TITLES OF ATLANTA TO LAKEWOOD PARK NOW UNDER ATTACK

Claim Against 12 Acres of Tract Has Been Filed by Heirs of N. B. Hardin, Who Lost It by Condemnation.

Property Originally Secured for Waterworks, With Provision It Was to Revert if Used for Other Purposes.

Atlanta's vast park property—Lakewood—a southside tract of 368 acres, valued at \$160,000, is threatened today with litigation which might culminate in the property, or a large portion of it, reverting to the original heirs.

A claim against twelve acres of the tract, a part of which forms the extension of South Pryor street, has been filed against the city through Attorney Howell C. Brwin, on behalf of Mrs. Mary L. Hardin and others, who claim to be the rightful heirs of N. B. Hardin, from whom the city secured the property in 1875 for waterworks purposes.

A valuation of \$12,000, or \$1,000 an acre, approximately, has been placed on the tract. Under the condemnation proceedings under which the city acquired the land, Hardin was paid \$100 an acre.

WAGGING OF TONGUES DROVE HER TO SUICIDE

Excelsior Springs, Mo., November 12. Mrs. Martha C. Simmons, the wealthy widow of Dr. C. C. Simmons, formerly a successful medicine manufacturer of St. Louis, committed suicide here yesterday, it became known today. A part of the Simmons fortune was made in speculation in Texas land. The town of Simmons, Texas, bears the doctor's name.

Mrs. Simmons took a slow poison to end her life. To a Kansas City physician to whom, up to last week, she was engaged to be married, Mrs. Simmons declared that increasing gossip linking her name and that of Dr. Simmons before their marriage had made her desperate. This is supposed to have caused her act.

The Kansas City physician admitted tonight that he engaged to Mrs. Simmons because he was broken last week. "Mrs. Simmons came to my office in Kansas City," said the physician. "She said to me, 'I cannot stand the wagging tongue of the people of Excelsior Springs. I believe I could never make you happy and I want to die.'"

Mrs. Simmons was divorced from her first husband, who was a doctor, in 1908. The second marriage was the doctor's private secretary while he was living with his first wife. They were married in 1909. Dr. Simmons died in 1910, leaving a fortune estimated at \$2,000,000. The sisters lived near each other in Excelsior Springs, but had no relations with each other.

Her Mother Dying, and Life a Failure, Girl Takes Poison

Under Arrest in Police Station, She Mumbles Her Story Just in Time to Save Her Life.

The auto police patrol clanged up to the prisoners' doorway at police headquarters last night about 8 o'clock and two policemen lifted out bodily the prostrate form of a rather pretty little girl of 19, who had been found in a heap in the stairway leading to a Chinese chop suey cafe on East Alabama street.

She was unable to speak. When an effort was made to have her stand before the desk sergeant's window, she collapsed to the floor. The patrol guard entered a charge against her of drunkenness. She was picked up by the turnkey and other policemen and carried into the prison.

As the cage door clanged shut behind her, she awoke from her stupor and mumbled:

"My purse—my purse! Get it! There's something in it I want to show you."

Her Purse Explained.

She spoke with difficulty. The policemen could hardly distinguish her words. "Please get my purse," she muttered. "There are some tablets in it—tablets that'll explain all."

A detective who was returning from the intake of the prison heard her. "Get that purse," he exclaimed. "This girl's tried to commit suicide."

The purse revealed a package of strange looking tablets, composed of a whitish substance.

"That's it, that's it," she moaned. "I was tired of living. Mauma's dying and the whole world's gone against me."

She was rushed to Grady hospital, reaching the emergency clinic in time for her life to be saved. Later, she was returned to police station.

Decided Upon Suicide.

She gave the name of Mabel Reynolds and her address as Montgomery, Ala. Early last night, she said, she had received a pitiful letter from her mother, who was in destitute circumstances. She had then tried drink to forget troubles and, in a semi-intoxicated mood, had decided upon suicide.

She purchased an amount of white phosphorus tablets from a downtown drug store. From the drug store she went to the Chinese cafe, intending to spend the night there, but she was unable to leave the cafe. As she started to leave the cafe, she crumpled at the head of the stairs. There she was found by Plain Clothes Policemen Garret and Fortson.

SOCIETY TO HAVE CONTROL TONIGHT AT BIG AUTO SHOW

Presence of Many Beautifully Costumed Women Will Make Evening Most Notable of Exhibition.

This evening Atlanta's million-dollar automobile show at the Auditorium-Armory will be the scene of the most brilliant social affair that has been held there since grand opera.

Thursday evening has been officially designated as "society night" at the automobile show and, what with Sousa's band to play, beautiful women of Atlanta's society set each vying with the other for a more dazzling costume, the glitter of jewels in the horse-shoe circle, the new 1914 models on exhibit, Thursday night will afford an occasion which but few could wish to miss.

Sousa's band, as was amply demonstrated by the personnel of the crowds which have been attending the auto show, especially Wednesday afternoon and evening, has already become something of a fad with Atlanta's social set. The attendance on Wednesday was not only the largest that any automobile show has ever drawn in Atlanta, exceeding even the record crowd of Tuesday evening, but was one of the most representative Atlanta gatherings ever assembled under the Auditorium-Armory roof. The best known society people and leaders in the civic and business life of the city were out in large numbers, inspecting the new 1914 models on exhibition.

Wednesday Great Success.

The business men were greatly interested in the new touring cars, roadsters and runabouts—that is, while their wives and prettiest daughters were not dragging them from a searching examination of some smart electric or coupe to such a discriminating scrutiny of a languorous and roomy limousine as only the nice eye of fair femininity is capable.

A number of sales were made; not only to Atlanta people, but to people about the state, some of whom started home with their new cars through the country late Wednesday afternoon.

Wednesday of the show was a distinct success from all angles for the automobile and accessory men, who are staging the exhibits.

"King Cotton" Thrills.

When John Philip Sousa's band swung into the famous stirring strains of "King Cotton" Wednesday afternoon at the Auditorium-Armory, the great crowd which had come out to hear him went wild. They felt the thrill of the Sousa of the old days—the days when he wrote that famous march for the Cotton States exposition and played it for the first time in Atlanta eight-and-a-half years ago.

One somehow, like Sousa when he plays one of his own swinging military marches better than at any other time. There is something in it that Sousa has put there something exciting and thrilling that makes one willing to march through fire and fight for the glory of fighting. Sousa himself is there!

Sousa played grand opera and rhapsodies in ragtime, and all manner of music Wednesday afternoon. These selections were greatly enjoyed by the audience. Maybe "admired" would be a better word than "enjoyed" in this instance. Sousa took also of the meaning of the latter word.

Anyway, they were highly worthy, and were endured time and again.

Sousa Captures House.

But it was when Sousa pitched into one of his "March Kings" tunes that brought the house down. When you listen to the grand opera and other music, you are likely listening, but when Sousa's band strikes up a Sousa march, you are standing on the platform, shouting, "Sousa! Sousa! Sousa! Man, it gets into your blood!"

On Thursday Sousa will play many of the great "Sousarian" marches, and the indications at the auto show box office are that there will be a record-breaking crowd out to hear him.

Sousa has issued instructions to the members of his band to be on their feet at 10:30 o'clock Wednesday night, and the greatest concert of the show are expected from him that night.

Back in Your Hole Old June Bug

See the June Bugs come out when the sun shone soft and mellow yesterday? They stood around on the curb all day. Frosty, snappy weather drove them in at dusk, however, and when the keen-eyed, snappy WORKERS of the town hurried home for supper, the curb-lying June Bugs had retreated into winter quarters.

Did you know that you can get these busy people to work for you?

Sure you can. They all read The Constitution. Every one of them wants to get a better job. Advertise to them.

Call up Main 5000 or Atlanta 5001. Tell the Want Ad Department that you want to drive the June Bugs out of your factory and put some live wires to work there.

The Christian Church Joins War on Dress and Dances

Macon, Ga., November 12.—(Special.) Calling for the naming of a commission to bring together all moral forces in Georgia for concerted action against immoral dances, immoral theaters, extreme and suggestive styles of dress, and the general lack of refinement and courtesy indulged in by many, the annual convention of the Christian churches of Georgia today adopted resolutions denouncing these things as menaces to the purity and happiness of the people.

A committee of three, to act with like committees from other religious bodies in Georgia in the formation of such a commission, will be named. The resolutions call on mothers and fathers who are members of the Christian churches of the state to see that these evils are taken away from their children, the ministers to preach against them in their pulpits, that the women in their societies and general conventions take up the problem and lastly, that the commission be named to create sentiment against the evils complained of.

At the closing session today the convention decided to hold the next convention at Valdosta next May, and selected the following officers for the ensuing year:

Stanley H. Grubbs, Athens, president; L. M. Anderson, Macon, vice president; L. M. Omar, convention secretary; John H. Wood, Atlanta, corresponding secretary; T. O. Hancock, Atlanta, superintendent of Bible schools; Miss Mabel Langford, Watkinsville, superintendent of the Christian Endeavor societies.

An excellent book has been secured by the Atlanta theater, Beth Amy, Laurie, Mr. and Mrs. March, the professor, Aunt March, Granville Hannah and the old maid, all of which are contained within the covers of the book.

"At Gay Coney Island."

(At the Columbia.) Capacity crowds continue to greet "At Gay Coney Island," the sprightly comedy burlesque now holding the boards at the Columbia Burlesque theater. This production is happily cast and is carrying off the honors of the matinee and night performances. Lep Meyers, the Five Posing Girls, Shepard and Pollock and the Beaumonts make up an attractive vaudeville offering.

"Shepherd of the Hills."

(At the Lyric.) "The Shepherd of the Hills," a dramatization of Harold Bell Wright's best seller, will be the attraction at the Lyric commencing next Monday. This story of the Ozark mountains has proved very popular in novel form and as a play it is said that its success last season has caused the popularity of the book. Messrs. Gaikili and MacVitty, the producers, have given it a new and very beautiful scenic setting, the mountains of the Ozarks lending themselves to the best in the scenic artist's art. The cast has been carefully selected in fact it is said to be unique in the matter of types.

"A Runaway Match."

(At the Bijou.) If the old adage, "Laugh and grow fat," is to be taken seriously, many pounds avoirdupois will be taken on this week by patrons of the Bijou, for a greater laughing success has seldom been presented in an Atlanta theater than Mark Swann's "A Runaway Match," that is being so capably played this week by the Jewell Kelley company. It is one long laugh from start to finish and the various members of this popular organization have made new friends and pleased old admirers. For next week the stirring sensational melodrama entitled "Hearts of the Blue Ridge" will be put on. This is another one of Hal Reid's plays and

the story deals with the famous Hatfield-McCoy feud of the Kentucky and West Virginia mountains.

Keith Vaudeville.

(At the Lyric.) It's some bill at the Lyric this week for those who like good singing and skillful playing on many musical instruments. When you run over the list of musical acts that have come to Atlanta in vaudeville it will be a long time before you can remember one that will have anything on the Nine White Hussars. If you like fun, why the Nine White Hussars offers you a laugh every second. While if by any chance you are fond of ventriloquist acts, why Raymond has the most elaborate setting in the history of the entertainment. All in all, the bill is worth the money you pay for it.

"Truxton King."

(At the Lyric.) In presenting George Barr McCutcheon's pretty romance, "Truxton King," the management of the Lyric is offering an attraction that is of especial interest to theatergoers. Few novels have been read so widely in recent years and it was to be expected that everyone would be anxious to see the stage production of this romance of the mythical kingdom of Graustark. A good production is being offered this week at the Lyric and the performance is giving general satisfaction. "Truxton King" will be seen the entire week at the Lyric with the usual matinees on Thursday and Saturday.

WALL STREET LOOKS TO SOUTH FOR AID

Atlanta Is Given Big Boost by Frank J. Campbell, the President of the Detroit Advertising Agency.

"Atlanta and the south is the key that is going to unlock the tight financial situation which spread from Wall street over the entire country a few months ago. That key is turn-

ing in the financial lock right now during the automobile show, and with in a few weeks' time things are going to be wonderfully different," stated Frank J. Campbell, at the automobile show yesterday. Mr. Campbell is president of the Campbell-Ewald company, advertising agency, Detroit, Mich., and is in attendance at the show in the interests of several automobile companies.

"Manufacturers who do a national business," he stated, "probably realize more than anyone else just what conditions are. They have many representatives out on the road, and in the automobile business particularly, who make long jumps. It is the reports which these men bring in that indicate in advance of almost everything else what may be expected in the future.

"Must Have Money First.

"From the very nature of the automobile business, it is evident that people are not interested in any great

extent unless they have money. And today, the eyes of the automobile manufacturing world are centered on Atlanta as the great distributing center of the south.

It is now a matter of generally known fact that the state of Georgia alone has a cotton crop which is conservatively estimated at 2,500,000 bales and the largest crop she has ever had. An old-timer in the cotton business told me that because of the dry hot summer in other states the price of cotton is up so much that in the state of Georgia, the crop is far away the greatest she has ever had.

What does this all indicate to the north?

"It indicates that the people of Georgia are going to have, during the next three months, \$175,000,000 more than they have ever had before. It indicates that, not only a few, but thousands are going to pay off their mortgages. Thousands more are going to pay bills for provisions and for merchandise which have accumulated during the past two years. Other thousands are going to buy better farm implements, better stoves, better furniture, better homes. They will build, dress better, and add to the size of their farms.

Somebody Gets the Money.

"When one man pays a bill, somebody else gets the money. If it's there somewhere, the man who collects, will be in a position to buy more of the luxuries of life. He will get the automobile he has wanted. He knows well enough that his family, his boys, deserve the pleasure. And he knows also, that with an automobile he can do more business and make more money in the future, whether he be a farmer, a merchant, or a professional man. That's why buying an automobile is not altogether a matter of luxury—it's business—and good business.

On top of this immense cotton crop in Georgia, is the seventy-two million or more bushels of corn which was raised this year. Yes, another round \$100,000,000 added to the coffers. No wonder the pockets of your people here are beginning to jingle. Look what all of these figures mean, and then remember that this is but a part of the wealth produced in Georgia this year. Then remember that there are several states which surround Georgia which also have millions of new dollars growing out of the soil this year, that are going to be spent in the next few months, through Atlanta.

These facts are known by the Michigan automobile manufacturers and they are out after the bacon. Business has been dull and there is no use in denying it. The automobile dealers have been running only about half their force. But they have looked to this big automobile market and they are breaking the spell. The money is here and hereabouts. It is up to Atlanta dealers and Atlanta branch managers to get right down and work as they have never worked before. Those who realize these facts are already doing so, and confidentially, they are feeling that they have never closed up as many automobile agencies as they are closing now."

"Gifford Pinchot," of Canada, Has Warm Praise for South

It may be the beautiful romantic history of your southland, it may be the hospitality of its people to Canadians, but there is undoubtedly a very dear spot in the hearts of my countrymen for your section of the states," was the declaration of Kelly Evans, late royal commissioner for Ontario, and the man who is known in this country as the "Gifford Pinchot of Canada."

Mr. Evans, who is in Atlanta at the Georgian Terrace, in company with Mr. and Mrs. Harold Richardson, of London, England, is at present standing for election in the county of South Wellington in Ontario for a conservative seat in the dominion house. For the past six years Mr. Evans has been actively engaged in furthering the conservation interests of the province, and was the candidate of the present year, was again nominated for a seat in the lower house of the dominion governing board and it is expected that he will be elected.

Conservation Leader.

The biggest piece of work done by Mr. Evans to date is his report of the 12th civil cases on the calendar which he headed during 1909-1911 and which was appointed by the dominion government to investigate the conservation matters pertaining to fish, fisheries and game of the Province of Ontario.

This report which is quite voluminous, contains many pertinent suggestions and recommendations to the Canadian government and the forests of the vast area of Ontario which extends from Lake Ontario on the south

to the Hudson Bay country to the north.

"My work as commissioner largely dealt with the proper care of fish and game in Ontario," said Mr. Evans Wednesday.

"In that connection I made certain recommendations looking toward a better method of guarding against forest fires. Of course, water rights entered into my inquiry, but we have in Canada no such water power problem as you have here. We have what we call the hydro-electric commission to take up water power grants and our water power situation practically solves itself into government ownership.

Will Mark an Epoch.

"In my work I have closely followed conservation legislation in the states and I believe that President Wilson's signature to the government bill looking towards a better protection of migratory birds will mark an epoch in your country's history.

"We, in Canada, are vitally interested in the United States. We are watching with keenest interest the trend of events in the Mexican situation. No, I have no comments to make on the situation.

Mr. Evans will be in Atlanta for several days. He plans to return to Canada as soon as the government sets the date for the next general election.

MARSHAL OF OMEGA CUT. Carson Taylor Arrested and Jailed at Tifton.

Tifton, Ga., November 12—(Special.)—Marshal T. F. Powell, of the town of Omega, was severely cut last night by Carson Taylor, a young white man of that place.

Powell was slashed from the back of the neck on the left side, the gash running around to the front and only missing the jugular vein by the small fraction of an inch. Seventeen stitches were necessary to close the wound. Attending physicians say the wound is not necessarily fatal. Sheriff Shaw arrested Taylor and Allen Dorman and started with them to Tift county jail.

Accounts say that Allen Dorman called Marshal Powell off in the dark to talk with him, and then called Taylor. When Taylor came up Dorman it is alleged, caught Powell and held him while Taylor did the cutting. Powell struggled loose from Dorman but was so weak that he fell to the ground. He reached for his pistol and Taylor ran, but was caught by J. W. Hardy.

Marshal Powell has been very active in arresting lawbreakers. A few days since he arrested four negroes on the charge of selling whiskey and they were turned out of the town jail during the night. The assault is supposed to have been the result of a plot to get him out of the way.

Every Home Needs This Great Remedy

No Home Can Afford to Be Without a Mild, Reliable Laxative-Tonic.

No well-regulated home should be without a laxative, for there is scarcely a day in a family of several persons that someone doesn't complain of a headache, of sleeplessness, or show the first signs of a cold.

A laxative then becomes a necessity at the beginning may run into a serious cold or fever. No harsh remedy is needed, but simply a mild laxative—Dr. Caldwell's Syrup Pepsin—which will make the liver active and stir up the bowels of those who have tried a great many things, and are themselves heads of families, who have seen their little ones suffer, will tell you that there is nothing better than Dr. Caldwell's Syrup Pepsin, which can obtain at any drug store for fifty cents a bottle.

Among the great believers in Syrup Pepsin for constipation in old or young and as a general household emergency remedy, is Mrs. M. F. Smith, 710 N. Cherry St., San Antonio, Tex. To use her own words, she says she will bless Dr. Caldwell to her dying day for she believes that through his remedy, Syrup Pepsin, she found the way to permanent good health.

Dr. Caldwell's Syrup Pepsin is scientifically compounded and its purity is vouched for. Mothers give it to tiny babies, and grown people, taking a larger amount, find it equally effective. It is mild and gentle, pleasant

tasting and free from griping. It does not hide behind a high sounding name and is absolutely free from any prohibitive ingredient. Families who once use Syrup Pepsin forever after avoid cathartics, salts, pills and other harsh medicines, for these only do temporary good, are nauseous and shock to any delicate system. Such things should never be given to children.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 615 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

Feast on Georgia

Plans for the Atlanta dinner on Georgia products day have begun to grow with Jack and the bean stalk speed. When the general committee met at the chamber of commerce yesterday afternoon, with W. H. White, Jr., in the chair and a full attendance, new developments began to pop with the rapidity of firecrackers.

To begin with, Subcommittee Chairman Lee Barnes submitted the following menu, which was immediately accepted:

Pure of Tomato	Whipped Cream
White Plums Celery	Sweet Mixed Pickles
Young Onions	Salted Peanuts
Roast Young Turkey	Chestnut Dressing
Deviled Eggs	Baked Cornfield Ham
Chicken Salad	Veal Croquettes
Beaten Biscuits	Chicken Salad
Tip Top Biscuits	Beaten Biscuits
Neapolitan Ice Cream	Beaten Biscuits
Kamper's Roast Coffee	Beaten Biscuits
Bowden Lithia Water	Beaten Biscuits

Dinner Begins at 10 o'clock.

It was decided immediately thereafter that this Georgia dinner of 1,000 plates should be one dinner to begin exactly on the minute, as announced. The reception room doors at the Auditorium will open at 9:30 o'clock and at 7, sharp, on the stroke of the clock, the doors will be thrown open into the main dining room.

Miss Saul of the ticket committee, reported that the tickets would be ready this (Thursday) afternoon. They will be put on general sale immediately and may be obtained this afternoon and from the Atlanta Chamber of Commerce, until the day of the dinner at Cone's Whitehall street store and at the Lukin Drug Company. Those who wish tickets by mail should enclose check to Ivan Allen, care of the Atlanta Chamber of Commerce.

President C. T. Camp, of the Retail Butchers and Grocers association, announced that the City Salesmen's association had agreed to take an active part in the special distribution sale of tickets. The announcement was applauded. Mr. Camp urges all retailers in Atlanta to show their interest in Georgia day by decorating their windows next Tuesday with Georgia raised products. He also urged the Atlanta Chamber of Commerce to plan to follow up on this suggestion. The ticket for the banquet by the way, will be printed on Georgia made paper. Everything at this dinner is going to be strictly Georgia made from the appetites of the diners all the way to the coffee and cigars that end the meal.

JUDGES ARE NAMED FOR POULTRY SHOW

**"Prizes in This Exhibition
Will Class Birds Among
Best in the World," Declares T. M. Poole.**

The judges have been chosen as follows for the Southern International Poultry show, to be held in Atlanta December 1 to 6:

George L. Wald, Cincinnati
D. M. Owen, Athens, Tenn.
G. B. Young, Columbus, Ga.
Julian McCamy, Dalton, Ga.
James P. Kerr, Hay River, N. C.

In selecting these gentlemen, the officers of the association have chosen men with national reputations as experts in the poultry world. Their presence as judges will contribute materially to the success of the show. General Manager T. M. Poole and Executive Committee Chairman Loring Brown are busily engaged in preparations for what they expect will be the largest show in the history of the south.

This show was organized and will be conducted for the benefit of the breeders, said Mr. Poole, and the upbuilding of the poultry industry in the entire southern states. Nothing has been left undone to make this an educational exhibition for the general upbuilding of the poultry interests. No expense will be spared to present features worth a long wait of sea, and a prize won at this show will class your birds among the best in the world.

The show will be held at the Auditorium Armory just as last year. Last year over 75,000 visitors attended the show, and it is expected the number will be exceeded this season. The entries close at midnight of November 21.

PLAN GREAT MEETING TO CELEBRATE PEACE

A movement which promises to be the national government was launched by President Woodrow Wilson, of the Atlanta Chamber of Commerce, at the directors' meeting last night.

Mr. Wilson proposed a plan for a great "jubilee" peace meeting, to be held in this city on July 22, 1914. This jubilee is for the express purpose of showing the entire civilized world that the north and the south have forever buried their differences which caused bloody strife in the sixties.

The plan is to be demonstrated by the erection of a joint monument to the honored heroes of the confederate and union armies—General Walker, of the confederate, and General McPherson of the union troops. Both generals fell in the battle of Atlanta.

Declaring that he had made careful inquiry into the plan and was satisfied of its feasibility and that the aid of the federal government could be secured in the advancement of funds for the monument, Mr. Moore asserted that it could be accomplished. He said that Atlanta has ever done and that thousands of visitors from all over the country would attend. It is a movement worthy of Atlanta for no city of the south has ever undertaken anything like it," declared Mr. Moore.

REUSE WAITS KILLED WHILE COUPLING CARS

Reese N. Waits, aged 23 years, son of W. W. Waits, superintendent of terminals, living at 138 Mills street, was instantly killed while performing his duties as flagman for the Southern at Jackson, Ga., Wednesday at 12 o'clock.

Young Waits met his death while endeavoring to couple two cars. It appears that he stepped between the cars and was in the act adjusting the coupling bars when the engine suddenly started back, crushing him between the coupling apparatus.

His body was brought to Atlanta at 5 o'clock Wednesday afternoon and removed to Patterson's chapel.

He is survived by his parents Mr. and Mrs. W. W. Waits, two brothers, Charles and William Waits, and one sister, Miss Lennie Bell Waits. The funeral will be held from Payne church this afternoon at 2:30 o'clock. Interment will be in West View cemetery.

CHANGE ELECTION PLAN.

The annual election of officers of the Atlanta Chamber of Commerce will take place the last Tuesday of the present month.

The president of the chamber has heretofore appointed the nominating committee. President Moore last night suggested that hereafter the president and vice president of the chamber be nominated by the ex-president of the chamber. He suggested that the electors hereafter be nominated by a committee composed of the heads of business houses of the city who are active leaders in the chamber of commerce work. This plan was unanimously adopted by the directors in attendance.

Proposed amendments to the by-laws are advocated by Mr. Moore. He suggested that the president of the chamber hereafter be elected for a term of one year and that he be eligible for re-election at the expiration of his term. Under the present ruling the president is elected for a term of two years and cannot succeed himself in office.

For the first time in the history of the Atlanta Chamber of Commerce the board created honorary memberships. All of the ministers who are now members of the chamber were made honorary members. Walter H. Leahy, secretary of the Industrial and Statistical Bureau, and Fred Housley, secretary of the Corporation Bureau, were made honorary members.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. Says a well known authority: "Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood then you get sick. The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy or offensive full of sediment irregular of passage or attended by a sensation of scalding get about four ounces of Jad Salts from any reliable pharmacist and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

How To Darken Gray Hair

By a Specialist

A very satisfactory preparation which darkens gray hair and acts as a corrective agent for dandruff and other diseases of the scalp can be made in small expense and in your own home by dissolving a small box of Barbo Compound in 7 ounces of water and then adding an ounce of any hair oil and a quarter ounce of glycerine. Any drug store can furnish these ingredients. This is to be applied once a week until the hair is sufficiently darkened then every two weeks to keep the hair soft and glossy and the scalp in a healthy condition. It may be used with equal success in darkening the beard. This is a preparation that gives splendid results, both as a hair darkener and a remedy for all scalp disorders, and is well worth a trial. You will find it far superior to the ordinary store preparations and much less expensive. (Adv.)

The kerosene-burning Henderson is on exhibition at the Show, and can also be inspected at the salesroom of the Atlanta Auto Sales Company, 225 Peachtree street. Interested parties will have this opportunity to receive demonstrations of the mechanical perfection, the proven efficiency and amazing economy of the New Henderson. It is unique in automobile advancement.

Other Henderson Features

Because rigid tests proved that wire wheels increased tire mileage amazingly, we use them on the New Henderson. If you drive this car your tire expense will be 35 to 50 per cent less. The increased resiliency gives wonderful easy riding qualities. It is an accepted fact that wire wheels are more durable than wooden ones. Wire wheels are optional on the Henderson.

Left-hand drive center seat control—convenient at the driver's right hand—the dustproof enclosed motor, electric self-starting system, the Stutz rear system, cowl dash, cowl gasoline tank, oversize tires, electric lights and a score of refinement features.

The Hendersons also have a light touring car at \$1,585 and the Henderson Six at \$2,285.

SECRETARY WILSON RAPS MINE OWNERS

Head of Labor Department Says New Conception of Titles to Property Is Forming.

Seattle, Wash., November 12.—Secretary of Labor William B. Wilson, addressing the American Federation of Labor today, bitterly condemned the attitude of the Michigan copper mining companies and warned them that a new conception of titles to property was in process of formation. He declared he would make public not only the wages paid to the miners, the hours they worked and the labor conditions, but the enormous profits of the mine owners.

Mr. Wilson, who addressed the delegates as "fellow unionists," said: "The department of labor as now organized and directed will be used to co-operate with the great trade union movement in its effort to elevate the standard of human society."

Welfare of Wage Workers. "One of the general duties imposed on the department is that of promoting the welfare of wage workers."

"The one great specific duty imposed on the department is to act as a mediator and to appoint commissioners of conciliation in trade disputes."

"There can be no mediation, there can be no conciliation, unless the employers and employees that don't pre-suppose collective bargaining and there cannot be collective bargaining that doesn't pre-suppose trade unionism."

Of the situation at Calumet, Mich., the secretary said: "The department has been the custom to investigate wages, hours and conditions of labor and report thereon. It has been determined to go a step farther and investigate the earnings of the corporations involved."

Enormous Profits Made. "And the little bit of confidence that I am going to give to you," he added, "is an advance statement of one of the items in that situation—that the largest corporation engaged in the production of copper in the Michigan district was organized in 1870 under the laws of the state of Michigan, that the face value of its capital stock is \$2,500,000."

The shares are \$25 each and were purchased at \$12 each, so that the actual investment is \$1,250,000.

"From that time until one year ago the last fiscal report that we had, a period of forty-two years, that corporation declared in dividends \$1,000,000 and made reinvestments out of its earnings of \$15,000,000. Nearly \$200,000,000 of actual net profits in a period of forty-two years on an investment of \$1,250,000, and then they not only protest against meeting committees of their workers, but they refuse to accept the good offices of the department of labor in negotiating the difficulty."

Titles Law Created. The secretary said every title was law created and that the law, that deprived of these laws, the property involved would be at the mercy of the first strong and cunning man who desired it.

"Law has created these titles," he continued, "not primarily for the welfare of the man to whom it conveys it, but for the welfare of the community. Society has conceived, whether consciously or unconsciously, that the best method of promoting the welfare of society is to convey titles to individuals in a real estate market."

It does it, however, not for the welfare of the individual, but for the welfare of the community, and the welfare of the individual or corporation takes the ground that the property is his own, that he has the right to do with it as he pleases and fails to take into consideration the fact that the title has only been conveyed to him as a trustee for the welfare of the society, then he is creating a condition that will cause society to modify or change these titles to property, as it has a perfect right to do whenever, in its judgment, it deems it for the welfare of society to do so.

Strike-breakers Condemned. Mr. Wilson condemned the sending of strike-breakers by private employment agencies and said: "I wish to see created within the department of labor a bureau of information that will be handled much on the same lines as our weather bureau of information, where, with the aid of the immense number of government employees over the country, we will gather the information of where men can find employment, the wages they will receive, the hours of employment, the conditions under which they toil, whether or not a trade union is recognized, and last, but not least, whether or not any trade dispute exists where the employment may be had, and then condense that information and place it in the United States and in every other place where men congregate, so that they have the information relative to where employment can be had and the kind of employment, and in doing so give the information to the men in such a way that when a man comes into a community where a strike exists for the purpose of taking the place of those strikers he does so with his eyes open and cannot make the plea of ignorance."

The Indianapolis Strike. The secretary also spoke of the Indianapolis car strike and of the trouble in the coal mines.

"In the recent street car trouble at Indianapolis we offered our good offices before the strike commenced, and last night a storm of abuse heaped on us by members of the manufacturers' association on the ground we were giving aid and comfort to the strikers by sending our representatives in there. Notwithstanding that storm of abuse, the representative

HOMEOPATHS ELECT OFFICERS TODAY

Want College in South, and May Select Atlanta—Topics for Final Discussion Interest Laity.

The thirtieth annual session of the Southern Homeopathic Medical association comes to a close late today. Officers will be named in the afternoon for the next fiscal year, a place to hold the next convention will be selected and the two score delegates attending the meeting will probably start for their homes before night.

The final session, besides the election of officers, will partake of the nature of a theoretical discussion of several topics from a medical viewpoint. Surgery will be taken up under the leadership of Dr. William A. Hines of Knoxville, Tenn.; pedology, under the leadership of Dr. Susan M. Hicks, of Atlanta; obstetrics, under the direction of Dr. W. McCrory, of Knoxville; and pathology, under the direction of Dr. William Rufus King, of Washington, D. C., and Dr. A. L. Smithers, of Anderson, S. C.

Dr. H. C. Hahnemann, head of the Homeopathic college of medicine which bears his name and which is situated in Chicago, is an interested visitor at the convention.

Dr. Hahnemann declared that the practice of medicine from homeopathic standpoint was in its infancy in the south, due probably to the fact that schools of that theory are few in the South.

It was rumored during the convention of the medical men that Atlanta might be chosen as the place to hold the next school, but nothing tangible was learned of such a project.

The present officers of the organization are: President, Dr. Wellford B. Lorraine, Richmond, Va.; first vice president, Dr. E. Koons, Nashville, Va.; second vice president, Dr. J. Burnie Griffin, of Augusta, Ga.; secretary, Dr. Lee Norman, Louisville, Ky.; and treasurer, Dr. H. C. Hahnemann, Chicago, Ill.

TO CONTROL TRAINS BY TELEPHONE BLOCK

Southern Installs Modern System Between Macon and Jesup.

Macon, Ga., November 12.—(Special.) Installation of the telephone block signal system on the 147 miles of the Southern railway between Macon and Jesup is announced by Vice President and General Manager E. H. Cozman.

A telephone line with stations at every mile has been constructed, and fifty additional telephone-telegraph operators have been employed. Three additional train dispatchers have also been employed in the Atlanta division headquarters to give their entire time to the Macon-Jesup line.

Safety and facility in handling trains will both be increased by the introduction of this new system. The telephone has been tried on other important lines of the Southern system and has been found entirely successful.

With the installation of this modern system of signalling between Macon and Jesup, the entire line of the Southern railway and the Queen and Crescent route, between Cincinnati and Jacksonville, is protected in the most efficient manner ever tried.

Double track extending from the Southern passenger station at Macon to the entrance to the new freight terminal, a distance of a mile and a half, has just been placed in service, and a number of other important improvements including the construction of nine new passing tracks, have recently been completed between Macon and Jesup, this line forming a very important link in the route over which are operated the Southern's through trains between Jacksonville, Chicago, Cincinnati, St. Louis, Memphis and Kansas City.

The recent improvements provide facilities which the management of the Southern railway considers adequate, not only for the present business, but also for the increased business that is hoped for in the future.

Rawson-Smith Wedding A Brilliant Social Event

The marriage of Miss Sarah Rawson and Mr. Marion Smith, solemnized last night at Trinity Methodist church, was one of the most brilliant events of the year. The ceremony was a occasion of elaborate circumstance and a handsome reception followed at the home of the bride's mother, Mrs. William C. Rawson on Peachtree street.

A brilliant congregation filled the large church, the whole lower end of which was converted by the decorators into a scene of lovely beauty.

At the church. From the ceiling were hung ropes of similar garlands over the organ and ending in banks of palms at each side of the organ. A host of white chrysanthemums rose out of the foliage at one side. In the pulpit space was a great bank of palms, below which two tall pillars supporting clusters of white chrysanthemums, and the pillars were showered with Easter lilies and smilax. Beyond them were brass candlesticks on stands, and the whole was showered with lilies, and the crescent of ornamentation was completed by other pedestals holding vases of white chrysanthemums, with small banks behind them of palms.

In the center front was the white satin prie-dieu draped with smilax, and the front rows of pews were cut off with white ribbons held in place by clusters of white chrysanthemums. The costumes of the brides attendants continued the color combination of white and green, and the whole wedding scene, in full view of the congregation, was one of unmitigated beauty and impressiveness.

The ceremony was performed by Bishop W. A. Candler, assisted by Dr. J. B. Robins.

Mr. Charles Sheldon, at the organ, played appropriate music before and during the ceremony.

The bride, entered the church with her brother, Mr. William Rawson and the groom with his best man, Mr. John A. Brice. Miss Lucy Hoke Smith was maid of honor, Mrs. Royd Florence Haskins, and Mrs. Haskins were matrons of honor, Miss Callie Hoke Smith, Mrs. Harriet Colburn, Miss Fessie May O'Neil, Mrs. Mary Helen Moody, Miss Jennie D. Harris, Miss Marjorie Brown and Miss Bessie Jones were bridesmaids.

Assisting Mrs. Rawson in receiving were the ladies of the family. Her sister, Mrs. B. L. Leter, was seated in black and white. Mrs. T. Westmoreland wore a ruby velvet gown with tulle and gold guile lace and velvet. Miss W. R. Hammond wore a white satin gown with tulle and gold guile lace. Miss S. Johnson was gowned in black satin and point lace.

Among the out-of-town guests were Mr. and Mrs. Richardson and Miss de Pena, of Washington.

Mr. and Mrs. Smith left last night for a honeymoon in the Bermudas, and on their return they will make their home with Mrs. Rawson.

A musical social interest centers in the

wedding, since both young people are prominent, and are representative of families honored in the city in social and public activities. The bride, a debutante of three years ago, is held in the affectionate regard of the married set and is a belle with the young people. Mr. Smith, the son of Senator and Mrs. Hoke Smith, is a successful young lawyer in Atlanta, and is a popular member of the clubs.

Cohen-Levy. The wedding of Miss Rae Alexander Cohen and Mr. Emanuel Levy, of Dallas, Texas, was a most elegant event last evening, which took place at the home of the bride's parents, Mr. and Mrs. Frank J. Cohen, on East North Avenue.

The house was handsomely decorated throughout with palms and pink roses in artistic arrangements. The chandeliers were hung with smilax, and smilax formed a beautiful decoration.

The ceremony took place in the living room, where the mantel was banked with palms and pink roses, forming an attractive background for the bride and groom. The bride, who was lovely in her wedding gown of white tulle and lace, was escorted by her father, Mr. J. Cohen, to the altar.

Her white veil was caught with natural orange blossoms and her hair was adorned with a shower of pink roses and valley lilies.

Miss Louise Cohen was her sister's maid of honor. Her gown was of crepe de chine, combined with lace and silver trimmings, and she wore silver slippers. Her flowers were a shower of pink roses and valley lilies.

Mr. Joel Cohen was Mr. Levy's best man. The ribbon-bearers were Misses Katherine Crabbe, Bessie Schlesinger, Bessie Frank and Florence Strauss, who entered first, forming an aisle for the bride. They wore gowns of pink crepe de chine, and carried white and pink roses and pink liberty ribbon.

The bridesmaids were Misses Sarah Ella Schlesinger and Dorothy Simon, who wore dainty white lingerie dresses with ribbons and carried baskets of pink roses.

WOULD SIT DOWN, COULDN'T GET UP. And This Lady Would Do a Little Work and Have to Go to Bed for an Hour.

Columbia, Tenn.—Mrs. Jessie Sharp, of this town, says: "I was a sufferer from womanly troubles for five years, and it got me down so I could not do any of my work. Would have to lie in bed nearly all the time. When I would sit down, couldn't get up, without pulling at something to help me."

I would do a little work, and have to go to bed for an hour.

I would have those awful trembly spells and a swimming in my head. I surely felt that I had rather be dead, than be in my condition.

I finally wrote to the Ladies' Advisory Department, of the Chattanooga Medicine Co., and they advised me to try Cardui, the woman's tonic, for my troubles. I did and now I am sound and well of all my troubles. The second bottle helped me so much, that I didn't have to go to bed any more.

I certainly feel that Cardui is worth its weight in gold to every suffering woman."

If you, lady reader, suffer from any of the ailments so common to women, try Cardui.

For more than 50 years, Cardui has been used with entire satisfaction, by hundreds of thousands of weak and ailing women. It will surely help you, too.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for "Sufferer's Information," and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

According to report Mr. and Mrs. Newman came to Atlanta early Wednesday to be married.

"There would have been so much fuss made about the affair in Nashville," said Mr. Newman, last night, "so we preferred to come here quietly and have it over with. It was our intention to keep the wedding a secret for some time, but I see it has leaked out."

"My wife does not wish to have any news made out of our wedding, as she does not like publicity of any sort, however small."

"If anything has to be printed, just say that we came here by a pre-arranged plan and were married this afternoon."

Representative Barry Wright, secretary of the Western and Atlantic commission, has informed W. A. Wimbley that the commission will meet in the senate chamber at the state capitol on November 18, at which time Atlanta will be given a hearing on the plaza project.

The subcommittee appointed to go before the commission is composed of Councilman Claude L. Ashley, William C. Moore, president of the chamber of commerce, and Captain R. M. Clayton.

This Is the Opinion of J. A. Kellam, of Ohio Electric Car Company.

J. A. Kellam, sales manager of the Ohio Electric Car company, of Toledo, Ohio, who is in charge of the Ohio booth at the auto show, is greatly pleased with the success of the show and with the city of Atlanta.

"Ever since the beginning of the automobile business," said Mr. Kellam, "the public has been inclined to complain because the dealers have found it necessary to charge admission to the automobile shows where they were so anxious to show and explain the merits of their cars to the prospective buyers who attend these shows."

The Atlanta automobile dealers are to be congratulated upon the most successful attempt ever made by any automobile dealers' association to give the people their money's worth in high-class entertaining outside of displaying in advance of the national shows a very complete line of the latest models of all the standard makes of automobiles.

"I have attended automobile shows in all parts of the United States for the past eight years, but I must say that I have never attended a show where the interest in cars was keener nor where better crowds of the best people in the community were in attendance. Unfortunately the Ohio electric is the only electric car well represented at the show because dealers in other cars were unable to get in their new models in time for the show. We are somewhat disappointed in this, because we believe these shows tend to increase the interest in electric cars in general and we are not so selfish as to want to be the only ones to make a complete exhibit."

"Before the show opened I predicted that we would sell more cars here than at any other show in the year, and the results of the first three days have convinced me that my prediction was well founded. Of course, I knew that when the Atlanta dealers staged a show it would be a real one, and I knew that Atlanta ladies would appreciate the exclusiveness of the Ohio electric, and as we had a complete line of the very latest models to exhibit, I felt that the results could not be other than satisfactory."

"Atlanta is a fine city and would like to stay right here. Atlanta dealers are a live bunch of good, honorable fellows, and nothing would please me more than to be one of them."

WOMEN VISITORS AT SHOW DISPLAY EXPERT WISDOM

"Ask me the most technical question you may about the Mitchell car and I'll turn the reply into language that you might use at the home table and interest your wife, daughter or son," once said an engineer at the Mitchell-Lewis Motor company's plant at Racine, Wis.

Women at the auto show are asking the technical questions of salesmen and listening with evident relish, especially if the salesman is not fully conversant with the subject and is inclined to "stall." A recent instance of a young lady's query is given to show the need of a salesman understanding all parts of the car he is representing.

"What is the result of the different expansion of cast iron and steel in a motor? Does your company have any way of keeping away distortion because of this?" asked the feminine show visitor.

"Oh, certainly," replied the salesman glibly. "You see, brass retainers take care of that. Don't you see how easy that is?"

"No, sir, I do not. I wish to talk about the very latest models to get in their new models in time for the show. We are somewhat disappointed in this, because we believe these shows tend to increase the interest in electric cars in general and we are not so selfish as to want to be the only ones to make a complete exhibit."

"Before the show opened I predicted that we would sell more cars here than at any other show in the year, and the results of the first three days have convinced me that my prediction was well founded. BOYS' HIGH TO PLAY COLUMBUS SCHOOL

The Boys' High school football eleven, will journey down to the fair city of Columbus, Ga., Saturday, and tackle the bunch from the Columbus Industrial eleven.

Boys' High played Columbus last year for the first time, and as they were greatly outweighed, were defeated by them. The treatment that was accorded the Atlanta team was so good that the manager of this year's eleven tried to arrange a game earlier in the season, but as Columbus had all her dates filled except this one, High School took it.

High School has at last found her stride, and she is now playing the game of ball that she is capable of. Coach H. Wood has had them out every afternoon of this week, teaching them new plays and drilling them on their interference.

Yellow Jackets Experimenting; Will Have Strongest Line-Up

The Jackets are not letting the possibility of the game with Georgia worry them in their practice. They are going about their work just the same as if no talk about where the game was to be played or protests of players had been made.

Coaches Helmsman, Devore and Alexander are experimenting with the material left after disbursements, injuries and the faculty had gotten through and they will face Georgia with the strongest possible available line up.

A new shift resulted in scrimmage Wednesday afternoon. Reifender is playing quarterback, Patten and Fleider both being unable to even run signals. If neither of the latter are able to start against Georgia, Reifender will be the quarterback.

In the line, several changes are contemplated and the changes worked out so well Wednesday that the coaches are going to try out the new line again today.

Tate went to Cushman's end and showed up so well that he is about to get the call for that place. Rainey

shifted over to the tackle place held by Prens and vacated by Tate for end, while Lang goes in at guard in Rainey's place. McCord shifts over to the tackle absent by Nance.

This will make the Tech line up: Tate and Board, ends; Rainey and McCord, tackles; Lang and Means, guards; Looch, center; Reifender, quarter; Cook and McDonald, halfbacks, and Thomas, full.

Nance and Johnson are absolutely sure not to play, while Patten and Fleider are so doubtful that the coaches are working the new men vigorously at the positions mentioned above.

BALLOTS FOR WOMEN UP TO EPISCOPALIANS

New York, November 12.—Whether women should have a voice and a vote in church government or continue to be governed in matters spiritual by men was a question that came before the convention of the Protestant Episcopal church of the diocese of New York today. Advocates of woman suffrage in the church succeeded in introducing a resolution to give women equal rights with men in determining church policy. This is to be acted upon before adjournment several days hence.

An amendment to the state law would have to be passed before women could be given the proposed franchise, in the opinion of those framing the resolution.

After one ballot on a substitute motion to give the women of the Protestant Episcopal church in this diocese the franchise in parochial affairs, which indicated the convention's opposition, the question went over until tomorrow.

VICTORY FOR COLUMBIA IN FREIGHT RATE FIGHT

Washington, November 12.—Existing freight rates, both class and commodity from eastern and western points of origin, were held by the interstate commerce commission today to be unduly prejudicial to Columbia, S. C., as compared with rates from the same points to Augusta, Ga. Investigation disclosed that the two cities were similarly located, so far as transportation by rail is concerned, inland from Savannah, Ga., and Charleston, S. C., and also with respect to competition with each other, and with the ports named.

The commission held that there was no sufficient reason "to justify the present disparities in rates in favor of Augusta," from such points as Cincinnati, Louisville and Knoxville, and directed that the rates to both Columbia and Augusta should be so adjusted as to maintain rates parity.

Railroads in the southeastern territory were ordered, therefore, to file tariffs by February 1 in conformity with the conclusions the commission reached in the case instituted by the Columbia Chamber of Commerce.

TECH HIGH SCHOOL PROTESTS CLAIM

Deny Riverside's Right to Play
For the State Prep Title
With G. M. C. Eleven.

The Tech High school of Atlanta denies the right of the Riverside Military academy to claim that in playing the Georgia Military college eleven here Saturday morning that they are settling the prep school title of the state.

Tech High defeated Riverside and it is their contention that if Riverside defeats G. M. C. that Tech High will have prior claim to the state title, pointing to her unbroken record of victories in all the other games as substantiation.

If G. M. C. wins the game Tech High claims that they will have an equal claim with them for the state title.

As for Riverside having stars out of the game when Tech High defeated them, Tech High makes the contention that Strapper, Reed and Townsend, three of the stars that Riverside makes mention of, starred in the game and it was a forward pass from Strapper to Townsend that resulted in the Riverside touchdown.

CATTLE AND PORKERS FOR CANE AND COTTON

Washington, November 12.—Appropriation of \$50,000 for federal live stock experiments in Louisiana will be asked of congress by Secretary Houston to help the Louisiana sugar planters, who fear their industry will be ruined by removal of the tariff on sugar.

Secretary Houston also has written to Dr. U. R. Dodson, in charge of the Louisiana state experiment station, and to Senator Russell, and Representative Broussard, who are especially interested in the sugar situation, telling them that the state must cooperate if the experiments are to be successful.

The secretary believes cattle and hog raising can be conducted profitably to the place, either in whole or part, of sugar growing, and that also in the cotton section of Louisiana, cattle might be raised so that the planters would not be dependent on one crop, which this year has been badly injured by the boll weevil and unfavorable weather. Secretary Houston asks that the state set apart 200 acres on which to conduct the live stock experiment. He will ask that part of the federal appropriation of \$50,000 be made immediately available.

Although not yet ready to recommend a radical change from sugar to live stock immediately, the secretary strongly inclines to the belief that experiments will prove that such a change will be the salvation of the Louisiana farmers. He bases his opinion, he says, largely on a report made to him by W. A. Taylor, chief of the bureau of plant industry, and Dr. B. H. Rawl, of animal industry, whom he sent to Louisiana to study the situation.

SALOON RESTRICTIONS ARE DECLARED VALID

Tampa, Fla., November 12.—Deciding a test case from Key West today, the Florida supreme court ruled that the law enacted at the last session of the legislature prohibiting use of doors or screens that would prevent a clear view of saloon premises from a street, or of side entrances or sale of liquor to women, is constitutional. In several of the cities saloon keepers had refused to obey the law, and brought test cases.

SANTA CLAUS LETTERS WILL BE DELIVERED

Washington, November 12.—Hereafter, during the month of December, Santa Claus will be recognized as a

real entity by the postoffice department, and letters from him will be received and delivered.

Postmaster General Burleson today issued an order making permanent the custom hitherto employed of turning over to charitable persons or organizations all letters received through the mails from children anxious to consider their desires to the postoffice, bewitched little dispenser of toys.

Such postmaster has been authorized to dispose of such mail, local to his office, in accordance with the order.
