Unles" there are other instruction embass) here will make no further move pending the outcome of the investigation which the state department has undertaken. It is understood that Ambassador Spring-Rice has emphasized the unofficial character of the representations he has made to the state department thus far on the ground that the British government claimed no legal obligation on the part of the United States to look after the welfare of British subjects in Mexico. The action of the state department directing consuls to extend to British in Mexico the same degree of protection as is given to Americans has been regarded as an act of courtesy for which the British government was duly grateful.

Tor this reason it is said there is no basis for the expectation that an demand will be made on the United States government to obtain reparation for the killing of Benton and determination of the proper course to be pursued towards Villa consequently is to be left entirely to state department officials

Stuart's Dyspepsia Tablets contain in pure, concentrated form the essences which, when they reach the stomach, turn dyspeptic conditions into those of healthy digestion.

These little tablets are dissolved in the mouth by saliva, they mix with this fluid and are passed down into the stomach, where they immediately sat to work upon the food and digest it. They are many times more powerful than the human digestive fluids, and thus replemish Nature with those luices which sickness, abuse or wrongful eating have exhausted.

Matters still before the senate foreign relations committee are the Panama Telis Question.

Matters still before the senate foreign relations committee are the Panama tolis question, the pending treaty with Nicaragua, and the treaty with Colombia, growing out of the surrenders of the Panama strip. Reports on these, it is understood, will be laid before the senate in the near future.

Although the majority for the ratification of the treatles was overwholming, and the amendment to exempt from arbitration the Panama tolls question was rejected by more than a two-third vote, senators who urge repeal of the colis exemption provision insist that these votes are not significant of the attitude of the senate on the tolis issue, senator O'Gorman said tonight he did not regard the ratification action as a test. He is determined to continue the light for tolis exemption.

The senate is looking to the president coday that the issue would be a matter, and several senators averred today that the issue would be a mather of party caucus. That some democrats would refuse to enter-such a lays.

The treaty with Nicaragua, which as been before the senate for several as been before the senate for seven on this, is expected to be taken up for or the consideration by the foreign lattions committee in the near future, provides for the purchase of a pertual option on the Nicaraguan canal ute, and of naval station rights on e shores of the Gulf of Fenseca for 1,000,000.

"My Wife Very Beautiful," Declares Graduate of Yale Who Marries Boston Widow

Before her romantic marriage in Atlanta she was Mrs. "Jack" Collingsworth Goodue.

New York, February 21,-(Spe cial.)-This is the way Mrs. C. C. Williams, who before her wedding to the New Yorker, was Mrs. J. H. Goodue, of Boston, expounded her theory of matrimony recently:

"I don't believe in marrying for money alone, though money comes in handy. And I wouldn't marry a college boy. He means all right, but he doesn't know. Then, the first thing you know, papa cuts off his allowance and then you are back where you started. Your husband is too lazy to work and you

"Yes, it was a case of love at first spaight, but there is nothing unusual in our marriage," young Williams told a Constitution reporter last night. "Sure we eloped. Yes, we met in Palm Beach, Fla., just two weeks ago, and decided to elope to Atlanta and be married. No, my parents know noth-

ing of the marriage, but I am going to inform them"

Young Williams paced the length of the room of his friend, Carey Moore, of New Yok, who hurried from Gotham to Atlanta to "stand up" for the couple.

a college boy. He means all right, but he doesn't know. Then, the first thing you know, papa cuts off his allowance and then you are back where you started. Your husband is too lazy to work and you must go to work and hring home the money."

Just because he does not want his parents to become unduly excited over his sudden leap into matrimony, Carliton C. Williams, 30 years old. Yale graduate, and son of Leonidas C. Williams, wealthy New York silk manufacturer, last night wired home the details of his romantic elopement with Mrs. "Jack" Collingsworth Goodue, pretty Boston widow, and wealthy in her own name.

"Yes, it was a case of love at first sight, but there is nothing unusual in our marriage" young Williams told a Constitution reporter last night.

"It's hard to realize, I'm so happy," It's hard to realize, I'm so happy," It's has Lodovica Bouchere, member of one of the most prominent in families of Brookline, Mass. She was noted for her extraordinary beauty and, her talents as a dancer. Her first marriage was to "Jack" Collingsworth Goodue, a weelthy Harvard student Goodue

Doesn't Believe Son Married.

He says that he is not in the least disconcerted over the probable effect the news of his marriage will have on his father. According to dispatches from New York, Mrs. Williams refuses to believe that her son has married. The Williamses live at No. 303 East Ninety-second street, New York.

"You can state for me that I have been married, and that I am very happy. My wife is very beautiful." Williams repeated. "You can state that you got the information from me and that it is authentic. I expect to remain in the south about two weeks—in Atlanta about twenty-four hours. I am going to work as hard as ever; we are going back to Now York."
Williams denied emphatically that his father is a multi-millionaire, as

reported.
"It's all bunk," he said. "Father is not eve what you might call very wealthy. He is a manufacturer in New wealthy. He is a manufacturer in New York, and is well off, that's all."
Young Williams himself is a traveling salesman. He recently graduated from Yale. He sells gas stoves. He does not work his father. He says he has never had any estrangements at home, and that he is "perfectly solid" with the folks.

Just Fell in Love.

He told a reporter that he met his wife in Palm Beach. She was there for a rest, and he was there on business. He denied that he had returned from a trip to Cuba.

"We were introduced and fell in love with each other," he said
Last Saturday Mrs. Goodue, now Mrs. Williams, went from Pulm Beach to Jacksonville with her aunt and her maid. There she met Williams and they planned the elopement to Atlanta, it appears that there was some objection on the part of the aunt, so it was necessary for the lovers to make an excuse to get to Atlanta. Williams reached here last Monday morning, and his fiancee followed on the next train, she told her aunt that she was coming to Atlanta to buy some spring dresses. Monday night Carey Moore, Williams best friend, hurriedly reached Atlanta. The party met at the Fledmont hotel. The details of the marriage were framed up. Moore and Mrs. Goodue lumped into a taxi at the, Piedmont at a O'clock and applied for a license at the city clerk's office. Williams remained at the hotel.

A Staple Medicine for Every Family

No Self Respecting Group of People Should Be Without a Good Family Laxative.

Good Family Laxative.

It is inconceivable in this day of general intelligence that any family would be without a simple remedy for the minor ills of life, for often by giving such a remedy in time a serious disease can be frustrated and a life saved.

For example, if at the first sign of a cold a simple laxative-tonic like Dr. Caldwell's Syrup Pepsin were given, the beginning of a serious lung affection of a typhoid fever method the serious of a typhoid fever method to the serious serious serious a small dose of this remedy would relieve the congestion and replace distress with comfort. Mothers give it to tiny infants and little children, and grown people take it with equalty good effect.

Thousands of good American homes are never without it, smoog them the home of Mrs. C. A. cherished theory that the world's sur-plus feminine population could be mar-ried off if, it could be persuaded to migrate to the Antipodes is not borne migrate to the Antipodes is not sorne out in a report of the dominion's royal commission upon the demand for woman in Australia. Women are wanted badly in the great island continent, but not so, much for marriage as for domestic servants.

mostic servants.

So great is the demand, according to the report, that many of the girls sailing from England have been engaged by wireless as cooks and servants in Australian households before their steamer reached port. In some cases men have been so hard up for cooks that they have gone out in tugs to meet incoming vessels to make sure that they have the lirst pick of girls sreking employment. The first few days following the landing of the immigrants resembles an old hiring fair. The employers besiege the labor bureau in hundreds and in a short time eyery newcomer desiring domestic eyery newcomer desiring domestic work is pretty certain to have secured a situation at wages more than double-the sum which she could command in England.

The commission learned of com plaints that the scarcity of screams in Australia involves such a burden on housewives that it was affecting seriously their health and even acting as a check upon the much desired increase of the population.

Bennett was covering his territory in Howell Station, near the Seaboard Air Line transfer yards, last night some time after 8 o'clock. The section was poorly lighted, and, due to the cloudy atmosphere, was darker than usual. As he stole arpund a loaded freight car attached to a string that had just been brought to the yards by an incoming train, he observed a negro slip stealthly from between the cars.

Le opened fire in direction of the shot, a second bullet coming in really, striking him in the chest. As he fell, he fired again and again, three shots in all. The negro fired twice more, leaping over his victim's body and jumping to the ground.

Bennett stumbled to his feet and fired as the burgiar stumbled to his feet and started to make away. At this shot, the negro fell to the ground, crying in pain. Bennett fell back exhausted, crying for help. Members of the yard crew who heard the shots rushed to the car, to find the injured detective groaning on the floor of the car.

ADVERTISING AGENCY SERVICE STANDS BETWEEN YOU AND YOUR MISTAKES

The Field of commerce is strewn with advertising corpses that have fallen in spasmodic attempts to accomplish without experience what has proven comparatively easy to those who know.

That there are hundreds of successfully advertised articles and that the number is daily growing goes to prove that advertising (properly applied) is a success.

It's just a question of method. The right method wins---the wrong loses. The other man's plan will not fit your needs.

Each problem is individual. To know what to do and what not to do---beforehand--constitute the real elements of advertising success.

Very few indeed are thus equipped.

In the South, the Massengale Advertising Agency of Atlanta, Ga., with offices at New Orleans, Memphis, Louisville and Jacksonville, has kept abreast of modern development. They not only have copy, art and checking departments, but maintain an expensive department for the sole purpose of aiding patrons in solving their problems of salesmanship and distribution.

The newspapers and magazines of the United States and Canada unite in paying this agency for their service to advertising, in order that their facilities may be offered to the advertiser without charge.

Star Athletes Developed "ROCKMART ON THE SLATE" In Bunches in This City

Tech Track Team Will Be Stronger This Season

Interest in track work has gone forward in leaps and bounds at Tech during the past week, there being a large number of candidates who have already handed in their names for tryouts later on in the spring; when active work will begin.

The prospects for a strong team are the best that the Jackets have ever had, there being more men from last year's team present and a better squad of newcomers out who are especially good.

The facilities for a winning team are the best that any Tech team has ever confronted, and possibly any southern college. With the building of the new athletic field ample room was siven to the stars of the track. The new track will be laid with cinders and will be 20 feet in width. The distance around will be laid with cinders and will be 20 feet in width. The distance around will be needed to the stars of the track. From unofficial correspondence President Wrenn confidently expects that Germany and Canada will issue chailenges within a week.

The dute for closing the entry list, Wrenn stated, still is two weeks off, and there is the possibility that teams from South Africa, Italy, Spain and Austria may be added to the list. The fact that four of the leading Austrian players, headed by the Counts Otto and Alexander Sam-Hoogstraen, are now in this country, he regarded as likely to influence the challenge of that nation.

Standard of the World

Public attention is focusing upon one car

and especially upon a principle in that car which distinguishes it from others

Public attention is focusing upon one car, and especially upon a principle in that car which distinguishes it from other cars. The car is, as you will surmise, the Cadillac; and the prin-

ciple is its two-speed direct drive axle. Partly because of that principle, the Cadillac rides differently, and, it is said, more luxuriously than most other ears.

The sales arguments of other makers tend to draw public attention in another direction-toward the more conventional types of construction.

And in spite of that powerful influence upon public opinion, in Europe and in America—professional and public interest insists on-returning to the Cadillac and its two-speed direct drive axle.

This is only logical—it is merely Cadillac history repeating itself, as in the three other memorable cases in which Cadillac progression altered the trend of motor car practice.

The present tremendous interest in the 1914 Cadillac and in the splendid performances of the car can be traced directly to its source.

To begin with, more than 8,500 owners are now driving the 1914 Cadillac.

More than 8,500 people expatiating with unbounded enthusiasm, day after day, upon the unique riding qualities resulting from the latest Cadillae development, are stimulating the keenest interest, even among those driving other

And this process growing and growing in volume, since the first of the new cars appeared last summer, received a pronounced impetus several weeks ago.

The second award of the Dewar Trophy to the Cadillac was an extraordinary endorsement.

Coming from the highest professional tribunal of its kind in the world—the Royal Automobile Club of Great Britain—it confirmed every Cadillac owner in his conviction that there never have been such riding qualities in any car.

A Car of This Type Must Endure

After VELIE engineers had tested out the VELIE "4-45," driven it thousands of miles through 'deserts, over mountains, over rough trails, and over the finest roads-they said it was the best all-around car that could be built,

Service has proved that they were right. In its construction is found every feature of real usable value that can be built into an auto-

-There is wonderful strength-tremendous power and yet the utmost smoothness in running, and there is economy; comfort and beauty.

The four-speed transmission gives the widest range of gear changes ever necessary, with neither complication nor new or untried features.

the starting system-pressure on the foot-button is all that is necessary.

The man who seeks economy finds in the VELIE "4-45" ten per cent less weight than in 'practically any other car of the same size; twenty per cent less than some.

Actual service figures prove this saving 🦠 weight easily means 38 per cent less cost for tires, and a big saving in fuel, oil and incidentals

That We Build a "Six" Only Strengthens Our Position

A high-grade "four" or a medium grade "six" at the same price. Which is the better car?

Because modern construction with its advanced methods, its perfect balance and its high efficiency has made a "four" of the type of the VELIE "4-45" the preferable car from every point of view that can be sold for \$2,000 or slightly less, there is only one answer. That we build a six-cylinder car of the same

as the VELIE "4-45," but with the additional construction made necessary by six-cylinder design, we have priced this car at \$2,350

Velie Trucks

Built in an entirely separate factory by an entirely different force, the Velic Company is making three-ton, two-ton and one-ton trucks that have established the VELIE as one of the leading four makes of trucks in the country.

Eighty Years of Faithful Service to the American Public

The Mitchell-Lewis Motor Company has the enviable record of eighty years of faithful service to the American public. Bear this fact in mind when you get ready to buy a car, for it operates as insurance of quality.

No thoughtful business man ever buys a commodity or a luxury or a necessity without looking into the character of the men who make it. This rule of trade is more imperative in the purchase of an automobile than almost anything else you can name.

Eighty years of faithful service is an asset of no uncertain value. This company held the respect of the early settlers of the western country because of absolutely honest merchandise in the shape of farm wagons. It established its standing before automobiles were known. When it embarked in the automobile business, it clung to the policy that made its farm wagon business famous. And its automobiles are famous for the same satisfying reason

You've got something behind you when you buy. Our standing and prestige constitute a bulwark of safety. Add to this the remarkably fine character of the Mitchell Models and your purchase is at solid as the Rock of Gibraltar. Ask any farmer in America what he thinks of the old Mitchell-Lewis Wagon Company. Ask any one of thirty thousand Mitchell automobile owners what he thinks of the Mitchell-Lewis Motor Company. Their reputation and reliability are precisely the same.

A chassis designed by R. E. Olds as his final-model—as the best he knew—after 25 years of car building.

A car built slowly, in a costly way, as though each car were built for Mr. Olds' own use. A body of the coming type—a streamline body, believed in Europe to mark the limit in automobile beauty.

Equipment which includes all that motorists A price \$220 less than last year with electric starter and lights. Now offering a value which no factory can hope to excel.

The Last Steps For three years, since we brought out this chassis, our experts have worked to perfect it. We have kept test cars running on the road, up to 10,000 miles per car.

This year comes out this beautiful streamline rms year comes out this peautiful streamine body. There comes the final touch in finish and upholstery. There comes the best type known of electric starter and lights. There come an in-tegral windshield, dimming searchlights, many new ideas in equipment. Now Reo the Fifth, in beauty and equipment,

is as perfect as the chassis. A \$220 Saving

And there also comes this year a \$220 saving in price. Last year's model, with electric starter, sold for \$1,395 equipped. This year's model, with better equipment, sells for \$1,175.

This is mainly due to the fact that all the costly machinery for building this chassis has been charged against previous output. And from this time on that item is omitted from our cost.

The Car to Keep

Cars not so well built may serve well for one season, but Roo the Fifth is the car to keep. It is built to save trouble, save upkeep, save repairs. It is built to run for years and years as well as it

We add one-fourth to the necessary cost of our building to give you the best a car can give. Come see what it means to you, in the years to come, to get a car like this.

good article of soccer. The star of the game was McWatt, who always plays a good game, and of long experience, he is a well boyed player and an accurate abot. He was well supported by his teammates on the forward line, and with Billy Worrell showing extra good form, he and Scott were a big factor in the winning of the game, while Bowen and Jette and Donaldson made up a formidable backfield for Atlanta.

Lack of form and experience again told on the printers, but for a first year team they certainly are a gurprise, the work of the novices on the team being excellent. Milbons, Chamberlain and Dyson, as forwards, were always hard at work, while Spansler and Walker, of the halfback division, did yeoman service, as did Rhodes on his first attempt in goal. The other players are those with more experience and thop put up the usual hard game, doing their best at all times and keeping the score as low as it was.

Few accidents marred the play, but Jack Harland had to retire from the game with a damaged ankie, which somewhat hurt the printers' chances.

whether they arise singly or in number.

There is absolutely no doubt but what Benton, a Huertista sympathizer and a murderer of Mexican citizens, deliberately attempted an act of violence against the person and life of the commanding general, and for that reason, in accordance with the laws and usages of war, he was tried by a military tribunal constituted for that purpose, and executed pursuant to its sentence, a proceeding sustained by Amertence, a proceeding sustained by Amer-

pose, and executed pursuant to its sentence, a proceeding sustained by American and European precedents.

"General Jackson in 1818 banged two British subjects, Arbuthnot and Ambrister, for having given alien sympathy to hostile Indians in Florida. General Entler hanged Munford at New Orleans in 1862 for merely hauling down an American flag from over the custom house, and two years later Kennedy was hanged by the United States military authorities at New York because of his complicity in a plot to set fire to that city.

"What was justifiable under martial law in the United States then is certainly justifiable under martial law in the United States then is certainly justifiable under martial law in Mexico now. The fact that Benton was a British subject has no bearing on the legal aspects of the case, as under international law, the alien is as amenable to marvial law as is a citizen."

Although the tragedy has created a sensation throughout the British Isles, it has not aroused any disposition on the part of responsible members of the British government to change their policy in regard to Mexico.

There is no concealment of the fact, however, that murder of British subjects in Mexico, unless followed by punishment of the murderers and the payment of indemnities, are likely to arouse public opinion here to the point where it will demand that the British government take a more aggressive aftiude.

This fact had been impressed upon

The Dominant Figure.

The Dominant Figure.

The dominant figure will again be the Rev. G Campbell Morgan, who is generally considered the greatest Christian teacher-preacher in the world He is a man of whom it is said that his hearings always climb with him the mountain ranges of religious teaching and spiritual emotion. Dr. Morgan is pastor of Westminster Chapel, Jondon, and preaches every Sunday to a church path of Fingland, and is now president of the Congregational Church of Fingland, and is now president of the Theological college at Cambridge Dr. Morman loves America and has crossed the Atlantic forty-two times during the past 20 years, since his original visit when Moody first recognized him as the greatest preacher he had ever heard and brought him to Ovothfield to address the Eible conference there

had ever heard and brought him to Northfield to address the Bible contenence there. Dr. Sol C Dickey, who will full Dr. Broughton's shoes as director, is said on a violation of the man in this country who can be superted to project the conference clong the way of continued power Dr. Dickey is a national figure. He has been identified directly with the development of the Winona Lake conference for many years. He knows the human heart and having a great message of all own, he knows how to choose and lirect the great team of coworkers on the program. A new voice at this conference, which is sure to make a deep impression, will be that of Dr. W. J. Williamson, of the threath of the williamson, of the center of the threath of the williamson is pasion of a church located in the center of the threath of the thre

its have been followed invariably in
tlanta by evangelistic results and unit the present management the proim this year is breader and stronger unn ever, yet still keyed to the note of practical Bible study. It will bring together in Atlanta the best abilities of the men who have made Northfield and Winona notable names in the onward match of the Gespel in this country. Every speaker is in the best sense, consecrated expert, and they are practically all men of new and original tilent.

LIFE AND PROPERTY **CLAIMED BY FLOOD**

Seven Persons Are Dead in Southern California and Property Loss Will Probably Exceed \$4,500,000.

Los Angeles February 21—With a best of probably more than \$4 500 000 and a toll of seven human lives since Wednesday southern California began to recover tonight from the effects of the worst storm in its history. With the sun shining most of today the situation improved considerably and while nearly all of the towns affected remained isolated tonight, progress was made toward re establishing were and rail communication.

mide toward re establishing wire and rail communication.

It is estimated that Los Angeles was damaged to the extent of at least 1 90 000. One hundred and fifty thousand dollars represented the damage to city streets alone. The rest represented losses sustained by railroads and by citizens whose homes were swept away by the floods.

Ranches Inundated.

Except in the vicinity of Pomona this county where young groves suffered severely oranges growers reported comparatively little damage Ranches and small farms in the low-lands were inundated, but no reliable data could be obtained as to the amount of losses.

The flood situation about Los Angeles became acute early last night Weak ened by the rush of waters, poles and towers carrying power mass and the wires of telegiaph and telephone companies went cown under the assault of the winds and with railreads and suburban trolley lines already out of commission there was complete prostration. For nearly four hours there was no street car service and during the entire day the city had only brief periods of communication with the east. Surrounding towns, with but few exceptions remained isolated without communication by whe railroad or trolley. Railroads report the conapes of big bridges over the Los Angeles river and it was uncertain when traffic could be resumed.

munity to say with respect to these women and their children at least that no mother shall be separated from her children solely on account of powerty. We want the community to realize that the one certain line of social progress lies in efforts to promote the interests of the weak rather than nurturing the strong.

At the present time there are 170 working women and girls who are thembers of the famil cs being aided he the Associated Charitles. The ages of these women and girls range from 12 to 40 and their average age is 22% of these women and girls range from 13 to 40 and their average age is 22% of these women are under this The fraction of the second that so per cent are under this The fraction was for working women. The toliniteer young lady work of the association under the direction of Miss Edith Thompson have just fin ished gathering statistics regarding these working women and girls with the ilew of showing the need of industrial education for all women who are likely to necessarily become self supporting.

The decation for all women who are likely to necessarily become self supporting

The weekly wages earned by these women range from \$2.60 to \$12 and utention is called to the fact that the lugher wages of \$12 are carned by girls who are stenographers who are help ing support dependent families. While they, themselves are not strictly dependent their wage is included and thus the average wage of \$5.90 a weekles raised much higher than it would be otherwise.

Also in the cases of domestics where board is furnished the women \$34 has been added to their cash wage to cover board thus increasing the average.

These women and girls have been working an average time of six years and started to work at an average age of if though \$5 per cent started women who didn't work out before marriage.

The average wage eatned when they started work was \$3.40 though 54 per feen began work for less than this The average wage and working time these women and girls have shown an increase in efficiency of only \$5.00 and it also that the average waye now being only \$5.00 and it also the efficiency of only \$5.00 and it also the average was and girls have shown an increase in efficiency of only \$5.00 and it also the average was now being only \$5.00 and and girls have shown an increase in a found that the average school grade finished by these 170 women and girls was the fourth, and that 39 per

BACKACHE A WARNING YOU SHOULD HEED

It is One of the First Signs of Kidney Troubles, if Neglected, Serious Diseases Follow.

No one can be well and healthy unless the kidneys work properly and keep tha blood pure. When they become clogged up and inactive, nature has a way of warning you.

Backache is one of the first symptoms. You may also be troubled with disagreeable, annoying bladder disorders have attacks of lumbago or rheumatism, become nervous, tired and feel all wornout puffy swellings show under the eyes or in the feet and ankles and many other symptoms are noticed. If they are neglected, dropsy dishetes or Brights disease which so often prove fatal, may result.

49SPITAL FOR NEGROES NEEDED, SAYS GOVERNOR LECTURE PLATFORM

Praises Members of Players' Club for Giving This Benefit Performance.

Governor John M Slator has place his stamp of high approval upon the work of the Players' club in producing "The Genius" for the benefit of a hos-pital for taking care of negroes suf-

ging from contagious diseases.
"As long as we have negroes, upor whose cleanliness depends nealth, to cook for us," said Governor Slaton, "as long as we have negroes, who may bring disease into our homes, wash our clothes, and as long as we n our houses, a great concern aboueir health must enter into a consid

Both this indorsement and the merit of the play are reflected in the liberal support which the Atlanta people are giving the play Already all the boxes have been sold, as have the first twelve rows of the ground floor. A large amount of the gallery space has also been sold, including 225 seats which the merchants of the city have bought for distribution among their clerks. The prospects are for a sold-out house next Tuesday night when the performance will be given.

FARM FOR SALE

TEN MILES FROM THE CENTER OF THE CITY we ofter a farm of 706 acres of good land—about 200 acres in original torest—lots of saw timber, and about 400 acres in cultivation, balance in pasture. Improvements consist of 6-room dwelling and thirteen tenant houses. Farm has about four miles of public road frontage; plenty of running water; close to good schools and churches; good neighborhood. This farm has never been offered for sale before, and would not now but for the fact that the owner is in very poor health and unable to look after same. He says sell for the low price of \$33 per acre, on terms of one-third cash, balance, 1, 2 and 3 years. If the farm is too large we can divide same. If you ever expect to own a farm close to Atlanta at a reasonable price you had better investigate this.

EQUITY in cottage for a city lot or renting property.

A good opportunity for some one who owns an unincumbered city let of small renting property to secure a home.

A 6-ROOM COTTAGE AT OAKVIEW

199 JACKSON STREET

\$4,500—Here we offer a home that also has the qualities of an investment, being close in and in an excellent home neighborhood. The house rents for \$120 a year, making it a fine income proposition as well as a good home. It is right at the junction of the Highland avenue and Jackson street car lines.

WASHINGTON STREET

\$6.009—Between Trinity avenue and Fair street, on the east side of Wash-ington street, lot 40x100 feet; suitable for a close-in dwelling or for apart-ments.

338 FRASER STREET.

.750—This lot is 50x200 feet running through to Reed street. The house in the rear known as 91-93 Reed reet. The property now rents for 6 a month, but could be made to ring more rental. Terms, one-fourth ish, balance three annual payments.

PEACHTREE ROAD.

THIS SIDE of Buckhead, in what is known as "Peachtree Heights," we ofter a nicely shaded lot, 160x400 feet. This lot faces east, and is one of the prettiest on Peachtree road. Since you'very body is familiar with this section of the processor of the prediction of the eachtree, it can readily t this is a bargain at \$8,000.

341-SIMPSON STREET.

(214 Feet Front.)

THIS is an entire block on north side of Simpson street, between Davis and Edwards streets; extends back 180 feet, containing an old stone house which rents for \$18; lot is clevated considerably above street level. We will sell this block for \$5,000 on terms of one-fifth cash, balance in four annual payments.

AUBURN AVE. INVEST. MENT. MENT.

LOT runs through the block to Old Wheat street. Income \$5; per month, Near the corner of Jackson street we offer an investment of six well-built houses, on lot 104 by 110 come and the sure enhancement value. Frice, \$8,750; terms.

BUILDERS

FOUR profit lies in the cheap lot—not in the house. The question that troubles you now is, "What has become of the cheap lots?" Here are a few that we have saved:

\$250-Wylio street, all improvements 40x129 feat.

\$650—Handolph street, one block off Ponce de Leon avenue 49x160 feet. \$750 -- Waddell street, just off Edge-wood avenue, 38x143 feet.

\$300 and \$1,000—In our Stewart avenue subdivision; undoubtedly the best values in Atlanta offered here; all improvements; city school, city park, convenient to two car lines and in a "home owners" community; 50x200 feet. Terms made to suit you.

LOTS FOR COLORED PEOPLE

FE HAVE some good building lots in Rockdale Park, near Imman Tards, a settlement of substantial colored people. These lots are all the same size, 50x140; we sell them for \$150 each, which price secures the choicest of our unsold lots. However, we have some very good ones that we can sell for \$100 and \$125. We can make special prices on as many as 50 or 100 building lots in this subdivision.

REVIEW OF WEEK IN AMERICAN MARKETS

Cotton.

New Orleans, February 21.—Liquidation and holiday dullness weighed against the price of cotton this week, although there were no wide declines. Bears were aggressive at times, especially after the unfavorable weekend statistics were compiled.

The result of the week's trading was a loss of 5 to 12 points. The high prices were made on Monday and the low prices on Wednesday and Thursday At the highest the trading weekend at the lowest her were 12 to 21 points under. The range was 15 to 25 points.

Favorable roports from the spot markets of the south, a smaller movement into sight and a fairly large export movement were sustaining influences, but against them were small mill takings and a small decline for the week in the visible supply.

In the spot department prices were unchanged, middling closing at 13 cents, against 13 cents last week and 12% this week last year. Sales on the spot amounted to 6,042 bales, against 6,649 last week and 4,515 this week last year.

Flancial.

were brought into the foreground once more by the week's developments. The possibility of new complications temporarily unsettled the securities market.

Paris continued to draw gold from New York, in spite of the fall of exchange rates. The dependence of forceign markets upon New York for this relief was proved when a tentative engagement of gold in London for New York led to a Prompt rise in the private discount rate in London.

Iron and Steel.

Iron and Steel.

New York, February 21.—The buying movement in pig fron showed considerable vitality this week. Transactions exceeded 175,000 tons. Since January 1 merchant furnaces have booked orders for 1,325,000 tons. Prices are advancing slowly.

Among the largest contracts placed this week were 7,400 tons of northern foundry grades for the Fennylvaniralizonal placet for the Fennylvaniralizonal flattice and foundry grades for the Fennylvaniralizonal flattice and foundry trades for the Fennylvaniralizonal flattice and foundry trades for the Fennylvaniralizonal flattice and foundry was sold, aggregating 20,000 tons, for shipment to the northwest.

Manufacturers of steel pipe, plates and structural shapes and rallroad supplies in eastern Pennsylvania bought an aggregate of 40,000 tons of insic and low phosphorus fron and steel works in the central west took 20,000 tons of fessemer and basic.

Among finished products, the most notable contracts closed were 45,000 tons of steel plates for the Ottawa riveted pipe line, and 25,000 tons structural steel bought by the American Car and Foundry. Steel huilding orders called for about 24,000 tons of fabricated steel, and many new inquiries are out.

Dividends and Interest Payments.

Dividends and Interest Payments. March dividends and interest payments are estimated at about \$4,000,000 to \$5,000,000 less than for the corresponding month last year. The decrease is due to large reductions individends paid a year ago. About a dozen large companies which paid dividends last March have passed them in the interim.

While the financial affairs of the M. Rumely company have been in noor condition for over a year, it is be-

lieved that the company can be re-organized without receivership. It is said that the concern is in sound con-dition, but that it has been slow in meeting its obligations owing to the fact that about \$10,000,000 of its funds

Keely Company Popular printed crepes--radiums and foulards

These are the things authorized by the fashion setters, and are now in highest favor. More than ever in the history of the business will silks be favored. Expert care has been given to the selection of the silks for exacting tastes. The knowing ones are finding the right kinds here, and it is being noised around that the Keely Silks, as usual, are the most desirable in the Southern markets. Every day strengthens the vogue of silks as the leading fabric for this season.

Popular printed radiums

-are among the extremest novelties of the season and are used extensively for gowns and dresses for after-noon and dinner wear, and are also largely used in combination with plain Taffetas, making the stylish combination suits now so much in evi-dence: 40 inches wide, yard \$2.50

Stylish printed crepes

-are among the most sought for materials in the fancy silk world. The famous pussy willow crepes have been largely used by the French artists in the making of model gowns. Many of the imported French dresses are made of these famous materials; 40 inches wide, yard \$2.50

Fashionable printed foulards

a-of course no wardrobe is complete without a foulard dress. Shower-proof foulards this season hid fair to have the largest demand for spring and summer utility dresses. Many novelties are shown, and being recognized as headquarters for foulards, we have 85c all. 24 inches wide, yard

"On with the dance"

This is the dancing season. The fashionable world is 'dance mad." At every function, at every hotel, dancing is the order of the day. Wherever one goes one is prepared to dance. For dancing dresses, "Taffeta's the thing." Fortunately we're ready with the latest Parisian fancy. Taffetas, more than any fabric, lends itself peculiarly to the needs of the well-dressed woman, who requires plaits, panniers, flounces and ruffles.

Silk dresses and suits will be in great favor

To be sure, with silks as the prime favorites of fashion, silk dresses and frocks and suits will be the premier articles in ready-towear sections. One, two and three-piece suits are shown of silks. Dreams of loveliness they are, too, with their new Eton effects, their tunic styles, their puffs and flounces, their pannier and apron fronts. Nearly all are combined with soft sheer laces, organdy embroideries, chiffons, nets and gauze. Most of the new models are shown with lace ruffs and pretty vestees. Some have puff tunics, others have tier tunics. All are new.

Choose your taffeta dress first

You'll remember that as long ago as November, "we told you so." Taffetas are now so scarce that they can hardly be bought at any price. None are in the hands of the jobbers. Our silk man saw the storm from afar and has laid in a supply of taffetas—(ready Monday). Nerve and a genius for following in the "lead of style," has placed him in a position to offer one hundred and fifty pieces of colors and black and change-

36-in. striped tub silks

Here is the silk, with wearing qualities, good for waists, tub dresses and general utility purposes.

These will be shown in many new designs and patterns, for fancy dress and blouse wear, also in plain colors for drop skirts and princess slips. They are tough; they are fast colors; they will wash well; they will wear well, and they are cheap, at Seventy-nine cents yard

Plain, changeable and moire chiffon taffetas

The silk which Paris is now wearing and for which you will find a need throughout the spring is Taffeta. For gowns, suits, dresses, frocks, coats, this fabric will be in greatest demand. The silks assembled here from the world's best silk centers are being enthusiastically absorbed by the best dressmakers. Each day gives fresh evidence of the fact that our prophecy "Taffeta is the thing." Whether you buy here or elsewhere, buy quickly. was correct.

Stylish plain taffetas

-no one fabric in the dry goods business has at present such a great demand. In fact, the markets have been so thoroughly stripped of all these popular materials that they can not be had from the jobbers or the millmen at any price. Foresight of our silk buyer places us in a strip you telfets in all only the fact. position to offer you taffetas in all colors; 36 inches wide, yard

Beautiful changeable taffetas

Paris, so report says, has gone mad over changeable taffetas. In fact, these fabrics are now riding upon the highest crest of public favor. The famous McCreery silks, imported for exclusive metropolitan trade, have been divided with us. We are in a position to show you this most desirable line Monday. \$1.50 Novel moire taffetas

Novel moire taffetas spring suddenly into favor for the making of coats, spring balmacans and whole gowns. Many dress artists combine them with plain taffetas, producing most dressy effects. These are shown by us as the highest novelties obtainable this season. These. like plain taffetas, are among the scarcest materials. 40 inches wide, yard \$3.00

I know not much about Georgia.
For I am a northern girl;
But I know that Oglethorpe and has

Their flags on this coast did unfurt;
And I know that they were brave men,
As other men of their times.
And many years have vanished.
Yet their fame through the ages

chimes.

They suffered many hardships
This beautiful state to make;
They suffered cold and hunger.
For freedom's own dear sake;
They tilled the soil, its cropt to yield.
To clear the land the ax did wield:
They fought in wars brave and true;
They fought in wars brave and true;
They did all this, dear, just for you.
So we call this "Georgia Day."
And the Georgia people shout
And remember with loge their ancestors great
Who worked so bravely this state to make.

The Courtland S. Winn society met last Thursday—Georgia day—on which the eighth grade entertained the fifth, sixth and seventh. The program consisted of selections from Georgia and the thors: The Settlement of Georgia, Thic Indians of Georgia and the things in which Georgia ranks first. The eighth grade same shill lang sync, and Directly pogram was been supported in the grades and was much enjoyed. The class leaders at our school for last month were Lavada Grainser, eighth grade with 97.3; Hannab Grossman, seventh grade, with 98.4, and Dorothy Haire, with 97.4. The sixth grade was led by Dorothy Crenshaw, with 94.6 Comer Kimbail led the fifth grade. With 95.5, followed by Famile Mae Cook, with 95.9, Mary Davis and Agnes Rose Shatzen led the fourth, with 97.1, followed by Emma Brantley, with 97.2, each Crusselle led the third, with 97.2, each of 98.4 in the followed and the stars for the week.

The teachers and pulpis are very sorry that the Caudie children have moved from this district. Bertha Caudie was one of the leaders of the seventh grade. She has made an average of 98.4. It is indeed unfortunate to lose such fine pupils.

DRAWS CROWD OF LEARN QUOTATIONS ONCE EVERY WEEK

SPLENDID PROGRAM GIVEN BY SOCIETY OF BATTLE HILL

Friday, of last week, was a very bad day, but the children came all the same just as if it had been a mice, warm and beautiful day. This may have been caused by the Valentine box, but the teachers say it was the "Battle Hill school spirit."

The seventh grade is taking up percentage. They are very eager to learn this, as they have heard so much about it. They have just finished the stories about the "revolutionary war" in history and have enjoyed them very much the seventh grade are: Catherine Hoose, which was a story and have enjoyed them very much the seventh grade are: Catherine Hoose, with Moveland and Mary Ellen Horneby. Hazel Toland leads in the seventh grade has been working very hard to see if they can have a party once a month as nice as the eighth grade has been enjoying for the last two school terms, but they will have to work harder than ever before if they get one any nicer.

In the first grade the leaders are Ezell Smith and Laurence Stallworth. We are glad to welcome Matthe Willard back, as she has not been to school since Christmas.

The boys are practicing baseball at recess and enjoy it very much. A game was niayed between the sixth was victorious with a score of 10 to 12 cm. The Literar society he is the week. A cong.—Class meeting the following regram was rendered:

THE AMERICA OF WILSON.

Today is the anniversary of the birth of George Washington, the first president of the United States of America

It is not an occasion for platitudes of sentimentality, but for stock-taking

The America of Washington and the America of Wilson are vastly dissimilar and strikingly similar

Some pessimists growl that we have let go of the democracy of Washington and that we veer toward centralization and plutocracy

That view is a superficial one

There is more genuine democracy in this country today than under the admin istration of Washington

The United States of Washington was a crude nation, a crude and easily influ enced people

The voters of that day were enamored of the secretive in statesmanship

They demanded that their leaders be solemn, pompous, oratorical They were not given to analyzing for themselves the underlying principles of government and their inalienable rights in the premises

All that is changed

The United States of Wilson is an awakened and a vigilant nation. Its people tolerate less folde-rol from politicians, less 'four flushing," if you excuse the slang, less blatant demagogy

It is not enough nowadays to look wise and speak oracularly

The statesman who stays put must "de liver the goods" He must "come clean" The newspaper has had much to do with

the transformation Wherever there is light, there must be

ıntelligence And there has been plenty of light in

this country the past few decades Voters know their rights, they appreci

ate their responsibilities they worship party label less and civic righteousness more, they dream less of partisan triumph

and more of patriotic efficiency What is more, zation has barely begun

As the faculty of doing ones own think ing increases, there will be less opportunity for the shallow-pate and the demagogue

As education is diffused and the sections mingle more, there will be less prejudice. less intolerance, more recognition of a com mon and a national citizenship

The achievements of congress under Woodrow Wilson would have been impossible under George Washington

Wilson is putting through a fundamental legislative program largely by non-partisan

rotes The politicians of Washington's day would somersault in their graves at the

thought That contrast expresses the vast prog

ress we have made

Further evidence is the fact that all parties are united in expelling special privi lege, in demanding civic virtue, in effecting a genume and not a bogus "square deal"

The America of George Washington wa a wonderful and a significant nation

The America of Woodrow Wilson is a nation before the achievements and possibilities of which the older states of civilization stand baffled and envious It was a privilege to live here in the day

of Washington

It is a larger privilege to dwell in the America of Wilson.

BISHOP GAILOR'S SLEDGE.

Bishop Thomas F. Gailor, of the Protest ant Episcopal diocese of Tennessee, plainly does not love reformers for revenue-only, nor demagogues, whether in politics or education or religion. He intimates as much in a scathing statement recently addressed to the clergy of Tennossee

Here are some of the more pregnant thrusts of this truly virile thinker

Our country swarms with the sainried representatives and agents of
great cloemosymary foundations so
cial, industrial educational religious,
and thest agents must earn their livings by advocating reforms in their
several departments

Thus the whole stress of thinking
and planning for the improvement of
the race is put upon mere material
valuations This is true to an alarming
extent, in educational and political af
fairs. Therefore the cold materialist,
who regards this present life as com
prising the whole of human destiny,
takes advantage of the enthusiasm of
the reformers and co-operates with
them to create for us a condition of
the offermers and co-operates with

them to create for us a condition of
the offermers and co-operates
with the physical sensuous inter
pretation of human life

"Let us not be discouraged or dis
mayed Such moves of materialism
come periodically and our age is fanbetter, for example than that of Louis
XIV in France and of Charles II in
England We are in a period of transition of transformation. The best is

We cannot agree with the bishop abo

the agents of the several great sociological foundations in this country, such as the Sage, the Carnegie and the Rockefeller They make mistakes, being human But in the main they are doing a wholesome work, tearing down what should be torn and restoring healthy timber in place of that which was rotten And any institu tion which cannot stand their onslaughts.... must be intrinsically faulty

entirely those of Bishop Gailor

The nation has had a glut of professional

false prophets, speaking from shallow pre mises and juggling half truths

It is fatigued with having its emotions perpetually harried, its prejudices treated as though they were something sanctified

We also agree with the bishop that there is nothing permanently to fear Sanity progresses It is getting harder every day to throw dust in the eyes of men and wom en who can read and think

wives' League of America, would abolish bargain counter rushes for women

She believes women spend several foot pounds of energy and ten cents carfare to save 2 cents on a tooth brush, or words to

The aspect would be a dun and dreary

us, we incline to believe the average wom an gets more pleasure out of a bargain sale than out of shredding her dearest friends reputation Only one greater pleasure offers, and that is a fashionable wedding, or perhaps a funeral at which the surround ings are sufficiently emotional

judicious of us would ban slit skirts and I spy shirtwaists Now comes one of their number with the proposal to cut them off from bargain sales This is too much

Come to think of it, aren't the men about as much addicted to this species of

sidewalk, so congested will be the throng of earnest males endeavoring to annex a tie or a pair of palamas for a few cents

We admit this little day of ours is far

But we protest vigorously and with arnestness, against the further abbrevia tion of pleasures which even now grow all too sparsely on the weeks as they trail into

missioner of education, believes in domical ing the school teacher His idea is that by giving the teacher a local habitation and name we will be assured of much better and more stable service, incidentally in creasing the productivity of the acres He expresses sound views in the following language, as embodied in a recent speech before a body of educators

we will never get better teachers until we make the teacher's position more respectible. No one who moves about from town to town and school to school constantly can keep his self respect. Therefore it is necessary to make the teacher's position permanent as it is in switzerland. This can be done by providing him with a home and a furn.

This transforming of the teacher into a power in the community must be accompanied by a consolidation of the whole country school system. It would be possible to divide states into districts with the school building the teacherage and the model farm contrally located.

Dr. Claxton's plan contemplates,

course, that only men teachers shall be employed in the country school systems

There is no reason why the attraction of a home should not obtain with equal

whereby the teacher would be given an excellent and tastefully prepared and main tained home, in place of the makeshift that too often at present does service they would come near effecting a solution of the problem of rural education

That teacher is happiest who is well

located, given a local pride in his or her work and the loyal support of local in-

Dr Claxton's theories comprehend these ideals

It would be well if some adaptation of them could be applied uniformly in rural education throughout the United States

BUSINESS ISN'T AFRAID.

James J Hill, the "empire builder," recently told Chairman Adamson, of the house commerce committee, that the business of the country should entertain no fear of the administration's trust legislation program

The verdict of a man like Hill ought to

He has always been optimistic about the future of this country But he has not al ways been optimistic about legislative tampering It was he who said that con gress ought to go home and give itself and the country a long vacation When, there fore, he expresses himself in terms of hope fulness regarding the effect of legislation upon business, he is speaking as one with sober authority

Best of all, the big railroad muster of the northwest is wholly correct

Mr Wilson months ago signed a truce with business.

He has shown conclusively that he has nothing in common with the demagogue, that the politician who would bast business for selfish profit must go without presiden

It is, of course, inevitable that there should be trust legislation. It is also wise For in the present inchoate condition of the laws no man knows when he is violating and when he is observing the statutes

The "twilight zone" is a thing of bar barism, economically speaking

No other great and growing and ambi tions world nation would telerate uncer tainty with regard to its fundamental enter prises

That the United States has thus long put up with doubt and tentativeness is a tribute either to the nationee or the indolence of its honest business interests

The term of waiting now is to end Business will shortly know exactly where it stands

Once that statute is made plain, pros perity will go forward at a record pace

The currency law will soon be organized The tariff has already been tried out With disposition of conjecture about the trust and business situation, we ought to reach back into a measure of that affluence that mark ed the years just preceding 1906

UNCLE IOE'S SAMENESS.

The Chicago Record Herald does not take too seriously Uncle Joe Cannon's re affirmation of political and other pessimism on the occasion of his Lincoln's birthday address

The ancient ex-speaker had inveighed with his usual emphasis against democratic errors and predicted dire calamity to the country from the effects of the administra tion s program

It is the theory of The Record Herald that Mr Caunon was born and reared in a political school that thought nothing but evil could come out of the Nazareth of the opposition party It believes that ingrained habit of thought is now tincturing the ut terances of the Danvillian

Probably so The politics of Yesterday was a pretty parrow and intolerant proposi tion

It taught the doctrine that the other fellows were offspring of the devil and that no epithet was too mean and no humiliation too decided to be visited upon them Patriotism of the non-geographical type played precious little part in its cogi

That point of view is largely one of the

past While we still have rival parties and partisan jockeying and always will, there will never be a return of the acrimony and the bitter intolerance of the old days

The country has grown and our mental horizons have broadened with it

We include more to pitch our political differences upon intellectual grounds than those of sheer expediency, and the sign is an extremely healthy one

Not that partisan politics as yet ap proaches apotheosis Far from it But there is visible an improvement that augurs weil for the general welfare of popular gov ernment in this country

The Home-Heathen Lose

I stated that the collection this morn ing was for the benefit of the heathen said the preacher and since a goodly sum has been realized the editor has risen and made open confession that he is the biggest heathen in the community. I hope that the admission has eased his conscience but I wish to say that it will not divert the collection to his own pocket. The church knew of his heathenish tendencies all along but it has no intention of supporting him in them

Great Trials

THE TRIAL OF GIBBS, THE PIRATE.

During the early part of the past century plracy flourished quite prominently on the high seas and it was with great difficulty that it was finally wiped out One of the most notorious of these pirates was Charles Gibbs his real name being James D Jeffers and his native place Providence R I For a number of years previous to 1331 when he was apprehended Gibbs startled the world by his bold and attroclous career on the high seas For a long time his crime seemed to defy and baffle all the efforts of pur suit and retributive justice

stut and retributive justice
The culmination came however in November 1830 in which month there sailed from New Orleans for Philadelphia the brig Vine yard with William Thornby as captain William Roberts as mate, and a crew consisting of Charles Gibs John Brownrigg Robert Dawes and others When the Vineyard was five days out a young negro cook made it known that there were fifty thousand dollars

The crew discussed the matter and plan The crew discussed the matter and plan ned as to how they could secure the money Finally the resolve was taken that as the master and mate were old men it was time they should die and make room for younger they should die and make room for younger blood The conspirators agreed to commit the fiendish crime of murder and piracy on the night of November 23 The murder of the master was by agreement to be accom-plished by Gibbs and Wansley and that of the mate by Atwell and Church This plan was carried out. s carried out The pirates took possession of the vessel

and Wansley, the colored cook bussed him self in wiping up the blood that had been spilled on the deck. The money was secured and distributed in equal portions. They then steered a northwesterly course toward Long Island. When they reached within twenty miles of the coast they took to the boats and the brig was scuttled. Several of the party were drowned before reaching shore. Gibbs. Wansley, Daws, and Brownies. Wansley Dawes and Brownrigg

Gibbs wansley Dawes and Brownrigg succeeded in reaching shore Consciencestricken Brownrigg informed the law of the murder having himself had no part in its planning or its carrying out. The other three were apprehended and the evidence of their planning or its carrying out. The other three were apprehended and the evidence of their gult was full and conclusive.

Gibbs was arraigned for the murder of Roberts and Wansley for that of Thornby Being found guilty judgment in accordance with the law was pronounced During the trial the iron visage of Gibbs was occasion ally changed by a transient amount in the had evidently abandoned all hope of escape and sat the greater part of his time with his hands between his knees calmly surveying the scene before him.

At this trial all of the life story of Gibbs and his piratical ventures were brought out showing that he had been following this vocation for fifteen years and so many had been the murders that he had committed that it was impossible to collect the list. Besides he had assisted in the taking of upwards of a score of vessels and appropriated their contents.

Annesia.

A case described as The Twilight State and Subsequent Annesia After Slight Concussion of the Brain is reported in a German medical journal A woman thirty-one years old murdered ber four children by drowning The deed was committed after she had sustained from her husband some twenty blows on the head. The immediate effects of the crime and of her future caused not the least disturbance in his mind. There was entire absence of any recollection of the murder, in fact total amnesia.

I can understand just how Sam feels about it said the village patriatch. No doubt hes been truing to tell his friends about his sufferings for several days and they all looked bored or sidestepped him or asked him to thinge the subject and talk about something wollfling and the lack of public sympathy has soured his naturally saccharine disposition. I don't know of anything more discouraging than to have a lame leg and not be permitted to give all the sickening details.

I have the rheumatism at certain sea sons every year and at such times I all ways feel that my sufferings wild be reluced to a milimum if I could tilk about it by the hour to a refued ind appreciative addence. It seems to me that people ought to be glad to listen to a discourse on such a subject for theirs a thing more interesting than rheumatism when all is said and done. I have read up the hierature on the subject and could recite courtless sensation at facts if people would listen but they won't just as soon as I bug in to explain that rheumatism orig at distinct the fact he most him into the ark the audience begins to yawn and sigh and one man after another finds at excuse for his departure. One his to a lone and make a cradie for the twin and another has to so to the depot to meet his grandmother, and a third promised his wite to take her to the prayer meeting or the moving picture show and the first fining I know I am talking to the stove and the stove begins to smoke to show that it is hold.

When a man has lad a few experiences like that he is tempted to act l ke Sam and tell anxious inquirers that it's none of their business.

The last time I had rheumatism I had to go to bed and some of the nurrier came in at times to sit up with me. Most of them wanted to talk politics. As leighted as I dangue about the income tax law or the value of the interstate commerce commission they dist at my bedside and hold commun on with me. But just as soon as I d begin to describe my rheumatism and explain that it was an hericome handed down by my an easters who exhibited their rheumatic joints before the crowned heads those sympathetic neighbors began to fade away.

You can't understand the longing a man has to talk about his own rheumitism un less you have been there. All other topics seem fatuous. I was simply print, away fer somebody to come and stand intehed while I told the whole story. My wife saw thit I was slowly dying of a broken heart so she told old Pulsifer about it aid he said hed come to my bedroom and listen to my talk for a week if that would do any good. He told her that he always did consider rheumatism the most fascinating of sub-jects and he couldn't hear too much about it.

So he came over and scated himself by my couch of pair and I hegai telling him how the rheumatism in ny fit hy could be traced back to William the Conjuctor. It thrived and grew in the chimate of Merry England for several contributions that finally was brought over to this country on the Mayflower and had always been a cherished possession of the fimily. I got about that far and then Pulyfic butted in claiming in a loud voice that the rh umatism in his family came down from Aifred the Great who contracted it while hidner in the marsh as man ought to he ashamed to boast of a cheap modern case like mine and I eat up in bed and threw a lot of bottles containing various remedies at his head and he took hold of my sore foot and pulled me out of hed and my wife hid to come in and separate is with a man placed and the parafet is with a man butte and a parafet with a man highly one for the dean of the contraction. of hed and my wife hid to come in and sep arate us with a mop hindle and a fire shovel I have been trying for years to make

Clean-up Day, March Tenth

Again comes the clarion call, "Clean up!" This time its importance is

Ever prompt and faithful in her work for the federation, Mrs. Loga: Pitts is a leader of wide influence. Club women everywhere know how she has popularized "Clean-up Day," and how she has worked for civic cleanliand beauty. Today she reminds you that March 10 will be "Clean-up Day"—the day set apart by the General Federation to be annually observed

The observance of this day has already proven nousekeeping. It has transformed many places. It has become a familiar saying, that "Such a thing cannot remain in this town—the woman's club

And now, while our leader must be silent, let's all talk about "Clean-up Day," and make the results far-reaching. There is no topic more universally applicable to all times and places than civic improvement. Eyes that see and tongues that speak can do good service in behalf of law, order, cleanliness, beauty, patriotism.

ness, beauty, patriotism. Every child should belong to some organization that is working for beauty everywhere—beauty of character, beauty within the home, beauty without. The children are easily interested in "Clean-up Day," and their enthusiasm makes cleaning a delight.

Let each club appoint a clean-up committee to go about the city and inspect every corner before March 10. Have arrangements perfected for necessary work to be done, and on March 10 do it. Take more than one day, if necessary. Insist upon the removal and sanitary disposal of tin cans, garbage and all kinds of refuse from streets, rear of stores, back yards, etc. Away with the breeding places of flies and mosquitoes! Let each club meet local conditions of its community.

Mrs. Pitts believes that she will receive the co-operation of all clul women in sharing her responsibility as regards this day. Be true to her trust and to your obligation.

ARTISTIC PLANTING

LOCAL CEMETERY BEING IMPROVED BY THOMASVILLE CLUB

cial)—The members of the civic committee of the Thomasville Study class have undertaken the work of beautifying and improving Laurel Hill cemetery and have already accomplished much in that line. Their plan is to have all lots where the families owning them have died out or moved away put in good order and kept so Shrubs and flowers will be planted wherever needed and native trees put out. It is planned to be planted wherever needed and na-tive trees put out. It is planned to border the driveways on either side with these native trees and already a large number of dogwood trees have been planted. This work will be kept up until the cemetery is made one of the most beautiful in the state. The Study class occupied last week

for the first time its pretty new meet-ing room recently fitted up in the rear of the public library. This room is arranged especially for the use of the class and as it is centrally located will

NEWS OF THE U. C. T., ATLANTA COUNCIL, 505

H. D. Shackleterd, Secretary.

Mr. Chaude Duvall, supreme councillor of the United Commercial Travelers, paid Atlanta an unofficial visit on the 18th and 19th of February. The two councils in Atlanta, No. 505 and No. 18, had the pleasure of entertaining Mr. Duvall at an informal dinner at the Ansley hotel on the night of the 19th.

Legislation now pending in Georgia in the interest of the traveling public was discussed, and we had the benefit of Supreme Councillor Duvall's advice on this pending legislation.

Handling Complaints.

Handling Complaints.

There is no department in a retail store that should be handled with more care than the complaint department. A customer never returns goods for the mere pleasure of returning them For some reason they are not suisfactory and it is up to the merchant complaints of the control of the customer feel more uncomfortable that to be dealt with in an unpleasant maner when he returns goods it is just as easy to accept the merchandire that is not satisfactory to dim m a pleasant maner as it is to receive it in a waithen makes the merchandire that manner as it is to receive it in a waithen makes him feel that he does not want to do business in that store if complaints are received with a grouch one runs more diance of lost a grouch one runs more diance of lost in the control of course goods are sometimes refurned slightly solied or otherwise rites free goods are sometimes returned slightly solied or otherwise rites free stock. This is only a tem prary loss but the cus omer has been accommodated and this means continued ed trade

In very dark surroundings a light apt to glare unpleasantly while gainst a light background it is hardly viticeable is apt to glare unpleasantly while spanist a light background it is hardly officeable. The fact that a white object expands in the vision while a dark object contracts is an influence in choosing in terior colors. Applied to the store it means that the interior that is painted or papered in light colors will seem larger than the one that presents dark shados to the vision. The same principle governs the rule that the ceiling must be white or some light; shade. Besides making the store brighter by reflecting the light it fells the effect of all thinds and size. It is addished the status of ark noar the floor. Texas Optimism.

Stephens-Elliott.

A wedding of interest to a wide circle of friends was colemnized on Wednesday at noon in Selma. Ala. at the home of Mr. and Mrs. P. D. Kennon, when Miss Merie Stephens, of Atlanta, was married to Dr. Frederic E. Elliott, of Brooklyn.

Father John P. Mallineaux, of St Mary's mission, of Opelika, performed the ceremony. Little Sara Kennon, lovely and dainty in white lace and ribbons, and with her arms full of jonquila, showered the flowers in the bride's pathway, while Master Blly Kenton was ring-hearer. She carried a heautiful gold and white prayer book, the gift of her aunt, Miss Fitzgerald.

A Very Superb Spring Season

of Rustling Silks and Beflowered Crepes-of Soft Woolens and Soft Colors.

Prospects for Spring, if we may call it that, have in the fashions of the present some wonderfully interesting things—some vitally absorbing points. To drape the feminine figure in silks of soft texture and to evolve from the art the greatest results for grace—that is fashion.

"There is downright moral support in an absolutely satisfactory gown," said some wise woman, and to this she has added the wiser closing, "Tasteful dressing is not so much a question of money as it is a question of brains.

The above has impressed us with regard to the advancing Spring Fashions. For many seasons we have been encroaching more and more on the really feminine in women's dress. The Spring of 1914 has brought us up to the realization of the truly satisfactory.

And that it is brains and not altogether money that makes it so may be reasoned out. Never have we seen such designing, never have we seen such weaving, never have we seen such effects arrived at thru simple means—and this means inexpensive means. Indeed, one may wear silks today as easily as she may the cotton gown.

Let us demonstrate this interesting point in our Ready-to-Wear Departments, now full of Spring wear

The Spring Suits

In the beginning, will you look over the new suits that you may buy here for \$25, or yet for \$19.75? You will see your search answered in truly smart fashions, in woolens of genuine quality, in the decorative touches that tell.

In the same pleasant journey you will find yet a little more elegance and bit of added claborateness, as you advance. You will have decided at the end of the Spring inspection that as great an assortment of elegant Ready-to-Wear as you might expect to see in any large New York emporium is right

at your door. . **\$**19.75, **\$**25, **\$**35, **\$**45, **\$**50 and up to \$85

Skirts New

Plaid or plain, the new cloth Skirt is a haufdsome garment. The great style it carries is more than one might expect of a small garment "single handed." It is indeed small, that is, narrow, tho there are a great many added tiers and tunics that make up a good bit of fabric. See these new

Unique interest attaches to the announcement by the Atlanta Musical association of a plane recital by flugh In Hodgeon, a Atlanta could be supported by the Atlanta Cable hall.

The significance of Mr. Hodgeon's attainment, although he is still in college, may be judged from the fact that he has been chosen by the musical association board to give its artist concert for February. The association is breaking away from the restrictive tradition that "a prophet is not without honor save in his own country," and expects to afford its members and the musical public generally an evening of real musical value.

MYRTLE ELVYN, concert pianiste, appears with the Atlanta Philharmonic Orchestra, Mortimer Wilson, conductor, under the direction of the Atlanta Musical Association, March 5th, Atlanta Theater, 8:30 P. M.

A rare opportunity for musicloving people to hear one of the most gifted artists of the age.

A few press comments:

San Francisco Chronicle, March 13, 1912. Myrtle Elvyn is easily the equal of any woman pianist who has come to this coast and the superior of most. Notwithstanding the long and honorable records of such as Fannie Bloomfield-Ziegler and Teresa Carreno, Miss Elvyn competes with them to their disadvantage. She has youth, strength, beauty, vitality and the musical gift in its fullness. If comparisons must be made between artists, Miss Elvyn must be likened to the men of note in the pianistic field.

A Score of Exclusive Suits

Faithful Reproductions of Paris Models That Tell "What's What" in the world of Fashion

-The fact that the originals of these suits were designed by the forcmost contouriers of Paris does not constitute their chief claim to interest—there is much, even, that Paris produces that this shop would not sponsor.

-The suits are of value to women seeking the individual and exclusive, only because every model is a true type of the highest and best

-Materials are chiefly wool crepes and serges; silk failles and moires. and wool serges combined with silks. It is in these combinations that the Paris coutouriers have achieved their most artistic effects. Space does not permit a detailed description of each suit; you will only realize their full measure of beauty when you slip one on.

Prices \$65 to \$157.

Have we soared too high? We really don't live among the stars—we have scores of suits in the approved Spring styles at \$19.75, \$25, \$35 & \$50.

The New Hats Are As Becoming To You As They Appear Here

-Women have been trying on—and freely buying—the new Spring Hats. In the mass, styles appear odd because of their novelty. The right model selected and properly placed on the head, however, is decidedly becoming.

Hats are small and medium with high trimmings. Usually worn on top of the hair and no more drawn over the ears as last season. Bicornes and Tricornes, semi-sailor and derby shapes are "good." Picturesque flat-top, highback shapes-called Watteau, after the painterprettily complement gowns featuring bouffant draperics.

-Milan hemp is the favored straw. Black, "nigget head brown," odd shades of green and plum as head brown," odd shades of green and plum are among the leading shades. Styles in general hark back to the revised modes of 1830. When you try them on we think you will agree they are most becoming. \$10, \$12.50, \$15 to \$50.

The New Spring Fashions Call For Stylish Silks of Many Kinds All of Which May Be Had at Rich's

Spring promises the greatest silk season of history. Not only for the quantity of silk to be used, but in the richness and diversity of the designs. A glance over this list will show how well we have interpreted Fashion's page:

Chiffon Taffetas—First and foremost on Fashion's page, hence stocked in great variety. Solid colors, changeable and two-tone effects and black. All 36 inches wide. Colors \$1.50; black \$1.50 to \$2.50.

Fancy Taffetas—White stripes grace a background of color; spaced floral patterns on white; little buds and sprays play hide and seek over a sea of shimmering color, 24 and 36 inch widths. \$1.25, \$1.50 and \$2.

Hoot, Mon, the Plaids Are Here!—Bonny plaids, rich and colorful, delightful for waists and skirts, with brighter, gayer plaids for trimming purposes. Some are of Surah silks, 26-in., at \$1.50; others are of chiffon satin, 36-in., at \$1.75.

Tapestry Silks—interspersed with gold or silk timel, the dainty buds gleam and glisten like glorified pictures. Smart for vestings and trimmings; 19-in., \$2.50.

Moire Francaise-A sublimated moire, now the rage in Paris for coats and suits. Soft and supple, it is ideal for draperies, with body enough withal for tailoring. Tango, taupe, Copenhagen, mustard, new sage, navy, plum, wistaria, myrtle and black, 44 inches, \$3.50.

Crepe de Chines—The perennial favorite. Scores of colors, including all the new shades and black and white, \$1.50, \$1.75 and \$2.

Faille Crepe—A charming silk combining the strength and service of Faille with the grace and beauty of crepe. Rich, lustrous surface; black, white and leading colors; 42 inches, \$3.50.

Flowered Silks—A garden of buds and posies; little Johnny-jump-ups of the forest; magnificent spaced floral patterns. Embedded and bestrewn on crepe silks, \$1 and \$2.50.

on trepe siks, \$1 and \$2.50. Foulards—Chinesc and Japanese patternings; the symbolism of the Orient; the bright colors of the Cubist: refreshing flowers and fruits—there never was such a variety in foulard designs. And beautiy is the keystone of every tint, every pattern line, every fibril of the weaving. Shower-proof and dust-proof in two widths and three prices; \$5c, \$1 and \$2.

Imprime Matelasse—A rich fabric for coatings and trimmings. Heavy satin ground with matelasse figures worked out in silver or gold, 40-inch, \$6. (SHk Salon, Main Floor, Left Annex.)
