MEXICAN "SNIPERS" AT LAST SILENCED BY BLUEJACKETS

Admiral Badger Reports Desultory Fighting Over at Vera Cruz — Americans Search Houses for Arms.

THREE MORE AMERICANS KILLED BY THE "SNIPERS"

And 25 Are Wounded. Badger Reports Food Supply Short — Change for Better Appearing.

Washington, April 23.—Fighting in the city of Vera Cruz finally has stopped. Rear Admiral Fletcher by wireless under date of 9 o'clock tonight reported that desultory firing that had continued since the American forces landed Tuesday had been silenced by a house-to-house search and disarming of all inhabitants.

NAVY DEPARTMENT MAKES STATEMENT.

At midnight the navy department issued the following statement:

"The fighting in Vera Cruz at 9 p. m. Thursday. General Fletcher reports that the desultory firing which was still going on at the time he reported a house-to-house search and the disarming of the inhabitants. The fighting, his proclamation. Admiral Fletcher, in a long conference with the principal city officials, at which he carefully explained the attitude of the United States. He reports that the officials appeared willing to resume their official duties, but that they feared consequences for acts from the Mexicans. Pending their resuming their official duties, Admiral Fletcher says he is appointing officers to supervise the administration of the city government.

"Simultaneously with the effectual suppression of the guerrilla warfare which had been carried on, a great change for the better is reported. Admiral Fletcher reports that the food supply of his dispatch many people were appearing in the streets and that a number of stores, banks and business houses had resumed business during the afternoon.

"Fear is still expressed for the waterworks, as the supply is running low and an expeditionary force will be tomorrow morning for the waterworks to insure water supply. The food question is serious. The defense line of trenches extends around the city and out to the sand hills.

"The admiral reports that the natives believe that the Mexicans will return to attack Vera Cruz."

3 MORE KILLED AND 25 WOUNDED.

Admiral Badger tonight reported to the navy department that three more men had been killed and twenty-five wounded in the fighting at Vera Cruz.

The killed in today's fighting were D. J. Lane, seaman; E. H. Frohlichstein, ordinary seaman; and E. C. Fisher, ordinary seaman.

Today's wounded list included: Frank Phillips, drummer; George J. Soden, gunner's mate, second-class; E. G. Wright, ordinary seaman; H. P. Fifth, ordinary seaman; L. H. Taylor, seaman; W. O. Kern, chief steward; captain; R. E. Lee, ordinary seaman; Edward C. Walter, seaman; H. P. Nagrowski, private; R. O. Jones, seaman; W. L. Hawk, boatswain's mate, first-class; T. V. Biscup, boatswain's mate, second-class; J. L. Harris, seaman; P. A. Stevens, ensign; C. C. Williams, ordinary seaman; S. J. Everett, ordinary seaman; and L. F. Bates, seaman.

Secretary Daniels tonight gave the news in this statement: "Admiral Badger wires tonight that he landed the battalion from the Minnesota, Michigan and South Carolina."

Views of Vera Cruz Seized by United States

1. VERA CRUZ. 2. CATHEDRAL AND PUBLIC SQUARE.

The entire Fifth brigade, comprising the Florida, Seventh, Nineteenth, and Twenty-eighth infantry, has been ordered to embark on transports at Galveston for Vera Cruz. The transports were loaded with rations and supplies for 10,000 men for thirty days. They will go to Vera Cruz and will probably be brought into action against Mexico City if invasion results. Vera Cruz will undoubtedly prove the center of American operations in Mexico. It is the chief seaport of the republic and is the key to Mexico City, being connected with the capital city by two lines of railroad.

Anti-American Feeling Flaming Into Outbreaks In the Mexican Capital

Washington Is Advised That Americans Are in Danger — Anti-American Outbreaks Reported at Other Points.

Washington, April 23.—Private advices reaching here today in code from Mexico City, disclosing that Americans there were in danger, have been communicated to government officials.

The dispatches, which were from a source of unquestioned trustworthiness and bore date of today, set forth that mobs of Mexicans were forming for anti-American demonstrations; that Americans on the streets had been menaced and threatened with violence, and that they were concentrat-

ing at the embassy for mutual protection.

The state department had been advised that between 800 and 1,000 American citizens still are in Mexico City.

AMERICANS TAKEN OFF AT TAMPIOCO.

Washington, April 23.—Reports from Admiral Badger to the navy department today declared that American and foreign refugees at Tampico had been taken off from the city "through the courtesy of British and German cruisers." The admiral reported all quiet at Vera Cruz.

Rear Admiral Mayo sent this report to the navy department today from Tampico:

"By courtesy and energy of the captains of the German and British cruisers there are now on board our ships about 1,200 American refugees. More are expected tomorrow, coming from outside points. Merchant ships, taking men on board."

Rear Admiral Badger reported to the navy department today from Vera Cruz that he was sending the Esperanza with about 400 refugees to Galveston, where they will be landed. The Esperanza will then return for more. Admiral Badger will charter the steamer Mexico City and send her to Tampico to transport other refugees to Galveston. The collier Cyclops also will be employed to carry refugees away from Tampico. In transmitting this report the admiral said it was his intention to send ships to Taxpan to take off refugees. The number of American refugees to arrive at Galveston would aggregate 2,000, he estimated.

The reference in Admiral Mayo's dispatch to the "courtesy and energy of the captains of the German and British cruisers" is explained in another dispatch as meaning that the American ships were lying outside the river about nine miles from the city of Tampico and the officers of the British and German cruisers volunteered to transport refugees to the American washups lying outside.

ATLANTA SCHOOLS TO BE CONDUCTED ON "UNIT SYSTEM"

Commissioner Guinn's Resolution to Cut Down Number of Grammar Grades From 8 to 7 Adopted.

The "unit system" regarded as the most progressive school innovation in effect among grammar schools of the United States, will be inaugurated in Atlanta at the start of the 1914-15 scholastic year.

Commissioner R. J. Guinn's resolution to put Atlanta's schools on the "unit system" to cut down the grammar grades from eight to seven, and providing for a complete redistricting of the schools and limiting the number of pupils to forty for each teacher, was adopted at the meeting of the city educational board Thursday afternoon.

Will Select School Books.

Within a few weeks the school board will be required to select school books for the public school children; the books to be used for a period of five years. Changes which are expected will cost school children or their parents approximately \$11,500, according to an estimate by Commissioner Terrell.

The "unit system" will cut down the number of books required, and will enable the school board to establish a more elastic system of districting the children.

Figures show that of the total number of school children entering the public schools, only about 5 per cent finish in the eighth grade. Under the law it is required that a child must be six years old before it can be entered, but it is a well-known fact that the superintendent and the board of education has not been able to enforce the rule. The "unit system" will provide a plan of studies to best fit a boy or girl for entering the vocations they select. Also by cutting out the eighth grade more room will be furnished in the schools of eight grades to accommodate the smaller children in the first, second and third grades, the most overcrowded.

Villa Says He's Glad the United States Has Bottled Up the Port of Vera Cruz; Explanation Is Made for Carranza

El Paso, Texas, April 23.—General Francisco Villa, head of the rebel military forces, informed George C. Carothers, special agent of the state department, that he will decline to be dragged into a war with the United States by anybody.

"Why," he smiled as he threw an arm about the broad shoulders of the government representative, "all Europe would laugh at us if we went to war with you. They would say 'that little drunkard Huerta has drawn them into a tangle at last.'"

Villa said he was not consulted in the drafting of the Carranza note transmitted to Secretary Bryan last night and which was regarded as somewhat hostile in tone.

The rebel leader told Carothers, who reported the interview to the state department tonight, that one of the chief reasons he came to Juarez was to show the American people that his attitude was friendly and that he did not fear to trust himself on the border without a military escort behind him.

Wilson Answers Carranza By an Embargo on Arms And More Border Troops

Washington, April 23.—United States troops moved tonight to reinforce the American navy at Vera Cruz; the embargo on arms into Mexico was formally restored, and troops were ordered to the Mexican border, primarily to relieve uneasiness among border residents, but also as a precaution against hostile military operations along the international line.

Secretary Garrison announced that a brigade of infantry and some artillery under Brigadier General Frederick Funston had been ordered to embark on the four army transports at Galveston for Vera Cruz to support the expeditionary forces of marines and blue-jackets there. The chance that General Maas, the federal general, might make a return attack on Vera Cruz with reinforcements, and the possible necessity for a forward movement toward Mexico City to protect fleeing Americans, and the Vera Cruz railroad were the underlying reasons for the military movement.

AMERICAN TROOPS MOVING ON MEXICO

Fifth Brigade Ordered From Galveston to Vera Cruz. More Infantry and Artillery Are Ordered to Border.

Washington, April 23.—Secretary Garrison announced at 9 p. m. that the embargo against shipment of arms into Mexico from the United States had been restored.

Three regiments of infantry at San Francisco and the artillery at Fort Riley, Kansas, were ordered tonight to report to Brigadier General Bliss for services along the Mexican border.

Secretary Garrison's statement follows: "The department has been in receipt of many telegrams from places along the border showing apprehension, and to relieve the tension I have ordered additional troops to report to General Bliss to be distributed at such places as he finds advisable under the circumstances."

"Three regiments of infantry at the Presidio of San Francisco will report to General Bliss, together with some artillery from Fort Riley.

"Under orders from the department no shipments of war will at present be permitted to go over the border.

"A brigade of infantry and some artillery will be dispatched from Galveston to Vera Cruz to co-operate with the navy there."

Brigadier General Frederick Funston has been assigned to command the brigade ordered to Vera Cruz from Galveston.

General Carranza caused a flurry. The fifth brigade of the first division of the S. A. tonight received orders to embark on waiting transports for Vera Cruz. The general has been ready in preparation, but little remains to be done except get up steam in the ships' engines, as the brigade has been ready here for three days and the transports have taken on two months' provisions and 800 coffins. It is expected the brigade will sail late tomorrow.

WILSON IS COMPARED TO ABRAHAM LINCOLN

Rome, April 23.—The Tribune compares President Wilson to President Lincoln. Both, it says, were possessed of the same Biblical inspiration, the same vigorous puritanism, the same combative ideas. Neither was satisfied to remain content in his own uprightness, but wished others to be upright. Both were pacifists, and yet both had to assume the leadership in war.

FALL OF VERA CRUZ PLEASES VILLA.

Carothers took supper with Villa and canvassed the situation thoroughly.

"Honest," said the rebel general between mouthfuls, "I hope the Americans bottle up Vera Cruz so tight they can't ever get water into it. Your admiral is doing something it would have taken us a long time to accomplish, if we could have accomplished it at all."

The general brought with him a hundred woven rugs of the softest lamb's wool as a present for General Scott, who recently left Fort Bliss to become assistant chief of staff at Washington. Carothers promised to forward them along with Villa's congratulations to the recipient of the promotion.

Villa said he had arranged with all foreigners, except Spaniards, to ship out their cotton from Torreon on paying a war tax, to which the foreigners had agreed. He said Spanish cotton, was not included in the arrangement, having been confiscated. There are 75,000 bales there, valued at \$450,000.

CARRANZA'S AGENT EXPLAINS NOTE.

Roberto V. Pesquera, Carranza's confidential agent here, insisted today that the note of his chief to Secretary Bryan was not hostile, but was intended as a basis for further negotiations. He was expecting a reply from Mr. Bryan setting forth the views of the state department.

The rebel position is that the American troops should be withdrawn from Mexican soil. Carranza recognized as de facto president or at least as a beligerent, and the punishment of the individual Huerta, and the other individual offenders left to the rebels.

Carranza, if recognized, would not hesitate to apologize and disavow the acts of one whom he considers a traitor.

"I think his statement was fair and frank," said Pesquera, "and by no means a threat of war."

He was asked if the words used by Carranza, "will drag us into an un-

REVILERS OF THE FLAG ARE TO BE ARRESTED
New Orleans, April 23—Superintendent of Police Reynolds has issued an order for the arrest of any person making "disparaging remarks about the army and navy and the American flag on the streets of this city."

The order was issued when the superintendent was advised that four soldiers in uniform had forcibly dispersed a quintet of street orators who were haranguing a crowd and charging that the army and navy were subsidized.

VERA CRUZ RAILWAY SEIZED BY FORCES OF UNITED STATES

Major Smedley D. Butler Leads Detachment of Marines to Capture Strategic Point Held by Huerta's Men.

MEXICANS ARE MASSING TO ATTACK AMERICANS

Reported Huerta's General Is Gathering Troops to Attempt to Retake Vera Cruz. Americans Say Mexicans Cannot Retake City.

Washington, April 23.—American marines and bluejackets today gained possession of breakwaters three miles inland from Vera Cruz. This position is on the railroad to Mexico City, and had been in possession of Huerta's soldiers since the United States forces took possession of the city.

General Gustavo Maas, former Mexican commander at Vera Cruz, was reported today to be intending to move against the city with strong reinforcements brought up from Puebla. Major Smedley D. Butler, of the marine corps, was dispatched on outpost duty with a detachment of marines to a position a few miles beyond the western limits of the city on the railroad. They took light field pieces with them. Many of the men were drawn from the Panama battalion formerly commanded by Major Butler.

The city was prepared throughout the night for an attack by the Mexicans. Captain Rush, acting under the orders of Rear Admiral Fletcher, continued in immediate command of the garrison. With the exception of the tramping of detachments of sailors and marines, there was scarcely a sound in the city, but occasionally a sniping shot was heard from the suburbs.

6,000 AMERICANS HOLD VERA CRUZ. The strength of the American forces on shore Vera Cruz was estimated this morning at 6,000 by Commander Charles F. Hughes, chief of staff to Rear Admiral Charles J. Badger. They were accompanied by the equipment of field guns and machine guns. Although General Gustavo Maas was reported to be assembling inland several thousand Mexican troops for an assault on the city, Commander Hughes said that the American force in Vera Cruz was capable of repelling such an attack without using the ship's big guns, which might cause damage to the city.

Rear Admiral Badger's latest figures this morning gave the total of the American casualties as 12 dead and 45 wounded. Several of the latter are probably fatally hurt. Flag officers from the American fleet boarded every liner today and looked over the manifests for arms and ammuniton. They warned the commanders not to land war supplies. Several small coasting vessels were taken in charge by American officers, who sent them out of the inner harbor because it was thought they might harbor Mexican sharpshooters.

The flag officers were instructed to impress upon all the Mexican citizens that the United States was not making war on Mexico, but was merely restoring Vera Cruz in order to obtain reparations for indignities. No alarming reports were received from Tampico today, but an American squadron outside the breakwater was coiled and ready to proceed there at an hour's notice.

HOW AMERICANS TOOK VERA CRUZ. Early yesterday afternoon the city of Vera Cruz was in undisputed possession of the American invading forces. Although there was no organized force against them and the snipers were less in evidence than at any time during the fighting, eight Americans were killed and about thirty were wounded. While the Mexicans suffered more severely, the number of their casualties had not been ascertained, but the best estimates indicated that in the engagements of Tuesday and Wednesday their dead amounted to about 150. No person knows how many Mexicans were wounded, as a large part of them were taken away and hidden by friends.

In the streets about the plaza Wednesday afternoon lay fifteen or twenty bodies, majority of them attired in women's clothing. Some of the men evidently had been dead since the engagement of Tuesday and the tropical heat made their disposal imperative. One of the first orders given after the city was taken, was to bury the Mexican dead.

When the city was taken, the order was given to advance carefully and search every building for men bearing arms. Scores of prisoners were taken, most of them protesting volubly, many hysterically, that they were not guilty of any crime. The Mexicans were accused of shooting all prisoners taken, the captured men could not but believe that they would be executed. The guns found in houses were thrown by the marines and bluejackets to the sea.

MADE PRISONERS BY THE SHELLS. A squad of soldiers, despite the shelling it had received Tuesday, continued to man the batteries on the shore. Americans from the battered Benito Juarez tower. After they had been shelled for several hours, the Mexicans had torn away the stairs from the tower from the mine and had been unable to fight. At 10 o'clock Wednesday morning the Mexicans were in undisputed possession of all the city except the southwest quarter, in which the harbor was situated, and a few outlying districts. At noon they had taken the main plaza of the city, which was captured by Lieutenant Commander Buchanan and his men.

Chief of Police Antonio Villa Vicencio was taken prisoner by the Americans shortly after they had occupied the main plaza of the city. It was suggested that he continue to direct the municipal government. He refused the matter under advisement. Had the frightened mayor acceded to Admiral Fletcher's suggestion, which was made through Consul Canada, the Mexicans might have been spared the humiliations and undoubtedly a number of lives would not have been sacrificed.

WAS TOO LATE. Coincident with the orders for the general advance of the Americans an order was given to the chief of police, the only authority he hoped to reach, and desired Consul Canada to read it. It was an urgent appeal to the chief of police to call off the snipers and prevent the bombardment he believed would follow if they continued their fire. Even before the messenger had climbed the stairs into the consul's office Captain Rush was informed of the contents of the note he bore and immediately sounded "cease firing" and "halt." But it was too late. The action had been begun all along the line and it was not considered wise to attempt further measures to stop it.

The commanders ordered their men to double quick, which they carried out with a vigor that afterwards gave them the city. The Mexicans fled in confusion, broken windows and bullet-scarred walls gave the plaza a gruesome aspect. Within the five minutes that elapsed between the time the Americans, most of them women, who had been there since the commencement of hostilities, when the square was taken they were notified that they might go to other places, but they probably would not incur the further danger by remaining in the hotel.

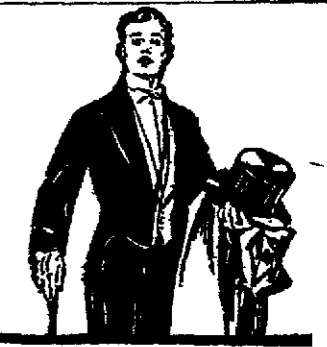

It was not until late Tuesday that the last of General Maas' men on top of the hotel received orders from outside the city to vacate their position. The order was obeyed by a portion of the hundred men who were occupying the roof and vantage points in the building. A small portion of the band disobeyed orders and fought to the last. These men, however, surrendered Wednesday morning. A lieutenant, who was in command of the Mexicans, was led out a prisoner, and, although he would not admit it, he trembled and turned pale in the belief that he would be shot.

THE TASK AHEAD.

Unless Carranza changes his mind within the next few hours the probabilities are the United States will have to deal with a united Mexico.

Undoubtedly, the hotbeds in Carranza's counsels have forced him to take an attitude which cannot be construed otherwise than as intention to show armed resentment to the policy of our own country.

The self-interest both of Carranza and Villa would have dictated a hands-off policy while the United States eliminated Huerta. Carranza and Villa could then, as circumstances developed, demonstrate their fitness to take over the task botched by Huerta, backed up by the powerful support of this government.

But it seems the Mexican national pride, a mysterious and baffling entity, has been stirred by the incidents at Vera Cruz.

What Huerta hoped and schemed for may come to pass.

However much the constitutionalists may despise him, they will be compelled to listen to anti-American prejudices within their own ranks.

That means our task will be much more formidable than the mere blockading of a few ports.

We will meet with organized opposition in the north of Mexico, and hostilities will transpire on land as well as sea, with the possibility of the entire national guard being called upon for actual service.

The prospect is not a pleasant one. The best hope in the foreground is that the constitutionalists may yet conquer their prejudices and accept in good faith the declaration of President Wilson that he has no sinister designs on the territorial integrity of Mexico.

Should we be coerced by force of circumstances to occupy all of Mexico, the task will be costly in men, money and complications.

It is useless to blink facts. Carranza and Villa have well-trained hordes. The army of Huerta showed spirit and dash at Torreon.

In no direction will it be a "walk-over" for the troops of the United States.

We can cut off the supplies of both factions, of course, and gradually starve them into submission.

But the undertaking will be a tedious and bloody one, and even after we have shut all recognized ports of entry into Mexico, arms and ammunition will continue to drift in by underground routes.

All this is written not in a spirit of pessimism, but of candor.

The long run, we will pacify Mexico. The achievement will not be a "picnic." It will involve huge expenditures, and it may saddle us with tremendous additions to an already swollen pension list.

The only consolation is that when peace eventually is restored, a war indemnity will be a measure protect us.

But not even a war indemnity will restore lost lives and invalidated men.

In the meantime, there is the disturbing possibility that violence toward Americans and foreigners generally in Mexico may inspire complications of a far-reaching nature.

The position we occupy on this hemispheric has driven us into a disagreeable and onerous task. We could not have ignored it.

But the rabid "war party" at home may now see the wisdom which led Mr. Wilson to exhaust every resource before courting the situation that now confronts us.

ATLANTA AND CHICAGO.

The recent visit to Atlanta of a delegation from the Chicago chamber of commerce marks a significant epoch not only

in the commercial history of Atlanta, but in the trade tendencies of the entire country.

The Chicago chamber of commerce is among the liveliest, and certainly it is the best organized trade body in the country.

Its work is subdivided between a large number of committees, each of which is headed by an expert in his particular field.

What Chicago does not receive in the way of custom legitimately due it is not the fault of this aggressive and many-sided machine for business-reaping.

Chicago picks Atlanta as one of the strategic southern cities with whom it will be profitable to intensify business relations.

The business-getters of Chicago see a parallel between the briskness of the big city on the lakes and the briskness of the big city that overshadows the southern states.

They intend to form, if possible, a coalition looking to the promotion of their mutual business interests.

That is the significance, so far as Atlanta and Chicago and other southern cities are concerned, of the missionary trip of these live wires.

The larger national significance lies in recognition by business men of first caliber that the opening of the Panama canal, world trade and national trade will undergo a radical evolution.

The lanes and lines of traffic, of buying and selling, will be readjusted.

Competition will "speed up."

The community that gets the most out of these new conditions will be the community that has formed working relations with its neighbors, since knowledge and amiability are tremendous factors in the promotion of business.

The Atlanta and the Georgia chambers of commerce and the industrial bureau of the local organization have shown active appreciation of these cardinal facts.

What Chicago is doing to get acquainted with its territory, Atlanta is doing to get acquainted with its territory. The Southern Merchants' conventions, and similar gatherings, are testimony in that direction.

UNHAPPY COLORADO.

Within the past few days the labor disturbances in southern Colorado have occasioned about as many deaths and disabilities as our taking of Vera Cruz, reckoning with American losses only.

The entire national guard of Colorado is to be called into action. A virtual state of anarchy prevails. The mandate of the state appears to go for nothing, either as between the striking miners or the operators.

It ought to be impossible for such a situation to exist in a civilized country. There might be slight palliation if the disturbances had merely begun, and the disorder could be attributed to the natural friction engendered by the early bitterness of partisans.

But for several months violence and upheaval have been the program in the mining districts in Colorado. Time and again state troops and disaffected miners have clashed, blood has been shed and had feeling created. There was the unfortunate incident of "Mother" Jones, which at one time threatened farspread and disastrous circumstances.

In some respects, the situation in Colorado, West Virginia and Michigan shows parallel lines.

In each instance there is organized obstinacy from both disputants and their partisans.

Efforts to bring about compromises are met with indifference or with a spirit of unreasonableness.

Neither side seems disposed to admit that concessions should be made mutually, and both sides exhibit a continuous contempt of the rights of that great third party, the public.

The question as to whether the strikers or the operators in these three states have merit on their side is not the cardinal issue.

The point that matters is that lawlessness has supplanted law, and that business interests near to and remote from the immediate industries are badly affected. And the longer strike continues, the deeper and more costly will be the scars left upon the entire industrial fabric.

The more one contemplates conditions of this nature the greater becomes the conviction of the necessity for compulsory arbitration, compulsory mediation or compulsory publicity.

WHEN NEGROES "CLEAN UP."

C. M. Tanner, pastor of the Bethel African Methodist Episcopal church, gave excellent counsel to his congregation recently upon the subject of sanitation and hygiene.

The following keynote to his sermon might with profit be read by every man and woman of the negro race in Atlanta, the south for that matter:

It is not enough that we keep the places where we work clean. We must carry this cleaning process into our homes and to the yards and streets around our homes. We owe it not merely to the city, but to ourselves. Too often we see our people employed in keeping the homes of others in order, but these same people cannot be persuaded to spend one hour of their spare time to keep their own yards and homes clean.

A particularly apt portion of this advice is that which applies to the negro learning lessons in sanitation and disease-prevention from the homes in which he works.

Today the gospel of modern cleanliness is so widespread that hardly one white person out of fifty does not understand its cardinal principles.

This means that in all white homes, and white business houses able to employ negroes, in the capacity of servants or workers, twentieth century rules of sanitation are likely to be observed.

If the negro will casually study these rules and then apply them in his own environment, a far step will have been taken toward the solution of the problem of the disease and death rate.

Better still, would be ordinances that enforced rigid sanitation upon negro as well as white.

Just from Georgia

Right on the firing line. Our fighting men of the strong sea, And the regiments so fine. Stake all your wealth that they're glad to be Right on the firing line! Right on the firing line. Their guns and sabers shine; To a thunder-song They march along— Right on the firing line. They cleave a pathway through the deep, To the crimson glory of the field they'll sweep Far from the firing line.

The Limit. Attributed to a traveling man: "A firm doing business in Mexico found that the cashier was stealing. The man was arrested and sent to the penitentiary. In a couple of weeks he came back and applied for his old job. I thought you sent you to the penitentiary," said the manager, "yes, did," was the reply, "but they transferred me to the army and I did not like it and came home."

The Eagle Bird. The Eagle's the bird has the call now— Beware, who would raffle or rifle! The Peace Dove has taken a fall now— They'll put it in pickle a while.

The bird for all danger and daring, Acclaimed by all nations, And the mad foes of Freedom are hearing His war-cream high over the guns!

Distracting Noise

AIN'T A CHANCE IN THE WORLD TO GET THROUGH HERE JERRY— TOO MUCH MUD!

Limit in Lassitude. A Billville paper tells of a man who prays for a hurricane to sweep the road for him and toss it to the fireplace, they calmly wait for lightning to run down the chimney and light the fire.

The Wise Editor. Says The Hammond News: "Some editors are well matched on the subject of wear, or fall to wear. One of them even knows what color they formerly wore and just how many they now wear. Very observing editor, that."

Watch Out! Far to the splendid war-fires led Her foes—they shake and shiver: Old Glory's lookin' wrathful-red: They'd better hunt for kiver!

Playing Even. This one appeared in The Burlington Independent. A woman lay at the point of death several weeks, but finally recovered. On her first trip downtown she put her head in the door of the undertaker's shop and called out: "Stung again!"

The Usual Brand. "There's no war fever in this section," says The Whitest County News. "What there is, is partakes of the Spring variety. The drowsy ones are swinging hammocks between shady trees, and yesterday we heard a fisherman complain that the fish tugged at his line so they woke him up the minute he got to sleep."

Down South, in Georgia. All the country lookin' fine Down South, in Georgia; Fields of cotton, corn an' wine Down South, in Georgia. Sweets on sweets the scenes unfold, All the joy you can hold, Dreamin' of the harvest gold Down South, in Georgia.

Take my hand my honey sweet Down South, in Georgia; Don't you hear the world's heart beat Down South, in Georgia? Raise your eyes and sigh no more, Ship has gained the shiny shore, Good times knockin' at the door Down South, in Georgia.

Too Risky. "I'd volunteer for the war," he said, "but the old lady's been wantin' my job of sheriff for the longest, and if the women get the votin' privilege while I'm gone she'd be sheriff of this here county quicker'n a wink! She's already singled out half a dozen men that she hasn't careened all the good in office there'd be no hope at all for 'em; so I reckon I'll sorter hold off a while—unless the government tells me that it needs me special."

His Modest Wants. "I am sending you my original war poem," writes a North Georgia correspondent. "I make no charge for it, although I need the money."

"I want to be a general! And with the generals stay. I would be a private soldier, and for dollar and a half a day."

"I want to go to Mexico. 'Tis there I'd like to stand That folks may say some future day: 'He sure did save the land!'"

A Daily Text. Says a Georgia sage: "As soon as you understand that you haven't careened all the wisdom in the world you'll be wise enough to do better."

All Along the Line With George Fitch

MELBOURNE. Melbourne, the metropolis of all Australia and about 5,000 miles of ocean on all sides of it, has about 700,000 people, which is doing very well for its age. In 1856 it had only 12 turf huts, being smaller than Chicago at that time.

Melbourne, however, had 11,000 people in 1841, which was about three times as much as Chicago could show. Then the high steamer rates stepped in and handicapped the Australian city, and while in 1856 it had 100,000 people, it could not keep up the pace. Today Chicago has about 2,500,000 people and Chicago visitors exclaim to the natives "What a beautiful little village you have here!" barely escaping with their lives shortly afterward. This shows what location will do. If Melbourne had chosen a location about 11,000 miles nearer the center of population it would now have 10,000,000 people and a large tourist trade.

Melbourne is situated on the east coast of Victoria, about 15,000 miles from London, which is related to it financially and politically. To reach Melbourne the American visitor takes a truck full of gold and six months off and sails southeast from San Francisco until the strongest wind from London blows in the capital of Australia and will be until the new American designed capital is built in the up-country bush.

Melbourne is a very handsome city, situated on a large island and a little river. In spite of the fact that it has about 3,000 miles of back yard, mostly unoccupied, it is a small city and has not followed Chicago's plan of annexing the territory as far as the climate and constitution will permit. It has wide streets, fine buildings, plenty of colleges and universities and some great parks. It also has race courses, moving picture houses, street cars and skyscrapers. For these reasons American visitors feel perfectly at home in Melbourne and it were not for the absence of baseball, soda fountains and vacant lots with billboards on them, they would hardly imagine themselves in a foreign land.

Melbourne is a great manufacturing city and also produces great numbers of tennis players, cricketers, cricket champions and football teams. It has the kind of climate that has long delighted the English and snowfalls are unknown except at election time.

COMFORT.

Comfort is an era of good feeling on the part of the human body. When a man has comfort no part of his body has any complaint. His neck feels as good as his back, and his legs feel as well satisfied as his digestive plant. He is at peace with the world and the man who tries to pry him out of his arm chair to make a speech before a political ward meeting is as likely as not to be a failure.

Comfort is entirely a matter of education. The poor, ignorant savage is so bought as to think that he is comfortable when he is squatting under a banana leaf in a rain storm. The city dwellers in this country thought they were comfortable when they had one side done to a crisp before a log fire in the winter. Nowadays, however, such startling advances in comfort have been made that a man who is not used to it is not comfortable in his own home. He is not comfortable in his own car when he is not used to it. He is not comfortable in his own office when he is not used to it. He is not comfortable in his own bed when he is not used to it. He is not comfortable in his own life when he is not used to it.

Comfort is one of the great goals of humanity. They are people, however, so passionately devoted to art that they will sacrifice comfort in its interests. Whenever we meet a man who is not comfortable in his own life, we are reminded of the beautiful models of ancient furniture, which made the tortures of the inquisition much less horrible to the people of those times than we imagine, we burn with joy to think that we do not have to live up to the expectations of art.

American homes are the most comfortable in the world. If American railroads competed more with American homes, passenger traffic would rise by leaps and bounds.

BOLIVIA.

Bolivia is a nation which has never impressed the general attention with this fact very thoroughly. It is situated in the interior of South America and can be reached by landing in a surf boat in Chile and climbing on the rugged and difficult mountain roads from the coast. Bolivia is one of the finest roof gardens in the world. The upper floor of the country is about as large as the state of New York, but it is 10,000 feet above the sea. It can be reached by aeroplanes, railroad or muleback. This roof garden contains Lake Titicaca, which has 2,000 square miles and is perpetually imprisoned 21,000 feet above the sea, having the clouds above it. Thunder clouds are often drowned in this lake because they are unable to rise above it.

The plateau also contains Charolque, Chacabomani, Pama, Aullagas and Desaguadero but the prospects are very dark. These are not diseases nor disagreeable insects. They are the names of famous Bolivian rivers, lakes and mountains. Bolivia is so large that its government has never been able to keep track of its territory. For many years it has been the custom of those South American nations which needed territory to go and slice it off to Bolivia. Its area has thus been reduced from about 750,000 to 500,000 square miles. However, there is still room in the country for a 300-acre farm for every inhabitant. Bolivia had 1,625,000 people in 1910, of whom about 50,000 could read and write. Most of these people are Indians and very few are of European descent. The Indians are very early times, when the Incas ran that part of the country and Europe was a howling wilderness. However, the Indians do not do this because it is too much trouble.

Bolivia is a cold, hot, damp, dry, misty and dreary country in which keeping alive has always been considered quite a feat. Most of its land is impenetrable forest and jungle. It exports rubber, coca, chinchilla, tin and silver, imports almost everything needed, including livestock, though it has room for millions of cattle. It is a republic with its fingers crossed. Only the rich and educated can vote. The country is run by capitalists which take turn about in running the country which is some comfort.

Brief Yarns.

(From The Chicago News.) Two old fishermen had imbibed overmuch and, overcome by their wine, they stretched themselves on the warm beach sands and were soon sleeping heavily. The tide crept in, awakening the one nearest the water as a wavelet dashed a quantity of sea weed into his mouth. Half asleep, he started to arise, saying, "It's time we wis awa' out o' this hoose. They're changin' the drink on us."

DAILY GRIST STATES POLITICAL GRIND

JUDGE HARRIS WILL MAKE RACE; MAY ANNOUNCE AT ANY TIME NOW. Macon, Ga., April 23.—(Special).—Judge N. E. Harris' announcement for governor may be expected at any time. He left little doubt about the matter in an interview he has given out. He declared: "Yes, I think I will enter the race. I have been hearing from all over the state, and unless something should occur not now anticipated, I will make an announcement at an early day.

"Of course, I would like to be governor of Georgia. It is an honor that no man should underestimate. Besides, it brings the occupant of the position in close contact with the people, shows him their wants more clearly, and familiarizes him with all the details of self-government. The state is so large, however, that no man can make the race alone. He needs the help of his friends to get his cause before the people."

HUNDREDS OF TENDERS OF SUPPORT BEING RECEIVED BY JUDGE HOLDEN

Athens, Ga., April 23.—(Special).—The friends of Judge Horace Holden throughout the state have eagerly responded to the suggestion of his name in connection with the race for governor, and his mail for the past few days has contained hundreds of letters tendering him enthusiastic support.

Many papers over the state have come out strong for Judge Holden, claiming that he is in many respects the strongest candidate that this section could present. Judge Holden, himself, continues to maintain the silence which has characterized his attitude from the beginning of his boom. He is giving the matter deep consideration, but he has no definite conclusion as yet regarding his own action. Until he does so he will make no statement. Judge Holden's boom began with his friends and admirers a short time ago, and in spite of his silence, has already grown to such proportions that his name is mentioned throughout the state as one of the strongest probable candidates.

It is claimed that in Athens that should Judge Holden decide to enter the race, he will be certain of 17 or 18 counties in this section upon which to start. The people of his old judicial circuit and of neighboring counties have of their own accord asked him to run. South and middle Georgia people are also joining in the movement.

From his old home, Augusta and Crawfordville, have come spontaneous and enthusiastic endorsements.

GOVERNMENTAL CANDIDATES GALORE EXPECTED BY AUGUSTA CHRONICLE

A recent editorial in The Augusta Chronicle under the heading, "An Embarrassment of Candidates," is interesting as an indication of the mixed condition politically the state may find itself in when a short while. Among other things, The Chronicle says: "This threatened Georgia gubernatorial race almost overwhelms us. If we have had our usual quota of gubernatorial candidates, asking what we think of their chances.

"Since we decided to obliterate the old factional lines for ourselves, we can see with some degree of complacency the past political affiliations of any one of them, or all of them; hence we can pick our gubernatorial candidate this time—if we have to pick one. It is not clear what is going today than what he did two, four or six years ago.

"But we do confess that the number of them is confusing to us. Whether it was six or eight, or maybe ten, at the least count, it is quite definite conclusion, we do know that only one of them can win."

SOUTH GEORGIA'S TIME HAS COME. DECLARES THE ALBANY HERALD

Under the heading, "South Georgia's Attitude," The Albany Herald in editorially commenting upon claims being put forward by its section for political recognition in the campaigns to be run this summer, says: "We note that some of our brethren of the fourth estate who live in the upper part of Georgia are having difficulty in assimilating the true significance of South Georgia's insistence that this part of the state should have a voice in the selection of governors, senators, etc., and that this section might even be allowed to furnish a governor or a senator, now and then.

"The reason why South Georgia yearns for a whole pie instead of a small section off of a slice is that it has never been allowed to have a pie of its own. It is a human nature to want the things we cannot get, and there is a whole lot of human nature in that phase of the present political situation in Georgia which is causing the lower half of the state to insist that its time for furnishing an occasional senator and governor has arrived. It is like the case of the small boy grown to where he can at least lick the bully; he has been making life miserable for him.

"Politically speaking, South Georgia is just simply itching to lick the bully. And she is going to do it.

"Oh, soon!"

COMMITTEE NAMED ON HOSPITAL BONDS

Mayor Woodward Appoints Citizens Who Will Help Expend Money—Atlantans Urged to Visit Hospital.

The trustees of Grady hospital extend a cordial invitation to the citizens of Atlanta, men and women, to visit that institution and make a critical inspection of it.

Those who have visited and inspected Grady the last few days, have everyone come away convinced of Atlanta's necessity for a new and modern hospital; they have come away heartily in favor of the bond issue.

So confident are the trustees that this will be the general verdict of everyone who goes there and sees the conditions with which the hospital force has to contend, and the conditions amidst which the sick and injured are attended, that they are urging Atlantans to make a visit to Grady at once and see for themselves.

Ladies Are Invited.

Ladies especially have been invited to inspect Grady. Members of the board express the view that the lady visitor immediately becomes an ardent, active and enthusiastic worker for the bond issue.

The Grady hospital bond issue prospectus is out today and ready for distribution. A copy will be mailed to each of the 13,000 voters in Atlanta. A careful perusal of this little folder, which may be read in fifteen or twenty minutes, will convince any thinking voter of the absolute necessity of building a modern hospital to take care of the city's sick.

The prospectus deals in almost every phase of the hospital problem. Comparisons are made between the present plant and the new municipal hospital recently completed in Louisville, Ky., at a cost of \$1,000,000, while the nearly as much population, is only asking \$150,000.

The prospectus shows just how the bond money is to be expended, and that it is to be expended under the supervision of a committee of leading Atlanta citizens, representing many callings.

Committee Is Named.

This committee of citizens, authorized by a resolution adopted by the city council, will act with the council and the hospital trustees in the expenditure of the bond money, if the bonds are voted.

The committee is composed of the following well known Atlantans: Mayor Woodward, J. E. Foster, John E. Murphy, Isaac Schoen, Edward H. Truman and N. H. Kirkpatrick.

Mayor Woodward presided at the meeting of the appointment of this committee in pursuance of the resolution passed at council's last meeting.

The executive, finance and publicity committees of the Greater Grady hospital bond movement met at headquarters in the Atlanta Chamber of Commerce building yesterday afternoon and steps were taken toward the perfection of the ward campaign committees. Chairmen were tentatively selected and agreed to organize in their respective wards for a hard work prior to and on election day.

ITALIANS GATHER TO FORCE HUSBAND TO CARE FOR FAMILY

A large part of the city's Italian colony appeared in police court Thursday afternoon to testify that Samuel Dadorrio, of 223 Cooper street, had been neglecting to furnish his wife and three little children sufficient food and clothing.

Judge Broyles, after hearing the testimony of little Mary, 9 years old, whose large, brown eyes, filled with tears as she related the causes of the trouble between "papa and mamma," was satisfied that Dadorrio was not taking the proper care of his family.

When Judge Broyles decided to force Dadorrio to buy food and clothing for his family, he began to remonstrate with \$1.25 a week to spend for whatever purposes she wished, Mrs. Dadorrio, who could not well understand his English, when she caught the words "25 cent" began to remonstrate with Judge Broyles with a volley of "Nos," to show that she would not stand for such a small sum of money, which she thought was to buy everything.

Finally, through the means of an interpreter, she was made to realize that she could do whatever she wanted to with the \$1.25.

"Buy me cream and soda water," she ejaculated in her broken English, seemingly delighted at the prospect of having such an enormous sum of money to spend every week.

"Elsa's Dream" Delights Women While They Buy Opera Clothes

Phonetic of the brilliancy of the week to come was the operatic program presented yesterday in the piano department of Chamberlin-Johnson Dubose, the event marking the formal opening of that department. Three hundred guests filled the wing of the store on the second floor where the musical department has been established.

The dozens of carnations filling vases on all sides, the smart toilets of the women and their pleasure in the music, marked an occasion both artistic and social. Even those who could not get seats, could hear the music from a distance, and a group of pretty debutantes tried on evening wraps in a department adjoining, as they heard the exquisite solo, "One Fine Day," from "Madame Butterfly," sung by Madame Sybil Owen Hartley. She sang with power and sweetness "Elsa's Dream" from Lohengrin, and thrilled her audience with her interpretation of the "Ballade," from "Pagliacci."

Miss Margaret Stillwell, a gifted young artist, played beautifully the "Scherzino," "Nachstucke," No. 4, Schumann, and a Chopin fantasia. "Can't you have a concert next week and give us an idea of the Strauss music—the 'Rosenkavalier'?" was asked Mr. J. B. Cleveland, the manager of the department, as an enthusiastic lady passed out. He promised he would, and others suggested that he put on the program selections from "Ballo Masquo," another opera to be sung in Atlanta for the first time.

CANTRELL IS RESPITED BY GOVERNOR SLATON

Hall County Murderer Who Was to Have Hanged Today Gets New Lease on Life.

At a late hour Thursday afternoon, Governor Slaton granted a respite to Jim Cantrell, convicted of murder in Hall county, to May 29. Cantrell was to have been executed at Gainsville today.

Both Cantrell brothers—Bert and Jim—were under sentence to hang, the former charged with murder and the latter as accessory. It is charged that the two brothers conspired and killed Arthur Hawkins. They were tried and convicted and sentenced. The case of Bert was appealed to the supreme court and the decision of the lower court was affirmed. The remission in the case of Jim has not come down, however, and Bert has not been resentenced.

Governor Slaton only acted on the case after hearing from the trial judge and the solicitor general, both of whom asked that he grant a respite until the case could be heard by the prison commission.

GIFTS OF \$30,000 TO SHORTER ANNOUNCED

Macon, Ga., April 23.—(Special.)—With close to 500 teachers from various portions of Georgia in the city tonight, the opening exercises of the annual convention of the Georgia Educational association was held at the city auditorium, with State School Superintendent M. L. Brittain as the principal speaker of the evening.

Brittain stressed the importance of the Georgia Educational association to educational matters in Georgia, and stressed the importance of compulsory education and free text-books in the schools. He declared that the Georgia Educational association is behind both of these movements and the importance of them impresses more keenly now than ever.

The plan for the state to print its own school text-book he referred to as the "most sensational movement of the present time." He declared that Georgia should have the right to see what can be done in the way of state publication, though he did not think it would be better to pick out two or three books and issue them, but to issue all "free" text-books are of more importance than forcing home-made text-books on the children," said Mr. Brittain.

The state school superintendent also called for a revision of the school code in May, by Judge J. E. Park.

W. H. Guffey Dead.

Pittsburg, April 23.—Wesley H. Guffey, aged 72, a well-known operator in the oil fields of West Virginia, Pennsylvania, Texas and Oklahoma, died here early today. He was a brother, J. M. Guffey, former democratic national committeeman from Pennsylvania, and independent oil producers in Pennsylvania and Oklahoma.

EDUCATORS OF GEORGIA HOLD MEETING IN MACON

Macon, Ga., April 23.—(Special.)—The Georgia Educational association convention of the Georgia Educational association is behind both of these movements and the importance of them impresses more keenly now than ever.

The plan for the state to print its own school text-book he referred to as the "most sensational movement of the present time." He declared that Georgia should have the right to see what can be done in the way of state publication, though he did not think it would be better to pick out two or three books and issue them, but to issue all "free" text-books are of more importance than forcing home-made text-books on the children," said Mr. Brittain.

The state school superintendent also called for a revision of the school code in May, by Judge J. E. Park.

DIXIE VETERANS OFFER TO WAR AGAINST MEXICO

Lumpkin, Ga., April 23.—(Special.)—Their shoulders bowed with the weight of seventy years, but their courage burning as brightly as when they took up arms for the southern in the sixties, the confederate veterans of Camp C. A. Evans, of this city, today wrote to President Wilson offering their services in defense of the Stars and Stripes.

Though not one of the gray warriors is under 65 years old, the resolution pledging the members of the camp to do battle against the Huertistas was passed without dissenting vote.

"We endorse your course," they write to the president, "to protect the dignity and honor of our beloved land."

Following is the resolution mailed Thursday to Mr. Wilson:

"Camp C. A. Evans, No. 933, U. C. V., Lumpkin, Stewart County, Georgia.—To His Excellency, Woodrow Wilson, President of the United States of America, Washington, D. C.: We hereby tender to you our services in defense of the honor of our country. While not a member is under 65 years of age, we are old soldiers and we endorse your course to protect the dignity and honor of our beloved land."

"By full vote of camp, April 22, 1914. (Signed) E. P. Pearson, Commander; W. S. Bayett, Adjutant; A. T. Fort, Secretary."

AUTO OWNERS TO HOLD "GOOD ROADS" SMOKER

The "good roads" smoker which is to be held tonight by the Automobile Club of Georgia, is the first of a series of such meetings to be held by that organization.

Club officials have announced that the Automobile club is in the good roads campaign to stay. More than 200 automobilists from all over the state are expected to attend the meeting tonight. Money will be collected by County Commissioners W. T. Winn and Shelby Smith.

The smoker will begin at 7:30 o'clock in the rooms of the M. & M. club, in the Chandler building. Following the speeches, there will be a general discussion as to the best manner in which the club can give impetus to the movement for better roads throughout the state.

Every automobile owner who is interested in getting good roads throughout the state is invited to attend.

Grace George made a personal success in the revival of Clyde Fitch's play, "Truth," in New York last week. Zaida Sears, who enacted the role of the Baltimore boarding housekeeper in the original production, was in the cast, and some of the other prominent parts were taken by Isabel Irving, Conway Tearle, Sydney Booth and Ferdinand Gottschalk.

PAYS FOR RAILROAD RIDE HE STOLE 25 YEARS AGO

American, Ga., April 23.—(Special.)—A remarkable case of repentant conscience and desire to make restitution developed here today, when Mrs. Samuel H. Hawkins received from a resident of a North Carolina town a remittance of \$2 and a letter stating that five years ago the writer had stolen a five-mile ride to American on the Savannah American and Montgomery railroad, of which company her deceased husband, S. H. Hawkins, was then president.

The writer stated that he had been conscience-stricken during this long period and desired to make restitution. The price of the stolen ride was only forty cents. Mrs. Hawkins returned the remittance to the railroad company as the railway he defrauded has long since passed to other ownership.

PLANNING FOR MONEY TO CONDUCT THE WAR

Washington, April 23.—Administration leaders today laid plans for raising war revenue in case the army has to be equipped in case of emergency. The Treasury department discussed plans for raising revenue with Commissioner of Internal Revenue Osborne, and signified his intention of taking it up later with Chairman Underhill.

The house ways and means committee, and Senator Simmons, chairman of the finance committee.

The first measure planned would impose a stamp tax on checks and legal documents similar to that invoked during the Spanish war. Another measure would tax sweet wine and fortified liquors and probably beer, according to the estimate this measure would net the treasury about \$116,000,000 a year.

The tax would be imposed on cigarettes, cigars and tobacco.

The act in question to alter the present tariff law, although such legislation might be found necessary in the future.

The treasury department, under existing laws, has authority to issue without further action by congress \$100,000,000 worth of Panama canal bonds, and it is probable that this means could be taken at once to raise money in case of emergency. Adoption of this plan would give congress a better opportunity to discuss a war revenue measure carefully before passage.

EMERY WINSHIP POISONED BY EATING MUSHROOMS

Macon, Ga., April 23.—(Special.)—Following a meal in which tainted mushrooms were served, Emory Winship, Macon's wealthiest citizen, and chairman of the good roads committee of the Georgia Chamber of Commerce, is confined to his home on Georgia avenue suffering with an attack of ptomaine poisoning.

The mushrooms were eaten Tuesday night, and a few hours later Mr. Winship's condition became critical. He continued to suffer through Wednesday, but today he showed considerable improvement, and it is now believed that the crisis has been passed.

Nothing was said of his illness until today, and the news was a surprise even to his closest friends.

Memorial at Decatur

Decatur, Ga., April 23.—(Special.)—Memorial day will be observed in Decatur Saturday under the auspices of Army and Navy Cadets of the Confederacy. The exercises will be held at the courthouse, beginning at 11 o'clock. Scott Chandler will be master of ceremonies, and Robert Rampeck will deliver the memorial address. Miss Hittge will sing the national anthem, and the children of the Decatur public schools will take part in the exercises, singing patriotic songs. At the conclusion of the exercises the decoration of the graves will take place.

There will be another service at 7:45 o'clock tonight. At 11 o'clock tomorrow morning Dr. Goodsell will preach a special sermon for evangelical ministers.

A large crowd listened last night to Dr. Plato T. Durham, the young North Carolina evangelist.

TILLMAN'S COAL PROBE BACKED BY COMMITTEE

Washington, April 23.—The senate naval committee ordered a favorable report on Senator Tillman's resolution for an investigation of freight rates on coal shipped to southern ports for use of the navy.

The act followed charges that the southern railway directorate was being used by the so-called coal trust in discriminating against the Atlantic states in coal freight rates.

Rates on coal shipments to congress were lower than the navy's rates, will be touched on in an investigation.

VOLUNTEER MEASURE ADOPTED BY CONFEREES

Washington, April 23.—The so-called volunteer bill designed to put the volunteer forces of the United States in a permanent basis, was agreed to today by senate and house conferees. The measure contains a provision giving authority to military organizations which express through three-fourths of the minimum enlisted strength to volunteer for military service. The bill would make the enlistment term four years and give the president the right to appoint officers.

Austrian Emperor Ill.

Vienna, April 23.—The condition of Emperor Francis Joseph was not so satisfactory today.

The doctor's report this morning said:

"His majesty's rest last night was disturbed by fits of coughing. The external symptoms showed signs of abatement, but the patient's strength and appetite were satisfactory."

Mrs. Whiteside Makes Stirring Appeal for Greater Hospital

After a stirring appeal in behalf of a greater hospital' by Mrs. Frances Smith Whiteside, president, the Atlanta Equal Suffrage league yesterday passed a resolution endorsing the bond issue, through which the greater hospital can be accomplished. Accompanying this resolution was another which will be presented to proper authorities asking that women have their representation on the city hospital board and that an amendment to this action of the suffrage league is in accord with the general disposition of Atlanta's leading men and women to give women representation on the city hospital board. The city charter will be presented at the next meeting of the legislature to make women eligible to hold office on these boards.

The case was one of immediate emergency, but she had to be kept in the passageway, where the out-of-door clinic was going on until another patient scarcely able to be sent home was taken from her bed and sent home and room made for the emergency case.

The condition of the various wards, the size and bad condition of the kitchen and laundry, were surveyed by the ladies, who brought the message to the suffrage meeting. The resolution endorsing the bond issue was unanimously passed.

There were several selections rendered by the club orchestra while the couples danced until a late hour. Mrs. W. Haskill, Mr. served punch in the drawing room a game of bridge was played and refreshments served.

HER EXPERIENCE GAINED ON TRIP

Manham, La.—Mrs. Liza Barber, of this town, who has returned from a trip in West and Middle Tennessee, has the following to say: "I have been on a trip in Middle and West Tennessee where I found many ladies using Cardui, the woman's tonic. While traveling I took great pleasure in telling what it had done for me—I not only praised Cardui—but advised poor suffering women to take it. I know that Cardui cured me, and I believe it will do the same for other women.

COOK BOOK

Use any cook book you please—the one you have always known, or any new one if you prefer. Merely use

Cottoleone

wherever the directions say butter or lard, always remembering to use one-third less Cottoleone, for Cottoleone goes much farther than either butter or lard.

You really have to save money if you cook with Cottoleone, for according to chemical laws, a certain amount of flour can only contain a certain amount of shortening. If you were to use as much Cottoleone as the recipe called for of butter, you would have too much Cottoleone. This might do no harm, except in cakes, which might fall because of being too light and delicate. Yes, this applies to every department of the cook book, even to candies.

Our FREE Cook Book, HOME HELPS, will be found a valuable supplement to any books you may now be using. Write for a copy—also order a pair of Cottoleone of your grocer.

BATTLE FOR LIFE OF LEO M. FRANK BEGINS IN COURT

Rumored That Defense Will Present Today the Full Report of Detective William J. Burns on Case.

C W Burke a private investigator in the employ of counsel for Leo M. Frank... The first day's hearing of the extraordinary motion for a new trial before Judge Hill was quiet enough yesterday, but it only served to set the stage for fireworks that are expected today when Solicitor Hugh Dorsey fires his opening guns to combat the newly-discovered evidence of Frank's attorneys.

Rapid progress was made in the hearing which began at 10 o'clock in a committee room of the state library in the capitol. The defense submitted each of its nineteen grounds for a retrial by 4 40 o'clock in the afternoon, at which time Frank's counsel asked for an adjournment in order for time to consider the injection of other matters which they have hitherto withheld.

Mr Dorsey will not talk on the subject. He intimates, however, sensational disclosures that will be down upon the program for today's proceedings. The defense likewise predicts startling revelations from their side of the fight. A large number of affidavits attacking the character of witnesses, it is said, will be presented by the prosecution.

Detectives Aid Dorsey.

Mr Dorsey was surrounded during the hearing by eight of the picked men from the staff of headquarters detectives. These men have been promoting the bulk of the solicitor's investigation and are John Black Bass, Rosser Jim Doyal, Pat Campbell, John Starnes, Bob Waggoner, Ben Gillespie and M. McCall.

Met Jim Conley.

A surprise was created when the defense introduced an affidavit signed by J. W. Booser a collector for a tailoring firm located in Peters street, who testifies that he met Jim Conley on Peters street between 4 and 5 o'clock on the day Mary Phagan was murdered and that he held a brief conversation with him.

Contention Extraordinary.

The contents of the retrial motion extraordinary have been made public from time to time. They were read individually before Judge Ben Hill and were nineteen grounds each of which represents newly discovered evidence. They were chiefly the Mary Phagan document in which the witness says she saw Conley emerge from the alley in the rear of the pencil factory about 12 o'clock on the day of the murder.

Duffy's Repudiation.

The affidavit of J. Duffy the state witness who renounces his testimony was also submitted along with a similar document from H. Jones the negro witness who stated he saw Jim Conley on the day of the murder but who now denies his story. An affidavit from H. F. Becker dealing with the new development in the mystery of the murder notes, was also introduced.

Prejudice Charged.

Much stress was laid throughout the session upon prejudice and demonstrations during the Frank trial. It was alleged by Mrs. Simmons that fear hushed her voice and deterred her from submitting her story to Frank's attorneys in the interest of truth. Others tell in their affidavits of similar experiences.

Near Riot at Old Tabernacle Breaks Up "Healing" Meetings And Brings a Call for Police

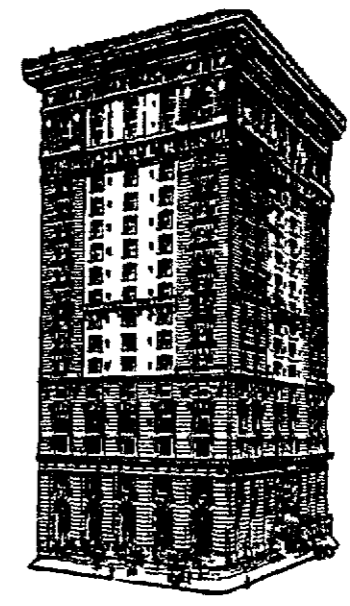

The old Tabernacle was the scene of a near riot last night when a young man, who apparently had more curiosity than he did faith in the "divine healing power" of Mrs. M. E. Woodworth Etter, was commanded by the "healer" to step standing in a chair, from which point of vantage he was enjoying himself while gazing upon the mysterious proceedings of the "divine healer."

up to him and pulled him down to the floor, catching him by the tail of his coat. The young man and several of his friends who had dropped in to the meeting with him had resented the affair, showing in a forcible way, it is said, their displeasure at the kind of treatment accorded their friend. No case was made against the young man.

ATLANTA'S STRIDES FROM DAY TO DAY

The regular, monthly meeting and luncheon of the Atlanta real estate board will be held today at 12:30 o'clock at the Ansley hotel.

The most and principal speaker of the meeting will be Charles P. Glover, president of the board, Charles P. Glover Realty company, and ex-president of the Atlanta real estate board. President Harris C. White, of the board, has given Mr. Glover free rein and he may select any subject that suits his fancy. Mr. Glover, through his personal interest and energy in the interest of the board, has become to be recognized as a sort of "daddy" of the board, and anything he may say is certain to be interesting to the realty fraternity.

A large audience is expected, and promptness is requested.

Building Notes.

Two new apartment houses on the north side of the city are now under course of construction and will shortly be complete.

One is the handsome building of George W. Parrott at Peachtree street and Peachtree, in the neighborhood of \$50,000 or \$60,000, and the other is the building of John D. Babbage, Jr., on Lafayette street and Ansley. The latter, approximately a similar amount. Both are of brick construction and will be three stories high.

The apartment house which will be built by Francis E. MacKie and others on Third street will be started soon. The architect is J. W. Wright, architect, on West Peachtree street.

Colonel Willis Ragan is having the old Plaza hotel, between Peachtree and West Peachtree streets, remodeled with stores in the point of the building. In addition to these activities there are a number of beautiful and expensive residences which have already been mentioned and which are now under construction.

The architects of the city are busy. All of them report plans for one or more buildings.

PLEA FOR HOME ENDS POLICE BOARD MEET

Seventeen Ballots Cast, But No Chairman Has Yet Been Elected.

After seventeen futile ballots had been cast by the members of the police board in the hope of electing a chairman for the honorable body, the commission yielded to the seductive words of Commissioner George P. Dickson, of the manifold beauties and delights of home and domestic life, and the commissioner, it is stated, lives in the suburbs, and infinitely prefers home life to the turmoil of politics. So when seventeen ballots had ended about the same way that 486 others had gone, he decided it was about time to break up the meeting.

Forthwith he secured the floor and, branching off from police and politics, and chairman, devoted his words to the attractiveness of home, and of wife, and of kiddies, in such a way as to win the unanimous endorsement of all the commissioners present.

ATLANTA SCHOOLS ON UNIT SYSTEM

Continued From Page One.

grades in the schools at the present time. Seven Years Sufficient. The only doubt in the minds of some members of the board and others who have given study to the "unit system" is whether or not the average child can finish in seven years a course of studies it now requires children eight years to master.

Unanimously Approved. It is doubtful if any reform in the school system has ever met with more enthusiastic response of educators than Commissioner Gunn's resolutions. The measure was introduced at a recent meeting of the board, and at that time they were given careful and earnest consideration.

Work For The Constitution; You Haven't a Chance to Lose

The Constitution is offering a battery of high-class automobiles, a collection of player-pianos and cash prizes in its subscription contest. The details are carried elsewhere. The keynote to this contest is that if you invest even reasonable effort you can't lose. You may win an automobile. What that means with the open season getting under way is obvious. You may win a player piano. The source of pleasure and education from one of these instruments is almost past estimate. You may win a cash prize. In any that meet with well-directed effort will land you a compensation for your outlay. Here is one competition where there are no blanks. It is easy to work for The Constitution. The one morning newspaper in the country has a grand market. If you make friends for it, you win an auto, a player piano or a cash prize. Where can you get a better return for time and gray matter invested? Address—The Constitution, Contest Dept. ATLANTA, GA.
