GERMANY TO SEND WARSHIPS TO WATERS OF MEXICO

Berlin, October 13,-The foreign offices here reached the conclusion this evening that the existing situation in Mexico is such as to necessitate the presence of a German warship in Mexican waters.

Washington, October 13.-Germany's decision to dispatch a warship to Mexican waters attracted wide attention in official circles here tonight. No intimation had been received here of Germany's intention, and President Wilson was informed only by press dispatches of the action.

No formal comment was made on the incident, but it was apparent that the Washington government was not dis-pleased. The sending of a German

"My opinion is that there can be no constitutional election in Mexico under existing circumstances," said Senator Bacon, chairman of the foreign relations committee, after a conference with President Wilson at the white house. The senator said he had not discussed that phase with the president, but that it was obvious that with the arrest of the deputies and the dissolution of congress no one would dare to take issue with Huerta and that there could not be any free expression of the people's will.

GEN. HUERTA PROMISES NOT TO HARM DEPUTIES

Mexico City, October 13.—President Huerta has assured the American charge d'affaires, Nelson O'Shaughnessy, that no violence will be done the imprisoned deputies. The American charge met the president by chance and, in the course of the conversation, warned him of the baneful effect which would be produced throughout the civilized world should harm come to the deputies.

Later the embassy received instructions from the state department at Washington to make precisely such representations; whereupon Mr. O'Shaughnessy formally communicated to the executive the Washington administration's expressions on the subject.

While promising that no harm would befall the prisoners, and adding there never had been any intention to inflict physical injury, General Huerta asserted that must of the deputies would have to stand trial for offenses against the government. He gave no intimation that any of them would be released in the near future.

Impeachment Court Adjourns Until Today As It Wishes to Hear Additional Argument Regarding Testimony.

GREAT CROWD SURGED ABOUT COURT CHAMBER

Somebody Started Story That Sulzer Would Appear and Démand Hearing - Sulzer Refuses to See Anyone.

Albany, N. Y., October 13.—The high court of impeachment which is to de-cide the fate of Governor William Sulzer, failed today to reach a verdict After a session of an hour and a half virtually all of which was held in secret, the court unexpectedly adjourned until 11:30 o'clock tomorrow to permit further argument by counsel relative to the testimony of Allan A. Ryan, Ambassador Henry Morgenthau and Dun-

This testimony had to do with alleged efforts of Governor Sulzer to suppress evidence against him and to obtain political influence to stop the The offenses alleged in this connection were not specified in the articles of impeachment, and upon the convening of court today, Judge Miller, of the court of appeals, raised the question as to where they fitted in. The executive session at once followed.

Great Crowd at Capitol.

Although it has been known for days that only two or three hundred would be able to crowd their way into the galleries, this did not deter several hundred persons from surging into the capitol halls and attempting to get inside the courtroom after the galleries were filled. Only those who were badges or were members of the ocurt got inside the courtroom and the first comers were let into the gallery. Most of them were women. Scores of spectators remained around the courtroom until long after court had adjourned. Somebody started a story that Governor Sulzer was going to pay the court a call and demand that he be heard and there were those who kept their eyes on the elevators, expecting momentarily to see the governor stride through the halls and before the judges. fore the judges.
The hour of the reconvening of the The hour of the reconvening of the impeachment court tomorrow was stan hour and a half later than usual in order that the senatorial members of the court might attend the session of the legislature set for 11 o'clock.

Governor Sulzer this morning began his third day of seclusion. Last Saturday morning it was announced that he would see no one until a verdict had been returned. Because of this a rumor has been current that now that the evidence is all in, a break has come between the governor and his attorneys. NEEDS OF SCHOOLS SHOWN IN LETTER FROM MR. SLATON

Present Deplorable Conditions in the Atlanta System Are Clearly Set Forth by the Superintendent.

BOARD INDEPENDENCE AND SPECIAL TAX URGED

'By This Method Quick Results Can Be Obtained and Political Feudalism Destroyed," He Declared.

The deplorable condition in the pub-ic schools of Atlanta are clearly set orth in a communication from Super-Constitution yesterday, in which he shows that great improvement is necessary before Atlanta's schools will be adequate to the needs of the city.

Among the faults of the present sysem, Superintendent Slaton stressei

the following: The salaries paid Atlanta teachers are less than those paid in many towns and hamlets of Georgia, and as a result the city loses the service of much first-class talent.

Many of the teachers are forced to

instruct sixty pupils, while thirty is the largest number that a teacher ought to have in one class, with forty maximum. Injure Children's Health.

We have sixteen basement rooms for the whites and two for the blacks and in two or our schools adjoining toilets force noxious gases into the nos-In many of the basements artificial light must be used, thus injuring the eyes of the children. "These conditions are criminal in a civilized com-

nunity."

Our failure to grant the negroes even semi-respectable schoolhouses is a great mistake and injustice. As a remedy for the present unfor tunate conditions in Atlanta, Superin-tendent Slaton suggests the political independence of school boards of education and urges that these bodies be given the right to levy a special tax for the support of the schools. "By this method quick results can be secured and political feudalism can be de-

Hundreds of New Suits Make Their First Bow to the Women of Atlanta

The Most Impressive Display of Suits We Have Made So Far This Season

We must lay particular stress upon the quantity of new suits that have just taken their places in the second floor.

It is impressive, and did one stop to reflect on its meaning, it would teach a fine lesson to the woman who has not yet been "suited."

Back of all these hundreds of suits that we will show today is a fine amount of **confidence**, of confidence in the women of Atlanta and in the styles, the desirability of these suits.

We know the suits are right, we know they are such that Atlanta women will want once they are seen!

The suit buyer is now in New York and these are the evidence of his labors.

But, the Suits——

How could we pen accurate descriptions of so many, how shall we give you an idea of what to expect? Only in the most general way, leaving it to your greater pleasure to discover the one most interesting to you. If there is one term that comes closest to describing what the suits are, it is

Novelties

These are novelties of the latest moment, and the cry is for novelties—it seems an echo to the voice of the good Dame who rules the fashions.

It may be a novelty because it is a velvet suit, because it is fur-trimmed, because it shows an odd little vest, because of its Oriental trimmings, because of the very graceful and unusual draping of the skirt — the advertising pen has had no such task before it this season, it outlines weakly the picture that you will see here.

Let it attempt another method These suits are from New York's stalwarts in the suit-making business, from those men who stand head and shoulders above the ordinary, who do things in a successful way. And, to make suits in this fashion, means that one

must keep in touch with Paris. The suits reflect Paris—they are copies of Paris models, others are adaptations, toned down a bit for American women.

And so we revert to what we said above—

This Is the Most Impressive Display of Suits We Have Made So Far This Season

and you are invited to make use of it to the end that your Fall suit shall be as smart and charming as, coming from this finest gathering of suits Atlanta has known, it could possibly be.

Body of Miss Dorothy Haugh of Valdosta, Found by Her Mother in Room in Thomasville Hotel.

Thomasville, Ga. October 13 - (Spenal) - Miss Dorothe Haugh, formerly of Knoxviile, Tenn employed at the Citizens' bank, of Valdosta, as assistant stenographer was killed last night in a room at the Southern Home, a boarding house conducted in this city by T C Duren The crime occurred this morning at about 4 o'clock and the perpetrator of the deed is unknown perpetrator of the deed is unknown

The gul was found by her mother when she went to her room on the third story to awaken her to take the morning train for Valdosta, the young woman having been in the city to spend Sunday with her mother and sister. She found the girl in a pool of blood on the bed and summoned a gentleman from across the hall to help her both thinking at the time that the girl had had a hemorrhage

Mrs Haugh soon discovered that a pistol was lying at the side of the girl near the wall. The pistol was found to contain one empty shell and five loaded shells. Mrs Haugh said that as she neared her daughter's room she heard a noise and at first thought it was a burglar who had shot to scare her. She saw no one enter or leave the room after she arrived.

Front of Skull Shattered.

Dr McIntosh examined the body and found that the whole front of the skull had been shattered apparently by one blow from a blount instrument, making a criss cross wound where it strick He stated that a pistol ball could not have made that sort of wound and no powder marks were found on the head. The girl was partially diessed, having on a kimono and her hair was up, apparently having been recently fixed or remaining all hight in that condition. The windows were all down and the shutters closed. Mrs. Haugh concluded at first that it was suicide because of the wound and because of repeated threats that the daughter had made in years past to take her life. She was queer the night before and said goodby twice to those in the lobby of the house before going to bed at 9.30 o'clock. She came down and told. Frank Burroughs goodb, after she had gotten up the stairs a short distance He works in the same bank in Valdosta and was in the southern Home. He told her that he would see her at the train in the morning and she remarked 'Well, you might get left,' and then went upstairs. Front of Skull Shattered.

Door Found Unlocked.

Ehe was heard to lock her door as she entered the room. The door was unlocked when her mother came to the room the next morning and found her dood. oom the next morning and found her dead
The coroner's jury has been in session all day hearing the evidence, but they have come to no conclusion.
The gul was 21 years of age and formerly lived in Knovville, her father being there now Her mother and younger sister have been in Thomasville for eighteen months, Mrs Haughm representing a large book concern.
The owner of the pistol has not been located not has anything been found in her effects which would lead to the belief that she had deliberately planned suicide. suicide.

A rigid search of the premises is being made. The murder is one of the most sensational and brutal that has ever been known in this city.

Wr Wells and Professor R. J De-Loach, director of the experiment station, say they will be ready within a few days to give to the people of Georgia in permanent form the results of their labors. They declare with confidence that cotton seed can safely and beneficially be used as a food for man, as they have found a chemical process through which the supposed toxics in cotton seed are entirely elliminated and the meal made fit for use as food for man.

ellminated and the meal made fit for use as food for man

Reduction in Cost of Living.

The object of Mr. Wells in the investigation has been to ascertain some method that will reduce the high cost of living. In this he claims to have been successful, as the use of cotton seed meal for food, according to his claim, will reduce the cost per caloric of human food some 60 per cent. In addition to that result regarding human food, the price of cotton seed that are today bringing on the local market \$24 per ton, the price of seed will be increased some 250 per cent.

Thus it is easily seen that an untold boon to southern farmers is wrapped up in Mr Wells' discovery, in which he alone is the pioneer in America. Another important development at the state experiment station is announced by Dr B P Higgins, who has just been installed as hotanist and plant pathologist, succeeding C A. Mc-Clendon Dr. Higgins ranks very high in agricultural science, and for a time has been student and associate teacher at Cornell university with the great Dr George F Atkinson in the study of plant diseases and their prevention

ATLANTA'S WOMEN SPEAK.

The organized women of Atlanta yesterday entered what promises to be one of the most achieving eras in their history. Anapublic school system of Atlanta, asking the co-operation of every civic and political factor in that task. That is the significance of the action taken yesterday by the City Federation of Women's Clubs, in called session as a result of The Constitution's 'exposure of the deplorable conditions in the city schools and the life-and-death need of The story is told in detail else-

A striking feature of the meeting yesterday and the program which evolved from it is that both emphatically disprove the assertion that organizations of women are not equipped to grapple with the large details of public business. There was nothing hasty, pyrotechnic or violent in the manner in which these women approached the school problem, considered it from all and laid down a method of sides full appreciation of its gravity. Their broad tolerance speaks in the eagerness with which they ask for co-operation and in their

uniformly receptive attitude. The distinguishing features of the program projected by the federation are:

1. The redistricting of the city. This is highly important, as readjusting the school boundary lines, and preventing such disasters as those rising from congestion at the Highland and Inman Park schools.

2. A new Girls' English Commercial High school. The need in this direction is

tragically apparent. 3. A special school tax, with a fixed maximum, the expenditure of which is to tion. Virtually every student of the situation approves this feature. It is only in this way that the schools may be given funds sufficient for proper maintenance. The proviso that the board of education be awarded exclusive control of the system and be held exclusively responsible is as at present, hold it responsible and then expect results is folly. It is imperative, politics be scourged from the board and the schools.

4. Committees of women from each ward need of the schools, to ascertain how school funds in other cities are disbursed, and to report jointly to the federation and the board of lady visitors, the latter being now the only municipal board composed of women in the city.

5. An emphatic protest against overcrowding, and against even the normal allowance of sixty children to the room. It is common knowledge among experts, and Superintendent Slaton himself has testified, that Atlanta's practice of crowding sixty children into a room is antiquated, unhygienic and detrimental to scholarship.

6. Relief for the barbaious overcrowding in the negro schools. The Constitution has often gone on record as contending that care of the negro from the educational and sanitary standpoints was a matter not for the philanthropic endeavor of the white people, but one sheerly of self-preservation. since the unfit negro is a menace to the

7. Securing of such funds as will insure an abundance of competent teachers.

There is nothing dogmatic or self-assertive in the attitude or program of these women. They simply recognize their duty as wives and mothers and citizens and summon, to quote Woodrow Wilson, all "forward-looking citizens" to their assistance. Their interest was instrumental in passing | dinner?

the \$3,000,000 municipal bond issue. which meant so much to the health and progress of Atlanta. The Constitution knows the women individually, and their leaders, well enough to be sure that they will not slacken their efforts until they have gained their ends. For the first time they have committed themselves as a body to a tremendous municipal reform. The move is a sig-

nificant one. The campaign inaugurated yesterday should prove epochal in the history of Atlanta no less than in the history of the federation. The Constitution pledges these courageous women its aid, confident that the movement is at last in the hands where it belongs. And The Constitution regards its success in enlisting the interest of these women in the modernization of the schools and the relief of drastic conditions, as among the most important achievements of its career from the municipal standpoint.

THE NEW CREMATORY.

Since its installation the new crematory has developed a series of mishaps of varying importance.

The builders are disposed to minimize them as inevitably incidental to the breaking in of the equipment, claiming that the furnaces and the major features of the plant are in excellent working order.

The Constitution is inclined to accept this statement, particularly since Chairman Ashley, of council's sanitary committee, himself an expert engineer, testifies that the furnaces proper come up to requirements. Chairman Ashley insists, however, and The Constitution is in entire agreement with him, that not a penny more should be paid by the city until not only the furnaces. but every adjunct of the plant is in perfect working order. He shows, unanswerably, that unless every detail of machinery and equipment is operating as called for by the specifications the smooth working of the furnaces alone will be of little worth.

The builders are no doubt honest in their intentions, and will, we believe, live strictly up to the letter of their contract. But the city can afford to take no

chances. It has already had several warnings.

The one safe and businesslike course is to suspend all further payments until it has been demonstrated conclusively that every part of the crematory will stand the strain of actual working conditions, not for a week lyzed to the essentials, they have virtually or a month, but for long enough to demonunderwritten the standardization of the strate conclusively that the plant is built to stand every reasonable strain for a time sufficient to prove that it will meet its contract obligations for the period of its nat-

The matter of garbage disposal is too important to Atlanta's health and progress to intrust to chance or menace with carelessness. Now is the time to exact from the contractors a plant perfect in every respect, proof against all ordinary breakdowns and fitted to give Atlanta the service for which it was intended.

The city has contracted to pay enough to get just that kind of a crematory, and it should know that it has just such a plant before it pays for it!

WHERE THE RACE IS FED.

Subscribing to the axiom that the child is the best asset of the race, the Georgia procedure. Care and deliberation marked branch of the National Congress of Moththeir every step. They indicated a ers, of which Mrs. James R. Little, of Atthorough familiarity with the situation and lanta, is president, is launching one of the farthest-reaching campaigns in the history of the state. The organization expects during the next few weeks to storm every county in Georgia in search of members, hoping so to add to its strength in numbers, funds and influence as will enable it to inaugurate the mission of child conservation upon a practical scale.

The people of Georgia, the mothers and the fathers, citizens generally, can give their support to no project more deserving or surer of dividends of an almost incalculable nature. It is a bitter truth that organized government and private organizations give more intelligent heed to developing a sturdy breed of cattle and hogs and be controlled wholly by the board of educa- sheep, healthy strains of cotton, corn and wheat than to evolving a healthy race of children, and safeguarding them after they

are brought from out of infinity. It is the day of the thoroughbred in the animal world. What about the thoroughbred in the human being? Science and common sense places plenty of aids at the thoroughly logical. To hamper the board, disposal of man in propagating and protecting a strong race, just as many and more than those practiced in building satisfactory too, as Mayor Woodward pointed out, that strains of cattle. We can, if we are suffiiciently particular, bring children into the world under the fairest of conditions from the physical, the mental and the moral to investigate thoroughly the status and points of view. After they are born we can minimize the death rate from all sources. When they begin to develop we can train them to an efficiency that will shield them against want and crime, and against their own frail tendencies.

All this and more the progressive thought of this age affords. The National Congress of Mothers realizes these facts. Its procedure is based upon them. It is directing its efforts toward strengthening the race where it is fed. Its branch in Georgia is in able and consecrated hands. The mother who affiliates herself with the organization, or the Georgian who subscribes to its propaganda, may do so with the knowledge that they are working with splendid tools and by an intelligent plan for the construction of better and stronger generations, generations better fitted to grapple with the problems that teem increasingly with the expansion and complication of the civilization of the future.

A Story of the Moment By WALT MASON. The Pamous Prope Pott

FOR THE DEFENSE

"The dresses the women are wearing nowadays are a disgrace," remarked the assessor, and whoever is responsible for the present fashions should be in jail. I wish the girls would get back to the safe and sane styles

of their mothers and grandmothers." "I agree with you that present fashions are enough to set a sensitive man's teeth on edge," said the village patriarch. "These diaphonous dresses and slashed skirts and such freakish garments often cause me to wonder whither we are drifting, and I feel a letter to the newspapers asking what the police are doing. But it's a question whether any noteworthy improvement would be observed if the females of the present generation returned to the fashions of their mothers and grandmothers.

Those mothers and grandmothers were excellent people in their way, but in the matter of dress they were as giddy as anybody. Unless you have seen a woman of the grand old days wearing hoops, you don't know what the word 'abnormal' means. When I was young the women wore hoops, and if two of them met on a public street all traffic was blocked until they moved When a woman entered a house she had to back out when she was ready to leave, for she couldn't turn around without upsetting most of the furniture A truly fashlonable dame looked like a haystack in mo-We complain now because skirts are made so narrow that a woman can't get one on without using a shoehorn, but if it comes to a matter of choice I'd prefer the tight skirt to the umbrageous affair the old time woman used to wear.
"After the hoops came the Grecian bend.

which baffles description. A woman with a Grecian bend looked like a sideshow freak. If somebody came down the street now wearing such a costume the city council would hold a special session and instruct the chief of police to do his duty. We talk a good deal about the immodesty of the present atyles, as though nothing so atroclous ever happened before; but if there is anything more immodest than the old-fashioned Gre-cian bend, which made the wearer seem deformed, I can't guess what it is. Look through the pages of any old time album and study the females of the Grecian bend era, and then say how you'd like to see your wife or sister or grandmother pushing herself around the public streets in such a rig
"In much more recent days there have

been fashions as idiotic as the old ones or the newer ones. It isn't long since women were wearing balloon sleeves and nothing sillier ever was devised.

never could see much profit in worrying over women's fashions. They change so rapidly and so often that by the time a man has got his hand in at worrying, some new decree is handed down, and the gar-ments that exercised him to such a degree are seen no more. It seems to me far more sensible to worry over men's fashions, and women look after their own scenic effects. I think men are greater idiots than vomen in the matter of clothing themselves. There is no reason why men should try to They are here for use rather than ornament, and it makes no difference what they wear. Women, on the other hand, have to be pretty and fascinating or they might as well be off the map altogether. It is their life work. We expect it of them, and if they fall short of our expectation and demands, we decline to marry them, and they pine away and die of broken hearts.

"Yet men follow the fashions as eagerly as women, although they con't need to, and wherever we go we see male human beings torturing themselves with collars which saw into their jowls, and shoes which reduce their feet to a shapeless mass. If some dinky prince in Europe appears in public with a green hat, and a weather vane on top of it, you'll see about a million fool Americans chasing to their milliners for green hats with weather vanes. Idiotic gentlemen all over the world tried to wear Emperor William mustaches, and later King Edward beards, and if King George appeared in Rotten Row with his teeth painted by a landscape artist, this country would be full of people with hand-painted teeth. So let us forget the fashions and play checkers to see who pays for the smokes."

How to Be Poor. (From The Indianapolis News.)

Until we get so rich that our wealth is a bore, it is very easy to be poor—com-paratively poor, of course, for that is the way we do it. As long as we are a little poerer than somebody we know, and as long as there are things that we can not afford we are poor because we think that we are you make \$100 a month, you may have to use a baseburner. Surely, it is a poor man who can not afford a furnace. If you make \$200 a month you may not be able to live in a \$60 apartment and it is a poor man who has to take care of his own furance. If you make \$400 a month you may forget about furnaces, but may still run your own car and of course, it is a poor man who has only one car. Beyond that estimate we should have to begin to theorize but you can probably go a long way beyond that and still be poor Being poor is the easiest thing we do. We do not need the high cost of living to help us. All we need is to think about the things we can not afford instead of about the things we can afford.

One woman, who can not afford porterhouse steak, said that she had found a cook book that told how to make a beautiful imitation. A few cupfuls of ground were to be arranged with strips o suct and a bone. The imitation cost almost as much as the porterhouse, and resembled it no more than an oil painting. It the woman had just forgotten all about por terhouse she would have been wiser and wealthier. As long as women attend "openings" to look at costly imported fantasies of fashion and try to imitate them, women will be poor. As long as men compare their salaries with those of other men, they will be poor.
Of course, it is difficult not to be poor.

but it is possible. Nobody wants to eat rice and canned salmon all the time, but mush is good, and soup bones are still attainable. If we are determined not to poor we must not only stop thinking of the things we eat and wear, but we must stop thinking of the things our friends eat and wear. Moreover, we must not care what the neighbors think about what we eat and wear, and we must be willing to offer our friends canned salmon and rice and mush. The high cost of living has threatened American hospitality. We can save it by feeding our guests mush and milk. Most of us have been Why not forget about poor long enough. the things we can not afford and so be rich again?

The Professional Forger.

(From The London Chronicle.) Forging is generally quite an amateur affair in England, but in India, where the professional forger flourishes, it is the business of a lifetime. A father, for instance who thinks he detects in his son an aptitude for the occupation, apprentices him to one of its masters. He learns, among other things, engraving, photography, paper making, chemistry, so as to deal with colored inks, and, above all, fine penmanship and delicate miniaturelike painting. After several years hard work he is pronounced pro-ficient, and sets up in business for himself, generally commencing by counterfeiting government stamps.

The World's Mysteries THE DREYFUS CASE

mall within recent years was the efforts of an element in the French political life of 1894 to rid the army of one of its most honored representatives on account of his parentage, and an attempt to disgrace him in the eyes of the people by charging him with

being a traitor to his country.

Alfred Dreyfus was, up to this year, a aptain of engineers in the French army, and held a high position on the general staff. About the middle of October he was arrested on a charge of treason, was secretly tried by court-martial, was convicted and publicly degraded. He was then sent off to a lonely convict station on the coast of French Guinea, where he was closely guarded and

The ostensible charge against Dreyfus was that he had sold military information to foreign government. The chief evidence in support of the grave accusation was a compromising document stated to have been found in the waste basket of the German embassy in Paris, which it was alleged was in the handwriting of the incriminated of-

The arrest, trial, conviction, degradation and deportation were wholly unwarranted, and, in fact, deplorable acts. There was very meager evidence upon which to base so serious a charge, save the mere supposi tion by experts in handwriting, who were undoubtedly quite astray in their judgment that the document found in the German embassy incriminated Dreyfus.

In the first place the German minister in Paris stated that no such doucment or "bordereau," as it was called, could have been found at the embassy. He was not allowed to testify to the effect that he knew nothing of Dreyfus and had no communication

with or from him. Further circumstances were to be noted in the trial, which gave occasion for the widespread suspicion among fair-minded Frenchmen that the officer in question was either the victim of jealousy, and, possibly hatred on account of his religious faith, or was cruelly made the scapegoat for some one else's perfidy.

The trial was not only conducted with closed doors, and before those who seem to have been insanely prejudiced against Drey-

One of the most striking cases of black- ; fus, but neither he nor his counsel saw or was informed of the evidence on which the unfortunate officer was convicted. The trial was so manifestly unfair, and the doomed officer was so conscious of his innocence, that his friends took up the case and never gave up until they secured his reinstatement and vindicated him, but they were not able

accomplish this until July. 1966. To Dreyfus himself France made all the reparation it could. On the twelfth of July, 1906, its highest court pronounced a decison which branded with falsity and forgery every document and the whole testimony on which he had been convicted, and declared that "the accusation against Dreyfus vas completely unjustified." He was reinstated upon the very spot where he had been degredated twelve years before, and besides, received the insignia of a Chevalier of the Legion of Honor.

This brought the "bordereau" agitation to a final conclusion, but its author was never brought to justice, and, in fact, the real leaders in the conspiracy against Dreyfus were never punished, and, in fact, their identity was never revealed, with the exception of Esterhazy, who it was supposed was used as a scapegoat by some one higher in authority, even the French minister of war being mentioned as the leading spirit in the ttempt to ruin Dreyfus.

The champion of Dreytus in an attempt to prove his innocence was M. Zola, the eminent French novelist, who, in an open letter to the president of the republic, ve-hemently attacked the military administration for his conviction and the acquittal of Esterhazy. He charged them with conspiring to ruin an innocent man, and scandalously to screen the real culprit.

So fierce and outspoken was his arraignment of all who had to do with the conspiracy against Dreyfus, that the legislature, the Paris press, and almost the whole of the French nation went into convulsions over the matter, from which they have hardly ecovered, for in June, 1908, on the occasion of the translation of the remains of Zola to the Pantheon, Dreyfus was shot and wounded by a fanatical journalist named Gregori, who was subsequently acquitted by a Paris jury of the charge of attempting murder, his own plea I ing that he had merely intended a "demonstration."

EXPECTATIONS By GEORGE MATTHEW ADAMS.

What you Expect you usually get. What you Expect from your friend your friend usually gives you. What you Expect from the Work which you perform you usually Your attitude on every question is rgely controlled by your Expectations. Expect no less than the Best and you will

get no less than the Best. If you start every day Expecting to make that day the best you have ever lived and the work that you do in that day better work than you have performed before, you may rest assured that that day and that work are going to garland you with honor. And after all, the disappointed are not those who did wholly get what they expect, but those

who dld not Expect what they desired to Expect no less than the Best and you will

get no less than the Best Every man Expects something from every other man. We must all be in accord to some extent. Lord Nelson, before the great battle of Trafalgar, exclaimed that England expected every man to do his duty and every man in believing that England expected just that thing—did his duty and thus was won that famous battle. If you believe that every other man expects something from you and ou render service of some sort wherever it is possible, in turn you have a right to expect service to be rendered back to you

Expect no less than the Best and you will get no less than the Best.

October's Dreamy Days.

The Autumn leaves He littered distant hills and valleys A wreath of silvered haze, While gaily-decked October Smiles through the dreamy days.

Like bells from Elfland ringing Across the grasses sear, The wonderland minstrels singing Their songs of hope and cheer-And hale October flinging His gold down everywhere! IIL

Along the reed-banked river, In evening's wonder-glow, Pan pipes his magic quiver In cadence sweet and low, And watches with October The shadows come and go IV.

And fleecy clouds at sunset In skies of amethyst. And ah, such stars at twilight Above the purple mist-When fairy-folk in Dreamland Convene in tender tryst

The Autumn leaves lie littered Along the forest ways-And how I love the valleys, The distant hills and haze-The stars and skies and sunsets-And dear October days!

"Little Bethel." (From The Indianapolis News.)

Little Bethel, the chapel in "Old Curlosity Shop," in which "prolonged spiritual nourishment" was furnished to a small congrega-tion, of which Mrs. Nubbles, Kit's mother, was a member, is the subject of an interesting sketch in the September number of the London Dickensian. The true name of Little Bethel was Zoar chapel, in Whitechapel. The Dickensian says it was a fine specimen of a seventeenth century conventicle with a great deal of old oak about it and a handsome pulpit. In the early part of the nineteenth century it was a place of considerable influence among the strict Baptists, their distinguishing tenets being that they permitted none to take communion with them except those who believed in the doctrine of election and had undergone the rite of baptism by immersion. "The side of Zoar chapel life, which Dickens noted in 1840-41, when writing 'Old Curiosity Shop,' ". says the writer in the Dickensian, whose mother had attended the chapel, "was decribed with precision and truth; he cantured the phraseology of the place com-pletely. All the comedy he said was there; the people at the place were tremendously in earnest in all they did, and intense carnestness was always its grotesque side. there were simple, honest souls there, full f uprightness and integrity. Narrow minded they certainly were, but in this they were better nor worse than their neigh bors, and it often happens there is greater strength that runs in narrow channels than in the stream that is shallow and broad. The hapel disappeared three years ago, and today only its four walls and roof with akylight remain to form the walls of a ware-

THE COW

By GEORGE FITCH, Author of "At Good Old Siwash."

Of all the animals designed by nature the low is one of the most successful. She is a neat, durable animal of modrate size, and fitted with a large number of very ingenious conveniences. In fact the evidences are that the cow was constructed a long time after man was invented, and that she embodies the result of much more

experience.

The cow is toeless, and uses instead a cleverly designed cloven hoof, which is not afflicted with corns or bunions. Because of the fact that she does not need shoes the cow is able to afford four feet. With these she can travel twice as fast as an ordinary man, and can also eat at an angle of 50 degrees on a slippery hillside with perfect comfort.

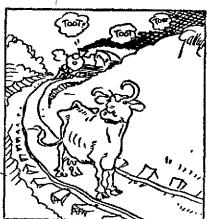

The cow has no upper teeth. Those mortals who have spent their nights carrying a double set of insurgent teeth around a hedroom and their days earning money enough to have these teeth yanked out and replaced

have cause to envy the cow with great fury. The cow also has four stomachs. This enables her to have indigestion in one stomach and yet to limp along very nicely on three cylinders through a 189 course dinner. Because of her four stomachs the cow is also able to eat all day and far into the

The cow is also able to swallow her food in bunches and to chew it afterward. It is disgusting to think that nature has wasted this magnificent arrangement on a cow while thousands of American business men are turning yellow and shriveling up with

dyspepsia for want of it. The cow is also able to carry her milk supply through the hottest summer without ice And yet in spite of all these improve-ments and facilities the cow is not rich. In fact she hasn't a cent to her name.

Barring the fact that she is worth 25 cents a pound when converted into porterhouse steaks, dried beef and soup bones, she is a bankrupt, and has to depend for food all winter upon the efforts of a hired man with

She knows that whatever the engine does to her will increase her value from 25 cents to \$1.50 a pound."

The cow is like too many humans. She s magnificently equipped for life, but she declines to worry. Even when a cow strays upon a railroad track and faces a tooting locomotive she maintains her placed disposition and her sweetness of temper.

But perhaps this is because she knows that whatever the engine does to her will increase her value from 25 cents to \$1.50

a pound. Denatured Profanity.

(From The Indianapolis Star.) A reflective citizen writes to a New York to urge that profane language be barred out of the common vocabulary, and that when a man feels that he needs some expletive he will choose a sweet and beautiful word instead of the customary phrases and words that many people find blasphemous and offensive. With 450,000 words in the English language at our command, he submits that it should be easy to select pleasing terms even for swearing purposes Let us, he claims, cultivate and encourage a love

for the beautiful in speech at all times. It is an interesting idea, but not altogether new. Our mothers and our sisters and our aunts are, as a rule, constitutionally opposed to profanity. They are shocked by the coarse words, the "dams" and "devils" and references to unholy regions that fall from the lips of male humanity in moments of excitement; but there are times when even the gentlest of women feel the need of emphatic terms as an outlet for their emotions. Long ago some of them fell into the habit of substituting "pshaw" and "sugar," "sakes alive," "dear me," and the like, for sakes alive," "sakes alive," "dear hie, and the like, for the objectionable swear words used by their men folk. To say "Oh, sugar," with as many imaginary exclamation points after it as the occasion seems to demand, apparently served to relieve their minds quite as well as if they had used a big, big "D." And what sould be more mellifluous than "Oh, sugar?"

Women of Atlanta Pledge Aid In Solving School Problems; Special Tax Is Urged by Many

y Federation of Women's called session, yesterday Clubs, in called session, yesterday pledged themselves to "pernetual interest" in the schools of Atlanta with a spirit, directness and earnestness that leaves no doubt in the minds of those who were present that this interest will take the form of putting the school system of Atlanta in line with teh best in the country.

The great needs of the system, they pointed out, was more space for the seating and distribution of Atlanta's army of school children, both white and colored, and the power to demand increasing quality of personal fitness and professional equipment in our growing corps of teachers.

Both these needs can be met only by money, it was set forth, and it was suggested as a remedy that a school tax, bounded by a maximim amount, be levied in part or a whole annually as needed by the board of education, or by that part of the city government charged with the administration of the schools, the entire freedom of such a board or body from control in this administration.

Further recommendation was that such a board be charged with the responsibility of the schools; such a board should be given full authority to meet this responsibility, and such a board should be judged by the results produced.

"We are in serious need of spacious lots and commodious grounds, as well as large and well-equipped buildings for our four high schools. I refer to the two Boys' High schools and the two Girls' High schools. We also need a number of new grammar schools in various sections of the city to relieve the congestion and constant increase in enrollment in our grammar schools. For these permanent improvements for our high schools and grammar schools, I am of the opinion that there should be a bond issue in some proper amount, to be determined by a conservative and progressive policy, so as grammar schools."

Window of a Thousand Pieces Is Dedicated to Mrs. McBurney

Beautiful Memorial Windows at North Avenue Presbyterian Church Attracts Much Attention.

One thousand pieces of finely carved stained glass, reflecting the light in a wealth of color and beauty, from a window that has just been placed in the North Avenue Presbyterian church in memory of the late Mrs. E. P. McBurney. When viewed for the first time Sunday morning by hundreds of Mrs. McBurney's former friends and devoted admirers it was pronounced a work of wondrous art. Remanesque in style, the window porbackground of luxuriant follage. background of luxuriant foliage. The angelic figure, clad in robes of light angelic figure, clad in robes of light cupies a central position. To the right a magnificent tree is pictured whose generous branches extend over the angel's head. In the foreground on the left there is a small cluster of the brilliant irls. Deep blues and purples abound in the foliage surrounding the figure, and the hands of the angel are extended in token of good will.

The window was designed and executed by the Tiffany Studios of New York, receiving the special attention of Mr. Louis C. Tiffany. It forms, indeed, a fitting memorial to the sterling

DORSEY EXPECTED BACK IN ATLANTA WEDNESDAY

Generally Believed That Solicitor Will Ask Continuance of Leo Frank Hearing.

That Solicitor General Hugh M. Dorsey, who has been in Valdosta for a week with E. A. Stephens, his assist-ant, devoting himself to preparing a reply to the motion for a new trial for Leo M. Frank, will return on Thursday or Friday, of this week, was the statement made in a letter he sent to Atlanta yesterday. The solicitor does not state whether or not he will be prepared to reply to the defense on Sat-urday, when the case will be called, but it is believed that he will ask for further time. The defense cited 115 allegations upon which they base their claim for a new trial, and the reply to it is expected to be a lengthy one.

In the meantime the defense, after attacking Jurors A. H. Henslee and M Johenning, have added further affidaattacking Jurors A. H. Henslee and M. Johenning, have added further affidavits against Henslee. The latter stated in reply to the first charges that he had expressed belief in Frank's guilt of the Mary Phagan murder, that the statement had only been made after the trial was over. Various Monroe citizens now come forward and state that they have not seen Henslee since the trial, and that it was some time during June and before the trial started that he declared that Frank should be hung.

Statements have also been taken supporting the character and standing of the men who made the attack on Henslee. The charge of bias against the two jurors and the alleged errors in ruling made by Judge L. S. Roan during the trial form the basis on which a new trial will be demanded. While the case is being postponed and the solicitor devotes his entire time to making his reply, court affairs in Fulton are getting each day more congested. Judge Roan is waiting until after the hearing to take his place on the bench of the court of appeals, and Judge Benjamin H. Hill, of that court, is waiting to become a member of the Fulton superior court. Should this change be made at present, the criminal business of the county could not proceed, as the county would have no solicitor to prosecute its cases or to present indictments to the grand jury.

Dorsey Coming Home.

Committee to Meet.

The first fall meeting of the Atlanta Woman's club was held yesterday afternoon at the clubhouse, on. Baker street, Mrs. A. P. Coles, the president, presiding. Mrs. Coles gave in outline the plan of work for the coming year, which promises to be a bright one for the club. The program as planned is most interesting and instructive. After the reading of reports, the newly elected chairmen of the different standing committee were installed and the members of the committees announced.

A motion made by Mrs. James Jackson that the club indorse the movement to build a central market was enthusiastically carried.

Mrs. A. McD. Wilson, who has made a thorough study of the question, made a short talk in favor of the market.

Noted New York Expert Says Bad School Work Is Behind Criminals, Defectives and Prostitutes.

The first thing that Dr. William Martin Richards, the noted New York investigator, did upon his arrival in Atlanta yesterday was to visit The proval of this newspaper's campaign for more schools and better facilities for teaching the public school chil-

Dr. Richards is, perhaps, America foremost advocate of medical inspection of school children with the ultimate view of curing mental and physical deficiencies. He started the agitation in New York, and as the result Gotham schools will, within the next year, have clinics in which hereditary and acquired evils of school children will be cured.

year, nave clinics in which hereditary and acquired evils of school children will be cured.

Work Started in New York.

The work has been started in New York—that is, it has passed the experimental stage—and will soon become an institution which, it is hoped, will cure the defects of 95 per cent of the school children.

"I did not know what the conditions in Atlanta's schools were until I read The Constitution on the train as I was entering the city." Dr. Richards continued. "The object of my visit, let me state at the outset, is not to investigate the schools or to criticise any system or individual.

"Scientific researches have shown that children who are mentally and physically deficient in school are incompetent men and women, and a large per cent of the prostitutes and criminals of the country are men and women whose mental and physical defects were overlooked when they were children. My work in Atlanta will be chiefly among prisoners. I am going to make an inspection of prisoners at the federal penitentiary from which I expect to gain additional data to apply to the studies we are making."

Dr. Richards cited figures which show that out of 625,000 children in the public schools of New York, last year, about '10 per cent, or 62,500, did not gain promotion.

"Stand before your mirror when you go home tonight," said Mrs. Spiker, "and see how ungraceful you are. Look at the position of your chin, the appearance of your hands, and cultivate the little points of gracefulness in every movement of your body. You will find this a wonderful aid to you in all kinds of public speaking. Mrs. Spiker, who is president of the Atlanta branch of the Drama League of America, which meets Tuesday afternoon at the Georgian Terrace, began with Monday's lecture at the Law school a course in expression and public speaking, which she will conduct before the law students every Monday afternoon during the coming winter.

MANY FORGERY CHARGES MADE AGAINST BROYLES

Charged with victimizing a large number of prominent business firms with "get-rich-quick" methods, Emerson Broyles, aged 21, a stenographer in the employ of Logan Williamson, was brought to police headquarters Monday after having been arrested Sunday night in Marietta.

The arrest was caused by Mr. Williamson, who charges that young Broyles forged the name of his employer to several checks. An alleged charge which Broyles will face is that of robbing the mail order department of the Southeastern Passenger association.

of the Southeastern Passenger association.

Many business firms of the city, it is said, will assist in prosecuting the youth on charges of bad check handling and other misdemeanors. He will not talk to reporters and has engaged counsel. His trial will not come off until the investigation is at an end into his alleged criminal operations.

Among the firms who accuse Broyles are H. W. Rountree & Bros. C. A. Dahl, L. C. Adler, Carlton Shoe and Clothing company, Red Seal Shoe company, Candler restaurant, J. Fiscman & Sons, Crankshaw company, Tom Weaver, Nichols Art shop, West View Floral company, Lester Book company, Jones & Phillips company and the Majestic hotel.

He was arrested in Marietta Sunday night as he stepped from a Louisville and Nashville train coming from Knoxville.

advocating Atlanta-grown and prepared edibles, as he asserts that they are the best to be obtained anywhere in the country. Accordingly, he is going to prove his theory by the old way—"the proof of the pudding is in the eating."

It is expected that at least a hundred merchants will be present, and Mr. Camp hopes to instill in the mind of each one that it is not only best to buy Atlanta-made products, but that the goods find better favor with the public by reason of their superiority. Among the items which will appear on the menu made in Atlanta are boiled ham sandwiches, peanut sandwiches, crackers, cakes, salad dressing, coffee ground and roagted in Atlanta, and many other things which Mr. Camp claims will fairly melt in the mouths of the members of the association.

88-Note Player Piano

Another triumph by the W. W. Kimball Co., the world's largest manufacturers of Player Pianos. New features of construction in case design at a price that challenges competition.

This new style Player Piano is made by the world's largest manufacturers of pianos—by the largest number of skilled workmen, and marketed direct through this Branch Store, eliminating the intermediate profits of the jobber, dealer and agent, and consequently at a material saving in price to the buyer. Our unlimited facilities for manufacturing naturally reduces the cost of production, which means greater Player value for less money. This is the reason why we are able to offer you such a remarkable Player Piano at such a remarkable price......

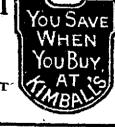

Standard Kimball Player action, built in a genuine Kimball piano, at a price without parallel in the annals of piano purchasing. A \$700 value—as compared to prices asked by dealers and agents. We could reduce the cost of manufacture, gloss over the short-comings, and sell for less money, but we won't; because our reputation is involved. We could charge more, but we couldn't give you a Player Piano with better qualities of tone, greater durability, or increased facilities of expression. It is true that we have more expensive instruments, but the difference comes largely in the case.

The Kimball Player is the very embodiment of new life and happiness. It helps to entertain your friends, and is always ready to respond to the musical tastes of every member of your family. No home is hardly complete without a Kimball Player.

WHEN ONE tries to interview Connie Mack, manager of the world's champions, it is much like interviewing yourself, but a Philadelphia scribe sot an interview out of him recently that is worth commenting on The scribe asked why he took a chance with Schang in the first game of the series with the Giants Mack's answer covered the point full. It was "You have just thought of this boy. I've been thinking of him for a year and I knew what he could do" That's typical of Connie. All his movements date back considerable time

ALONG this same line, just a little comment on the fine youngsters that Mack picks up and which the other teams comment on as being luck. It is not. Connie brings in the youngsters when he thinks they are ripe He has had them under cover, so to speak for a year or two and knows all about them and their ability, while the fan flock only know them when Connie introduces them in big league ball But they nearly always are ready then to play regularly

WHEN CONNIE MACK turned loose Jack Knight, the Philadelphia school boy, He got the worst panning from the press of Philadelphia that he has over received. No matter what they say of Mack, he seldom replies, but on the occasion of Knight's release he said "When you see Frank Baker play third base you'll forget that Jack Knight ever lived." Was Connie Mack right?

BISLAND, former Cracker shortstop, now with the St. Louis Browns, is not at all satisfied with his showing thus far in the majors, but he is not discouraged He writes 'The pitching up here has not fooled me a bit, but I just can't get a hold of the old pill Branch Hickey is a dindy good feilow and gives me no end o encouragement, so I am certain of gatting every opportunity to show what is in me I am certain that I will have better success next season

WARES, the little 50 ond baseman of the Montgomery Billikens, who is also with the Browns, is making a great showing and it is certain that he will stick. In fact, when Bisland and Wares hit their real stride, the Browns will have a great infield. Austin, at third, and Pratt, at that have the big league experience and are delivering wares is hitting. When Bisland comes through as regularly as he did down here, watch those Browns go

GEORGIA met with some misfortune in the game Saturday with Dahlonega when Carey, Crump and Dorsey were badly hurt it is feared that the first two named may be out for the season. We trust that when a careful examination of the two stars is made that the dirst reports were magnified and that they will be back in harness soon.

Merry Scramble.

AFTER LOOKING over the showing of the larger to me in the S 1 A A this season it begins to look as if there is going to be a merry scramble for the championship honors the present season Usually Vanderbit has this sewed up before the season opens but this year there and more than one other team that appears to have an equal chance at this stage

Hair Grew 4 Inches In A Few Weeks

St. Louis Lady Increased the Length of Her Hair Four or Five Inches in a Few Weeks With This Simple Home Recipe.

A well-known St. Louis lady, after using a simple recipe on her hair which she mixed at home, made the following statement. "Without exaggeration, my hair has grown four or five inches." The recipe she used is as follows, and any lady or gentleman can mix it at home: To a half plut of water add 1 oz. of bay rum, a small box of Barbo Compound and ½ oz. of bay rum, a small box of Barbo Compound and ½ oz. of the fingers It not only promotes the growth of the fingers It not only promotes the growth of the hair, but removes dandruff, scalp humors and prevents the hair from falling out

It darkens streaked, faded, gray hair and makes it soft and glossy. These ingredients can be obtained from any drug store at very little cost and mixed at home,—(Adv.)

URIC ACID IN MEAT

Take a glass of Salts if your Backs hurts or Bladder Bothers

If you must have your meat every, eat it, but flush your kidneys the salts occasionally, says a noted thority who tells us that meat forms the salts of the salts

with saits occasionally, says a noted authority who tells us that meat forms wirle acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken then you suffer with a dull misers in the kidney region, sharp pains in the back or sick headache dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated chilging you to seek relief two or three times during the night.

To neutralize these irritating acids to cleanse the kidneys and flush off the body's urmous waste get four ounces of Jad Silts from any pharmacy here, take a table-poonful in a glass of water before breakiast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon fuice, combined with lithia and has been used for generations to thus and stimulate sluggish kidneys, itso to neutralize the saids in urine so it no longer irritates, thus ending bladder weakness. Jad Salts is inexpensive, cannot in jure, and makes a delightful effervescent lithia-uster drink—(Adv.)

NEGRO UNDER ARREST SHOOTS BYSTANDER

Abbeville, Ga., October 13.(Special)
When Deputy Sheriff O. L. Smith attempted to avrest a negro, supposed to be an escaped convict from the state of Alabama, the negro fired, the shot missing the deputy, but striking J. E. Johnson, who was standing near, making a serious wound in the hip.
When the negro shot he made a break for liberty. Hie was fired at several times, but succeeded in getting away.

The sheriff with a posse and dogs are after the negro. He may be severely dealt with, should he be caught, as feeling is running very high against the negro.

Johnson is a highly respected citizen of this place, being connected with the Southern Express company here. Late reports are that he is resting very well, although his wounds are very serious.

Blake's Appeal Argued.

Blake's Appeal Argued.

The United States circuit court of appeals yesterday heard argument in the appeal from Judge Newman's decision of Edward F. Hlake, now serving a term in the federal prison near Atlanta. Blake was sent up from the federal courts in Boston after being convicted of violating the postal laws. Ho was sentenced on three counts of the indictment and has served the time imposed on one count. Lamar Hill, of Atlanta, declaring that one sentence was sufficient under the laws, had the prisoner brought before Judge Newman several months ago on a habeas corpus writ. Judge Newman ruled that the statence given by the trial judge was legal and right. It was then that Mr. Hill filed an appeal to the higher court.

The Safe Choice

IN SELECTING A DEPOSITORY for your funds, absolute safety is your first consideration. A wealthy bank with an inexperienced Management and Directorate may be all right, or a moderately rich bank with a strong Management and Directorate may be able to afford you every courtesy you desire. But decidedly the safe choice is to deposit in a bank with an experienced Management and an able Directorate, and where its reputation for meeting every need of the most particular deserving depositors extends over a period of many years.
The ATLANTA NATIONAL BANK

has met all these requirements.

ATLANTA'S STRIDES

All the Latest Real Estate and Building News.

A. F. Liebman, renting agent for the new 16-story Healey building located at the orner of Walton and Forsyth streets, declared last night that he had already received more than 500 applications from prospective tenants for offices. He stated that he had made no leases and would not do so for several weeks yet. The Healey building contains 500 model offices, and each office is an outside room, affording every facility-light, heat, ventilation, etc. Present indications are, according to Mr. Liebman, that the new building will be completed by January 1.

Mr. Luebman has no fear that he will experience any difficulty in filling the building, and plans to have all his leases start from the first of the year.

Transfers of Small Properties Heavy.
Yesterday the number of transfers in small properties was comparatively heavy for this time of year. There were three warranty deeds to parcels on Piedmont avenue near Forrest avenue. A heavy assortment of transfers from Dokalb county which represent papers filed there last Saturday were noticed. Dekalb county owners and traders are much interested over the completion of the new Stone Mountain interurban street railway, and are confident that this should greatly enhance the value of sites along the line.

Market Has Good Tone.

All dealers, without exception, are optimistic and are agreed that there has been a pronounced change for the better in business sentiment, and prodict an unsually active fall boom. Tehic is yet considerable "swapping," but this is on a more conservative basis with a tendency toward cash inclusions. Money, it is stid, is much easier, and fine crop conditions, with cotton the highest in recent years is sure to have the desired effect. Much new building is in progress, not only in the heart of the city but many new houses are going up on the outskirts of town Some big permits are expected to develop in the next several weeks.

Large real estate dealers voice the opinion that Atlanta bankers are doing more tor the market at present than any other one thing. According to them, the bankers are most liberal and willing to take long chances when assured that the money borrowed will be invested in good, solid Atlanta real estate. They ask no better security, and the dealers state that the aid from this source has helped them to swing some large deals this fall which otherwise would not have materialized.

Prosperity Sale

A Week of Profit Sharing With Our Friends

GEORGIA enters upon her greatest era of prosperity. Bank clearings are the greatest in our history. Bank deposits are heaviest on record. Crops are phenomenal. Cotton will bring in about two hundred millions of dollars into the State. The corn crop breaks all previous records. We have been bountifully blessed. Georgia—and Atlanta most of all—will benefit by this unparalleled prosperity. M. Rich & Bros. Co. has already shared. Business for the past nine months has been the best in our history; the next three months promise even greater prosperity. We are grateful for this. Wishing to express our gratitude in a substantial way, we inaugurate

"I LOVED MY WIFE," BARRON DECLARES

Accused Physician in Henry Proposition to Change Title County Jail Makes First Statement Since Arrest.

the poisoning of his wife, today gave out the first statement he has made since his arrest

Without a sign of nervousness, with the utmost composure, the young physician declared his innocence in terms as strong as he could make them, saying he believed that he would be free within the space of a week After declaring his innocence Dr Barron gave an account of his countship of his present wife, whom he married last Tuesday, only two days after the death of his first wife. He gave as the reason for his sudden marriage to Miss Wheeler a desire to secure someone to care for his four little children.

According to Dr Bairon's statement, he drove to Conyers the day his first wife was buried, and asked Miss Wheeler to marry him She consented, and the marriage was performed the next day.

"I am innocent of the charge of poisoning my wife," declares Dr Barron oning my wife, and that I'll be vindicated and restored to my second wife and my darling children. I'm simply a victim of strange circumstances.

"Let me go to him" Let me save him! I must save him, because I love him I must save him, because I love him so" the young wife plead all through Sunday night and Monday while her mother, Mrs Maggie Wheeler a well-to-do and respected widow of this county, sat by her bedside trying to comfort her

WR S Mann, of Milner, the father of the dead woman, who, swore out the warrant for Dr Barron's arrest reiterated today his belief in the guilt of his son-in-law, and declared that the Case against him was growing strong every day, with additional evidence being secured.

An Affinity in Atlanta.

College mates of Barron in Atlanta declared Monday that while he was studying here he had shown unusual attention to an Atlanta gri, notwithstanding the fact that he was a married man They declare that Dr Barron made no secret of his attentions to the girl and that he was in her company every day.

Only the preliminary tests had been completed by Dr Everhardt, the Atlanta chemist who is now examining the stomach and other organs of Dr Barron's dead wife for trices of poison He states that he will not be able to make any definite announcement before next Wednesday

GORDON WILL NOT

AID IN BIG HIGHWAY

Calhoun Ga, October 13—(Special)
Gordon county will not participate in
the building of the proposed JohnsonSherman highway between Chattanooga and Atlanta This was decided at a
called meeting of the commissioners
of roads and revenues The latter have
just met and rescinded the special tay
which had been levied for the proposed new road
This development was brought about
by the filing of an injunction against
the collection of the tax by Attoiners
Hamilton and Hutchens of Rome, who
were employed by the faction fighting
the construction of the great government highway. It is thought that there
will be a strong effort made to yet secure the aid the government has offered in the creation of this muchneeded highway.

Comfort

Between Peachtree street and Piedmont avenue, on lot 75x185 feet to an alley, we offer one of the most up-to-date homes in the city. The home will have to be seen to be really appreciated

From the dignified outside appearance, to the inside detail work and conveniences, that are only found in the higher class homes, there is an air of refinement and individuality that is only found in homes built to suit people whose taste is just a little different from the average home builders.

This lot is just a little larger than the average city lot, is elevated, lies well and has an alley in the rear. Taken all in all, the lot, the location, the home and the price, which is very reasonable, should make this home appeal to you if you are in the market for a high-class home.
