be empowered to use this money and mark spots in places where chapters do not exist, according to motion on our books, and this conference designate such places to be marked during the coming year.

Meadow Garden. Meadow Garden, this historic spot, which was the home of George Walton, was purchased by the National Society, and should appeal to the pride of every Georgia daughter. Mrs. Harriett Gould Jefferies, our honored chairman, has been untiring in her efforts to maintain this home of one of the signers of the declaration of independence.

Records. The preservation of our records is of vital interest to all. This work has been much handicapped by lack of financial support. As a means of relief, I would recommend that a committee be appointed from this society to draft a bill to be presented to our

legislature, in a manner creditable to our organization, and every chapter in Georgia should readily respond to the support of Meadow Garden.

Revolutionary Soldiers' Graves. The Henry Walton chapter of Madison, marked with appropriate exercises the grave of Benjamin Fitzpatrick, pioneer citizen and revolutionary soldier, on November 3.

The Oglethorpe chapter has made special efforts to have the remains of Governor Clark and his wife removed from St. Andrew's Bay, Fla., to our state, and will soon be able to have this reinterment.

A great deal of interest from other chapters is being manifested with regard to locating and marking soldiers' graves.

Mrs. R. P. Spencer, chairman of this committee, will give report in full.

Midway Monument. It is with great pleasure that I refer to the fact that our national government has at last appropriated \$10,000 for the erection of a suitable monument at Midway in honor of Governor Screven and Governor Stewart. As we understand this work is in course of construction and will soon be completed.

Records. The preservation of our records is of vital interest to all. This work has been much handicapped by lack of financial support. As a means of relief, I would recommend that a committee be appointed from this society to draft a bill to be presented to our

BOWELS SLUGGISH, STOMACH SOUR, GASSY, UPSET? CASCARETS GREAT!

That awful sourness, belching of acid and foul gases, that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means your stomach is full of sour bile—your liver is torpid—your bowels constipated. It isn't your stomach's fault—it isn't indigestion—it's biliousness and constipation.

Try Cascarets; they immediately sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter from the bowels. Then your stomach trouble is ended. A Cascaret tonight straightens you out by morning. Never gripe or sicken.

ask the unanimous consent to have the committee on rules revise same, to conform to the national, and to include amendments and changes made by congress, 1913, to be printed in our proceedings of this year.

WOMAN'S EDITION BOOSTED BY SOUTH GEORGIA PAPER

WHAT IS THE WOMAN'S EDITION, AND WHY?

(From The Albany Herald.)

Are we doing our part toward making the big edition a success? If not, it is because we do not fully realize all it means. This edition of the Constitution to be edited by the citizens of Georgia belongs as much to us as to any other part of the state. The place for southwest Georgia to take in any work that will bring good must be a prominent place. The woman's edition is good, it is indexed, everywhere, its advent on June 4 must be a triumph for our women and for our state.

It is the first step taken to raise money for an endowment fund to carry on our club work. We must have this fund to maintain the Tallulah Falls school and other mountain schools that are supported entirely or in part by the club. It will help the students' aid fund; it will not benefit any one club, or any individual, but it will carry on the work of the State Federation of Clubs, which includes 117 clubs with a membership of nearly 20,000 women.

This endowment fund was the dream of our late president, Mrs. H. C. White; it is to be known as the Ella P. White Memorial Fund, as a fitting tribute to her loyal devotion to her work.

Every State Federation in the United States is interested in this Woman's Edition, and is aiding in making its circulation not only national, but world-wide. It will not only prove the worth of club work as an uplift to humanity, all of which is as noble as it is true, but it will set forth the glories of the grandest state in the union, all the resources of Georgia will be there, not gilded, nor shining from reflected glory, but in all the grandeur of their own unvarnished truthfulness. April 19.

The Crocus. (From Judge.)

(The Crocus, in classic mythology, was in love with the Goddess Smilax. His love being unrequited, he was changed by the gods into the saffron plant.)

Crocus, they say, was a lovelorn youth. Desperately fond of Miss Smilax fair; But she love danother, to tell the truth, And gave poor Crocus the distant stare. With his love thus spurned, this foolish fellow Pestered the gods till they turned him yellow.

In these modern days, poor Crocus For a while, at least, might feel quite blue; But before their wrath the gods could unfurl, You can bet he'd have found another girl!

FIFTY PAIRS OF GRANDSTAND SEATS AWARDED TO FANS IN GUESSING CONTEST BY THE CONSTITUTION

It's all over! The Constitution's "baseball player" contest has closed. I was the greatest advertiser since pulled off in Atlanta in years, and aside from bringing into prominence in Atlanta the firms and individuals who attracted space on all over the south.

Monday tickets will be mailed to the winners for Tuesday's game at Nashville. The last of the Cracker will play at home for three weeks.

The simplicity of the contest was what caught the attention of the fans. There were thirteen advertisements on a double page, and each ad was adorned with the photograph of some member of the Atlanta Cracker. All that was required of those who entered the contest was to guess the name of the player in the advertisement. The contest was so simple that many people identified the photos, all of which goes to show that the Cracker team is well known to the fans.

Correct List.

Here is a correct list of the players and advertisements—Dr. Whitlaw, 73 1/2 Whitehall street; Catcher, Paul Musser; catcher, Pat Graham-Yetter's Quality Clothes Shop, 78 North Broad street; Fielder, Harry Bailey; manager, Manning, Piano House, 80 North Pryor; Manager, Bill Smith—Fred Stewart, 22 Whitehall street; Pitcher, George Bausewein—Capital City Laundry; Pitcher, Buck Weaver—Byck's, 27-29 Whitehall street; Catcher, Lew McAllister—R. Philadelphia, Pa., April 26.—The largest crowd of the season here saw Philadelphia defeat Washington today 3 to 2. In a game which meant the temporary possession of first place for the winner, Washington scored in the second inning on McBride's single, a passed ball, Hughes' single and McConell's double. Collins' double and Baker's single tied the score in the fourth. Brown was taken out in the seventh to permit Danny Murphy to bat for him with the bases filled and one out. A double play followed on D. Murphy's fly to Milan. With Morgan on third, as the result of a single and a wild pitch by Houck, and two out, eighth, the former scored when E. Murphy muffed Shank's fly. Philadelphia won the game in this inning as E. Murphy being hit, his force-out by Oidring, Collins' triple and McInnis' double.

New York, April 26.—Boston defeated New York 8 to 5, in a poorly played game here today. The Yankees were used by the two teams and among them gave twelve bases on balls. Leonard, a Boston youngster, had been hit severely only twice when he was taken out in the seventh inning because his control was poor. The locals scored their first four runs in the first and only one hit. After the New Yorkers had taken the lead in the seventh and McConnell had refused to let a pinch hitter bat, Eicher, Warhop and Ketcher successively were hammered hard, and Boston scored five runs. Speaker made a triple, double and single in five times and again shook up his team. Hartzell was moved to second, McKeechle benched and Stump put in short.

Chicago, April 26.—A good ninth inning finish gave Chicago the second game of the series with St. Louis today 1 to 0. In a game which was won on a sacrifice, to third on a long fly and home on Collins' long single to center.

Pitcher Russell allowed the visitors but two hits, which came in the fifth inning, but perfect fielding prevented them from scoring. Several times the locals had the bases full, but good fielding kept them from scoring.

President Comiskey, of the local American league club, today announced the sale of Pitcher McGriff to the Minneapolis club, of the American association. Outfielder Shotton, of the St. Louis team, received word today that his brother had died at Amherst, Ohio, and he left immediately for home. He will not return to his team until they reach St. Louis next week.

"Eating" Power

SOME Motor Cars "eat" up power before it reaches the place where it is needed—the rear wheels. Rated horsepower and actual horsepower are two separate things. A motor might develop forty horsepower and deliver about thirty-three to the driving wheels because of poor construction and plan of design employed.

In Oakland construction we deliver the maximum horsepower to the rear wheels because we have eliminated friction and the use of extra universal joints by the adoption of the unit power plant. When you transmit power from one unit to another you waste a little of it through every reduction. In the Oakland, the motor, clutch and transmission shaft bearings are perfectly aligned on one shaft and the power waste is very slight, if there is any at all.

PHILLIES PROTEST GIANTS' VICTORIES

Boston, April 26.—A formal protest of the games played on the Polo grounds, New York, April 23 and 24, between the New York and Philadelphia teams, of the National league, was filed by telegraph with President Lynch, of the league, by President Locke, of the Philadelphia club today.

The protest is based on the claim of the Philadelphia players that there was a hole in the ground back of the pitchers box at the Polo grounds on those two days. "This," President Locke says, "is a violation of the playing rules, section 2, rule 3 which says that the ground must slope gradually from the pitchers box to the bases on either side. The hole was filled in for the game of yesterday, April 25.

Safe Diphtheria Serum.

(Berlin Cor. New York Times.)

Professor Behring gave an account today before the Medical congress in Wiesbaden of his latest experiments on diphtheria, which consists of a mixture of diphtheria toxin with antitoxin. In contrast to the old Behring serum, the new mixture is said to be completely harmless. It also is more lasting in effect.

Professor said he was ready to supply hospitals with his new serum, but he was anxious that accurate observations be made of the effects. He asked that if the hospital experiments should be as successful as the first tests it would be possible to protect many persons from infection in times of diphtheria epidemic.

News Wise and Otherwise Of Boys Who Put 'Em Over

Among the men who visited Atlanta during the past few weeks that marveled at the wonderful growth of Atlanta's auto row was H. Lee Ashley, secretary and treasurer of the West coast Motor Car company of Richmond, Ind. Mr. Ashley passed through Atlanta on his way home from Florida where he has been spending the winter and stopped off to a glimpse of his old friends whom he knew in the north among the most prominent of whom was R. H. Lacey of the Buick Motor Co.

Mr. Ashley commented upon the large and increasing number of factors branch houses installed on auto row and said that Atlanta is the logical center for the south for the distribution of the automobile and will in time rival New York and Chicago as one of the greatest automobile cities in this country.

While in the city Mr. Ashley was a guest of Mr. Lacey.

Steve G. Carhuft, secretary of the Georgia Motor Car company, is expected to arrive in Atlanta soon to take over the business interests of the company. Mr. Carhuft is a well-known figure in the business world and is expected to bring with him the best of the company's interests in the south.

Metropolitan opera work brought many prospective auto owners to Atlanta. All the day it is a sort of excellent sales during the entire week.

A sensation was created last Saturday on the streets of Atlanta when the unwary pedestrian caught sight of an automobile coming down the main thoroughfare. It was a Buick and it looked like a new model. It was a Buick and it looked like a new model. It was a Buick and it looked like a new model.

That the county police will have time for their lives and that their duty of protecting the county public will not be a burden but a pleasure can be vouched for by general Mr. Crane who sold the county commission this week eight new Buick motorcycles. The new Buick motorcycles are equipped with their latest lamps and their latest lamps are equipped with their latest lamps.

Mr. C. L. DuPuy, manager of the Standard Auto Co. distributor for the Paige Detroit cars, is in Atlanta on a visit to the factory where he completed arrangements for the distribution of the Paige Detroit cars in Georgia, North Carolina and South Carolina. Atlanta will now be the headquarters for this car.

Mr. DuPuy is much pleased with the outlook for business and the future of the Paige car. He states that a new factory site has just been selected and that work has already begun on what will be one of the largest and most modern equipped automobile factories in Detroit. The factory site covers the entire length of three blocks and the building will cover several stories in height.

Mr. DuPuy also stated that a great deal of interest was taken in Detroit, where the Paige Detroit cars were being shown, and that the Paige Detroit cars were being shown in Detroit, where the Paige Detroit cars were being shown.

Chas. H. Booth returned last week from a trip to Chicago where he attended the annual convention of the Chicago district managers. Mr. Booth stated that the Paige Detroit cars were being shown in Chicago and that the Paige Detroit cars were being shown in Chicago.

The entry of a new model of Paige Detroit cars into the market is expected to bring a new era of Paige Detroit cars into the market. The Paige Detroit cars are expected to bring a new era of Paige Detroit cars into the market.

In a letter to Henry H. Hower of the F. H. Stearns company, Charles A. Knight, the celebrated inventor of the automobile engine bearing his name in comment upon the general automobile situation, says it may be interesting to you to know that the Mivra company of Belgium, which is the Danish company of England and the company of America, has just sold a license to the Mivra company of Belgium.

Among other interesting pieces of information Mr. Knight states that the Mivra company of Belgium has just sold a license to the Mivra company of Belgium.

motorists and good roads enthusiasts all over the state asking for information as to the structural details of the drag as well as its method of operation. It seems very likely, says Weidly, that the seeds sown in this unpretentious manner will result in a good roads crusade over the state by individuals who apart from any effort made by the commonwealth will do their part in the work of highways improvement simply for the fun they will get out of it. Locally the road dragging campaign inaugurated by Weidly will be continued by the Hoosier Motor club which will be busy all summer dragging the country thoroughfares in and around Indianapolis.

The Tread that makes the brake effective Goodrich Safety Tread Tires

Best in the Short Stop

The brake on your car will stop the wheels, but that is not going to stop the car where you want it to stop, or where you have got to stop it, if the street or road is the kind that makes you skid.

Do away with all that helplessness. Equip your car with Goodrich Safety Tread Tires. They are your real emergency brake. They get an actual, quick contact with the roadway and make your brake do what you intend it shall do when you apply it.

Goodrich Safety Treads are so simple and so natural in their principle that a look at them convinces you. The five thick, tough rubber fingers act just as your own hand would in a skid. They spread out and shove the mud, ooze, slush and water away from the path of the wheel.

They take hold of the safe pathway they have made. And there you are. They help you to steer just as they help you to stop. They work whether you are in an emergency situation or not. In other words, they prevent the beginning of a skid. They are at work all the time, silently, quickly, quietly and surely cleaning the road of the dangerous slipperiness and making it constantly safe for you.

It gives you a world of confidence in yourself and in your car. "Nobody can tell when a skid is coming," but when your car is equipped with Goodrich Safety Treads you know that skid isn't coming to you.

Goodrich Safety Treads are not built on theory. They are constructed scientifically and practically upon a principle which has been tried, tested and proven over and over again until there can not be the slightest uncertainty about it. More than that, Goodrich Safety Tread Tires are made just as all other Goodrich Tires are made—*unt molded*. By the Goodrich single vulcanization both tread and body are literally molded into one live, resilient, wear-resisting, skid-defying unit.

Being an integral part of the tire, and not an applied feature, the tread does not peel or strip, and the single perfect vulcanization keeps all the life in the rubber, freeing you from the dangers of dead places and weak spots so often caused by over-vulcanizing. Goodrich Safety Treads mean safety for yourself, your family and your car.

HEAVY CAR TYPE FISK TIRES

Where They Are Different

HEAVY CAR TYPE FISK TIRES have exclusive points of superiority. To lessen the possibility of puncture there are two breaker strips instead of one. An extra layer of rubber on the tread greatly increases the life of this part of the tire, while the HEAVY CAR TYPE Construction allows a thick cushion of pure para rubber between the breaker strip and the fabric, minimizing shocks from stones and uneven road surfaces.

The side walls of Fisk Tires are especially re-inforced to prevent rim cutting.

OVER \$1,000 RAISED FOR CONGRESS FUND

110 Members Are Enrolled in the Sociological Convention 400 Club

Over \$1,000 was raised in a whirlwind campaign for the Sociological congress when 110 members were enrolled in the 400 club yesterday in an effort to raise \$3,000 for the Sociological convention fund. In addition this \$1,700 letters were sent out on a program of the congress and Mr. Callaway to help make the occasion of this congress as happy as possible for the delegates.

The Constitution entered into this campaign to raise \$3,000 the burden of this Sociological congress rest on the 400 members of the Sociological Club. But a corps of workers took Atlanta by storm Saturday and before the end of the day the necessary amount was pledged and preparations are in foot to renew the telephone and personal canvass tonight and early Monday morning. To complete the 400 list means an enrollment of 290 more names and every indication is that Atlanta will support the Sociological congress at least to the tune of \$2,000 more which is required to meet the current expenses of the congress.

FULLER E. CALLAWAY RETURNS FROM EGYPT

Georgian Stops in Washington Long Enough to Decline Post of Indian Commissioner

By John Corrigan, Jr.
Washington April 26—(Special)—Just back from Egypt and Nubia a country where he says the natives wear nothing but banyans and bowtie knives protected on the trip by a small raid bearing the impressive name of Khartoum, Fuller E. Callaway of Louisiana stopped over in Washington today long enough to decline the post of commissioner of Indian Affairs.

The offer of this post was carried to him in Cairo by Mr. Lane secretary of the Interior and followed an acceptance dating back twenty years to the time when Mr. Callaway appeared before the Interstate Commerce Commission as plaintiff witness and lawyer in a case and as he says "got them so confused they didn't know when he was swearing he was plaintiff and when he was defendant."

Since then he has met Mr. Lane formerly a member of the Interstate Commerce Commission on several trips to Washington to attend the sessions of the American Association of Railway Commissioners.

Mr. Callaway's stockhold is in the various banks, cotton mills and other corporations which are an indirect but a political office and Mr. Callaway deeply appreciates the fact that Secretary Lane thought of him as a man of high character and of the many men in his own state of Louisiana to whom he might have offered the place.

Ordinarily I would enjoy taking the office of Indian Commissioner but I don't like to go to the office and work a month for nothing if that was all that was involved but if I deserted the people who have put their faith in me I wouldn't deserve the place any more than I should desert my wife and babies.

Mr. Callaway said that after he retired from business and got his private affairs in hand he might again turn his attention to the public service and if then nothing would please him better than to take such a position with its great opportunities and show what could be done with it.

While in Cairo Mr. Callaway saw the cable dispatch from New York stating that J. Pierpont Morgan was seriously ill but later saw the bank emerge from "shepherd's hotel" and drive off in an auto.

WILSON SPENDS SUNDAY ON THE POTOMAC RIVER

President and Youngest Daughter Slip Away From Washington on the Yacht Sylph

Washington April 26—President Wilson is resting tonight on the presidential yacht Sylph somewhere on the Potomac river near Chesapeake Bay. He went into retreat early today for the week-end and so complete were the arrangements to give him seclusion that the commander of the vessel did not report her position up to the six yards though in wireless reach of the navy yard.

The president went away to get a version from the strain of his duties. Dr. Cary Grayson one of the naval aides at the White House who is looking after the president's health advised a boat trip and Mr. Wilson agreed cheerfully leaving behind letters and documents of all kinds.

He took along some magazines to read if time hung heavily and planned to stop along the shore for a short walk some time tomorrow. Miss Eleanor Wilson the youngest daughter accompanied the president. The

Two Boys From Georgia Are Honored in Law Work
By Harvard and Columbia

Bob Troutman and Boykin Wright, Jr., two Georgia boys who graduated from the state university at Athens in the class of 1911 have been signally honored in the law work they are pursuing in northern universities.

The highest honor at Columbia the Editor in Chief of the Columbia Law Review has just been awarded by Bob Troutman who is now in the law office of the late Rev. W. I. Troutman and who is in his junior year in the law course. The same honor editorship of the Harvard Student Magazine has been conferred upon Boykin Wright who is in his second year in the Harvard law course.

The news is of particular interest as the two young men were classmates at Athens and also at the prep school in Stone Mountain and their success reflects credit upon the state that gave them early training.

Tomorrow Brings the First Great Monday-Sale of the Season A Most Unusual Outclearing of New and Highly Desirable Merchandise

For those who understand and appreciate "the fitness of things," tomorrow will be a great day. We do not believe in waiting until the wearing season is over—so in this wonderful disposal we are making our own and the makers' outclearings together, while they are of the most use to our customers.

Hundreds of new Dresses, new Suits, new Skirts, new Blouses, airy white garments on every hand—the cool, delightful, fashionable things that women are longing for and planning to secure for their summer wardrobes.

Monday will be the best day of the whole season in the millinery salons, and the women's, girls' and children's stores are at their best.

Silks, woolens, cottons and linens are spread out on the second floor in a great composite showing.

After you have glimpsed the prices quoted on this page, bearing in mind that these are but suggestions of what Monday will bring in this store—nothing more is needed to impress upon you the importance of the occasion.

These Smart Ratine and Linen Suits at **\$5.00**

The illustration shows their admirable style. Decidedly jaunty, girlish and becoming. The ratine Suits, in eern shade, have blue two-toned collar and cuffs. The natural-color linen suits have long, roll self collar trimmed with crystal buttons with colored centers. For disposal tomorrow at \$5.00.

Fashionable Silk Dresses at **\$9.65** Values Up to \$20

At this moment there are scores of these fresh, beautiful dresses hanging in dust-proof cases, awaiting your choosing tomorrow, at this wonderfully low price—\$9.65 for Dresses whose regular values are up to \$20. Not only is there a large number of styles, but also a great range of fashionable colors.

The illustration is an exact reproduction of one of the dresses. Each is a lovely and stylish development of such popular materials as silk poplins, foulards, shantung and so on.

A Sale of Beautiful Embroidered Flouncings and Bands That Will Break All Previous Records

45-in. Flouncings, 59c yd. 3-in. Bands, 19c yd.

Another one of those clever "pick-ups" on the part of an ingenious buyer. Lovely, sheer voile Flouncings for dainty summer-time frocks, you may select all white, or white, prettily embroidered in soft shades of lavender, blue or pink, or champagne, 3-inch trimming bands to match. The Flouncings are 45 inches wide—only 2 yards required for a dress—quickly estimate the small cost.

You May Also Buy 12 1-2c and 15c Linen Laces at 8c Yard

This fact alone would create great activity in our Lace and Embroidery section tomorrow. Women know how to appreciate a Linen Lace sale.

These are our regular Laces from stock—priced at 12 1/2c and 15c—edges, insertings and beadings, all popular widths, and dozens of choice patterns—for your selection Monday at 8c yard.

When Dainty Under- muslins Like These Can be Had at Such Prices

It means that many women will buy their entire summer supply. The most-wanted garments of the most-wanted styles and kinds.

At \$1.00 we are going to sell these Combina- tions, Gowns and Prin- cess Slips.

They came to us as a special purchase—and are of value and desirability rarely found in garments at this price. All fresh, new, dainty muslins, beautifully fashioned and trimmed. Besides these are—

**\$2.50 and \$3 Gowns
at \$1.98**

Various styles for choosing—dainty Gowns with lace or embroidery trimming, ribbons, too, are artistically applied to some.

Drawers at 25c

Made of soft nainsook, circular style, lace or embroidery trimmed

Corset Covers at 25c

Made of nainsook and tastily trimmed with lace or embroidery drawn with beading and ribbon.

A Sale of 85c and \$1 Foulard Silks at 63c Yd. This Will Be One of the Most Attractive Features Monday

You were just planning to buy a foulard dress. Yes, so were many others. You probably would have selected one or more from these pretty pieces at 85c or \$1.00—you may have choice of them tomorrow at 63c yard.

All fashionable colors, figured, flowered and dotted—light and dark colors.

\$15 Voile Robes at \$10

\$5.00 is a saving not to be despised, especially when one may secure one of these dainty and fashionable Robes in the bargain. Of sheer voile, beautifully embroidered in exquisite pastel shades, trimming bands to match. Very little extra making is required—a dainty dress is assured.

New Bulgarian Silks for trimmings have just come. They are particularly pretty, and are priced at \$1.50 yard.

A Wholly Unprecedented Sale of Leather Bags and Wanted Novelties

In our leather goods and jewelry section, first floor, front, will be held Monday one of the most remarkable sales we have ever announced—one of the kind that means quick and enthusiastic buying, and early shopping for those who would share the profits.

Note the pricing:

Allen's Footwear Appeals Especially to "Modern Young Women"

We have a distinct and separate type of shoe for the Athletic Girl, the Society Girl, the Co-Ed Girl, the Business Girl, the Smartly Dressed Young Matron. Each can find just the type of shoe that she wants here, while the Suffragette ought to feel perfectly at home with our new English last; now so much in vogue. We doubt if there is a shoe department or shoe store anywhere in the United States that attempts to please the younger set as earnestly as we do. We believe in new things, new ideas, new styles all over the store, and our shoe department is nothing if not up to date. See the shoes themselves and you will understand and know this fully, and better still we have no exorbitant rent, high-priced officials or other unnecessary overhead expense; so we sell our footwear to you at a minimum

Grand Opera Week Like Dream When Viewed in Retrospect

Now that one has the time to sit back and look back, the impression is that a carnival week has been passed, for never has Atlanta more entered into the spirit in anything than in the grand opera and all that was incident to it.

The artists were most generous in their giving of talent at private entertainments, both Caruso and Scotti singing in Mrs. Murphy's ball room after the breakfast party she gave Mrs. E. G. Gattin.

Ricardo Martin sang beautifully at the club after the "Cyrano" performance Wednesday, and last night the artists sang together at the brilliant close of the most brilliant of opera seasons.

At the Driving Club. The Driving club scored a great success in the dinner-dance given there Thursday night when five hundred guests were perfectly served to a party of hot dinners while the tables everywhere in the clubhouse were beautifully decorated with flowers.

At the Capital City Club. The Capital City club Friday night the musical program continued at the club when Duchene, Fornia, Gilly and Martin all sang in response to after-dinner toasts.

At the Capital City Club. The Capital City club Friday evening Mrs. W. R. Seabrook was one of the prettiest women present, her gown of pale pink chiffon embroidered in crystals. Mrs. James Hickey wore pink satin and her guest, the beautiful Mrs. Louise Fisher, of Montgomery, wore white brocade satin.

Mrs. Orline Arnold Shippman was among the attractive visitors in Colonel Lowry's box last evening, her gown of apricot satin and lace. Mrs. Renwick wore a handsome toilet in rose colored chiffon and Mrs. Henry M. Hankhead was beautifully gowned in gray chiffon, embroidered in silver.

fon velling pink charmeuse satin. Mrs. Humann, of West Point, wore white satin and lace. Mrs. John Horsley, of West Point, wore blue Olga crepe trimmed in gold. Mrs. William Horsley, of West Point, wore blue satin trimmed in silver lace.

Mrs. Stuart Stingsfellow, gray charmeuse satin with draperies of gray chiffon. Miss Josephine Wendle, white chiffon. Mrs. Lewis Gholston wore black embroidered net over black satin charmeuse.

Mrs. Estelle Garrett Baker wore white embroidered chiffon over white charmeuse. Mrs. G. R. Lloyd, of South Carolina, wore a draped gown of wisteria chiffon. Miss Helen Barnes, of Macon, wore American Beauty chiffon combined with white charmeuse satin.

Mrs. John Glenn wore white hand-painted and trimmed with rhinestones and lace. Mrs. Thomas Felder wore pale green charmeuse satin with tunic of opal brocade. Misses Edith and Antoinette Kirkpatrick wore dressed alike, and wore white satin brocade.

Mrs. Drury Powers wore light-blue tulle, veiled in chiffon and trimmed in bands of iridescent and pearl passermenterie. Mrs. Edward Dougherty wore white charmeuse satin veiled in califon. Mrs. Clarence May wore white charmeuse satin combined with lace.

Mrs. John Glenn wore white hand-painted and trimmed with rhinestones and lace. Mrs. Thomas Felder wore pale green charmeuse satin with tunic of opal brocade. Misses Edith and Antoinette Kirkpatrick wore dressed alike, and wore white satin brocade.

Macon, Ga., April 25.—(Special Correspondence.)—Naturally, there was quite an exodus to Atlanta during the week in the wake of the grand opera season. Quite a number spent the entire week with relatives and friends or at one of the hotels; a number took the trip in their motor cars, seeing two performances the same day; and possibly the greatest number went up Saturday, seeing both "Lucie" and "The Duke" before leaving for Atlanta.

The Big Blue Pencil Pushes Prices Downward on Stylish New Suits and Dresses

The woman who has waited until now for her new suit or silk dress naturally expects some reduction, so here it is.

For not even at the last of June can prices be much lower than these, and it's a certainty that these suits and dresses will not be here in June—no, scarcely for even another week. Many will march out tomorrow at these blue-penciled prices:

- Among the Nearly 200 Suits
you will find the season's favored styles and fabrics. Russian and Bulgarian blouses, straight front and cutaway coats, novelty styles with high belted backs, plainly tailored coats, plain and draped skirts. Solid colors and shepherd checks and novelties.

- Slashing the Prices on Silk Dresses
Beautiful styles for afternoon and street wear. Scarce crepe de chines, granic crepes, charmeuse, moires, foulards, etc. Black and every wanted color.

578 Gowns at Half Price & Less

The undermuslin chief is a stickler for trim stocks. Says she would rather lose money than have odds and ends cluttering up regular lines. So, Friday, she went through stock and blue-penciled 578 gowns to half-price and less.

- \$1.00 and \$1.25 Gowns 59c
Choice of 278 Gowns, eight styles, made of fine nainsooks and cambrics. Chiefly round-neck models. Lace and embroidery trimmed, some ribbon-run. Also plain styles, with French bands.

A Lavish Display of Charming Lingerie Dresses

Dainty Lingerie dresses for the bright Spring days. Some are Paris-born; others Paris-inspired—the productions of the cleverest makers in America, people who regard their work as a profession to be proud of, and whose feeling for beauty of fabric and line and color is unapproachable.

Crepes and voiles are the favored fabrics. A pleasing style is a brocaded or flowered blouse with plain skirt. Long shoulders, blouse styles, lace trimmings and crushed girdles are features. But in their fresh loveliness, these dresses leave description dumb. Please see them. \$17.75 to \$39.50.

Linen Dresses Are Ready

Simple one-piece styles, some Balkan models, a few novelties. Enough in all to fill one entire section. Blue, rose, pink, natural, lavender, gray and white. \$13.75 to \$25, with an especially strong line at \$15.

Ratines Have Supplanted Linen Suits in Favor, So We Show

almost ten ratine suits to every linen. The styles follow the woolen suits—Bulgarian and Russian blouses and cutaway effects leading. Ratine, however, lends itself to more artistic treatment than woolens, hence find some suits with fancy belts and long silk sashes or other odd features. White, rose, gray, tan and blue. \$19.75 to \$35. (Ready-to-Wear, 2d Floor.)

The Designer--Not the Demonstrator--of Madam Grace Corsets is Here

In most instances where you read of a corset demonstration it's usually by a factory demonstrator—but not so here.

Miss Barrington is head designer for the beautiful hand-tailored Madame Grace corsets.

We are indeed fortunate in having such a corset expert with us, and certainly it should prove a treat to all Atlanta women. Miss Barrington's life long study of corsets and their special designing, enables her to speak authoritatively on all corset problems. All fittings will have Miss Barrington's personal attention. (Second Floor.)

NATIONAL CONGRESS OF MOTHERS AND PARENT-TEACHER ASSOCIATIONS GEORGIA BRANCH

MAGNIFICENT PROGRAM FOR BOSTON CONGRESS

Conference Promises to Be One of Deepest Significance—To Hold Mass Meetings.

Mrs. Edgar A. Hall, national chairman of press and publicity of the National Congress of Mothers and Parent-Teacher associations, has sent out the official program of the seventeenth annual Child Welfare Conference, which will be held in Boston, May 15 to 20, at the Colby-Plaza hotel.

The conference promises to be one of deepest significance. The valuable co-operation of the men of the nation has been sought and found, especially since the formation of parent-teacher associations has become so large a part of the work. For several years the Hon. Ben Lindsay, of Denver, has been director of the juvenile court department. Last year Dr. M. V. O'Shea was elected director of the department of education, and in only the last month the Hon. Logan Waller Page accepted the appointment as chairman of the country life department. His position as United States director United States department of good roads gives him the greatest possible facilities for service.

There are thirteen other departments, and their reports will show remarkable advances along every line in promoting the interests of the nation's children.

Ample opportunity will be given to visit historic places. There will be a play festival on Boston common and a shore drive to Revere beach, Swampscott and Nahant.

The national board of managers will tender a reception to all delegates and visitors, and there will be a banquet to which all are invited.

At the request of the teachers of Boston there will be a mass meeting, arranged by Mrs. F. C. Ripley, assistant superintendent of schools.

There will be a mass meeting for the mothers of all Boston, and the evening of Tuesday, May 20, will be "fathers' night."

WHAT MISS COLLINS IS DOING IN THE STATE

Miss Mary Collins, the state organizer, spent last week in Savannah, Ga., where she was the guest of Mrs. Samuel B. Adams, president of the board of education, and Mr. Otis Ashmore, superintendent of schools, with regard to the formation of parent-teacher clubs in the public schools of Savannah. While Miss Collins was most cordially received, her proposition did not meet with the cooperation of the school board, and therefore no clubs were formed in Savannah. This is the first city in which she has visited where no clubs were formed. From Savannah she went to Brunswick, where she will spend the week in Waycross and Thomasville.

ENCOURAGEMENT FROM EDUCATORS

Mrs. James R. Little, president of the Georgia branch, has received a letter from Mr. M. L. Brittain, superintendent of the department of education of this state, endorsing the work of the National Congress of Mothers and Parent-Teacher clubs. Mr. Brittain says:

"It is a pleasure to recommend the purpose and work of the National Congress of Mothers and Parent-Teacher association. Co-operation between parents and teachers is eminently worth while. This is the only way interested in this movement are striving to bring about, and certainly, so far as this state is concerned, I hope every school official will aid in every way possible."

BRANTLEY TO ADDRESS BIG DETROIT MEETING

American Manufacturers, at Annual Banquet, Will Hear Ex-Congressman.

Iron, W. G. Brantley has accepted an invitation to speak at the annual banquet of the National Association of Manufacturers in Detroit, on May 21. This is the most important annual gathering of American manufacturers, and it is said that the meeting this year will be the most largely attended gathering of the association that has ever taken place. Interest in this meeting being particularly keen on account of the tariff legislation.

The banquet will be held at the Hotel Pontchartrain, and ex-Congressman Brantley will be one of the chief speakers on the program.

During his long service as a member of congress, Mr. Brantley obtained a national reputation, and he has been much sought after as a public speaker. Giving up his service in congress and removing to Atlanta, he has found it necessary to decline quite a number of invitations to make public addresses, this year adjusting his time to adjusting himself to his new surroundings. He has, however, made an exception in the case of the invitation of the National Association of Manufacturers, who presented the invitation to him so strongly as to secure his acceptance.

IRA STREET SCHOOL CLUB

The Parent-Teacher Neighborhood club of Ira street school of Atlanta held the most interesting and profitable meeting of its history April 17.

Fifty members were present and much interest and enthusiasm marked the proceedings. The president, Mrs. Thomas Alston, was in the chair, and before the regular routine of business was taken up, she introduced Mrs. Frederick Hodgson, who made an impressive appeal for contributions to the Anti-Tuberculosis Fund.

Following, Dr. Hodgson gave a well-considered talk on preparation for motherhood.

This is the first of a series of lectures along hygienic and eugenic lines to be given by our club.

The regular business of the society was then taken up.

Miss Laura Wood presented a stirring appeal for the co-operation of the club in securing various necessary equipment for the school. The matter was referred to a committee.

Mrs. F. H. Jackson, Mrs. E. F. Jackson, Mrs. Thomas Alston, Neighborhood next came under consideration, and after some discussion of the subject the following committee was appointed: Mrs. Simpson, Mrs. Ray Klein, Mrs. Vining, Mrs. F. C. Smith.

Both of these committees were instructed to draw up and present petitions to the proper authorities.

Reports, informal but most interesting and encouraging, were received from Miss Ray Klein, leader of the Boys Club, and Mrs. Green, leader of the Girls Club.

A press committee was then appointed, as follows: Mrs. B. R. Stevens, Mrs. E. H. Jackson, Mrs. Green, Miss Klein.

The resignation of Mrs. Sappington as secretary and treasurer was respectfully accepted, and Mrs. Green was elected treasurer, and Mrs. Stevens, secretary.

Announcement was made of the next meeting, Friday night, April 25.

Ten new members were added to the membership roll and a gratifying amount of dues collected.

This club cordially invites interested visitors to its regular meetings or to its two series of free lectures—those given to mothers at its regular meetings, the third Thursday of each month, 3:30 p. m., and also those given on appointed evenings once a month, which will be of interest to the general public.

MRS. B. R. STEVENS,
Chairman Press Committee.

COL. W. T. GENTRY BACK FROM NEW YORK CITY

Colonel W. T. Gentry, president of the Southern Bell Telephone and Telegraph company, and the Cumberland Telephone and Telegraph company, has returned to Atlanta from New York, where he attended the directors' meeting of both companies.

A Lesson in Virtue.

(From The New York Times.)

The shop girl may not have a comfortable home, where, in safety, she might meet and be properly introduced to a few available men. She may not move under the so-called "protections" of society. But she has a right to her love affairs, and she can be chaste and discreet and strong, in spite of all her disadvantages.

Many a carefully nurtured child, protected in her home, could learn much for her safety and happiness from the hundreds of store girls that fight so magnificently for their good times, giving young men lessons in courtesy and decency, maintaining their virtue and good names under the most trying conditions at times.

GROVE'S MUSIC SIMPLIFIER TENTH LESSON ELEVENTH LESSON NEXT SUNDAY

Grove's Music Simplifier
 If you will compare the chords and basses of any particular key with a manuscript of music arranged in the same key, this fact will be noted. Two thirds, or even more of the chords of harmony of said piece outside of modulation, are comprised in some position of the chords arranged in Grove's Music Simplifier. The chords once learned in different position assists the reader of music because the position of the chord is only to be noted for the letters of the chords have already been learned.

Entered According to the Act of Parliament of Canada at the Department of Agriculture in the Year 1905.
 SECOND EDITION, Copyright, 1905, International Copyright Secured. Copyright 1903-4 by W SCOTT GROVE, Scranton, Pa.

In the key of E flat three of the notes are flats, and in this lesson the chords which are necessary to play accompaniments in that key are shown in the lower chart. The upper chart has the chords of the key of C minor, the relative of the key of E flat major. The top, middle and lower sections of each chart give the three chords of each key, and no further instruction is necessary to enable anyone to accompany a soloist, vocal or instrumental, in any musical selections written in those keys.

INSTRUCTION—The white letters are to be played with the left hand and the black letters with the right hand.

Having placed the chart on the piano or organ, play the white letter on the top section with the left hand, and then the three black letters in unison with the right hand. Next play the middle section in the same way, then the lower section, and then return to the top section.

The small white letter D at bottom of chart, with the dash above it, which gives the chart position, must not be played.

After practice these chords should be memorized so that you can play without the use of the chart. But with the chart a person who never struck a note on the piano or organ before may in a few minutes play the harmonious chords correctly, and then accompany his or her own songs or the songs of friends.

Proficiency requires practice, but no previous knowledge of music.

If you desire to delve deeply into the mysteries of music, the charts give you the best possible foundation on which to base a musical education. A knowledge of the keys and their chords underlies all the triumphs of the accomplished musician.

Every triad in black letters is marked 1 3 5. Always read triads 1, 3, 5, no matter what position. Triad $\frac{1\ 3\ 5}{C\ E\ G}$ —marked—third position 5, the highest, always read it so $\frac{5\ 5\ 1}{B\ G\ C}$ first position, 1, the highest, read $\frac{1\ 3\ 5}{C\ E\ G}$, second position, 3, the highest, read $\frac{3\ 5\ 1}{E\ G\ C}$ and so with every triad major or minor.

Puccini
 Greatest Living Grand Opera Composer
 Writes:

It gives me great pleasure to take this opportunity of expressing to you my delight and amazement at your wonderful production of the Thermidist. I wish I have had an opportunity of hearing many instruments of this character and I can unhesitatingly say that no other instrument I have ever heard can approach the Thermidist in which it is possible to bring out all of the intricate inner voices so perfectly of any composition, however profound.

There is but ONE Genuine **PIANOLA** player-piano. It is Standard of the World, and is made only by the Aeolian Co.

Pasquale Amato
 The Great Baritone, Writes:

It is nothing short of miraculous that an instrument requiring from the performer nothing but sympathetic musical feeling should be capable of such subtleties of phrasing and nuances such exquisite modulation of tone and perfect pedal work.

I consider the Pianola Piano with its wonderfully simple and effective expression devices in a class quite by itself among piano playing instruments both as regards solo playing and accompanimental work. It is needless to add that the support the Pianola Piano has given me in my songs is the equal of anything to which I am accustomed.

The Pianola Piano is the greatest player-piano in the world. If there were any better, Phillips & Crew would have it. We were the first distributors of the Pianola Piano in the South, and we are as proud of the Pianola as we are of the Steinway, the Hardman, and the other high class hand-played pianos for which we are the exclusive agents, and on which we have built the reputation of half a century.

The Pianola Piano, as the name indicates, is a combination of Piano and Pianola in one instrument. You can play it by hand or by music roll. You can buy a Pianola Piano from \$550 up. You can have the Pianola action in a Steinway, Weber, Steck, Wheelock, Stuyvesant, or Stroud. You can buy a Phillips & Crew Player Piano for \$450 to \$525. Easy terms.

ATLANTA'S GRAND OPERA.

The history of grand opera in America, studied with failures and losses, holds no chapter more spectacular or compelling than the one that has been written by Atlanta. In New York, the greatest city on the continent, and in virtually every other American city where attempted, grand opera has been a continued story of subsidies by public-spirited millionaires who annually pocketed their losses with more or less cheerfulness.

DEADLY GRADE CROSSINGS.

The suggestion of W. J. Headen, county commissioner of Cobb county, that the legislature take steps to minimize the danger of grade crossings throughout Georgia is one that will win the approval of everyone familiar with this particular peril to traffic on the public highway.

remarkably uplifting influence in a city's life when its people may look forward each year to hearing the stars, internationally famous. If the initiative and co-operation of the city generally has been chiefly instrumental in the success of grand opera, credit should no less be given the officers and directors of the Atlanta Music Festival association...

INDEFENSIBLE.

That a man of the standing and prominence of Senator Chamberlain, of Oregon, should propose to solve the Panama canal tolls controversy by so amazing and dishonorable a procedure as the abrogation of the Hay-Pauncefote treaty is one of the unfathomable mysteries of current politics.

The Hay-Pauncefote treaty was negotiated with England, in lieu of the Clayton-Bulwer treaty, with the express purpose of clearing the way for an isthmian canal.

The word of a nation should be as binding as that of an individual. We all know what society thinks of the man who holds his pledge as light as thistle-down, ready to repudiate it when it suits his particular interest.

MEXICO NOT WANTED.

A few newspapers are taking seriously the suggestion, emanating from an enthusiast in the state of Sonora, Mexico, that almost the entire northern portion of that republic would welcome the aid of American troops and administrators in restoring order.

THE DWINDLING FARMER.

"In the three miles between my home and my postoffice twenty-three boys were raised and educated as farmers. Today all but two of them are in the cities or engaged in occupations that take them away from the farm."

LIVING IS HIGH BECAUSE FARMERS FORSAKE FARMS

By G. L. Daniell, Former Legislator from Cobb County. Editor Constitution: I consider you a standard bearer for the farmers and laborers of Georgia, and the open farmer will visit the country farmer and discuss why living is so high he would see at once that it is the scarcity of good and reliable labor.

DISHONOR TO REPEAL CANAL TOLLS TREATY

Editor Constitution: On December 8, 1903, when President Roosevelt recognized the republic of Panama, there was fixed upon the American republic a blame, which the world in its righteous, yet unexpressed judgment, will never entirely forget.

Gossip Caught in Corridors of National Capitol

Washington, D. C., April 26.—(Special).—The average new member of congress makes some surprising blunders. Not the least amusing of these is to put fulsome praise of himself in the biographical sketch of his own record in the Congressional Directory.

SHE BRAVED THE ICE OF ALASKA TO BECOME THE BRIDE OF MAN WHO WON TO THE U. S. SENATE

Washington, April 26.—(Special.)—Braving the dangers of a 2,200 mile journey by dog teams from the Klondike to Nome, Alaska, to become the bride of a struggling young lawyer, was the trip made in 1900 by Miss June Gates, of Eureka, Cal.

Today the young woman is making a longer trip from the Pacific coast to Washington, but this time in a palatial railway train, to rejoin her husband, Mr. Key Pittman, formerly of Mississippi and now United States senator from New Mexico.

JUDGE WANTS STATE TO REPLACE LIBRARY SWIPED BY CYCLONE

Rome, Ga., April 26.—(Special.)—Justice of Peace W. M. Martin has made requisition to the executive department of the state for a new law library to replace the one blown away in the recent cyclone which destroyed his home and killed his daughter.

Principal to Remain

Rome, Ga., April 26.—(Special.)—L. R. Brown, principal of the Rome public schools, will be allowed to retain his position, the board taking no action against him on the charges of disorderly conduct preferred during the first part of the week, growing out of the alleged assault he made upon his wife, superintendent Harris, of the Rome public schools, made a thorough investigation of the charges and recommended the action taken by the board.

1,000 Farmers at Meet.

Rome, Ga., April 26.—(Special.)—Nearly 1,000 farmers and merchants of Floyd county, who gathered at the April meeting of the association formed last month to stimulate scientific agriculture in the county, the association grew directly out of

Revival at Barnesville

Barnesville, Ga., April 26.—(Special.)—Rev. R. C. Cranbury, of Macon, is assisting the pastor, Dr. A. J. Moncrief, in a revival service at the Baptist church. He is a forceful minister and the congregations have been steadily increasing since the first day.

Condemned Bridges Feared

Rome, Ga., April 26.—(Special.)—Because of the multiplicity of protests by parents against allowing their children to march across the bridges of the city, recently condemned, the board of education yesterday decided that they would not let the school children of Rome participate in the Memorial day exercises Monday. The board instructed Superintendent Harris to see that all schools in the city held usual sessions Monday.

Sanitarium Trustees Are Holding Meeting

Milledgeville, Ga., April 26.—(Special.)—The board of trustees of the Georgia State sanitarium is in quarterly session this week at the institution. The full board is present and much important business is on hand. At this meeting the annual report of the year's work of the sanitarium is to be submitted to the legislature of the state.

Revival Services Held

Milledgeville, Ga., April 26.—(Special.)—Revival services at the Methodist church are now being held by Dr. W. G. Crawley, well-known pastor from Oxford, Ga. Much interest is being manifested in the meeting, all the churches of the city uniting in the effort to make it a success. It will be continued throughout next week.

Play by Dramatic Club

Barnesville, Ga., April 26.—(Special.)—Professor Karl J. Kay and the Dramatic club of the Sixth District Agricultural and Mechanical school presented the play, 'The Debt of Honor,' to a splendid audience at Yester'sville last night, greatly pleasing every one by the splendid way in which they did their work.

Compensation for Work Disease

(John E. Andrews, Secretary American Association of Labor Legislation, in The Survey) The introduction in congress of a bill which extends the workmen's compensation principle to embrace occupational diseases places before the American people an entirely new range of problems in the field of social insurance.

Changes at White House

(Washington Cor., New York Herald) Persons familiar with the interior of the White house during the last administration would find themselves in unfamiliar quarters did they enter the presidential home today. In the six weeks of her residence Mrs. Wilson has made a complete transformation of the lower suite.

Barnesville Commencement

Barnesville, Ga., April 26.—(Special.)—Professor W. H. Maxwell, principal and the faculty of the Sixth District Agricultural and Mechanical school are actively at work on the program for the commencement, which begins Sunday, May 25. The program will last through Tuesday following.

Raising Fund for Church

Cordale, Ga., April 26.—(Special.)—Yesterday was the greatest day in the history of the First Baptist church of Cordale. Adopting the idea of meeting together in a semi-social way to discuss plans to raise funds for the erection of a new church edifice, members of a subscription committee went to Daphne to enjoy a fish fry.

No Rain in Chattooga. Free Summer School. Laverly, Ga., April 26.—(Special.)—With no rain since the 4th of the month, the surface of the earth is now becoming so hard and dry that farm work is becoming difficult and a good shower of rain would be very beneficial to the planted crops.

CLEAN COLD SANITARY EDDY REFRIGERATORS SLATE STONE SHELVES. The purpose of a refrigerator is the PRESERVATION OF PERISHABLES. The refrigerator that preserves perishables, preserves them with the least consumption of ice—in absolutely sanitary, germ proof, clean surroundings—is the BEST REFRIGERATOR.

'Away Above Everything' Champion Batters TY COBB, the "Georgia Peach," was the only player in the big leagues to hit over 400 in 1912. He maintained his prestige for seven years as the heaviest batsman of the American League, with an average of .410 the past season.

Two Pointed Comments. Comment No. 1. Could it be called a paradox, that the same papers in Atlanta that carry large headlines stating that \$10,000 had been raised for the Shriners' convention for a big frolic, the playground of Masonry for parade and show in fantastic costumes, feasting today and tomorrow, is all gone should carry a headline like this "Old Woman's Home Almost Completed \$200,000 Lacking to Finish."

Many a poor old mother is hungry today for a few comforts—such a few. Her work in the war. Thousands of dollars have been spent for cold marble shafts for her row and yet for her it is hard to find even a home in a home for old women. The evening sun makes a shadow of it from the tower of some \$50,000 church and the shadow of its spire falls upon the lowly home of some old woman alone in the world struggling along uncomplainingly yet she is a mother. Her children are all dead. She is left alone. There is no place for her any more save an old woman's home and it is not finished yet.

Making Good in Your Present Position

To a great many salesmen "making good" sometimes means "making good." We often get discouraged and down in the mouth when things are going bad, and orders are coming slowly. This is the time when one seeks sympathy, and the most peculiar thing about a salesman is the fact that he will often go to those who are in the same frame of mind as himself. Negative thoughts present themselves and are given a hearty welcome to the mind. A salesman will say to himself "I will try some other line. I know I can make good at this or that. But this is the moment for reflection. I must stop to think that the circumstances must count, no matter what we tackle, and the only restorative powers to success are positive thoughts and sticking plaster. Make a success of your present position. It may mean the temporary loss of money even extortion. But grit your teeth and give yourself. Find out what is wrong and in nine cases out of ten you will find that you are to blame. Look around you. There are fellows making good in your line, with no more ability than you have. But they have had their flirts, with discouragements and are still sticking. Seek the companionship and advice of those who are making good and who are doing big things in the hub of business. Give yourself a square deal. If you want to get into another line, or change your position, quit your present one with a big record and you will find your next employer looking for you. You won't have to look for him, and furthermore, you will be in prime condition to make demands. If Nelson hadn't stuck we never should have heard of him.

Oldest Vehicle in America.

(From The Pathfinder.) There is an exhibition in Los Angeles what is claimed to be the most ancient wheeled vehicle in America. It was last used some years ago by a Pueblo Indian of the village of Teague, N. M. The tradition was that this "carreta" or oxcart had been handed down from father to son in the same family for enough generations to carry its origin back into the seventeenth century. The car, however, shows evidences of having been repaired time and again, and it may be that only part of the original cart that is left is the holes in the wheels where the axle goes through. This wheels are heavy bodies of wood and are fastened together either with wooden pins or thongs of rawhide. It is an interesting fact that this cart is made exactly like the carts that have been in use in southern Europe from the earliest historic times. One sees, for example, just such carts to this day in Thessaly and parts of Turkey.

Enforcing the Pure Food Law.

(Robert D. Heintz in Leslie's.) It seems apparent from the fact that over 2,200 judgments have been rendered, usually in favor of the government during the last six years, that a general clearing up was necessary in the method of preparing foods and drugs. It would have been the same in many instances had the punishment been harsher, seemed to be an extreme but the penalty decreed by the violation of the law is the published judgment and the consequent loss of business estimation. Manufacturing firms are very sensitive with regard to having court decisions which reflect upon them made public as their competitors are quick to take advantage of the situation and use it with persistence and with telling effect against the manufacturer for selling adulterated or misbranded goods. An examination of the annual reports of state and national food officials shows that nearly all the violations for which the numerous processions are brought are for the sale of foods that are in themselves not unwholesome or injurious to health but are sold upon false representation as to their ingredients or are unfit for human consumption on account of either unwholesomeness or decay.

Scandalous.

Mrs. Baker—in the table at your boarding house is wearing eyelashes. Mr. Barker—No there are days when we don't have a word of gossip.

THE CARROLL-REID NOVELTY CO.

The Carroll-Reid Novelty Co is one of the recent additions to the manufacturing interests of Atlanta. They are manufacturers of a device for the sanitary delivery of drinkables in offices, homes, etc. This is a tray which carries half a dozen glasses and is fitted with a cover for each glass, which makes it absolutely airtight and dust-proof. No dirt, germs, dust or other foreign matter can possibly get into the drinks and they are delivered in perfect condition. The glasses are placed on the tray and the covers adjusted in about five seconds. There are many advantages to this device. One is that there is a great reduction in breakage of glasses, as a boy can carry a tray on a wheel of any way with no danger of breakage. Also any size glass may be used. The cost of these trays is extremely low, and it is probable that in a very short time no soda fount will be properly equipped that has not sufficient of these trays to handle their outside trade.

MR. GROCER:

There Is Sure Profit for You in Every Pound of FARM BELL COFFEES

Sure profit because these coffees sell steadily. Every pound sold means reorders because of the rich aroma, fine flavor and purity. The goodness of the Farm Bell Coffees is no mystery. It is due wholly and solely to the care with which green coffee is examined and selected; the proper processes used in cleansing and blending the various grades; the care with which it is roasted by our coffee-roasting experts, and the sanitary methods by which the roasted product is weighed and packed.

Grocers who meet the demands of the consumer sell Farm Bell Coffees and they find it pays. A trial order will confirm our statement that there is sure profit for you in every pound. Here are the names of our brands that are winning more business for retailers:

- BULK GOODS: Uncle Mack, Golden Cup, Blue Ridge, Breakfast, Stonewall.
- POUND PACKAGES: AAAA, The Captain's Breakfast.
- POUND CANS: Stonewall, Uno, Empire, Old Homestead.

ANDREAS DIPPEL QUILTS BECAUSE OF CAMPANINI

General Manager and Musical Director of Grand Opera Company Cannot Agree.

Chicago, April 28.—Friction between Andreas Dippel, general manager of the Chicago Grand Opera company, and Cleofonte Campanini, musical director, was declared today to be the cause of the oral resignation which Dippel presented to the directors' meeting yesterday. Much of the friction is said to have been caused by expensive rehearsals and by productions that failed, to the detriment of other operas.

"There was trouble between the two from the first," said a man in close touch with operatic affairs. "Just what the directors will do has not been determined. Only a few contracts have been signed for next season, and there is no one to go after the stars."

Cleofonte Campanini, it was said tonight, will assume the functions of Andreas Dippel as general manager of the Chicago Grand Opera company. Mr. Dippel's resignation was announced last night. Word came from New York today that Philip B. Lydig, of New York, had resigned as chairman of the board of directors of the Chicago Musical organization, and that Campanini would take up the work of Mr. Dippel. Harold F. McCormick, president of the corporation, refused to comment on the situation.

Directors of the opera company continued their policy of reticence today, and refused to discuss reports persistent among the musical public here that Philadelphia interests in the opera company will be transferred to Chicago in a statement attributed to a director today said the next opera season would be as long as the last one, and that a number of new productions had been arranged for.

Dippel Has Career Plans

Cincinnati, April 28.—The resignation of Andreas Dippel, as general manager of the Chicago Grand Opera company, did not interfere with the opening of the opera season in Cincinnati by that company this afternoon.

"Mr. Dippel and I are good friends. We have no quarrel," said Cleofonte Campanini, general musical director of the company. "Mr. Dippel told me last night that he had resigned. I knew nothing of it till then."

Dippel said: "I resigned of my own free will, for no other reason than that I have larger plans for the future. There is a large undeveloped field for opera and music generally in the United States, and in two or three weeks I will be able to announce to the public the plans that I have. The reports that I had quarreled with Campanini and Miss Caroline White have nothing to do with the case."

"The stories about my alleged differences with Campanini are absurd. I brought Campanini over to America myself, and we are friends."

New Building for City's Wholesale Center.

New Nunnally & McRae building at 76-80 Trinity Ave. which has been leased to Marcus Loeb & Co.

With the construction of the new Nunnally & McRae building at Nos. 76-80 Trinity avenue, another building will be added to the new wholesale center of Atlanta.

The building has been leased to Marcus Loeb & Co. The plans for it were drawn by Walker & Chase and are now in the hands of contractors. The building will be 50x200 feet, three stories and a basement, built of reinforced concrete frame, brick curtain walls and will construction floors. This is a type of construction originated by the architects that is especially desirable for buildings of this class. It provides a substantial wood floor with heavy timbers for the support of shafting and overhead equipment, while the columns, walls and girders are fire-proof. A low insurance on the contents will be obtained by the installation of automatic sprinklers.

The site is ideal in having alleys at both sides and rear. By using metal windows between the concrete columns a maximum of light will be obtained. Elevators, package chutes, lifts, etc., will facilitate the handling of manufactured products, making the mechanical layout thoroughly up-to-date. The front will be of repressed brick, ranging in shades from buff to coffee brown, trimmed with granite and cast cement and windows glazed with plate glass.

Whitehall Street Sale.
John D. Babbage, of the "Ask Mr. Babbage" agency, has sold for Mrs.

Margaret R. Fuller to a client No. 249 Whitehall street for a consideration of \$22,500.

This property is the northwest corner of Whitehall and Fair streets, being a 12-room house on a lot 52x100. An interesting light on the activity in this section is that Mrs. Fuller has since bought the property back at an increased price.

Other Real Estate Sales.
The "Ask Mr. Babbage" agency also announces the following sales aggregating \$153,150:

- For Hughie Spalding to T. T. Flagler, lot on Avery drive, in Ansley Park, \$1,000 cash.
- For Miss Emily P. Wilburn to H. H. Jessup, lot on Avery drive, Ansley Park, \$2,350.
- For L. E. Bessell to P. W. Green, a corner Piedmont avenue and Avery drive, 50x120, \$2,550.
- For Miss Emily P. Wilburn to H. H. Jessup, lot on Avery drive, Ansley Park, \$2,350.
- For Major H. H. Morgan to E. J. Hule, 262 Spring street, lot 50x80 with small house on it, \$5,000. This lot is between Alexander and Mills streets.
- For Eugene V. Haynes to Hugh B. Adams, lot on Morlan street, East Lake, 50x200, \$1,350 cash.
- For Frank Doremus to Eugene V.

Haynes, a large lot on Mongar street, in East Lake, for \$5,700.

For H. G. Almond to James H. Reynolds, 44 Westwood avenue, West End park, 6-room bungalow, lot 70x120, \$4,500.

The Ralph O. Cochran company has sold 38 Thurmond street for O. B. Stevens. The name of the purchaser is withheld.

This property is located between Elliott and Margum streets. The lot is 50x100 and improved with a negro house.

The purchase price was \$2,000. The Charles P. Glover Realty company has sold to Paul Doneho a lot 134x213 on the Decatur road in the Brookhaven section for \$1,070.

Rent Notes.
The Charles P. Glover Realty company has rented the following properties:

PRAYERS TO BE MADE FOR CHINESE REPUBLIC

Washington, April 28.—Prayers for the new-born republic of China will be offered tomorrow in practically all churches of the national capital.

Provisional President Yuan Shi Kai has set the day apart by proclamation as a day of prayer for all Christian citizens of the new republic. Thirteen years ago Christians in China were in danger of losing their lives.

Chang Yin Tang, the Chinese minister, and his official family have been invited to attend services. Special prayers for the Christian welfare of China will be said in many places throughout the city between the morning and evening services.

CHILD IS CRUSHED BY FATHER'S CYCLE

Danville, Va., April 28.—Marvin Stephens, the 2-year-old son of a rural mail delivery man, was killed this afternoon at his parents' home, near this city, in a peculiar manner. The little boy wandered into the basement of the house and endeavored to climb upon his father's motorcycle. He pushed the machine over, and the weight of it crushed him. His mother, who had instituted a search for him, found her son dead.

SAVES ELDERLY PEOPLE FROM KIDNEY AND BLADDER MISERIES

Sleep Disturbing Bladder Weaknesses, Backache, Stiff Joints, Rheumatic Pains Disappear After Few Doses are Taken

While people along in years are naturally more subject to weak kidneys, they can avoid the tortures of backache, and rheumatism, and be saved the annoyance of getting up at night with disagreeable bladder disorders, for the new discovery, Croxone, quickly relieves the most severe and obstinate cases.

Croxone cures these conditions because it removes the cause. It is the most wonderful remedy ever devised for ridding the system of uric acid. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. Croxone makes the kidneys filter the blood and sift out all the poisonous acids and waste matter that cause these troubles.

It soaks right in and cleans out the stopped-up, inactive kidneys like water does a sponge, dissolves, and drives out every particle of uric acid and other poisonous impurities that lodge in the joints and muscles and cause rheumatism. It neutralizes the urine so it no longer irritates the bladder, overcomes unnecessary breaking of sleep and restores the kidneys and bladder to health and strength.

It matters not how long you have suffered how old you are, or what else you have used. The very principle of Croxone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it and all your misery and suffering soon disappear. You can secure an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

NO SUCCESSOR NAMED TO GENERAL SCHUYLER

Washington, April 28.—Secretary Garrison today announced he intended to postpone the nomination of a successor to Brigadier General Walter S. Schuyler, commander of the Eighth army brigade at San Francisco, who retired today, until the retirement, May 15, of Brigadier General Frederick A. Smith, commander of the Fifth army brigade at Omaha.

The secretary is understood to regard as untenable the status of General William Crozier, president of the Army War college, also titular head

of the ordnance bureau. It will become necessary, therefore, either to return him as chief of ordnance or to appoint him a brigadier general of the line to fill one of the above vacancies, which would enable him to continue as head of the war college.

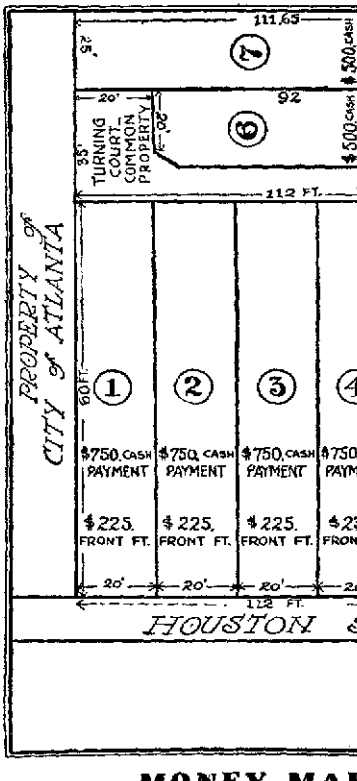

FEDERAL AID WANTED TO BUILD GOOD ROADS

Birmingham, Ala., April 28.—Following instructions of the convention yesterday, the executive committee of the United States Good Roads association today appointed a special committee

to go to Washington next week to urge federal aid for good roads before congress. The committee consists of United States Senator J. H. Bankhead, of Alabama, chairman; Dell M. Potter, Clifton, Ariz.; Tom L. Connor, St. Louis, and E. J. Watson, commissioner of agriculture of South Carolina.

They Speak For Themselves

It is seldom you have an opportunity to buy choice property close up in town on a thoroughfare that has such a good future as Houston Street, and especially at such a low price and on easy terms. Balance 1, 2 and 3 years, 6% semi-annually. Lots graded and ready to build on.

PEACHTREE HEIGHTS AUCTION

WEDNESDAY, APRIL 30, AT 3 P. M.

TAKE BUCKHEAD CARS TO LAKE VIEW AVENUE

PANORAMA OF A FEW OF THE MANY PRETTY HOMES IN PEACHTREE HEIGHTS, WITH PARK IN THE FOREGROUND

WE want you to see Peachtree Heights. We are confident that if you will look at this property you will not fail to attend this auction.

But in case you may not have opportunity to visit it beforehand, we are endeavoring to give you a glimpse of it through the reproduction of this panoramic photograph, showing a few of the many attractive homes which have been built here.

This and Peachtree Heights Park are the last remaining residence properties in original subdivision between Atlanta and Buckhead. You may find a Peachtree lot here and there, but it has changed hands, possibly several times, and you will have to pay from one to three profits in order to get it.

This property, in Atlanta's highest-class residence section, is offered you at subdivision prices—the prices you make when it is put on the block next Wednesday.

These lots—42 of them—are going to be sold, every one of them. If you know how Peachtree has advanced the last few years, and how it is continuing to advance, you will easily realize that this is your last opportunity to secure them at these prices.

All essential home conveniences—20 minutes to town.

REVIEWS OF THE WEEK IN AMERICAN MARKETS

New Orleans, La., April 26.—The cotton market was under pressure from the bear side from start to finish this week. The high price was made on Monday and the low price on Saturday.

To think that the damage done was not so great as it appears is to be deceived. At all times there were profit takers on the part of the bulls and a building of cover to make the market appear better than it really was.

"OLD WASHINGTON," OLDEST STREET CAR, STILL RUINS ONLY TO THE SAND OF YESTERYEAR

Here is a car that daily runs to Never Never Land. I here is no conductor to collect fares or to put the little children off when they have no money.

By Ned McIntosh

All aboard for the Land of Used To Be! What a marvelous trip it is that—excursion back to the Land of Used To Be! And where is the man who wouldn't like to take it if a car were only waiting and there was nothing to do but step aboard and pay the fare?

ington did not do business just on Memory avenue. In its palmy days this venerable vehicle was the pride of Atlanta and was the means of transportation for the ancient local celebrities down the fashionable stretches of Washington street.

each passenger dropped his fare in a little box inside the car as he came in or went out. There was never any rush to catch 'Old Washington' One could hear the tinkling of its little bell and the rattling of its single trees for a quarter of an hour before the car arrived.

single line all the cars in Atlanta then were of the 'hay burner' type. 'Old Washington' is still running today in the back yard of Mr. Dahlgren's home. But 'Old Washington' doesn't run for you and me any more.

Mrs. Wilson Leaves Whitehouse For Bedside of Poor Dying Boy

Washington, April 26.—The sympathy and charity of Mrs. Woodrow Wilson was demonstrated in a touching way today by an unannounced and unostentatious visit to a poor boy in the first days of the land direct from the white house to the bedside of a poor boy dying of tuberculosis.

Friedmann claims he has discovered the cure of tuberculosis. Dr. Grayson said he knew the little fellow was the last stages for consumption and thought those were his last days.

DUNCAN LEAVES EMORY COMMENCEMENT Popular Professor Will Accept Chair in Prominent University.

Emory College, Oxford, Ga., April 26.—(Special)—Dr. Frederick Newton Duncan has resigned his professorship of biology in Emory college to take effect at the end of the present scholastic year. Dr. Duncan has accepted a position as head of the

department of biology in a prominent American university. In his new position Dr. Duncan is granted leave of absence the first year in order that he may visit the great American universities for observation of methods and laboratories and for further study in his chosen field of work.

Dr. Duncan came to Emory in 1892 as acting professor of biology. From 1903 to 1906 he was professor of chemistry. Since 1906 he has occupied the chair of biology.

Dr. Duncan is an alumnus of Indiana University (A. B. and A. M.) and of Clarke university, Worcester, Mass. (Ph. D.).

Before coming to Emory, Dr. Duncan was teacher of science Central Normal College, Indiana, assistant professor of chemistry Indiana university and associate professor of chemistry Southwestern university, Texas.

No announcement has been given out as to the university to which Dr. Duncan is going.

President G. Stanley Hall of Clarke university, Worcester, Mass., from which institution Dr. Duncan received the degree of doctor of philosophy has appointed Dr. Duncan to represent that university at the anniversary exercises of the Georgia Tech. June 6-11.

A New Note in Color and Drapery Effect

THE gown illustrated here is copied from one of Paul Poiret's models and is expressive of his extreme and odd taste. It is fashioned of charmeuse, in the new Mandarin yellow shade, for the foundation, with a blouse and modified pannier over-drapery in chiffon of the same color. The chiffon is embroidered in old blue flowers.

A strikingly new note of this gown is the arrangement of the girdle which is draped around the hips and tied at one side of the back, the end being finished with a large silk tassel. The girdle is made of the same chiffon used for the blouse and pannier.

The skirt is draped on one side. The cuffs are of chiffon over the charmeuse, and a tiny black velvet collar finishes the neck, while frills of very wide shadow lace are used at the wrist.

This Attractive and Useful Design for Needleworkers Can be Made Without Recourse To The Old And Obsolete Tracing Paper Method Which Is Unreliable At Best.

DECORATION

FOR WAIST

A variety of stitches can be used on this pattern. Perhaps those needing first attention are the intricate-looking lines in the flower centers. Allow a single thread to cover each line loosely, and make but one thread line at a time. Next whip this surface thread with the buttonhole stitch, once if heavy floss is used, and twice if the thread is used. Either lace stitches can be used in the petals, or they may be outlined in heavy stitches or filled in with the satin or all over embroidery. The compact center of stitches calls for a plain punch work motif. It should be made first. All serrated leaves should be finished in outline, the dotted half finished in French knots. The smallest leaves should be done in eyelet, with outline stems. Make eyelet of large circles. This is simple embroidery, but it must not be finished in a heavy pattern. The eyelet and punch work will relieve what is seemingly heavy parts. They will appear 'lace-like' on the finished design.

TO TRANSFER THIS DESIGN.

Put a cake of soap (laundry will do) in a pint of hot water, stir vigorously and remove the soap. Saturate this Design with the soap and water mixture, then remove the excess moisture by partially drying the saturated Design or by applying a sheet of blotting paper. Place the material or fabric to which the design is to be transferred on a hard, flat surface and lay the Design, face down, upon the material. Cover with a dry sheet of thick paper or two folds of newspaper, and with the help of a tablespoon rub, pressing hard, until the Design is entirely transferred, being careful to rub from, rather than toward you. When rubbing, you can see if enough pressure is being applied by lifting a corner of the Design to note how well it is taking. Do not wet the material nor rub the face of the Design with damp fingers. To remove the Design lines after the article is completed, wash in warm water, with soap. The entire process is very simple and with a little care you can easily make perfect transfers to any kind of goods.

PATENT PENDING.

CAMPORATED oil is a useful remedy for colds, sore throats, etc. To make it take half a pint of sweet oil and beat it so that it will dissolve an ounce of camphor. Cork, and it will be ready for use.

THE narrow-shouldered woman or the one with an inherited tendency to tuberculosis should not only pay attention to her diet and healthful outdoor life, but should, if possible, take lessons in singing or elocution.

A PIECE of chamois skin rubbed with a little vaseline and then dipped into powdered pumice stone is an excellent "remedy" of tan. The neck should be rubbed each night. If the skin shows a tendency to soreness put on a little cold cream after each treatment.

If you follow this treatment for your corns there will be no need of your going to the chiropodist. First remove all the hard skin that you can, then soften the corns with cold cream, vaseline or any softening salve that you may prefer. Let this be done at night. Then next night soak the corns in hot water and rub them with a piece of toilet pumice stone and finish with the pumice stone. Keep this up until these pests cease from troubling you, which won't be very long. These obstinate corns on the soles of the feet will yield to the treatment in a very short time. Once the corns have disappeared be sure and keep the feet soft by bathing and an occasional application of vaseline.

MANY girls wash their hair too often, especially if it is inclined to be oily. Too frequent shampooing only aggravates the condition. A dry cleaning will do all that is required at times, especially if cream is used. Perfume half a pound with an ounce of cedar root, powdered. Let this stand in a jar for

DAME FASHION SAYS

BY MRS. KINGOLEY.

STAMPED velvet in black, violet, green and blue is much used, particularly for magnificent evening cloaks. A very lovely cloak was fashioned of rose velvet trimmed with a broad band of sable around the feet.

Waist belts are rather broad, and are made of beads, handsome embroideries and velvet.

Colored satin shoes are much worn, and the one-button glove has met with instant success.

A visit to the salons of Madame Cheruit would interest even the scoffers at fashion. She is extremely original and gives an atmosphere to her modes that other designers seem to lack. Unhindered by what other dressmakers are doing, she uses her wonderful materials and color combinations to fashion models which are a seven-days' wonder to her devotees. All her gowns are natural and simple in construction, consequently the women clothed in her frocks look like ladies and it is possible for them to walk and sit in any chair with graceful ease. This does not mean that the skirts are wide about the feet. They permit comfort when walking, but preserve the modish silhouette. They are, however, fuller about the hips, and the coats are longer and less stiff than any other models displayed.

A favorite motif is of sapphire-blue velvet with bands of fur trimming the bodice, one outlining the collarless neck line, another banding the sleeves and a third finishing the deep collar of real lace which falls over the shoulders.

The waist line is slightly raised and has a circle of black satin adorning it from beneath which the soft, easy draped skirt hangs in perfect lines. The coat is long, bloused, turned back at the V-shaped opening with floppy revers, and a little fuller in the skirt.

Many of the afternoon gowns are made of moire. Dull shades predominate in tones of gray, brown, taupe and blue.

Touques of fur, ermine, chinchilla and skunk trim these fascinating dresses.

Every skirt, whether for afternoon, evening or morning wear, is draped or double in some form or another. There is a suggestion of the middle ages in the gowns of embossed velvet

NOVEL ROLL

A CONVENIENCE for the dining room much appreciated by those who take pride—and who does not—in the number, variety and condition of their centerpieces and doilies is a receptacle made to keep them from being creased when laid away.

A long roll of cardboard, as long as the width of your largest centerpiece, is first wrapped in cotton wadding and then covered with flowered silk—or cretonne is really better—and the ends are gathered and tied with ribbon.

Take next a square of the material the size of the length of the roll. Line this with a contrasting shade—blue is good, as it assists in keeping the contents from yellowing—and bind with the ribbon.

To use, place the centerpiece on this square, putting blue tissue paper between, wrap carefully around the padded tube and tie with a ribbon tacked to the cover.

The tube may be filled with lavender or rose leaves before covering, and the quaint old-fashioned scent will add a further charm to the dainty linen thus stored away.

TRAINING A CHILD

BY EDNA EGAN.

TEA and coffee are very harmful beverages for children. They give a feeling of rest when insufficient food has been taken.

This is what we call stimulation. What we mean is that the nerves have been acted upon so that we feel refreshed, although we have received no real strength such as comes to us from food.

When children's nerves are abused in this way they will be irritable and weak and apt to become ill.

The following drinks are excellent substitutes for tea and coffee:

Milk—A real food. Makes blood and strength.

Cambric Tea—Equal parts of hot milk and water sweetened to taste.

Cocoa—A food drink. Makes flesh, heat and strength.

Cocoa Coffee—A drink for variety. Will not affect the nerves.

Cocoa Shells—The outside of the cocoa bean ground fine. Not a food, but an excellent drink.

There are plenty of debatable points about how to bring up a child, equally?

Shall he toddle to kindergarten at four or run wild, untaught, till seven?

Shall he ever under any circumstances be spanked?

The world is not agreed.

But on one subject enlightened opinion is unanimous—child-rearing must not be scared.

Don't run to baby and pick him up the minute he falls. The child whose mother runs to him and moans over him the minute he falls is a much to be pitied little man. Her terrified face and cry of "Are you hurt, darling? Tell mama where your little pet!" etc., will make him cry at once, whether he is hurt or not.

Very soon he will imagine that the slightest untoward event hurts him and will grow peevish and fretful.

A child who is not fussed over by a nervous and adoring mother is very different. He may have many falls. He probably will. But very soon, with his mother's cheery "No damage done, dearie," in his ears, he will learn, unless things are really rather bad, to pick himself up and go on quite happily with his interrupted game.

INSTEAD of scouring the bottom of the dishpan when greasy, wipe it off with a small rag tipped in kerosene. Burn the rag. Try it and see how easily it comes off, and your dishpan will never have a leak.

TO re-japan old tea trays—Carefully wash the tray and dry before a fire. Retouch the bare places with bronze powder mixed with copal varnish. When this is quite dry varnish the whole surface with the copal varnish and place the tray in a warm room to dry and harden.

THERE is nothing better to keep the furniture bright than common coal oil. Dampen a soft cloth with it and rub all the varnished surfaces with it, including doors, casings, baseboards, etc., and they will always be fresh and bright.

THE paper coffee boxes filled with paraffin are splendid for keeping the dried beans and prevent weevils getting in. Close the boxes after filling and bind the edge with passepartout or strips of muslin dipped in boiled starch or white of egg. Beans will keep for years in this manner.

SECURE a very large pane of glass for the candy board when making French candies, and note how much nicer the work is done. The glass is easily cleaned, and is splendid for cooling the candies on, for glass cools more easily than stone-ware and it is easy to lift the small pieces if they stick to it.

WHERE carriage paper has faded during the summer, it is said, the original color can be restored by getting regular water-color paint and mixing it with Paris white and the required amount of sizing to hold. Rub the dust off the paper with a cloth and apply the water color to the paper with a camel-hair brush.

If linen suits look yellow they may be whitened by boiling in a lath-er made in the proportion of a pound of pure white soap to a gallon of milk. Rinse thoroughly in several waters and blue slightly. A double boiler should be used that the milk may not scorch.

WHEN you go on your next summer trip have four or five pieces of mat or strawboard cut the size of the inside of your trunk, so they will slip in easily. Wrap dresses in tissue paper and tie to the boards with tape. You can pack or unpack, and nothing need be disturbed till it is ready to use. One woman "lived" in a trunk this summer, and wash dresses that were not worn were as fresh as when first packed.

In old houses where the boards are far apart and the floors are extremely cold even when covered with carpet a cement cheap and lasting can be made by making a paste with old newspapers soaked in water and mashed to a very fine pulp. Mix in this some flour and alum and the paste will be found splendid for filling in the cracks of the floor. If desired the boards may then be painted. Some claim that a little glue also assists in making the mixture, even more lasting.

SMALL pieces of felt used to cover the bottom of chair legs will prevent the wood from scratching the varnished floor. Glue the felt to the bottom of the legs. A small, flat-headed tack, if deeply imbedded in the felt, will assist in holding it in place, though the tack must not touch the floor. There are small rubber caps which are corrugated and can be purchased at furniture stores for the same purpose. Undoubtedly they assist in keeping the floor free from unsightly scratches.

Portieres

As the warm weather makes its appearance, almost every woman feels the desire to re-furnish her living room, to give it an air of space and of cool restfulness. This is not always possible, however, as new furnishings are costly, and the old, often too good to be cast aside. However with a little care and small expense one may produce just the desired effect if one will study the designs on this page and adapt them to her own individual requirements.

A variety of designs is given to suit a variety of objects. Although they are varied, they all harmonize in character, and any number of them may be used in the same room with harmonious effect, if the same color scheme is used throughout, as sometimes one tires of the same design repeated too often.

A rich color scheme should be chosen for the living room, though the colors should be subdued enough not to be glaring, and a good combination is green and dull blue, with touches of yellow and black. Let the green and blue be the dominating colors, but the yellow if used judiciously brightens and tones up the whole while the tiny touches of black bring out the other colors and help to make them harmonize. Green is a good background color, and should be used for the walls. The large stencil may be used as a border for the wall.

Make up all the articles before doing the stenciling, and divide off into the proper spaces, and finish with a dull gold galloon, or an upholsterer's braid to match the material may be used. The dull gold will give a very rich effect with the green. The sketches show which design has been used for each article. The sketches, however, are merely suggestions, as the designs may be used in hundreds of other ways.

The sketch on upper left hand side is for portieres of green rep, with a section turned over at the top, and the design repeated thereon. The hems are finished with the galloon. The runner is divided into sections with the braid, and the small square "cell" is repeated four times in the form of a square in each corner. Below that is a square table cover of denim, linen or canvas with an applique border of dull blue pongee finished with the dull gold braid. Then the design is applied. Below that is an oblong pillow to match. Some of the pillows may be of blue stenciled in green. The panels of the screens are cut lined with the braid also the table mats. The round table cover shown here is divided into twelve sections, but may have four, six, eight, or any number, but the divisions must be marked off before beginning the stenciling. The two small petals at each side of the base of the design have been omitted in the one shown here, as it will be found to fit better into a circle without them.

Antique canvas is a handsome material for the screens, table covers, etc. It comes in beautiful colors which do not fade easily and is very wide and has not the harsh feel of burlap or canvas. It is quite expensive however, and there are many cheaper substitutes which do quite as well. The pillows may be of silk or linen, and some of the heavier materials, and the curtains of scrim or of unbleached cheesecloth of a good grade. Wool rep is also a good material for the portieres.
