Paralysis Attacks New York Leader as He Denounces Tammany at Fusion Meeting—Condition Serious.

New York, September 29.—Timothy L. Woodruff, former lieutenant governor of New York, was stricken to night in Carnegie hall just as he concluded an address at the fusion notification meeting.

As he was speaking Mr. Woodruff turned to the right and fell. The fusionist candidate for mayor, and complained of a pain in his knee. He continued his address however but as he concluded he reeled and would have fallen had not several others on the platform supported him.

Mr. Woodruff was carried to an anteroom where he was attended by two physicians. Later he was removed to his apartments in an uptown hotel accompanied by Mrs. Woodruff who had attended the meeting with him.

Timothy L. Woodruff, who is 55 years old, has been a political figure in New York state for nearly 30 years. Up to a year ago when he left the republican party and joined the progressives there were few republican conventions which he did not attend as a delegate.

For years Mr. Woodruff was chairman of the republican state committee leader of the republicans in Kings county, embracing Brooklyn and a dominant adviser in his party's politics of the state.

When Theodore Roosevelt organized the progressive party Mr. Woodruff joined the republicans and subsequently as a member of the progressive leadership in Brooklyn.

Woodruff attacked Tammany. Soon after Mr. Woodruff was taken to his apartment Dr. Norman E. Dillman and two nurses arrived and took charge of him. Mr. Woodruff in his speech had bitterly attacked Tammany Hall and praised Theodore Roosevelt and Governor Woodruff.

He had just concluded a reference to William Brewster, the candidate for comptroller, when he was seized and he seemed about to fall. The last few words he uttered came in gasps, and scarcely had he uttered the first word of the large audience in Cooper union became silent.

KNIFE USED ON LODGE TO CURE GASTRIC ULCER

Senator's Life Despaired Of for a Time, But Physicians Report Improvement.

Nahant, Mass., September 29.—United States Senator Henry Cabot Lodge, senior member of the Massachusetts delegation in congress, who was operated on Friday for a gastric ulcer, was, according to his physicians tonight, not entirely out of danger.

The operation itself, his physicians said, was successful, but the patient weakened by his labors at the extra session of congress, died in a hospital to rally promptly from the shock.

Even some of the senator's most intimate friends were surprised to learn of the serious nature of his illness. He had returned from Washington ten days ago complaining that he was tired and weak.

The family now greatly worried called in Drs. Harrington and Winslow to examine the senator's condition. Dr. Harrington performed the operation Friday assisted by Dr. Winslow.

CONGESTED SCHOOLS
BLAMED ON COUNCIL

Superintendent Slaton Describes Difficulties Confronting the Educators of Atlanta.

In reply to a persistent rumor going about the city to the effect that the Highland school is so crowded that a number of children are compelled to sit on the floor or miss classes, Superintendent William M. Slaton yesterday issued the following statement, in which he places the blame for the existing congested condition on the city council.

While it is not true that some of the children are actually compelled to sit upon the floor, it is true that we are cramped for room in the Highland school that it is well nigh impossible to accommodate all who apply for admission.

The existing condition is in a large measure, it not wholly, due to the delay of the city council in appropriating funds for school purposes.

Many citizens of the First Ward urged me to enter the race for Councilman on the plea that they wanted an active business man to represent them in Council.

Now, a short statement is in order to advise the voters as to my position on matters affecting the ward. In the first place, our greatest need is a new, modern, well-equipped brick building for Davis Street School.

JAPAN TO TURN CHINA INTO A BATTLEGROUND

It Is Proposed to Plant Strong Japanese Garrisons All Over China

London, September 29.—A Peking dispatch to the Daily Telegraph says Japan is preparing to make China a battleground. Her rivalry with Russia was ended by the "two war" Russo Japanese agreements which ever exist covering Mongolia or (or related) Korea. The Japanese policy has been to preserve the status quo in Manchuria thus leaving her free to take any necessary counter-measures.

The Japanese policy in China, summed up means the planting of garrisons without territorial leases there by garrisons of the integrity of China by forestalling others. At Hankow the garrison of 100,000 men will be retained. Another probably will be planted at the great T'ieh iron mines nearby. Special Japanese garrisons under police control will be demanded at Nanking which police will be repeated. In case of trouble the rail ways in which it is hoped that British capital would be interested also will be demanded.

The Japanese naval units will be increased in Chinese waters. There will be no longer the British usual flexibility.

Peking is no longer the capital in the old sense. The loss of Mongolia and the loss of the interior in the interior rendering it impotent and transferring the power to the south Japan with practically the whole of China revolutionary party under lock and key in Tokyo holds out her hand to England knowing that the alliance is more important and necessary than ever.

AMERICAN COTTON WANTED BY JAPAN

San Francisco, September 29.—Because of the rapidly increasing trade between the United States and Japan, the American cotton trade is expected by Y. Nakashima, manager of the Mitsui company of this city, who has been in charge of the cotton trade in Japan, to become the greatest purchaser of cotton and other raw materials in the world.

Last year 3,000,000 bales were shipped there and this year the shipment will be increased to 4,000,000. The development of China and Manchuria is being taken advantage of by Japan and the American cotton trade is being out paralleled in that country.

The empire is now great work which is being done in the cotton trade. It will not be many years before Japan will be the United States' biggest purchaser of cotton.

Pacific coast Japan will still scores of cargoes of cotton here in the future. This will be a great gain for this country.

New York, September 29.—A stop watch as a means of testing the working capacity of the human brain was employed by an alien today in the case of Hans Schmidt, the German priest who has confessed to casting the spell of Anna Muller, the girl who threw herself into the water.

Schmidt was being examined at the instance of District Attorney Whitman by Dr. Henry H. Nichols, who has asked the priest questions used in the past to test the brain of a criminal. The result of the examination was not made known. Dr. Nichols and other alienists will question the man further tomorrow and their report is expected to be given Mr. Whitman by next Monday.

TURKEY AND BULGARIA UNITE AGAINST GREECE

Greece Must Yield or Fight the United Bulgarian and Turkish Armies

Constantinople, September 29.—The treaty of peace between Turkey and Bulgaria was signed by the plenipotentiaries here today.

The menacing language of the newspapers representing the Turkish military element which now practically occupies the government saddle confirms the uncompromising attitude adopted by Turkey in demands upon Greece.

Greece is bound to yield on the question of the islands in the Aegean sea before the united Bulgarian and Turkish armies.

Fessad Pasha has telegraphed the sultan that he intends to form an autonomous Albania under the suzerainty of Turkey.

TO SETTLE PARENTAGE OF AN INCUBATOR BABY

Washington, September 27.—One of the cases to come before the supreme court during the session which begins in a few days is one in which the court will be called upon to determine the parentage of an incubator baby viewed by thousands at the Louisiana Purchase Exposition at St. Louis.

Mrs. Lottie Bleskley of Topeka, Kan. claims to be the mother of the two children who were born in the world's fair incubator. She has fought in the courts of Illinois and Kansas for possession of the child now nine years old and appears now before the court as a prosecuting witness against a detective who is charged with having kidnaped the child from her home.

Mr. and Mrs. James G. Barclay of Douglas county, Illinois, claims the child as an adopted daughter.

Barclay who was an employee at the fair grounds, claims the child grew in his little glass cage. The Barclays declare investigation shows Mrs. Bleskley is mistaken about being the mother of the child. They claim that her child died a few days after it was born.

CHINESE LOAN PACT HAS BEEN DISSOLVED

London, September 29.—The British government announced today the dissolution of the Chinese loan agreement from which the United States withdrew some time ago. The agreement had provided for the satisfaction of any of the five powers concerned—Great Britain, France, Germany, Russia and Japan.

The British government took the initiative in the dissolution. It is explained because of the failure of the other powers to observe its spirit. They had made of the agreement simply an instrument against the interests of British financiers.

The five powers will still act together in making loans to the Chinese government for general administrative purposes but each of the powers has been left free to support any of its citizens in floating loans for railroads and other industrial projects and for provincial purposes.

The declared object of the original agreement it is pointed out here was to prevent an international scramble to lend China money but such a scramble is in progress.

RELEASED FROM MTOMBS, SHE SUES FOR \$50,000

New York, September 29.—Held in a Tombs prison cell since Saturday last charged with being a fugitive from justice, Mrs. Frances Lavy today was released after many witnesses failed to confirm the identification of Mrs. Helen P. Lane Messera of West Hill, N. Y., who was the wife of E. J. Beth Van R. Nichols wanted in Wilmington, N. C. for an alleged kidnapping.

Mrs. Le Messera formerly lived in Wilmington where about three years ago she alleged she had been killed in a real estate deal by a Mrs. Elizabeth Van R. Nichols, a society woman of that town.

On leaving the courtroom Mrs. Le Messera was served with papers in a suit for \$50,000 damages brought by Mrs. Lavy for false imprisonment.

THOMSON RAPS BRASELTON Says Braselton Is Talking About a Business Administration and Is Not Even a Registered Voter

ALBERT D. THOMSON

To The People of Atlanta

Up to this time, as a candidate for Alderman from the Fourth Ward, I have refrained from personalities with reference to my opponent, Mr. Amos W. Braselton.

It is not now my intention to criticize him personally. But, inasmuch as he saw fit to make the remark in yesterday morning's Constitution that my supporters are the "ring politicians" and "petty politicians," or words to that effect, I feel justified in calling the public's attention to two facts:

First—Mr. Braselton has not paid his City taxes for 1912, there being now a fine against him in the City Marshal's office.

Second—His name is not on the registration list for the City Primary to be held today, September 30th. In other words, he cannot even vote in the Primary in which he is a candidate.

In view of these facts, isn't it rather poor taste for him to make disparaging remarks about the citizens who are supporting my candidacy?

Isn't it rather remarkable for Mr. Braselton to appeal for votes on the platform of a "business administration," when, as a citizen and a business man, his interest in the City Government is not sufficient to induce him to pay his City taxes?

Isn't it rather "nervy" for Mr. Braselton to ask for the votes of citizens who PAID for the privilege of voting when he did not think enough of that privilege to pay himself?

Mr. Braselton advocates raising the pay of policemen—which is not a bad idea.

But if other citizens refused to contribute to the support of the City Government as he has done, there wouldn't be enough money in the City Treasury to pay their present salaries, or any other expenses of the City Government.

MEN AND RELIGION BULLETIN NO. 79

You Should Vote

"Choose you this day whom you will serve."

—Joshua 24:15

The population of Los Angeles is 319,198. It has grown by leaps and bounds.

One of that city's newspapers, under date of July 6th, 1913, said:

"March, 1909, Alexander became Mayor and has held the office continuously since that date.

"Since that day the city has had clean, honest government—

"It is probable that in this period of law enforcement the population of the city has doubled.

"Never has there been such uninterrupted activity in building. In the fiscal year ending June 30th, 1909, 7,644 building permits were issued, calling for construction valued at \$11,187,684. In the fiscal year that ended last Monday (July, 1913) 17,568 permits were issued, and the value of construction called for by them was \$34,662,511.

"DECENCY IN GOVERNMENT PAYS—

"The lugubrious prophecies of the apologists and defenders of vice, who fought for the continuance of the old immoralities, for protection, for a wide open town, for toleration of debauchery, because it was good for business, were proved to be false prophecies.

"Never in all the history of the city has business made such strides as during these four years of law enforcement.

"Never have the banks made greater gains in strength—

"A local savings bank presented a biennial comparative statement—

"In 1909 it had resources amounting to \$23,980,670. After four years of honest, clean municipal administration, of enforcement of the law, of repression of those vices for which toleration had been demanded by apologists for vice, the resources of that same bank total \$46,638,811."

On the wall of the office of Mayor Alexander hung this motto:

"Except the Lord keep the city, the watchman waketh in vain."

The same Los Angeles newspaper added:

"The city should remember the beginning of the verse—

"'Except the Lord build the house, they labor in vain that build it.'"

SEATTLE HAS 237,194 INHABITANTS.

Like Los Angeles, it is another city whose name means business, growth and prosperity.

Gill was elected its Mayor on the "wide open town ticket." Soon it was rumored that the very Chief of Police had an interest in a gambling hell. One enterprising citizen started building a two hundred room house in the segregated district.

GILL WAS RECALLED and thrown out of office. The pimps and panders were driven out of the city. Gill tried to come back. He was again defeated.

Seattle is still growing. Three years ago her people recognized that decency meant progress.

Filth and foul odors always mean decay and death.

Let us have none in Atlanta.

As one who loves your city and your Maker, you should vote tomorrow without fail.

Ask no candidate: "How do you stand?"

But vote for no one until you know who is supporting him. Find this out.

THEN VOTE AS YOUR CONSCIENCE BIDS YOU.

If you believe that God wishes to re-establish and maintain in Atlanta brothels which depend for their existence upon the betrayal of girls, vote for those supported by the men who have tried to hamper and hamstring your Chief of Police in doing his duty.

If you believe that God wishes to destroy an honest official and enthroned Judas, vote for the crowd that is camping on the trail of Chief Beavers.

But, if you believe that God would reward fidelity to duty; if you believe that He would have you and your children live in a city that is clean, and with foundations not built upon the suffering of others, vote for those who are opposed by the men who believe in the licensed brothel and seek a Chief of Police who would be false to his oath of office.

YOUR DUTY DEMANDS THAT YOU VOTE.

Tomorrow is a critical day in your city and in your life.

"Choose you whom you will serve."

NATHANIEL BAXTER, JR.

The death of Nathaniel Baxter, Jr., of Nashville, is told today in news columns of The Constitution. The event will bring a sense of keen personal bereavement to the large number of Atlantans and southerners generally who knew and respected him.

The world does not know, few are the southerners, even, who realize the debt under which the section rests to the citizen of the class of which Mr. Baxter was so virile a representative. The true biographies of what might be called the host of the restoration are yet to be written.

He stood at the front of the bar in Tennessee, ranked high in political influence in that state, went involuntarily to the vanguard of any movement he entered, since his was the quality of inevitable leadership.

At the time he was engaged in this mission, it is doubtful if the south appreciated the importance of his task, as it fell short of appreciating the role the other giants of that day were playing.

As soon as the meat trust heard the country shouting prosperity from the hill-tops it entered into a dollar-a-pound beef conspiracy.

won and the hardships outlived would have been, the one impossible, the other still choking development.
Of sterling honesty and rare personal charm, it is as the master-builder and the master-restorer that Nathaniel Baxter will appeal to the historian of his state and his section.

IN THE SOUTH OR NOWHERE.

Thoughtful leaders of the southern negroes may profitably give heed to the counsel of Dr. Randolph Churchill, of England, when, speaking recently to an audience of negroes at the Big Bethel auditorium in Atlanta, he told them that the best place for the negro is the southern states.

Several years ago he spent several months in the Congo, where he came in contact with the negro in his aboriginal state. He has also observed the negro in the artificial environment of England.

The Constitution has uniformly taken the same view. At the same time, we have not hesitated to admonish the negro, as a race, that unless he made better progress toward fitting himself for the tasks that lie to his hand his opportunity and position in the economic scheme of the south would be jeopardized.

That fact alone has been the basis of The Constitution's insistence that education and training must be directed not alone toward the one among the negroes, but toward the ninety and nine at the same time.

The more intelligent leader of the negroes is awaking to this fact, as to the fact emphasized by Dr. Churchill that the south offers the best opportunities for the race.

But the bulk of the race must be made to see the truth, to realize that there is no short-cut to success, no avoiding of the toilsome processes of industrial evolution.

The disreputable baling of the American cotton crop has long been a source of complaint abroad and of loss at home.

The wonder is that with faults of this nature so obvious, not to mention the slat bills-of-lading system exposed several years ago by the Memphis scandal, no attempt has been made to put the marketing of the crop upon a basis of scientific efficiency.

Either Turkey doesn't believe that she was fairly whipped off the map, or she thinks that the absence of Turkish territory would put them to the expense of changing it.

At the eleventh hour the Tennessee legislature made up its mind to be as good as possible under the circumstances.

A Story of the Moment

Wellsprings of Pleasure.
"Are there any children in this household?" inquired the stranger of ministerial appearance.

"I hope so. A child in the house is a wellspring of pleasure. As a representative of the Guardian Angel society, organized to find 'homes' for orphan children—"

"As a representative of the Guardian Angel society," cried Mrs. Curfew, "you can chase yourself, and the sooner the quicker. I'm sick and tired of being pestered and interrupted by oily-tongued strangers just when I'm busy with my housework, and I was saying to Mr. Curfew this morning that he'd have to build a brick wall around this place, or else a bulldog at the gate."

"My little granddaughter is a dear little girl, and she is just the image of me, although, of course she is several years younger, and hasn't been embittered by dealing with agents and people who would like to get their hands on her."

"When the ladies came, three of them sat down simultaneously on the sofa, and in the twinkling of an eye they were all sprawled over the floor, and the sofa was a complete wreck."

"What are you a-waitin' here fer, when all the world's as busy as a bee a-huntin' honey?"

The World's Mysteries

PARNELL AND THE PIGOTT LETTERS
Many readers will easily recall the sensation created by the so-called Pigott letters which were printed in the London Times during the year 1887.

On April 18 The Times published a facsimile letter, purporting to bear Parnell's signature, in which the Phoenix Park murderers were excused and condoned.

The Parnell letter in The Times was soon the talk of the entire country. Parnell was shown the printed facsimile of the letter, and instead of flying into a rage, as was to be expected, placing his finger on the 'I' of the signature, he said quite calmly: "I did not make an E like that since 1878."

After Parnell's declaration the subject of the facsimile letter was dropped. The articles on "Parnellism and Crime" continued to be printed. Finally Mr. F. H. O'Donnell, an ex-member of parliament, feeling himself aggrieved by certain statements in the articles, took proceedings against the Times, and finally Parnell was a forgery.

Several years prior to the publication of this letter there was in Ireland a newspaper called "The Irishman." Almost every one versed in Irish politics knew "Dick" Pigott or knew of him.

FLOOD OF QUESTIONS REGARDING INCOME TAX

Queries Are Being Prepared by the Treasury Department. Blanks to Be Sent Out.

Washington, September 29.—The treasury department is preparing for a flood of questions concerning the new income tax, realizing that this feature of the tariff bill about to become law strikes more intimately at the tax-paying citizen than do the indirect taxes collected through customs duties.

One of the first steps taken to get general information before the public will be to distribute income tax blanks through postoffices, internal revenue offices and other federal agencies.

However, the fact that he does not receive a blank or a request to pay the tax will not exempt a taxable person from the payment of the law.

Representative Cordell Hull of Tennessee who drew the income tax provision of the tariff bill today made public a detailed explanation of the tax plan as it will touch the individual citizen.

"The treasury regulations soon to be prepared will make clear to every taxpayer the requirements of the law and its application to income derived from the various kinds of property," said Mr. Hull.

"Any person who keeps familiar with his business affairs during the year should have no difficulty in executing his tax return."

Divided Into Two Phases.—The income tax is divided into two phases: the normal tax of one per cent on the whole income above \$2,000 and an additional tax that begins with an extra one per cent above \$20,000 and is graduated to six per cent above \$90,000.

Wherever the income tax is paid in the United States it is by the individual himself. The provisions of the law requiring the tax to be withheld do not come into effect until November 1, 1913.

For the first year the citizen will make returns to the local internal revenue collector before March 1, 1914, as to his earnings from 1913 and the amount of the tax he has paid.

If the income of a person is under \$2,000 or if the tax on the source of the income is paid at the source or if the same is to be paid elsewhere in the United States, the individual need not file such a return.

The net income includes all income from salaries or by compensation for personal services, from business, from professions, business or commerce from sales or dealings in personal property, and from estates, trusts, dividends and securities from all lawful business carried on for gain.

BIND PREACHER'S SON AND RANSACK HOUSE

Dawson Police Looking for Men Who, It Is Claimed, Were After Church Collection.

Dawson Ga., September 29.—(Special)—While services were being conducted last evening in the Methodist church here by Pastor E. Morgan, three unknown men entered the parsonage and broke in through the door.

One of the men, who was seen to be carrying a pistol, pointed at the church and then proceeded to ransack the house, searching for money which he had been told had been received at the Sunday morning collection.

The men could be robbers failed to find the money and took nothing else, leaving the building through the front door which they unlocked.

W. P. Hornaday, a neighbor, accompanied Mr. Morgan and family home from church on entering the house they found Candler lying on the floor unconscious, his body doubled over, owing to the fact he had been tied.

FEDERAL GOVERNMENT AND HIGHWAY BUILDING

Houston Says Administration Favors Roads for Farmers Instead of Auto Highways.

Detroit, Mich., September 29.—(Special)—The suggestion of great transcontinental roads appeals to my imagination as does the suggestion of interstate roads connecting capital cities or cities of commercial importance to my logical faculty and to the sense of pleasure that experience in riding about the country in my friends' automobiles.

But that the "essential" for good roads is the prevailing opinion of the country is not surprising. The suggestion of great transcontinental roads appeals to my imagination as does the suggestion of interstate roads connecting capital cities or cities of commercial importance to my logical faculty and to the sense of pleasure that experience in riding about the country in my friends' automobiles.

Such roads are equally essential to the establishment and operation of decent elementary and secondary schools for the benefit of the country boys and girls. I do not eliminate other things from consideration and I do not underestimate the importance of the automobile industry and the service they have rendered in the propaganda for road building.

The suggestion of federal aid to road building raises grave questions and involves possible dangers to the benefit of the country boys and girls. SPECIAL DAYS ARE SET FOR THE STATE FAIR

Less Than Three Weeks Remain Before the Opening of Sixth Annual Exhibition.

Macon, Ga., September 29.—(Special)—Only a little more than three weeks remain now before the opening of the Georgia state fair on October 21, this being the sixth consecutive fair in Macon held under the auspices of the Georgia Agricultural Society.

President Otto has designated the following special days to be observed: Tuesday, October 21—Opening day; Wednesday, October 22—Bibb county day; Thursday, October 23—Governor and legislators' day.

Friday, October 24—Children's and circus day; Saturday, October 25—College, traveling men, singing and sports day; Sunday, October 26—Probably a sacred concert; Monday, October 27—Farmers' and mechanics' day; Tuesday, October 28—Georgia and canning club day; Wednesday, October 29—Live stock raisers' and canning club day; Thursday, October 30—Greater Macon day; Friday, October 31—Labor day.

Secretary Harry C. Robert returned today from Memphis, Nashville, Tenn., where he attended the Tri-state and Tennessee state fairs and secured a number of race horse entries for the fair. He also secured additional amusement attractions.

Waiting at Church Sad Reality With This Macon Woman.—Macon, Ga., September 29.—(Special)—Had the song "Waiting at the Church" never been written, the writer could have gotten his inspiration for it here today when Mary Hazle, a woman residing in East Macon, was left "waiting at the church" while her intended husband, Turner Murphy, went to secure a marriage license and then failed to return.

The couple accompanied by Miss Hazle's sister went to St. Joseph's Catholic church this morning. The bride-to-be was reluctant to have her intended husband leave her, but she was nothing else to do. For two hours she waited and then started a "search for Murphy." He could not be found.

This afternoon Miss Hazle applied to the police for aid in finding him. She said he was about 28 years of age, wore a checked suit, tan shoes and parted his hair in the middle. The whole she said he was rather dark and was very fond of near-beer and would probably be found around some near-beer saloon. The police are still searching.

Miss Hazle had known Murphy only two weeks.

Jno. S. Owens' Committee Replies to W. A. Hancock advertisement: "The committee in charge of the candidacy of Mr. Jno. S. Owens for Alderman from the Eighth Ward decided to publish the votes of Mr. Hancock when the question of electing the city officials was before the General Council. Mr. Hancock says this is 'mud-slinging,' and seems to be very much 'peevish' about it. Now, it is surely not 'mud-slinging' to point out, on the public records, how he, time and again, voted against carrying out the will of the people expressed, almost unanimously, at the ballot box. The truth is, he knows it is NOT 'mud-slinging,' but the record was so astounding that it stumped him, and he lost his temper, and then proceeded to sling 'mud' right and left. FIRST, as to the Tile company. It would very much have enjoyed having the contract with the city, for the past two years, to lay all the sidewalks, but it so happens IT DID NOT HAVE IT for these two years, and a little investigation would have disclosed it. SECOND, as to closing out the 'little fellows.' The simple truth is, they ARE NOT CLOSED OUT, but are in very active business. The gentleman who gave this information, if my guess is right, is one NOW in the business, and very ACTIVELY in the business. If you will look over the list of Tile companies you will see quite a roll. THIRD, as to Equitable company. Mr. Hancock overshoots the mark. This company built many, many homes for our citizens, and these citizens are now Mr. Owens' most active supporters. 'I am informed,' says Mr. Hancock, 'that many lost money in the company, and Mr. Owens made a fortune.' This information is wrong. No citizen of Atlanta will say to him that he lost any money in the company, and Mr. Owens is very sorry he did not make a fortune out of it. We are sure he needs it very much right now. However, let us turn the light on Mr. Hancock's further record in council. 'I am informed' that, while in council, his partner or business associate secured the sewer contract for the city, and that Mr. Hancock's Brick company furnished the brick for the city sewers, and so many of them were unfit for use, that the city inspector condemned them, and Mr. Hancock got so peeved that he went down to the City Engineer's office and raised a big row, and has ever since fought the officials in that department. 'I am informed' that, while in Council, a discussion about the construction of sewers came up before some committee, or among some councilmen, and Mr. Hancock claimed to know a good deal about it. He said he had furnished brick, or had the sewer contract at one time, and was asked if he made any money out of it, and replied, 'A BARREL OF IT.' We did not begin the 'mud-slinging,' but, since Mr. Hancock began it, we think it well to let the public know the facts. Jno. S. Owens' Campaign Committee"

Doesn't Need Eyes to Know Bride Is a Beautiful Woman Says Atlanta's Blind Coroner

MRS. PAUL DONOHO.

Paul Donohoo, Atlanta's coroner and attorney who has since some six years ago been deprived of his vision, and who was quietly married a week ago to Miss Alverta Benson, was the recipient of at least a thousand congratulations Monday. One of those, a close friend, asked: "Fell, how do you know, after all, that your wife is good looking?"

Mrs. Donohoo is decidedly pretty, far above the average of a young woman. "You know yourself," he continued, "that you unconsciously and without directly using your eyes, know at times that a person is good looking, and, of course, you make eyes serve where I use other facilities."

When there came that peculiar beaming expression into the coroner's face, and he said suddenly: "My little nephew has seen her and he tells me that she's the prettiest girl in the Donohoo family."

Hutland district, near Macon, may die as a result of a blow on the head from a heavy iron bar in the hands of a negro, Mack Johnson, Saturday night. The negro attacked Cooper as he came out of Mr. Thompson's saloon about midnight, the blow fracturing his skull. The negro then made his escape. The negro is said to have made the threat that he was going to kill two white men.

Hobbs Defeated

Macon, Ga., September 29.—(Special.) The Macon Typographical union has adopted resolutions expressing their confidence in the honesty and integrity of Frank M. Hobbs, editor of The Macon Industrial Journal. This action was taken as a result of the charge made by Attorney W. D. McNeil, during a speech in behalf of the candidacy of Wallace Miller, that Hobbs had accepted a bribe of \$100 to prevent the street car men from organizing a union. Since then Hobbs has announced his intention of filing a \$10,000 damage suit against McNeil for slander. The Central Labor union has also adopted resolutions similar to those of the typographical union.

NEW BRIGADIER GENERAL ONCE ATLANTA RESIDENT

Eli D. Hoyle Was Born in Canton, Ga., and Has Relatives in This City.

General Eli D. Hoyle, appointed brigadier general by the president last Thursday, is a former resident of Atlanta, and a Georgian by birth. He has in Atlanta and the state many friends and relatives. General Hoyle is also a West Point classmate of General Robert E. Evans, commander of the department of the South, with Atlanta as his headquarters, both officers having been graduated in the West Point class of 1875. For these reasons Atlanta feels a peculiar interest in his promotion.

General Hoyle is present in the Philippine Islands, commanding the Sixth field artillery at Manila. General Hoyle was born at Canton, in Cherokee county, in 1850, and moved to Atlanta in 1877. During the war he was adopted by a wealthy relative in Alabama. From that state he secured the appointment to West Point, and after his graduation there he went to the artillery school in Norfolk, Va. He has a brother, William E. Hoyle, and a sister, Mrs. James W. Morrow, Sr., living in Atlanta now. General Hoyle married Miss Fanny E. Ross, one of the three beautiful daughters of General de Russey, each of whom married a member of General Hoyle's West Point class.

From General Hoyle's classmates, the army has gained the following generals: General Tasker H. Bliss, General Braum Weaver, General Rodney Smith (recently retired), General Thomas H. Davis, General Robert K. Evans and General Hoyle. General Hoyle has about 42 years of service and will be retired probably about 1915.

DID NOT MEAN RECALL FOR SCHOOL TEACHERS

Dr. A. R. Holderby on Monday stated that in his Sunday sermon he did not suppose that any one would presume that there was the least intention on the part of the public schools when he declared that "it would be a good thing to hold the political holders from the bottom."

General Hoyle has been called the whole gang of political officeholders from the bottom. "I have never received a school teacher, or any officer connected with our school system as political officeholders," said Dr. Holderby.

"FRENCH NIGHT" PROVES SUCCESS AT PIEDMONT

"French Night" at the Piedmont, last night after the theaters were out, proved another gastronomic and social success. The menu for the evening was carefully selected by the Piedmont steward, the entertainment offered through the efforts of Mr. Frank Taylor, assistant manager of the hotel, and the general air of "welcome home, little stranger" furnished by Manager Eaton made the evening a thing to enjoy.

The tables in the fancily decorated main dining room were crowded with late diners. The female orchestra and the singing of Miss Claire Garner were features of the evening. Many prominent Atlantans as well as members of the visiting theatrical troupes reserved tables for the occasion. French caps, the singing of the French national anthem and the rendition of several French ditties gave the tang of Frenchness to the "French Night" that capped the climax of a more than enjoyable two hours.

15 WOULD-BE WIVES BESIEGING DENNARD

Cavalier of 66 Says He Has Plenty of Time Left to Make His Selection.

"W. F. Dennard, a sprightly cavalier of some 66 summers, and some four marriages, reported to The Constitution Monday that his quest for a wife has not been without some degree of success. Fifteen maidens and widows ranging in years from 40 to 60 are fervently seeking grace in the eyes of the city's oldest employees who will be eligible for pension next year.

Dennard's spouse quest was related in The Constitution of Sunday. Since then he has been one of the busiest men in town. One writes that she is a widow of 40 years, and that she works now in a downtown hotel, but she plans for the cottage and the trailing vines with a kind husband—not too old—who will be good to her, and in return, she promises to cook and keep house in excellent manner. Another young thing will be good to her, and in return, she will be good to her, and in return, she promises to cook and keep house in excellent manner.

Another coy maiden, who admits 55 years of unblemished life, says she is willing to be married at any time, as she believes Dennard's straight proposal merits a "straight answer." "They ain't going to marry me, none, these women. I've got till Christmas to make my choice of these here widows," says Dennard, "but my record is 'good.' I've been married four times, have seven great-grandchildren, I'm healthy and work every day. No, I can't give any wife that I hit, but I can give her a place to rest out her days if she does her share."

DELAYED RAIN REACHES IN A BIG DOWNPOUR

Rain, which appeared delayed Sunday, came before the sun had risen Monday morning and again at noon a few drops fell. The heaviest part of the shower, however, fell in the afternoon, when a few big drops that started pattering upon the pavements at 4 o'clock gave to the city a heavy fall that was swept downward by the wind until the streets were drenched and the dust of the past week was washed away.

WHIFFS

Will Have Power.

THE TECH football team of 1913, judging by its performance in its opening game last Saturday with the Soldiers, will have power to its drive on the attack.

THE BACKFIELD will be the speediest matter which quartet is working on. A Tech team has boasted of in years, and it gives great promise of following interference in a manner that is sure to be productive of results in ground gaining.

THE STRENGTH of a team is in its substitutes. This is a maxim in big league baseball and what has made the Athletics so strong in Tech's case it is the scrubs, instead of the stars, that are the mainstay.

ONE DRAWBACK. IT'S NEARLY that one hears a hoiler because a coach has too much material to pick from.

THE GREATEST asset in the wedding together of an eleven that will be a credit to Tech is just about the position that Jack Heisman is placed in this season. That is, in so far as his new men are concerned, he has many new men who do not know his system that it makes it doubly hard on coaching, especially when one takes into consideration that the candidates for the different positions outside of the backfield are so equally matched that it is a task to choose the seven men who will furnish the strongest combination.

REPORTS from Nashville give glowing reports of the prospects of the Vanderbilt football team for the coming season. Just what we expected. A week ago we commented on the fact that the Vanderbilt team for the coming season would be sent out, and we did not miss a day.

DR. AL SHARPE is making good the claims of his friends. They said last season, when the Cornell eleven showed such poor form, that the former Yale star was thinking of the other side of the coin.

FROM AUBURN come optimistic reports. Mike Osborne is working hard, but he and his team are working hard, and by gradual easy stages they will be working in the best of health.

HALVAED seems to be coming through in the manner that was expected of the Crimson. Coach Haughton's eleven is working the team in cutting in this early. It looks like they are going to be a mighty hard team to the late college and Princeton Tigers to head off.

FROM AUBURN come optimistic reports. Mike Osborne is working hard, but he and his team are working hard, and by gradual easy stages they will be working in the best of health.

Analysis of Playing Strength Of the World's Series Rivals On Their Work This Season

EDITOR'S NOTE—Under this head, The Constitution will run a series of articles, written by the official statistician of the American league, comparing the work of the rivals of the world's series.

By Lewis M. Howe. In several particulars the Giant and Athletic lineups are much alike. Each is the best in its circuit. Both are composed of young and enthusiastic players and the composition parts have been selected by master minds from an abundance of material and polished and filed and polished by skilled hands until they work perfectly in the machine of which they are the important parts.

Table with columns: Name, AB, R, H, P.C. for Merkle vs. Fenwick, Doyle vs. Fenwick, Shaffer vs. Fenwick, Herzog vs. Fenwick, and Merkle's Case.

That young Shaffer is a wonder needs no proof except a glance at the New York bench where Charlie Herzog reposes. Any player is of championship caliber and the next day at the Boston games and his good work at such times as he has been present in the game in which he is called upon to play is a wonder at handling bunts, knocking down hot drives over the fence and performing the other mechanical stunts that are expected of a first-class fielder.

More ink has been spilled over Fred Merkle's Case.

EDDIE PLANK ADMITS HE IS SLOWING UP. Washington, September 29.—A certain umpire tells this story about Eddie Plank and the Athletics veteran south-paw: "Plank is getting awfully slow and I remonstrated with him about it."

NEW YORK WINS TWO. New York defeated Boston in both games of a double-header today, taking the first and second games of the season.

WHY BALL PLAYERS SHOULD NOT WRITE. A sport scribe in the east has advanced the following reasons why the ball players should not write on the world's series games:

NATIONAL LEAGUE. Even Break in Boston. Boston, September 29.—New York, having pitched the national pennant, presented a make-shift team today which won the first game, 3 to 2.

STANDING OF THE CLUBS. National League. New York 1, Philadelphia 1, Brooklyn 4, Philadelphia 4.

After a Desperate Battle With Police Convict Kills Self to Avoid Capture.

Wilmington, Del., September 29.—Realizing that further resistance was useless after he had exhausted his supply of ammunition in a battle with half a score of policemen who surrounded him in a lodging house here early this morning, Homer Cleveland Wiggins, murderer of a Philadelphia policeman and who escaped from the eastern penitentiary in the city August 29, shot himself through the brain, dying almost instantly. Policeman Sewell Scott was shot over the heart by Wiggins before the convict committed suicide and may die.

Minimum Sense and Minimum Wage.

(J. Laurence Laughlin, in the October Atlantic.) The hysterical agitation for a minimum wage (today urged chiefly for women) has in it no conception of a relation between wages and producing power. It is founded for several reasons which touch the very interests of the laborers themselves.

This Is Some Pumpkins.

(Conway S. C. Cor. New York Sun.) If Peter, Peter, Pumpkin Eater had run across an enormous pumpkin vine growing on the property of Dr. R. G. Sloan on Little river, this county, he would have kept it for himself.

The Common People.

(From The Washington Post.) What has become of our dear old friends "the common people" since the campaign of last November they seem to have disappeared from the face of the earth. It seems but yesterday that the air was rent with cries that something, almost anything, must be done for the common people.

And Still the Wonder Grows.

(Marry Emerson Foadick, in the October Atlantic.) Many a modern man, recovering from his first enthusiasm over a scientific discovery, explained to me, in some such way as this: "I cannot see that for all that science has told me, I am any more advanced than I was."

EVEN ROYAL PALACES HAVE SERVANT PROBLEM

People Who Attend Upon Kings and Queens Not a Race Apart.

London, September 29.—Even royal palaces have their servant problems. The general opinion seems to be that the servants who attend upon kings and queens are a race apart, but such is not the impression given by a remarkably frank interview given here by a royal household official.

The Income Tax.

(From The Manufacturers' Record.) In Europe the income tax rests upon no economic theories, but upon the practical necessity of raising money for navies and armies, of taxing everything that can be found and taking it every time it is encountered.

You Can't Afford to Miss It! "Ready Money" Is Great Show

If you haven't got two bits between yourself and bankruptcy take it and buy a seat in the "peanut" to see "Ready Money" at the Atlanta theater! If you haven't got that—borrow it! It's a good investment, even if you see it first.

One quart of a silver dollar represents the entire amount of "ready money" with which a certain young man in the play of that name gains a fortune and a wife for himself in addition to accommodating half a dozen of his friends to the good luck.

The story of how he does it, or to be more literal perhaps how it is done to him, forms one of the most laughable plays ever seen in Atlanta, not forgetting "George M." and "Easy Money."

New Year's eve in New York, at just fifteen minutes to midnight, finds Stephen Baird, owner of the "Risky Rucker" mine, facing the prospects of holding up his end at a dinner with a bunch of millionaires, friends, his best girl begging him to take her home in a taxi, all very homesome and a \$30,000 note due to a \$1,000,000 gold mine, and to finance all of which his total assets total up at 25 cents.

Imagine yourself in this fix, if you are fortunate enough not to be, and trying to conceal it while all your friends are urging you to join in properly celebrating the close of a prosperous year and the advent of a propitious one. Let a man offer you the loan of \$500 with which you might finance the evening and then cash out forgetting to lend it to you. Let a friend buy \$50,000 worth of stock in your "white elephant" of a gold mine— with counterfeit money. Then get arrested because you can't get the counterfeit goods out of your possession. And after you are locked up find out that your best girl has the lead money and you haven't a cent and detectives are shadowing her.

If you will figure out the solution to these perplexing problems all within twenty-four hours without even spending your original quarter you have some sense!

That's what James Montgomery has done in "Ready Money" but to tell exactly how would be, well—telling. Go see for yourself.

Even when the curtain rises on this play there is not a dull moment. One laugh simply crowds the last one out the way.

And within "Ready Money" is well sprinkled with emotional climaxes, make one forget for the moment, that it is to laugh.

Corbett Morris as Stephen Baird last night won himself a following in Atlanta that will assure his welcome here in any sort of a production. John M. Kline as Jackson Lytle, a counterfeiter of international notoriety, exhibits a clever piece of acting. The entire company is altogether up to the class of the play, its production and the quality of the leading characters.

"Ready Money" will be at the Atlanta Tuesday matinee and night.

NEIL MONTGOMERY.

"Little Boy Blue."

(At the Atlanta.)

One of the most pretentious productions that ever emanated from Henry W. Savage's studios is "Little Boy Blue," the famous Vaudeville opera, which comes to the Atlanta Wednesday and Thursday with a Thursday matinee. It was written in Europe and was secured by Mr. Savage after he had witnessed its presentation in Paris, Berlin and Vienna—each of which cities it was a sensation. "Little Boy Blue" was written by Rudolph Schanzler and Carl Landau, who provided the book and lyrics, and Henri Berrey, who supplied the score. It was Americanized by A. E. Thomas and Edward Hamilton and was a tremendous hit last season in New York when it was offered by Mr. Savage at the Lyric theater. The cast is led by Oris Hartman, who created the chief comedy role in New York. Seats now selling.

"Robin Hood."

(At the Atlanta.)

This morning seats will be placed on sale at the Atlanta theater for the engagement of "Robin Hood," which will be given by the DeKoven Opera company with a grand opera cast. The famous light opera will be played Friday and Saturday and will be one of the big events of the season. The ad-

vance demand for seats has been unusually heavy, indicating a great interest in the production. Certainly "Robin Hood" will hold the public and its coming will bring hundreds to the city from surrounding towns as well as attract local music lovers.

"Sold for Money."

(At the Lyric.)

People who went to the Lyric Monday night with that "Oh, I oughtn't to go" expression and expected to see in "Sold for Money" a lay-out bare of the sordid details of white slavery, was sadly mistaken. The show is clean and there's not more than a mention of the "white slaves" in it.

The white play is wrapped around the old story of a newly-rich family, the head of which, by the way, is a Pittsburgh millionaire with a past whose wife and daughter are trying hard to be real new-worthies. One method they take of helping the family reputation in society, or rather society, is to have the daughter marry a young broker, who has some wealth and a real family.

About the time this is being accomplished, the son marries for love a girl who, he supposes, is an heiress. The sordid part of the show is in the way in which the newly-rich family treats the girl when they find she is not wealthy.

After a series of incidents, some of which are humorous and many interesting, the son, disinherited and threatened with jail by his father, is given as a girl.

Miss Claudia Lucas takes the part of the dancing girl and takes it well. Not the least of her charms is her voice. Robert Ellis, as the wealthy son, F. S. Barrett, as a "promotional" manager, a wholesome humor that is refreshing. His ideas of life and of honor and his contempt for the "souls" he terms the police and detectives indiscriminately, causes many laughs.

There is a pretty ending to the play and several parts are full of heart-thrills. It is scheduled to show all during the week at the Lyric.

Keith Vaudeville.

(At the Forsyth.)

It will be a mighty hard man to please who doesn't find something to like at the Forsyth theater this week. For there are acts of every kind, and the majority of them are top-notchers in their line.

The daring lithographs have told the truth in giving first place—by size of type—to Joseph Jefferson's company in "Four Old Jims." Here is a treat, second to none offered Atlanta this year—better than any comedy sketch ever presented on the Forsyth stage.

There is humor in every line—there's a laugh in every situation—and the three people who appear before the footlights are deserving of the highest encomiums for the finish of their work.

The sketch tells the story of a young man who goes to the city to get a drink, of a wife who is loving and patient, of a doctor friend, Husband comes home (or is brought home), and finally the wife and the doctor decide to pretend he is dead and make him believe it if possible. Some time before he had seen a play called "Dead Man's Ghost," or some such name, and it had made a great impression upon him, so when his fellow actors begin talking about him as if he were dead, he soon imagines himself a spook.

The ending is happy, of course.

An old friend is back—two old friends in fact—in Lola Merrill and Frank Otto. Lola is one of the delectable performers in the land of make-believe today, and it is hard to keep your eyes off her. This lends weight to Otto's clever line, "Why don't you look at me once in a while." It's a neat, refined and pleasing act.

The Old Soldier Fiddlers, who made a big hit here on their first appearance, are with us again, and as popular as ever. Apart from a sentimental interest, their show is worth while.

Miss Van and Joe Schenck, singers, had the crowd right with them in the afternoon. May Wirth and company, a circus act with some fine looking

CHIEF COUNSEL FOR GOV. SULZER

D-CADY HERRICK, CHIEF COUNSEL FOR SULZER.

ROOSEVELT TO BRAVE SOUTH AMERICAN WILDS

New York, September 29.—For more than three months—from about the middle of December to the end of March—Theodore Roosevelt will sojourn in the wilds of South America. Arrangements for this end of the colonel's South American trip were partly described today.

Colonel Roosevelt will sail from New York October 4, and will spend about two months visiting Brazil, Argentina, Chile and Paraguay cities. In these countries he will be the government's guest and he will deliver several formal addresses. Late in December a steamer will leave him and his party of naturalists at Cuyaba, Brazil, the head of navigation on the Paraguay river, and at that point the hardships of the journey will begin.

The colonel's companions from this point will be Anthony Faia, of New York, the arctic explorer, and George K. Sherrie, of Indiana, and Leo E. Miller, of Newfane, Vt., naturalists connected with the American Museum of Natural History, whose success the expedition will be undertaken.

These four, with native bearers and servants will embark at Cuyaba in light draft motorboats and canoes, although later it is expected that a canoe alone will have to serve.

UNDAPED SCARE-CROWS GET INTO THE U. S. ARMY

Washington, September 29.—"Many an undaped scarecrow gets into the army" because of the custom of admitting men several pounds under regulation weight, according to Captain Harold W. Jones, of the army medical corps. After examining 500 recruits, Captain Jones has reached the conclusion that the recruits of today are inferior in strength and physique to the soldiers in the army in 1875.

Of the half thousand men who presented themselves for enlistment, only 10 per cent could be rated as "strong," while it was 57 per cent in 1875, when hardy German and Irish immigrants of stocky build were numerous among recruits. At that time 60 per cent of the recruits were foreign born, whereas present-day enlistments comprise only 9 per cent foreign born.

Modern recruits are alleged to have more brains than those of earlier years, and it is a question whether they are not better all-round soldiers. Further investigation along these lines may be made by army officials.

LANCASTRIAN NAMED LONDON LORD MAYOR

London, September 29.—Sir Thomas Vansittart Bowater was elected lord mayor of the city of London today. He will assume office on November 9.

Sir Thomas is the first Lancastrian to attain this high position. After him, however, there will be, barring accidents, a succession of Lancastrian lord mayors, for Sir Charles Johnston, who will succeed him, was born in Liverpool, and Sir Charles Brierley, Wakfield and Sir William Dunn, who are next in rotation, are natives respectively of Liverpool and Chichester in Lancashire.

Sir Thomas Bowater is a Manchester man. He was born in 1852 and came to London as a young man to enter business. He is now at the head of a large firm of paper makers. His rise politically has been rapid. Every lord mayor must have served as alderman; an alderman, and a member of the council, must wait several years before being elected sheriff.

York state to be impeached the lawyers on both sides and the court realized that precedents would be established. For that reason Judge Herrick had spent practically all his time since the impeachment in planning the defense and looking up the law as applied in other cases. This picture of Judge Herrick was taken at the opening of the trial.

How the Sense of Inequality Is Developed.

(William J. Tucker in the October Atlantic.)

The chief street of any great city is a moving picture show open to all dwellers on the side streets and in the alleys. The economies of trade are bringing about an enforced proximity of those who make the more attractive goods to those who buy and display them. The great stores on Fifth avenue now use their upper floors for workshops. At the noon hour the operatives occupy the avenue. It is not to be supposed that they are idle observers, or that their daily observations fail to make a cumulative impression. Nothing could be better calculated to develop the latent sense of inequality than this increasing familiarity, this more public intimacy, with those who are in possession of the objects of common desire. What may now seem to be a mere incident attending the growth of "publicity" may yet be seen to have far-reaching social results.

"The Last Ride Together."

(From the October Atlantic.)

(An old-fashioned poet takes leave of his Pegasus.)

With "vers libre" and the like I have no patience (Old-fashioned bards to modern fads are foes), And, now I've realized my limitations, I'll write in prose.

My Pegasus, farewell! I sadly leave you For some new master to bestride and break! But ere we part, my steed, this hint I'll give you: For old sake's sake.

Be up-to-date, and realize, instantler, That modern poets dub smooth meters "not." So make your gait, instead of one long center, A turkey trot!

New English eyeglasses are so fashioned that when not in use and folded they resemble a locket and may be worn on a chain for an ornament.

Thinking of Work Is Not Doing It

Ambition and Opportunity are Life Partners in the Uplift of Thrifty Men.

Neither works without the other. Opportunity never reveals herself to men without Ambition. Ambition never dwells with men who seek free gifts. Hopes of some soft snap are often mistaken for ambition by idle-handed, addled-incompetents. They think they could hold a job if they had one.

A genuine seeker of honest work is willing to pay a fair price for a Want Ad and has a right to expect results. Independence and thrift create ambition in men and, to men of independence, thrift and ambition, opportunity reveals herself in every Want Ad column of The Constitution.

If you are independent you scorn the offer of something you did not earn. If you are thrifty and worthy of a good job you either have or in a short time can earn the price of a Constitution Want Ad. If you have ambition you are too proud to accept a masked offer of free space—an offer that makes you a partner to padded reports of space sold to advertisers.

Braselton Replies to Thomson's Eleventh Hour Attack

AMOS W. BRASELTON.

IF the city tax fi. fa. of 1912 referred to by Mr. Thomson was not made from the fact that the same piece of property was returned for taxes by myself as lessee of the corner of Ellis and Peachtree and by Mr. J. B. Frost as owner through a mistake caused by a 99-year lease, and if the taxes which said fi. fa. as issued for was not paid during the year 1912, I will resign as alderman from the fourth ward, which I will be elected to today by the biggest majority of any candidate for alderman in the race.

As to my not being registered, I am just one of the five or six thousand citizens of Atlanta who have been disfranchised by the ring politics in this special primary. The ring politicians allowed such little time for registration that between five and six thousand people failed to get registered.

As to Mr. Thomson being backed by ring politics, petty politics and petty politicians, I positively state that I was forced as a candidate against Mr. Thomson for alderman for the fourth ward to go to his private office, his business office, and pay my entrance fee so that I could become a candidate for alderman from the fourth ward.

Mr. Thomson says now that he voted for the referendum and recall, but he did not vote to let the people vote and he would not trust the people to vote, and he cannot deny it. It's a matter of record.

MY PLATFORM:
I STAND FOR A LIBERAL, PROGRESSIVE, STRAIGHT BUSINESS POLICY.

Respectfully,
AMOS W. BRASELTON.

WILL BE SHARP FIGHT IN SECOND DISTRICT

Half Dozen or More Candidates Will Be in Race for Congress.

MENTIONED TO SUCCEED CONGRESSMAN RODDENBERRY

Senator E. L. Smith, of Edison, Col. E. E. Cox, of Camilla, and J. L. Hand, of Pelham, are mentioned as possible successors to Congressman Roddenberry.

There is no doubt that there will be a warm contest in the second congressional district for the vacancy created by the death of Congressman Roddenberry.

Senator E. L. Smith, of Edison, representing the ninth district and president pro tem of the state senate, has been prominently suggested as a possible candidate for congress from the second district to fill the vacancy.

The announcement of Colonel E. E. Cox, lawyer at Decatur, as a possible candidate for congress from the second district, was made Monday morning.

There is no doubt that there will be a warm contest in the second congressional district for the vacancy created by the death of Congressman Roddenberry.

Another possible candidate is J. L. Hand, of Pelham, former state senator and now a member of the house of representatives in the second district.

It is possible that Judge J. R. Pottie, of Columbus, will enter the race. Judge Pottie is being strongly urged to run by his friends and he has decided to do so.

W. W. Banks, mayor of Tifton, is another well-known south Georgia politician who is being groomed for the race by his friends.

Another strong congressional possibility is H. J. McIntosh, editor of the Albany Herald, who has often been spoken of for congress before and should be decided to enter the race this time.

The counties comprising the second district are Thomas, Grady, Decatur, Madison, Mitchell, Wilkes, Early, Tift, Worth, Dougherty and Calhoun.

Claude Peyton, of Worth; Judge H. W. C. Verren, of Colquitt; and W. C. Verren, of Colquitt, are among those whose names are mentioned.

Uncle Sam's New Weather Sharp

CHARLES F. MARVIN.

Professor Charles F. Marvin is the new chief of the weather bureau, succeeding Willis L. Moore, removed.

Professor Marvin was chief of the instrument division, which position he held since 1888. He was appointed to the post of chief meteorologist in 1907.

Some members of the committee are known to be in favor of having the issue decided at the regular election, which the governor will soon order.

The question of recognition by the United States of the Huerta government is a complex one. Every Anglo-Saxon who contemplates the methods by which President Moore and Vice President Pino Suarez were deposed, and to put the matter as gently as possible, must regret that the provisional government of General Huerta did not take greater precautions to safeguard the lives of the two prisoners.

It is almost a truism to say that it is more important that the president of Mexico should have the qualifications necessary to enable him to govern the Mexicans than that, in other respects, he should measure up to Anglo-Saxon standards.

More than a mile of burned railroad bridge was rebuilt in twelve days this summer. It was the two-track bridge from Newburg bay, 6,463 feet long, including a draw 264 feet long.

When Mrs. Joyce reported that she had found the imprint of a man's foot on her back porch, she was told to look at the man's feet.

Discontent was growing in Centropolis. Miss Eva Tuggie read a paper before the Women's Improvement Society on "The Increase of Crime and How it can be Checked."

The editor of the Headlight said he had no objection to the publication of the article, but that if the Ladies' Aid Society would not publish it, he would.

The next week Miss Tuggie sent him a clipping telling about a daring robbery at the bottom of the street, and an accident in a city only 200 miles away.

Miss Tuggie was short-sighted and headed public opinion in Centropolis. She was the only woman in the city who could count on the emoluments of office for another year.

Five More Days to Final Stand in Car Conductors' Big Battle of Ballots

The final stand in the big battle of ballots for the honors of being one of the winners in the last lap in five more days.

The roar of the friendly conflict can be heard from all sides and the cheers of victory follow the announcement of the result as soon as the ballots are counted by the judges, after the close of the polls Saturday.

It is grit and perseverance that will win every field of endeavor more often than any other quality, and this is no exception in the case of the car conductors.

Now for a personal word for each man in blue. Usually there is one in every corner who jumps the gun and start and goes off like a sky-rocket at the Christmas time with the rest trailing in the rear.

It does not make a particle of difference what the relative strength of the candidates has been since the contest began. The relative strength of the candidates is not what counts.

The Safe Choice

IN SELECTING A DEPOSITORY for your funds, absolute safety is your first consideration. A wealthy bank with an inexperienced Management and Directorate may be able to afford you every courtesy you desire. But decidedly the safe choice is to deposit in a bank with an experienced Management and an able Directorate, and where its reputation for meeting every need of the most particular deserving depositors extends over a period of many years.

ONE THOUSAND DOLLARS

Offered to Charity By Owens Campaign Committee if it Misstated W. A. Hancock's Record

Mr. W. A. Hancock, candidate for Alderman from the Eighth Ward, attempting to pull the wool over the eyes of the People, makes the following statement in his poor defense of his record in voting against the Will of the People as expressed at the ballot box.

During the entire time the matter of amending the City Charter was pending before the city council from May 20, 1907, until June 28, 1910, and NOT for two months, as Mr. Hancock explains, there is not a single recorded instance where he voted in favor of the Amendment.

We make the following proposition: If the foregoing statement is not true, we will pay the sum of ONE THOUSAND DOLLARS to the Charitable Institutions in the city of Atlanta, to be designated by the Associated Charities.

We are simply dealing with your public record, Mr. Hancock, and not "throwing mud," as you feign to make believe. You made the record, we did not. You must stand or fall by it.

Russia's Vast Farm Industry.

Russia's present productive area for cereals is considerably larger than that of the United States and Canada combined. Russia has more land under wheat, rye, oats, potatoes and harvest grass than the great republic and the great dominion together.

HANCOCK REPLIES TO JOHN S. OWENS

I notice that John S. Owens has at last resorted to "slinging mud," although he agreed with me to run a clean race. My record in council, I believe, was in every way satisfactory to the people. He published in Sunday's papers the record of my vote on the election of officials by the people, which is misleading. I do not consider it necessary to go into details to explain my vote, except to say that the matter of election of certain officials by the people had been considered at different meetings of the General Council for more than two months.

My only reason for writing this article is due to the fact that Mr. Owens has broken faith with me, as we had positively agreed to let the people know that two gentlemen could run for office without SLINGING MUD.

Respectfully, W. A. HANCOCK
