

Property Comparison Challenged

Your Judgment Invited

Everybody's Going There

There will be 2,000 homes built in Atlanta within the next year. This is no estimate; it is a fact dug from experience. Atlanta's new population will require that number.

Where are they going? Everywhere; but the choicest, handsomest and *best located* homes will be built in North Atlanta. Another fact dug out of experience.

Atlanta, like every other city in Class A, is building northward. It is incontrovertible, inevitable. If you want to be in the running, it's time to come to the scratch.

Look, What's There!

All essential city conveniences are already there. You don't have to stop to figure on when water will be supplied or sewers put down. They are there now.

Look at the water plugs on Habersham, Rivers Road, Wesley Avenue, or anywhere else. Here's fire protection right on the spot; it means lower insurance.

Water and sewer connections are made as easily, as quickly, as in the business center. It is the same with electricity and the telephone; everything you need right at hand, waiting for you.

And then it's only 24 minutes trolley time to your business office in the heart of the city, with a 10-minute schedule. Compare this with trolley service to other residence sections; you will find it the shortest, the quickest.

We have the official trolley figures, if you want them.

Just a Few Improvements

Do you know about Battle Avenue and the new North Atlanta school? You do if you read the Atlanta papers; if you don't, it's time to wake up and get acquainted with your city---with what's going on in this rapidly building section.

Battle Avenue, from The Lodge, at Peachtree Road, clear through to the Howell Mill Road, is to be made a 100-foot driveway. Do you get that? A 25-foot park the full length through the center. Paved driveway and cement walks. Federal markers showing positions of troops. Nothing else like it in the South.

Look at the Property

Go look at the lots in Peachtree Heights Park. Consider the size of them, their beauty, their location, the restrictions; give at least that much consideration to the place for the home for your family.

We don't fear comparison; inspection and comparison are what we want. We invite it; we urge it; we challenge it. Make the comparison from every viewpoint, and we stand upon your decision.

We know we've got the best home property in Atlanta; we know that will be the verdict of every unprejudiced judgment.

Atlantans have got to build in Peachtree Heights Park. It's the very next thing in line as well as the best. Go there now and you get your lot far cheaper than if you wait---perhaps for half.

No house on less than a 100-foot lot for fifteen years to come. Beautiful forest trees; most attractive building sites. Everything like you want it for the home.

Go, look at it! Go now!

There's only a fixed and limited amount of home property in Peachtree Heights Park. You cannot find any more like it.

Try it. It cannot be manufactured. Get it now and save money. Somebody's else price may be prohibitive.

ELLIOTT DENT IS BACK IN FORM

Dent in Splendid Form; Holds the Vols Safely; Morley Jennings Stars

By Paul W. Treaster. Nashville Team May 2.—(Special)—Elliott Dent the Cracker's big right hander pitched them to victory in the second game of the series with the Vols here today by an 8 to 4 count.

Box Score for Dent's game: MEMPHIS ab r h po a e, Allison cf 5 2 2 2 1 0, N. Coyle rf 4 2 1 1 2 0, etc.

The Cracker's knocked Roy Stevens the only Vol starter off the hill in the fourth inning scoring six runs in that time. Rube Marshall a semi-pro rookie finished the game and made a better showing.

Stevens' wildness was the contributory cause to his downfall. His bases on balls turning into runs as fast as he could throw.

With two gone in the first inning he walked Fabel Kitcher out in with a strike and then pitched to Holland and Browning pinch hit three tallies.

GORDON INSTITUTE PLAYS DAHLONEGA

Great Prep Rivals Meet in Games at Barnesville Monday and Tuesday.

Barnesville, Ga., May 2.—(Special)—Gordon Institute and the North Georgia Agricultural college at Dahlonega, Ga., will meet in a series of two games beginning here Monday afternoon.

This is the first meeting between these two strong prep school teams this season and the result of the games will not only be interesting to each school, but the other preps of the state.

G. M. C. won two games from Dahlonega, G. M. C. and Gordon have broken even in two games. As they meet again later in the season, the result of these games with Dahlonega will furnish a good comparison between them.

BIRTHDAYS OF THE STARS

By Ernest J. Laugan.

Frank J. Navin, owner of the Detroit Tigers, has had the suggestion made to him that whenever any of his players is to have a birthday the fact be announced in the papers in the city in which the Jennings are performing. The reason for this suggestion is that on July 4, 1912, the Detroit papers called attention to the fact that George Mullin would that day celebrate his thirty-second birthday. Portly George, now with the Indianapolis Feds, proved some celebrator, for he not only blanketed the Browns in runs, but denied them hits, too.

On the morning of April 18 last a Detroit paper carried a story that Sam Crawford was celebrating his thirty-fourth birthday, it being pointed out in said story that "Wahoo Sam" on his birthday anniversaries was not in the habit of batting heavily and that his average for the games he had played on April 18, from 1902 on, had been just .231. Sam, noting this fact, proceeded to bat at a 600 clip against the Naps, polling a single and a homer and boosting his birthday batting average from .231 to .276.

Another American league outfielder who celebrated his birthday on the same date as Sam Crawford and in a befitting manner was George Edward

Lewis, of the Red Sox. "Duffy" was 26 years old on April 18 last and he gloried in the occasion by delivering the only run scored in the Boston-Philadelphia game.

An able athlete who generally sees to it that his birthday is made a day of gladness for his team is Christy Mathewson, of the Giants, who would have been awarded one of the major league pitchers possessed of the best control. Matty's birthday is August 12 and inspection of the records shows that "Big Six" does not ask for a rest on his natal anniversary, but is willing to go in and work on that day unless it be Sunday.

Only once has the Old Master consorted with Dame Defeat on his birthday. The year this happened was 1912 and then Christy the crafty, acting in a relief capacity for a bombardment, could not subdue the Cardinals and they procured one run off him (winning one) after having gained seven runners off the man Matty had succeeded last year. Matty pitched part of a game on his birthday against the Superbas and held safe a two-run lead bequeathed him by Arthur Fromme.

On August 12, 1912 when Mathewson was celebrating his thirty-second birthday, he met with defeat, as before told. On August 12, 1911 it was fortunate for "Big Six" that he was not asked to work, as the Giants failed to

get a run off "Dut" Chalmers, of the Phillies. Christy had an afternoon off on August 12, 1910, but on August 12, 1909, he shut the Cubs out with four safeties, and on August 12, 1907, he conquered the Pirates and pitched the Giants into second place.

Matty will spend his thirty-fourth birthday in New York. The Cards then will be in Gotham and it will be interesting to see what they do to him or what he does to them.

The track has been reboarded, the infield regraded, new paint added to the boards, and in fact, everything put in tip-top condition. All the details, entries list of events and other information will be announced shortly.

Harvest of Golf Balls

When Dam at Pinehurst Broke, Drying the Lake

Pinehurst, N. C., May 2.—(Special)—Greenskeeper Frank Maples regards

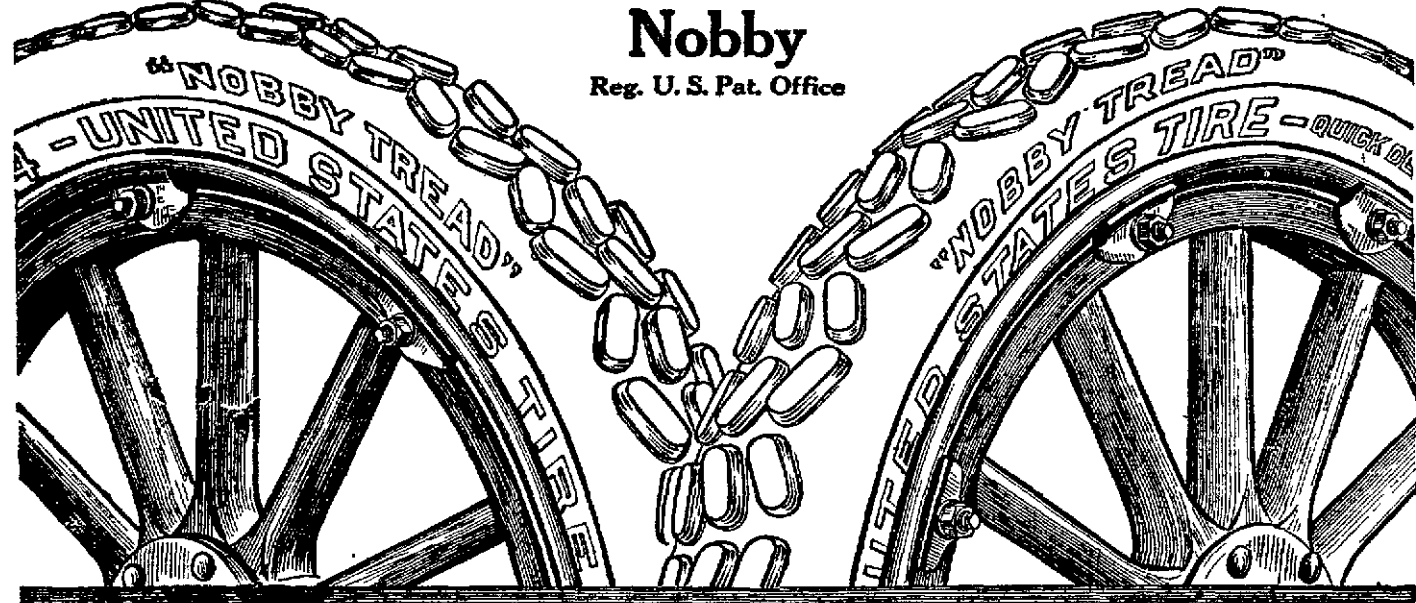

the breaking of the dam which holds the ponds on the twelfth hole of No. 1 golf course in place as a disaster, reckons he'd like to know just how it happened.

Not so, however, with the late season caddies who have reaped a golden harvest for that particular hole. The pond bed proved to be literally paved with golf balls.

Domestic and imported antlers and modern black and white, dimples and pimples crescents and crosses good bad and indifferent they lay in slimy piles and windrows before the astonished eyes of what at once became the duck lake brigade which garnered them by the dozen and the gross the pond and the bank.

It is conservatively estimated that between 200,000 and 300,000 balls have journeyed across that pond in the last two or three years. At 10¢ an ounce, a conclusion as to the percentage which failed to make the dip and you'll get a pretty fair idea of what the harvest was. Yes, indeed, it has been some big week for Pinehurst caddies.

You can always flatter a married woman by telling her that she doesn't look it.

Get the Personal Touch

When we ask a man to step into the Mitchell Car and feel its mechanical pulse through the steering wheel, we are ten times closer to a sale than we can possibly be through talk and advertising. Confidence is a plant of slow growth. In the sale of automobiles, there's only one way to win it, and that's the "personal touch" way.

Because we have followed such a plan this Spring, the Mitchell Car is better known today than it ever has been. All over America prospective purchasers have sat in the driver's seat and tested the car to their entire and ultimate satisfaction. So that when they became buyers, they knew almost as much about the car as we know. They bought with the distinct, personal knowledge that the car was even better than its advertising said it was.

And the invitation is open to you. If you don't know the Mitchell car, this is the way to get acquainted with it. If you have ever felt the slightest doubt that it is the best car at the price made in this country, why don't you go to your nearest Mitchell dealer and ask him to let you drive the car yourself? If the car doesn't prove its worthiness on this personal test, then all that we might say on the subject would be words and time thrown away.

After you have driven the car yourself and have gotten the personal touch—after you have found out how smoothly and silently it runs—after you have witnessed and felt its splendid action on all speeds and tested the resiliency of springs, we will give you the details of its manufacture if you want them. But we want you entirely satisfied with the appearance and action of the car and its mechanism before we tell you a solitary fact.

If the Mitchell doesn't behave well under your guidance, you don't want any details. But if its action pleases you and imparts the physical charm that we know it possesses, than you want to know more about it. We know ourselves just how it looks, just how it acts and just how it feels. But we have driven it. And that's what we want you to do, so you will know whether it is safe to invest your money in that particular car.

When the sale of a Mitchell is completed, there is nothing else to talk about. No element of chance or speculation enters into the transaction. You go away knowing just precisely what you have to expect, and amply guarded against uncertainties. You go away knowing that our friendship doesn't end with the payment of the price. You go away convinced of the splendid merits of the car and the service and honor behind it. It is an ideal business agreement, and there's never any disagreeable "come-back."

The "personal touch" brings about such ideal business conditions. Confidence begins at the beginning, and we want to say to you that your confidence in this concern and the car it makes can never be misplaced. We have served the American public faithfully and honorably for eighty years, and the Mitchell-Lewis Motor Company will go on for eighty years more, in just the same way.

Eight More Boys Win Constitution's Badges

Great interest is being manifested by the high schools of the state in the Constitution badge contest and communications are being received daily, containing the names of the boys that have qualified for the badges.

To win one of these badges the boys have to run 100 yards in 15 seconds do a 4 foot 4 in running high jump and chin the bar nine times.

Two contests were held last week, one at Decatur, and the other at Covington Ga.

seventh annual meeting of the Tenth District High School association was in session here May 1 and 2. Those who are responsible for this occasion report the largest attendance and the greatest interest and enthusiasm ever manifested upon a similar occasion.

Large delegations came from every high school in the district, supported by their friends who came to cheer them in victory and console them in defeat.

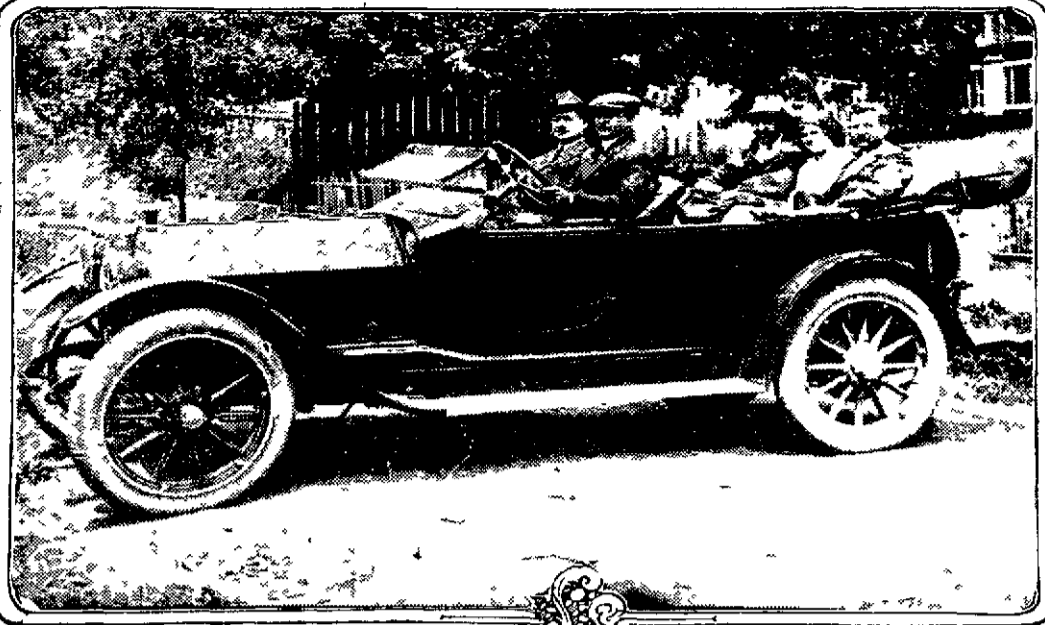

Sparta entertained the association in a fitting and hospitable way. Fifteen hundred people were served with a barbecue dinner on Friday.

Bondage and Deliverance Of Israel From Egyptians Shown in Free "Movies"

Scene from the Bible moving pictures, presented free this week at the Atlanta theater.

Thousands who witnessed Part I. of the Photo-Drama of Creation at the Atlanta theater will be pleased to know that Part II. is to be shown Sunday afternoon and evening in the same place. Some are of the opinion that it cannot possibly be as interesting as Part I., but the management assures all that many have pronounced it still more interesting. All must see it and judge for themselves. Wondrous scenes in respect to the magnitude of this philanthropy which is presenting this beautiful drama in so many cities all over the world.

While there is much that is scientific and historic in connection with this drama, it is distinctly intended, as claimed to revive faith in the Bible as the divine revelation. It is undoubtedly true that humanity has a clear conception of an all-wise, all-powerful, all-just and all-loving Creator. The highest organs of the modern era out for such a God, and find pleasure in rendering Him homage, worship and praise. The manner of His appearing announces that Part I. will begin earth's history with the time of Melchizedek, who lived contemporaneously with Abraham, and was so great that Abraham paid tithes to him.

The second part of the drama will present Israel's bondage under the Egyptians. Then it will picture the last of the ten plagues and the subsequent deliverance of the Israelites from Egypt. This film is said to be extremely interesting and beautiful. Atlanta is promised something superior to ordinary moving pictures. The scenes are made especially beautiful hand-colored. The second part includes scraps of Jewish history down to the days of Elisha, the prophet, ending with a film entitled "The Sodomites' Sin," and said to be one of extraordinary beauty, very touching in the sympathies and illustrative of the divine power of resurrection. Beginning Sunday, this second part of the Photo-Drama Creation will be presented for seven days when it will be followed by Part III. Money would not be \$5 for what they learned from Part I. The same may be true of the second part, and the best of God's gifts are free. The I. B. S. A. in presenting this beautiful drama, appears desirous to be followed by the Slaughter of the Amalekites.

All good and great people deplore war. The Bible promises that the time is coming when there will be no more wars. The Photo-Drama of "Creation" is a grand peace promoter. While it faithfully tells of wars, it reaches by induction that they are unavoidable and never to be indulged in if avoidable. But the drama notes that certain of the wars of Israel were divinely commanded, as for instance the slaughter of the Amalekites. Instead, however, of the Israelites, for this the drama explains it. The Israelites were a typical people, because of the different races of people that inhabited Canaan were typical of how Christian people are to wage a good warfare against the entrenched enemies of righteousness in their own minds and bodies, etc. It is a declared war, it is a war against the flesh and the flesh against the spirit, and the two are contrary.

Furthermore, the drama points out that God did not give this command to the Israelites without explaining to them that the iniquity of these people had come to the full—just as the iniquity of the Sodomites had come to its full measure before Sodom was destroyed, and just as the antediluvian world had come to a fullness of iniquity before the deluge destroyed them all.

Better Man for Them. The drama points out that whether people die by sword, famine, pestilence or otherwise, makes comparatively little difference; for the Bible declares that the dead know not anything. The Sodomites, Amalekites, etc., went down into the tomb, because they were better men for them, rather than for God to allow them longer to live. God has declared concerning them a resurrection from the death state, and that when they shall come forth under the rule of Messiah's kingdom, every thing will be much more to their advantage than under the present reign of sin and death, which will be true also as respects all the dead—heathen and civilized.

The thought of the lecturer seemed to be that the death of Christ, the just for the unjust, secures the right of a return to life to every member of Adam's race; and that that return to life will be under most favorable conditions for a further development and uplift in harmony with the divine character of the law. Scriptures were cited, proving that it will be more tolerable for the Sodomites, who were destroyed by fire from heaven, than it will be for the people who heard the preaching of Jesus at Capernaum, Bethesda, etc. The people who enjoyed greater privileges, will be responsible to a larger degree than were the Sodomites, who knew and enjoyed nothing of God and His will, and who were not allowed to gain to the audience free. These contained the very words of the lecturer and additionally cited the Scriptures referred to. Undoubtedly in this way also the "Photo-Drama of Creation" will lead to further Bible study.

Part II. of the drama will continue to be shown all this week at 3 and 7 p. m. at the Atlanta theater. Seats free, no collection. Free reserved seats may be secured on application.

TEACH CHILDREN HOW TO AVOID ACCIDENTS. WEDNESDAY CLOSING EXTENSION PLANNED. Grocers Hope to Get All Retail Businesses in City to Follow Suit. Mexican Traits. The children of most nations grow into men and women—the Mexicans remain children, says Fritz Arno von de Blien in Harper's Weekly. In most Mexican cities there is no body of people corresponding to the great middle class that does the work and fights the battles of a strong nation. There is a small upper class and the indolent lower class that carries in its veins a mixture of Spanish-Indian blood. These people live from hand to mouth. Unless a battle comes to their doorstep, personal pleasures or pleasures are not affected. They are lazy, careless, easily annoyed, crafty, hospitable and totally irresponsible. A ball fight, or even a hand concert on the plaza is of greater moment than the success or failure of Huerta. All these are the traits of children, and they characterize the Mexicans.

NEGROES WILL SHARE IN BAPTIST REVIVAL

Great Evangelistic Campaign Will Begin in Atlanta on May 17.

The great evangelistic campaign in all the Baptist churches of the city, both white and colored, will begin May 17 at 11 o'clock in the morning. In addition to the churches mentioned last week, the Grant Park and Temple churches will be in the campaign. The central committee, with the other special committees, are working hard to have everything in readiness for the campaign.

Campaign Among Colored Baptists.

There are thirty colored Baptist churches in the city. The Colored Baptist Ministers' conference have appointed the following central committee to co-operate with the central committee of the white ministers, and Dr. Bruner is arranging the details and conducting the campaign in their churches. P. James Bryant, chairman. A. D. Williams, C. H. Young, E. P. Johnson, Cyrus Brown, W. P. Paschal, W. W. Loyd and R. R. Smith.

The colored churches have been divided into three groups for the campaign as follows: Northside group; Ebenezer, Mt. Olive, Mt. Pleasant, Mt. Zion, Butler Street, St. Luke, West Georgia, West Antioch, East church, East Benuah and Reynoldstown. Westside group; Macedonia, West Hunter, Friendship, Mt. Zion, Mt. Zion, Little Mt. Olive, Shiloh, Little Friendship, Providence, Philadelphia, Summer Hill and Fitzhugh group; Keser, Street, Frazer Street, Bethlehem, Zion Hill, Iconium, Martin Street, South Atlanta, Providence, Macedonia and all other churches and missions not mentioned in the above list.

The services in the campaign among the colored people will be conducted as follows: A great central meeting will be held daily at the Wheat street church in the afternoon. The services from 5 to 8:45, will be a personal workers' conference under the direction of Raleigh Wright. An inspirational service will be held from 8:45 to 10:30, during which reports from the several meetings of the previous night will be made, and a short sermon by one of the white evangelists will be preached.

The services in the three groups will be held as follows every night: North side group, Rev. W. E. East, evangelist. Meetings, first week, at Wheat street church; second week, at Ebenezer church; third week, at Mount Olive church, and so on as long as the meetings shall last. It will move from church to church. West side group, Rev. E. M. Criggs, evangelist. Meetings, first week, at West Hunter church; second week, at Macedonia church; third week, at Friendship church, and so on as above indicated. Summer Hill and Fitzhugh group, Rev. Richard Carroll, evangelist. Meetings, first week, at Reed street church; second week, at Zion Hill church; third week, at Providence church, and so on as above indicated.

A great get-together meeting for the colored people will be held on May 17 at 5 p. m. at the Wheat street church. At this meeting the three colored evangelists will speak, and Dr. Bruner will be present to speak. This will be a great time. Sunday school rally will be held at the great auditorium the second Sunday in May at 3:30 in the afternoon. Every Baptist Sunday school in the city and suburbs will attend this rally in a body. There will be an interesting program for the occasion. This will be announced later. Let every superintendent get ready for the occasion.

At Atlanta's Theaters This Week

Top: Scene from "The Trained Nurses," at the Forsyth; bottom, left, Gladys Clark, with "The Trained Nurses;" right, W. W. Scott, with Lucille LaVerne, at the Lyric this week in "The Heir to the Hurrah."

Keith Vaudeville.

(At the Forsyth.)
A vaudeville offering of unusual promise is the bill that will open the

week's engagement at the popular house of the varieties, the Forsyth theater, commencing with matinee on Monday. The class of acts composing the bill are just the sort that Atlanta

vaudeville patrons have shown a preference for.
The headline feature will be Jesse L. Lasker's newest musical comedy success, "The Trained Nurses." William

LeBaron is the author of the book, who also wrote "The Antique Girl," etc., and the music is by Leo Edwards. The lyrics are by Leo Edwards, and the book is by Leo Edwards. The book is by Leo Edwards. The book is by Leo Edwards. The book is by Leo Edwards.

fun of act three follows the tender-ness of the last act, where the wife made to realize real love and worth through her suffering and separation, tells her Joe that she loves him, that she needs him.

Mr. Middleman, whose lusty, manly personality has made him one of the biggest favorites of the La Verne company, will find a thoroughly congenial role in Joe. Miss Chaffee is cast for the wife, and although the delightful leading woman has an unorthodox task in her first act's portrayal, her final captivation to the worth of her husband is sure to be made redemptively tender. Miss Blakely and Mr. Milham will be seen in companion parts, good news to the hosts of idlers, and it is the intention of the management to convert the big evening into a gay tea and tango room shortly.

Keith Junior Vaudeville.

Believing in the old saying, Variety is the spice of life, the Keith Junior management will present for the first three days of this week, "The Look Out," a vaudeville comedy. The Keith Junior Vaudeville company, which is highly recommended as being the classiest of all vaudeville, and features Mr. Ed Johnson, a reputation as a female impersonator, is said to be a clever comedian, and wears some elaborate gowns.

The company of comedians, singers and dances comprising the Keith Junior includes Alice B. Hamilton, Arthur Rowland, N. M. Simmons, Jackie Tallman, Harry B. Chase, George E. Vivian, J. W. Ford, and Ed. J. Lane and a chorus of four to eight to ten. A Broadway production, "The Look Out," says an exchange, "The Look Out" is a witty and tuneful musical comedy, and Mr. Verdon Bestor, composer of the score, a complete scenic production is carried. The Keith Junior Vaudeville company are the most elaborate in vaudeville.

The Grand management announces there will be no advance in prices, regardless of the expense in procuring the bill. The usual hours of the Lyric will be given at the usual hours—2:30, 7:30 and 9 p. m. daily.

"Jesse James."

(At the Bijou.)

Eddie Black and his players will offer for the coming week what promises to be the most sensational and pleasing bill of the stock season. It will be the four-act melodrama, "Jesse James," telling the story of the exciting incidents in the life of Missouri's famous outlaw, Jesse James. Readers of fiction there is no more interesting character than this famous bandit, and although the play was produced in Atlanta a great many years ago, it has not been seen by local theatergoers in recent years, and its presentation the coming week at the Bijou should draw immense crowds to the popular playhouse. The stage direction will be in the capable hands of H. Walter Van Dyke, who has been responsible for the splendid productions that have characterized the weekly plays that have been offered by Eddie Black.

The part of Jesse James will be played by Frank Fare, and the many friends of this popular actor are expected a splendid rendition of this role. Eddie Black will be seen as Line Snowball, a negro character, which will give him opportunities for clever comedy work. Walter Van Dyke will appear as Zeldo Raulston, Alice DeLane as Liza Snowball and Marie Clair as Mrs. Samuels. "Jesse James" will be seen in eight scenes, each of which will be carefully painted for this production. Act I, Scene I, takes place in the barroom,

"How Four Aces Won." Scene II, in the woods, near the James' home. Scene III, the burning of the James' boys' home, and the hanging of Dr. Samuels. Act II, Scene I, the rescue from the cave. Scene II, in the woods, near the James' home. Scene III, the rescue from the cave. Scene IV, the rescue from the cave. Scene V, the rescue from the cave.

The announcement is made that this will be the farewell week of the Eddie Black stock company at the Bijou, and this bit of news will doubtless be read with much regret by patrons of this house, as during the sixteen weeks that Mr. Black and his players have held the state of the Bijou they have made thousands of friends who will regret very much to see this organization leave Atlanta, but arrangements that were made months ago force this announcement.

READ S. O. S. FOR M. B. S. AND CAUSED A SCARE

San Francisco, May 2.—How a wireless operator heard the steamship Persa with her code signal "M B S" and mistook it for "S O S." The signal "M B S" was explained today by the fact that the Persa's code signal code was "M B S" and the operator had mistook it for "S O S." The mistake probably caused the report yesterday that the Persa was in distress off the coast of California.

The symbols for the two sets of letters are as follows:

M B S
S O S
and the final three dots of the "E" made the third "S"
The operator having the location of the vessel and what he thought "S O S" relayed the call. The Persa having given her location and name proceeded. This explained why nothing more was heard from her.

ROPE OF DIAMONDS DISCOVERED ON NEGRO

San Francisco, May 2.—The arrest of a negro workman of a traveling circus in Berkeley yesterday for hiding out to the recovery of a rope of diamonds valued at \$100,000, for which the police of the Pacific coast have been searching the past week and a half.

The diamonds are the property of Mrs. Frank G. Hogan, of Pasadena. Mrs. Hogan lost the diamonds while attending the circus there. They had been picked up in the sawdust of the circus ring by the negro, and were found in his clothes when searched by the police. The negro said he had no idea of the value of the jewels.

It is proposed to have the films made by the National Cannery Association, under the supervision of Mr. Williams, for the purpose of securing pure food and drugs for the American people. This survey will be made with the aid of expert investigators and by means of questionnaires.

The recently organized food and drugs department of the National Civic Federation has decided to make a national survey with a view to developing a pure food and drug code for the American people. This survey will be made with the aid of expert investigators and by means of questionnaires.

The above building, recognized as one of the best in the South, for the purpose for which it is used, was partially destroyed by fire on the night of January 13, last. The fire, of course, made it necessary for R. F. Avery & Sons to seek new office and warehouse quarters, which they promptly established on the day following. Several improvements were included in the remodeling of the above building and it is again one of the most modern and best adapted houses for the implement business in the country. Large shipments of goods from their various factories are being received by B. F. Avery & Sons and they are likely to be busy for some time, caring for and shaping up the stock.

Road laws which have been on the statute books of various states for more than a hundred years will probably be repealed as a result of the movement which has been inaugurated by the American Highway Association in conjunction with the American Bar Association. The two associations have prepared a complete compilation of the road laws of all the states as well as the laws relating to indebtedness, the use of convict labor and various other subjects which have a bearing upon the management of the public roads.

THE CAUSE OF EGG BREAKAGE STUDIED

Twenty-Five Eggs in Every Case Found to Suffer in Shipment.

Nearly 7 per cent of all eggs packed in crates and shipped arrive at their destination in bad order according to figures just obtained by the food research laboratory of the United States department of agriculture.

breakage was unusually heavy in any particular part of the box. It was found, however, that the breakage in the packing houses was distributed throughout the entire lot.

How to Reduce the Losses

- (1) The Package—Use only sound strong new cases. The use of old cases and old flaps is a source of trouble.
- (2) Packing the Eggs—Use more care in packing the eggs to prevent cracked shells.
- (3) Stowing—Handle the cases more carefully. Do not walk on them.
- (4) Buffing around the cases—If straw is used to cushion the cases, it must be changed frequently.

Premium Brand Shoes Satisfy Your Trade

The ultimate aim of every good storekeeper is to satisfy his trade. In fact, his very success depends upon his ability to give his customers just what they want.

This is particularly true of the seller of shoes. An ill fitting or short-lived shoe will cause more real dissatisfaction than any other one commodity.

The PREMIUM BRAND line of Shoes is the result of just such experience. We are the oldest shoe house in Georgia having been established since 1875—39 years.

The May Festival.

The annual May festival which takes place at the home of Uncle Remus is being planned this year on an elaborate scale. The program is Queen Louise Nichols, scepter-bearer, Russell Edwards, Harold Woodworth and William Hartman will carry the canopy of white roses over the queen. The crown will be made of lilacs of the valley and maiden hair fern, and will be placed on a white satin pillow and carried to the throne by William Booth. The little queen will kneel on the white satin pillow, when Miss Kathrine Vickers, last year's queen, places her crown on her brow. The large white throne will be made entirely of ivy and white lilies. When the orchestra begins, the following knights will step upon the long platform leading to the throne: Harry Whitlock, Linden Harris, Edgar Wilson, Broard Montgomery, Clifford Smith and Joe Longino. As the last knight reaches the throne, the first maid of honor steps upon the platform from beneath the lower crimson banner roses in Mrs. Lucien Harris flower garden. As she nears the throne she is met by her knight and they together salute last year's queen, who reigns upon the throne until the new queen arrives. Miss Vickers has chosen as her maid of honor Miss Margie Kurfess, whose dress will be white chiffon over pale blue satin, and Miss Vickers will wear a lace robe over pink satin. The following young girls have been chosen as the queen's maids of honor: Miss Jenkins, Anabeth Smith, Mildred Ryan, Fay Pitts, Evelyn Jordan and Jane Riley. Just in front of the queen the following dainty little flower maidens and pages will scatter roses for her path: Flower girls, Isabelle Montgomery, Annie Muse Hayes, Cynthia Ward, Kathrine Baker, Maivina Reynolds, Florence Northington, Ella McBride, Margaret Arnold, Memie Belle Hollis, pages, Earl Cox, Jr., J. O. Skinner III, Julian Kelly, Fritz Wagner, Jr., Evelyn Vinson.

Cox College Notes.

A beautiful reception marked the opening of the art exhibit at Cox college on Saturday afternoon. Assisting the director of the department, Mrs. Mamie Hollifield Montgomery, in receiving were Miss Lucile McWhorter, Miss Annie Lamar, Miss Noble, Miss Mazie Gantt, Miss Leta B. Cheek, Miss Ezelle Harvey, Miss Alice Hemperly, Miss Lilla Chesire, Miss Mozelle Eason, Mrs. Minnie Madden Ransom and the members of the china painting class. The exhibit, which will continue throughout commencement week ending May 12, is most interesting, consisting of drawings in charcoal and pen and ink and paintings from models in oils and water color. One of the features of the exhibit is the original composition work of the students and landscapes from the beautiful scenery around the college. Especially notable is an original composition by Miss McWhorter of a Mexican scene, a horse race, the distance and broadness of the landscape is very cleverly executed. Miss Noble has a composition of a woman and a child in a swing, which is full of poetic and temperamental feeling. Miss Gantt and Miss Cheek, also have some compositions which show unusual ability. The still life studies of Miss Harvey, Miss Eason and Miss Cheek are creditable. Miss Alice Hemperly is exhibiting a number of small canvas landscapes. She has vividly caught the spirit of spring, and her pictures are filled with sunshine and atmosphere. The china painting class has quite a large showing of white and gold china of conventional and realistic designs. Miss Mazie Gantt, of Andalusia, Ala., is the only young lady to receive a certificate in art, as the standard of the class is very high. A cordial invitation is extended to the friends of the college to visit the studios and see the work of the students.

A musical event of the coming week will be the certificate recital of Miss Ellen Goodrich on Monday evening. The program will be interesting, and the piano numbers will be aided by songs by Miss Cecile Jones, soprano. The recital will be followed by a reception in the college parlors.

The commencement exercises will begin on Friday evening, May 8, and will continue throughout the evening of May 12.

For Senior Class.

Miss Laura Sawtell has issued invitations to a tea Friday afternoon, May 8, at 3 o'clock at the home of her parents, Mr. and Mrs. T. R. Sawtell at Brookwood for the senior class of Washington seminary, of which Miss Sawtell is a member.

Dinner Party.

Colonel and Mrs. Frank H. Coolidge entertained a few friends at dinner Friday evening in compliment to Mr. and Mrs. R. W. Dier of Augusta, and Mrs. Holt of Chattanooga.

Mrs. Coolidge wore a gown of silver crepe de chine, the corsage of hand-embroidered chiffon over silver.

Silver Tea.

The Industrial Arts club, of Inman Park will give a silver tea at the residence of Mrs. L. B. Barr, 27 Alta avenue, Thursday, May 7, from 3 to 5 o'clock, for the benefit of the Greater Grady hospital. The public is cordially invited.

For Miss Wilkie.

Mrs. William J. Blacklock will entertain Wednesday at a luncheon at her home on Fifteenth street for Mrs. Eleanor Wilkie of Chicago who is the guest of Mrs. Blacklock's mother, Mrs. Peter Kiene. The guests will include twelve members of the older set.

Complimentary Dance.

One of the enjoyable occasions of the week was the complimentary dance given from 5 to 7 o'clock Thursday afternoon at Seguidie by Miss Mosley to the married set and the debutants.

The hall was made into a Japanese garden with vines and wisteria covering the white latticed side walls and the lights were under Japanese shades. The punch bowl was under a Japanese umbrella at one end of the room was banked with ferns and pink carnations. Miss Sarah Wagstaff and a group of other young girls served punch. An orchestra played for dancing.

Among the guests were a number of visitors who were here for the opera.

The Vesper Club Dance.

The Vesper club will entertain at a dance to be given at their clubroom in West End Friday evening, May 8. Plans are being made to make it one of the most enjoyable affairs of the coming week. All members are cordially invited to attend.

Hazlett-Davidson.

Mr. and Mrs. William H. Davidson announce the marriage of their daughter, Jewell Winifred, to Mr. George Hamilton Hazlett, on Friday evening, April 30. The ceremony was performed at the home of the bride's parents on North Boulevard. Only the immediate family were present on account of the serious illness of the bride's mother. Mr. and Mrs. Hazlett will make their home in Buford.

McAfee-Clark.

An event of interest to a wide circle of friends and relatives was the marriage of Miss Jessie Bell McAfee, daughter of Mr. and Mrs. W. H. McAfee, and Mr. Arthur F. Clark, of Boston, Mass., on Wednesday afternoon, April 29, at 3 o'clock at Park Street Methodist church. Rev. Wallace Rodgers officiating. The bride, a handsome brunette, was lovely in a coat suit of blue, carrying bride's roses. In account of a recent bereavement in the bride's family, the wedding was very quiet with no attendants, only relatives and invited friends being present. After a luncheon at the home of the bride, Mr. and Mrs. Clark left for their home in Dallas, Texas, where Mr. Clark is prominently connected.

The out-of-town guests attending the wedding were Mr. and Mrs. W. H. McAfee, of Boston, Mass.; parents of the groom; Mrs. J. B. McAfee, of Dallas, Ga.; sister of the bride, and Mr. R. L. of Dallas, Texas.

Tea and Musical.

A silver tea will be given on Tuesday afternoon, May 5, from 4 to 7 o'clock at the home of Mrs. R. H. Holt, at 7 Crescent avenue, for the benefit of the Ladies' Altar society of the Sacred Heart church. The entertainment has been arranged by the committee, of which Mrs. Holiday is chairman, and Mrs. D. Dickinson, vice chairman. Among those who will contribute to the afternoon's program will be Father Rapier, who will read St. Bonaventura's prayer for the soul of the departed. Mr. Frank What, Mrs. Edgar McKee, Mrs. Mary McAlpin, Miss Regina Corrigan, Miss Anna Hayes, Miss Florence Moran, Master William McAlpin and others.

Refreshments will be served and there will be no admission charges but free-will offering will be received. A general invitation is extended.

MOST IMPORTANT SHOWING OF NEW NEMO WEEK MODELS BEGINNING MAY 4TH

DEAR MADAM:—We have been asked many times: "What is the meaning of Nemo Week?" "What is the inducement to buy Nemos at that time, when I can buy them any day in the year?" These inquiries do not come from the hundreds of thousands of women who have benefited by Nemo Weeks of the past ten years, and who are now more enthusiastic Nemo devotees than ever.

All Nemo Corsets represent at least twice as much value, in material and making, as any other corsets sold at the same prices. This is a bold statement, but its truth is known to millions of Nemo wearers. BE A WISE WOMAN! During Nemo Week, get better acquainted with Nemo hygienic comfort and perfect style. BE SURE that you get the RIGHT MODEL in the RIGHT SIZE, and that every corset bears the trademarks NEMO and LASTIKOPS. Please remember—Monday, May 4, to Saturday, May 9—at your favorite store.

AD MEN TAKE CHARGE OF BALL PARK MAY 27

Proceeds Will Be Used to Advertise Atlanta at Toronto Convention.

Wednesday, May 27, will be a big day at the ball park. The Atlanta Ad Men's club will have full charge of the game that day. They need money with which to pull off some advertising stunts for Atlanta when they go to the annual advertising convention at Toronto, Canada, early in June...

Every loyal Atlantian is asked to attend the baseball game on Wednesday, May 27, not only for the enjoyment of the game, but in a small measure, boost the ad men for their constant boosting of Atlanta.

CERTIFIED PUBLIC ACCOUNTANTS WILL HAVE EXAMS SOON

There may be a good many more certified public accountants in Georgia after May 21. And, then again, there may not.

The state examinations take place in Atlanta May 20 and 21. An unusual number of applications have been received in plenty nearly everywhere, except in the case of accounting, this would mean that an unusual number of new members would be incorporated after the examinations were over.

Public accounting, however, is a science to which many are called but few are chosen. There are a great many public accountants, but there are very few certified public accountants. This is because of that little matter of examinations. Georgia passed a certified public accountants act in 1908, and since that time, exactly thirty-three accountants have been granted certificates. A number of them have tried to get certificates, and failed.

FORMER U. S. MARSHAL HELD AS AN EMBEZZLER

Kansas City, Mo., May 2.—A. J. Martin, former United States marshal for the western district of Missouri, was indicted by a federal grand jury here on charges of embezzlement in connection with the disposition of \$2,040 received from the sale of contraband whiskey and vinegar while he held office. Federal officials say Martin admitted depositing the money to his own account instead of to the credit of the treasury department, but that he made full restitution.

THE VICTOR--DR. WOOLLEY'S SANITARIUM.

BED ROOM.

DR. WOOLLEY'S SANITARIUM, The Victor, former United States marshal for the western district of Missouri, was indicted by a federal grand jury here on charges of embezzlement in connection with the disposition of \$2,040 received from the sale of contraband whiskey and vinegar while he held office. Federal officials say Martin admitted depositing the money to his own account instead of to the credit of the treasury department, but that he made full restitution.

all cases going out Whitehall stop. The building is equipped with electricity, hot water heat and every convenience. It is sanitary in every particular, and able to accommodate a larger number of patients than ever before. The building has none of the appearance of a hospital, but every thought has been given to make the surroundings home-like and restful, and just suited to those needing the treatment. Special attention of the medical profession is invited.

Nowhere is there an institution that enjoys so much praise and endorsement as The Victor.

The abode of the unusual large number of people who have been so successfully treated and cured at this institution is not confined to Atlanta, nor to the state of Georgia. But in every state of the union are to be found those who praise the excellent work done. Nor does the reputation and praise stop with the borders of the United States.

These commendations and praises come because hundreds of homes have been made happy because some loved one has been saved or cured of a habit more dreadful than death itself.

This reputation has not been built within a day. No, not within months or a year. Nearly forty years ago Dr. B. M. Woolley began the study of the opium and whiskey habits and their cure, and for all this time had made their treatment his specialty. This dates back to a period before the best equipped libraries contained books and topics touching on these important subjects. Dr. Woolley has continued to devote his time and study to the treatment of patients afflicted with opium, cocaine and whiskey habits.

Dr. Woolley finds a ready response to any call made on the best physicians of Atlanta when it becomes necessary to call outside assistance on account of complication of diseases, where a patient has been placed in the care of Dr. Woolley's sanitarium.

Dr. B. M. Woolley has devoted the best years of his life to this work as a specialist. He has not made it a study for a mere financial success, but that he might do a great good for suffering humanity. So marked with success have been his endeavors that he not only enjoys the confidence of the best citizens and physicians of Atlanta, the people who know him best, but thousands all over the world are singing his praises and continue daily to spread the glad tidings that many of the worst cases, those apparently lost,

can be and have been cured by Dr. Woolley.

Dr. Vasser Woolley, the son of Dr. B. M. Woolley, and who has devoted to this special practice most of his professional life, is actively associated with his father in charge of this institution.

He is a man, ripe in years, of experience and study. He has been tutored and instructed by his father, Dr. B. M. Woolley, and possesses many of the admirable traits of his sire.

The Victor is so arranged that there is a marked degree of privacy as to who the patients are in the institution, so far as the general public is concerned.

So private are the arrangements that it is possible for persons to remain there for treatment while their friends and acquaintances remain in total ignorance of their whereabouts.

Dr. Woolley will treat successfully cases at the home of the patient when such treatment is preferred, or when a visit to the Victor is impractical. Dr. Woolley's book on the Opium and Whiskey Habits, and their cure will be sent to anyone free who will write and mention this article.

The best endorsement of any institution is what is said by those who have been cured and by those who are vitally interested in the happiness of others. Then, if this is to be considered an evidence, the truth of the wonderful treatment and success of The Victor, Dr. Woolley's sanitarium is well established and thoroughly proven. Testimonials from grateful patients who have been rescued from worse than death by the treatment by Dr. Woolley have accumulated until they number into the thousands.

LETTERS FROM A FEW WHO HAVE BEEN CURED

CURED IN 1892 OF WHISKEY HABIT. HAS WRITTEN ANNUAL LETTER EVER SINCE FOR TWENTY YEARS.
(Signed) MRS. B. D. WILSON.
CLAYTON, OKLAHOMA.

Clayton, Okla., March 26, 1914.

My Dear Old Doctor:
I thank God that I have been spared to live to see another 24th day of March come, so I can write you that I am still a sobber man. For this is 22 years since I began your treatment that cured me of that awful habit of drinking whiskey.

May you still live and be the means of curing some more poor unfortunate man that has fallen in the bad habit of drinking whiskey.

My wife joins in with me, sending you our best regards. We both would be so glad to meet you in this world, but if we should never meet in this world, we do hope we will all meet in that place that is prepared for the people of God. We hope we will get a letter from you soon.

As ever, your well wisher,
B. D. WILSON.

A TOTAL WRECK FROM MORPHINE. HAVE BEEN FULLY RESTORED TO HEALTH AND FREED FROM MORPHINE.
(Signed) MRS. A. S. DENHAM.
COLUMBUS, GA.

1533 Dudley St., Columbus, Ga., Jan. 1, 1912.
Dr. B. M. Woolley, Co., Atlanta, Ga.

Gentlemen:
Your treatment for morphine habit has cured me. I was total wreck. I was being four grains per day (with needles). It had affected my mind and I was a walking skeleton. Now my mind is clear and as bright as ever and my health is greatly improved. I have gained twenty-five pounds in flesh and feel all right. I have never taken another dose of morphine since I began your treatment. I have a piece of the medicine left of which I haven't taken a dose in two months and have no desire for it in the least. It only took five bottles to cure me, a cost of \$50, including all charges, and it has been worth its weight in gold to me. I can't say enough for Dr. B. M. Woolley and his great treatment.

Very truly,
MRS. A. S. DENHAM.

P. S.--You can use this as a testimonial if you like.

AFTER BEING TREATED BY YOU I HAVE NOT THE LEAST DESIRE FOR NARCOTICS, WHICH I HAD FOR SEVENTEEN YEARS HELD ME IN ITS STEADY GRASP.
MRS. C. P. HILL.
LINCOLTON, N. C., Jan. 18, 1911.

Lincolnton, N. C., July 6, 1912.
Dr. B. M. Woolley, Atlanta, Ga.

My Dear Doctor:
Your favor of the 3d inst. to hand in reply, begs to say I am enjoying the best of health. Since taking your treatment I have had no symptoms of the return of thirst for narcotics. I have answered one inquiry from a stock farm in Virginia (don't remember the name), and will take pleasure in answering anyone who will send a self-addressed envelope with stamp.

You are at liberty to use my testimonial in any way you choose. I give you this liberty in hope that it may be the means of relief to some one who is suffering as I was before taking your treatment. I shall ever praise Dr. B. M. Woolley's medicine.

Yours very truly,
MRS. C. P. HILL.

YOUR TREATMENT HAS COMPLETELY CURED ME OF THE MORPHINE HABIT. I HAVE HAD NO DESIRE AT ALL FOR MORPHINE OR ANYTHING OF THAT NATURE.
LURAY, TENN., Dec. 6, 1909.

Luray, Tenn., July 5, 1912.
Dr. B. M. Woolley, Atlanta, Ga.

My Dear Doctor:
Yours of the 3d at hand, I am certainly very glad to hear from you and feel very proud to inform you of my cure, and that it was permanent, and I have had no desire whatever for opiates of any kind, since taking your treatment. I must again thank you, and will always feel grateful to you for getting my life out of misery and woe, and making it worth living.

Only a short while ago I had the pleasure of recommending you to a lady who wrote me about you. You are at liberty at any time to use my name in any way you wish, for I know from experience that your treatment is even more than you claim. I believe you are now doing more good to aid suffering humanity than any living man.

Please send me one of your new books when published, wishing for you many years of health, so you may be able to continue your noble work. I am,
Yours truly,
W. B. CROOK.

I WAS REAL BAD, BUT ENTIRELY WELL NOW. NO NEED FOR "DOPE."
(Signed) P. B. PATE, D. D. S.
GIBSON, N. C.

Gibson, N. C., Jan. 12, 1912.
Dr. B. M. Woolley, Atlanta, Ga.

Dear Doctor:
I should have reported to you long ago, but neglected to attend to it. The last dose of your treatment was taken about thirteen months ago. There was over a whole bottle full left which I did not need, and it was poured out. I have been in tolerable good health since and have had no need for the old dope since. I was real bad, but am entirely well now. You dealt entirely fair and honest with me, and did me a very great benefit. Should I meet with anyone requiring your treatment I will try to prevail on him to apply to you.

Wishing you a long life of continued usefulness, I beg to remain,
Your friend,
P. B. PATE, D. D. S.

I AM A FREE WOMAN FROM THE MORPHINE HABIT.
MRS. JAMES LANGLEY.
THOMPSON STATION, TENN.

Thompson Station, Tenn., March 5, 1912.
Dr. B. M. Woolley, Atlanta, Ga.

Dear Sir:
It is with pleasure that I write to you to let you know that I am a free woman from the morphine habit, and I thank you for it. I can't thank you enough for what you have done for me. I have no desire for morphine since taking your treatment the first of last August.

May God bless you and may you live a long and happy life, and save all you can from the morphine habit. You are at liberty to publish this if you like. Maybe it will help someone.

Yours truly,
MRS. JAMES LANGLEY.

Many Needs of Grady Hospital Clearly Shown in This Summary

Here is a summary of the situation at Grady hospital. If you are not acquainted with it, this summary will tell you exactly what Grady needs, and why. On May 3—day after tomorrow—the Greater Grady bond issue will be decided. Your vote may say whether Atlanta is to have a new and modern hospital, or whether it is to go on with an inadequate, worn-out institution.

Louisville, Ky., with a population of 230,000, has a modern, million-dollar hospital for 450 patients; Augusta, Ga., with 45,000 people, has a hospital with a capacity of 276 patients; Worcester, Mass., with a population of 185,000, accommodations for 360 patients; St. Paul, Minn., with a population of 225,000, accommodations for 400.

Atlanta, with a population of more than 200,000, has a hospital which accommodates only 186 patients—and accommodates them badly. In this respect, Atlanta is miles behind every other city of its size in the country.

This is because, once Grady hospital was started in 1892, the city has added to it only one building. While other Atlanta hospitals have been steadily improving their hospitals, Atlanta has remained inactive.

Here is what Grady hospital needs, and why:

TO SAVE EYES

Is the Object of This Free Prescription—Try It if Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles, because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes because the trouble is not sufficient to drive them to an eye specialist, who would, any way, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and oftentimes get glasses that they do not need, or which, after being used for a few months, do their eyes more injury than good. Here is a simple prescription that every one should use:

5 grains Optina. (1 Tablet)
2 ounce Water

Use three or four times a day to bathe the eyes. This prescription keeps the eye clean and quickly overcomes inflammation and irritation. Weak, watery, work-strained eyes, granular lids and other similar troubles are greatly benefited and oftentimes cured by its use. Many who wear glasses have discarded them after using it for a few weeks. It is good for the eyes, and will not injure the most sensitive eyes of an infant or the aged. Any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.—(Adv.)

More Room.

Its normal capacity is 186 patients. About 230 are now crowded within it. From 10 to 20 sick people are turned away every day. Grady needs more room for general patients, white and black. This will cost \$200,000.

New Clinic and Emergency Facilities.

All emergency cases and all visiting patients are now treated in the same outdoor clinic. Whites and blacks both go to this clinic. If you were hurt on the street in the next hour, you would go to it. Grady needs new and separate clinics for whites and blacks. Those will cost \$125,000.

Contagious and Isolation Wards.

The present contagious ward for whites is an old, overcrowded, single room. It has no provision whatever for measles, meningitis, whooping cough, erysipelas, venereal diseases, and the like. The present contagious ward for a colored population of 60,000 is a four-room shack. Grady hospital needs modern and adequate contagious wards for white and black, with separate housing for different diseases. Cost, \$125,000.

Wards for Children and Women.

The present ward for white women in confinement is a dark, unlighted, ramshackle room in the oldest part of the hospital. There are no accommodations whatever for negro children nor for negro women in confinement. The cost for modern adequate wards for both races will be \$100,000.

Better Quarters for Its Nurses.

Grady nurses are now sleeping in linen closets and small, close, unlighted rooms. A modern dormitory accommodating more than 100 nurses will cost \$50,000.

Adequate Mechanical Facilities.

Such as laundries, kitchens, boiler rooms, refrigerating plant, etc. Cost, \$50,000.

Pay Wards.

These wards will pay the interest and principal on Grady bonds. Cost, \$100,000.

Purchase of land and inclosure of blocks, \$25,000.

Other cities have these things. They are necessary. Sooner or later, Atlanta must have them.

IMPORTANT WORK FACES COTTON CONFERENCES

Delegates From Many Cities Gather in Augusta Monday.

Augusta, Ga., May 2.—(Special)—The National Cotton conference will be called to order in the Grand opera house Monday morning by President Frank H. Barrett, of the Augusta cotton exchange, which issued the call. The names of the delegates who will attend have not yet all been made known, but representatives will be present from the New York, Meridian, Macon, New Orleans, St. Louis, Vicksburg, Shreveport, Mobile, Norfolk, Portsmouth, Savannah, Charleston, Tuscaloosa, Selma, Dallas and Montgomery cotton exchanges, Atlanta, Columbia, Vicksburg and Greenville Chamber of Commerce, American Cotton Buyers' association, Southeastern Cotton Buyers' association, Texas Cotton association and the Cotton Manufacturers' Association of South Carolina.

Monday's day sessions will be devoted to business and at night a speaker has been arranged for by the Commercial club rooms Tuesday will be devoted to business and adjournment will be had with the afternoon session.

Wednesday morning the organization of the National Association of Cotton Exchanges will be perfected at the opera house, and in the afternoon a barbecue will be given the delegates of both bodies at Garfield club.

The meetings are expected to result in improved conditions of the cotton business in all parts of the country.

MANY CANDIDATES IN WARE CONFERENCE

Waycross, Ga., May 2.—(Special)—According to the official announcement of Secretary Harry M. Wilson, of the county executive committee, forty-one candidates qualified up to today for the county primary, which will be held May 30.

The race for representative was enlivened by the entry at one last moment of six candidates, making seven in all these are: Calvin W. Parker, Otto Giddens, Alice James, Leonard Hickox, Farley A. Morton, L. J. Cooper, J. Lee Crawley, O. M. Williams, for Hickox and J. B. Thorpe, for treasurer, withdrew.

Gainesville Home Burns.

Gainesville, Ga., May 2.—(Special)—The residence of Baxter Patterson, of this city, was destroyed by fire last night about 12 o'clock. The damage is estimated at about \$100. In addition to the burning of the Patterson residence, an adjoining house that is used as a tenement house, suffered considerable damage. Both houses were partially covered by insurance.

THANKS RAILROADS FOR IMPROVEMENTS FOR COLORED FOLKS

The president of the State Federation of Colored Women's Clubs, Alice Duggard Cary, asks publication of the following:

"A few months ago you published a petition sent by our state federation to the railroad commission of Georgia asking for better accommodations. We received replies from several roads, and the majority were willing to make the improvements suggested.

"I am glad to say the Central has put on a whole steel car for colored passengers. We enjoyed such a coach this week-end, and in this respect, thinking that road and any other that has this wonderful change.

"It is furnished with electric fans, electric lights, window screens, clean, polite porter, stool at the steps, two lavatories, and a wash stand. A newsbutcher occupying the double seat.

"Trains Nos. 1 and 19 carry these cars. They are known to anyone who has used them. Respectfully,

"President Alice Duggard Cary, Federation Colored Women's Clubs."

FIFTH WARD CLUB WILL HOLD MEETING FRIDAY

GENERAL EVANS HERE, WILL NOT TALK WAR

Commander of Eastern Division, in Atlanta, Won't Discuss Mexican Situation.

Brigadier General Robert K. Evans, commanding the eastern division, reached Atlanta yesterday. General Evans spent a busy day at his home on Peachtree street. All he would say to reporters was that he was glad to get back home again.

General Evans courteously declined to talk war, and no amount of begging or coaxing could bring forth one syllable on that subject. Nor would he talk of the army maneuvers, or of doings in Washington.

According to press dispatches from Washington, General Evans is here to look after the eastern division militia, which will be included in the first army corps located in the southern states.

General Evans is enjoying splendid health.

DR. RIDLEY RETURNS; SERVICES ANNOUNCED

Dr. Caleb A. Ridley, pastor of the Central Baptist church, who has been in North Carolina the first part of the week, returned Friday noon and will preach at both the morning and evening hours. The subject of the morning hour will be "Jesus the Good Shepherd." Subject for the evening hour is "And He Said Tomorrow."

POLICEMAN SEES WIFE SEND BULLET THROUGH HEART

Savannah, Ga., May 2.—(Special)—Mrs. Hallie Brant, wife of Patrolman R. G. Brant, committed suicide this afternoon by shooting herself through the heart with a pistol. She was in her bedroom at the time and it is understood her husband was with her. She died a few minutes after firing the shot.

It is reported that she had been threatening to end her life for some time. From the preliminary inquest made by the coroner, Mrs. Brant was despondent because of her continued poor health.

The muzzle of the .38-caliber revolver was pressed to her left breast, the bullet passing through her heart.

Mrs. Brant was about 35 years of age. She leaves no children.

Good Roads for Telephone Talk

THE good roads movement has not been confined to the highways. The Bell Telephone system has covered the country with "good roads" for telephone talk, reaching every nook and corner.

There are more than 12,000,000 miles of these "good roads" in the Bell system. Some of them are strung in single pairs or in aerial cables from pole to pole; others are hidden away in underground conduits; they reach the heart of each industrial and commercial center of the nation and to the most remote habitations.

These "good telephone roads" of the Bell system, all operated by one system, under one policy, forming one continuous system of intercommunication, connect more than 7,500,000 telephones for universal service.

What The Grand Jury Says About Sheriff Mangum's Stewardship

His Administration of the Jail Is Vigorously Condemned

The following is a verbatim copy of the Grand Jury's report, filed with the Court May 1st, 1914:

"COUNTY JAIL"

"The Grand Jury, in a body, visited the County Jail, and made a thorough inspection. We found the building in an insanitary condition.

"The cells and corridors are dirty and some of them are littered with paper, empty bottles, cans and scraps of food. We recommend immediate and frequent applications of scrub brush and such other utensils and materials as are necessary to make and keep the Jail clean. * * *

"We noticed in the laundry room a quantity of excelsior, probably twenty-five or more bales. This large supply of inflammable material constitutes a serious fire hazard and exposes the prisoners to grave danger from suffocation in the event of a fire. We recommend that this excelsior be stored elsewhere."

Grady Bonds Given Boost At a Rally in the Fourth; Small Boy Saves Meeting

MAYOR PLEADS FOR GRADY
To the People of Atlanta:

The Grady bonds should, and I hope will, be voted by the people on the 5th instant.

The city finances are now in good shape. I therefore feel that the people of Atlanta can well afford to vote for the issuance of the bonds.

Furthermore, the bonds will not become a burden upon the people of Atlanta, but will be taken care of by the pay wards of the hospital.

The present Grady hospital is antiquated.

It is not more than half large enough to take care of the demands made upon it.

A great many patients have to be discharged from the hospital when really they should remain in bed.

The \$750,000 worth of bonds will not only double the present capacity of the hospital, but will provide contagious wards for both races, and provide a much-needed dormitory for the nurses. It is little less than a disgrace that we should demand service from these noble ladies who go there to become professional nurses, and yet not provide comfortable quarters for them.

It appears to me that to provide facilities for the sick and distressed should be a common ground upon which all can get together.

I hope that the people of Atlanta will not allow the "distracting noises" of Grand Opera and the Sinner's to make them forget or neglect to go to the polls on the 5th of this month and cast their ballots for the Grady bonds.

Respectfully,
J. G. WOODWARD.

Despite the most formidable difficulties, the campaign committee of the fourth ward managed to hold at the North avenue school last night one of the most enthusiastic meetings in favor of the Greater Grady bonds which has yet taken place.

Mayor Woodward made a speech for the bonds, which covered the subject from beginning to end. The mayor said that Grady hospital, except for one addition, was exactly the same structure it was when the contractors finished it twenty-three years ago. He laid particular stress on the fact that the money for the bonds will not come out of the city treasury, but will be paid from the income of the pay ward which is to be erected as part of the new hospital. He also pointed out that this pay ward was as essential a part of any city hospital as the charity wards.

Looked Like Conspiracy.
The difficulties which confronted the campaign committee when, at 8 o'clock it arrived at the school, presided by a brass band and about three hundred enthusiastic voters, would have discouraged a less determined man. It has been repeatedly asserted that there is no deep active opposition to the bonds. To the best of everyone's knowledge and belief this is true. Last night, however, it appeared that some terrible opposition had suddenly arisen, and that it was asserting itself by a profound conspiracy.

The North avenue school was to have been brightly lit and open. Instead it was dark and closed—tight. The janitor was nowhere in sight. Of course, the whole matter was planned at once—the opposition had kidnaped him.

The brass band played defiantly, while L. D. Hicks, secretary of the ward committee, and various others went in search of the missing one. But he was not to be found. The committee was given an address on Hunt street, but they found only a vacant lot at the number. Evidently the janitor's house had been kidnaped also. The committee returned to the school, and banged awhile on the door, but it was thick and well locked. The brass band continued to play inspiring

every citizen who had either voted against the bonds or had failed to vote in either way, could feel that he was directly responsible. In the hands of Atlanta's citizens, and in them alone, lies the safety of the sick and injured in her care."

Tells of Condition.
Dr. W. B. Summerall, superintendent of the hospital, went into a more detailed statement of conditions at the hospital, comparing them with conditions in hospitals of other cities of Atlanta's size.

"Grady hospital," said Dr. Summerall, "does not need to be improved. It needs to be rebuilt. You can't improve a worn-out engine or bridge; you have to tear it down and rebuild it. That is what should be done with Grady hospital, with the exception of the addition made in 1910. The addition requires no improvement. It is a first-class, modern hospital building, fully equipped and without it, many persons, especially in need of medical and hospital attention, would be turned away from our doors every day.

"The normal capacity of the hospital at the present time is 100 white adults, 66 negro adults and 20 white children, a total of 186. The hospital now has from 210 to 218 patients every day, which is 24 patients more than its capacity permits. These patients have to sleep in hallways and on porches. The hallways are dark and crowded and the patients have to be moved inside. Emergency cases have to be treated in the outdoor clinic. When a man with a broken leg or a fractured skull is brought in by the ambulance, it is quite often found that some one has to escape through the operating table before the new arrival can be treated. After he has received attention, some

TWO SIMILAR QUESTIONS

Huerta, for Failure to Salute American Flag, Is Rebuked by a Rain of American Bullets.

A few weeks ago the Mexican government, through their president, offered an insult to the United States by failing to salute the Stars and Stripes.

Our president, realizing the outrageous insult, ordered to the front our American men-of-war, equipped by young men who had sworn allegiance to the Stars and Stripes. They did not hesitate to fire bullets into the men who represent the Mexican government.

On the other hand, we have another case in Fulton county, in the person of A. P. Stewart, Tax Collector, who failed to salute the flag of Democracy, and was elected at the regular election. But after being sworn in, he says: "I have obeyed the people by accepting the office of Tax Collector by a majority of votes, but when it comes to dictating to me as to what I will do in reference to the fee system, I am turned back upon 85 per cent of the people, also the fifteen grand jurors who recommended the salary system, the three sets of county commissioners, both the House and the Senate."

Then after Judge Ponderton had declared upon a reasonable doubt that the salary system act was unconstitutional, Mr. Stewart appealed the case to the supreme court, thereby following up the same principles as he did with reference to the people.

The best way to punish Huerta for failing to salute the Stars and Stripes is to shoot bullets toward the enemy

CHARLES I. BRANÁN
Candidate For Tax Collector

But the only way we can rebuke Mr. Stewart is, on May 5, to use ballots as bullets VOTE AGAINST HIM, because for the reason he failed to salute the Democratic flag of Democracy.

Once in a while I hear somebody say "I am inclined to vote for Mr. Stewart because he has been so clever to me."

Well, I will be as clever under the salary system law, which is now pending in the legislature, as he can be under the "Fee System" law. But I prefer to make a more forceful illustration than that I beg to call to the attention of the free men of Fulton county to the fact that the hands of our young men of the forehead, in the sixties, kissing their mother, their best friend, goodbye, going into a battle of bullets for principle.

A. P. Stewart, for Failure to Salute Flag of Democracy, Should Be Rebuked by Fulton Ballots.

It might be true that Mr. Stewart has been clever to them. But when a principle is at stake, like it is in this campaign, that is, Mr. Stewart failed to SALUTE THE DEMOCRATIC FLAG, and offered an insult to the 85 per cent of the people who stand as the voice of the people and not one-man rule. I congratulate the manhood of our citizens who are coming out boldly and saying I have no personal hard feeling toward Mr. Stewart, but my political integrity will not permit me to cast my vote for him, and May 6th is going to see the people gain one of the greatest victories on record in Fulton.

I myself have no personal feeling toward Mr. Stewart. It is a public question as to whether the people shall rule, or him. If I receive the nomination on May 5th, the echo will sound in every county in the state that Fulton county not only stands for democracy, but for principles rather than for any one man.

In conclusion, I challenge any man to bring forth an incident like Mr. Stewart has brought in Fulton county by his defining and fighting the people through the courts after he had grown rich on the fee system out of the pockets of the people, thereby showing his ingratitude to the people who have made him wealthy.

Is it possible for a man to vote for A. P. Stewart who know the facts?

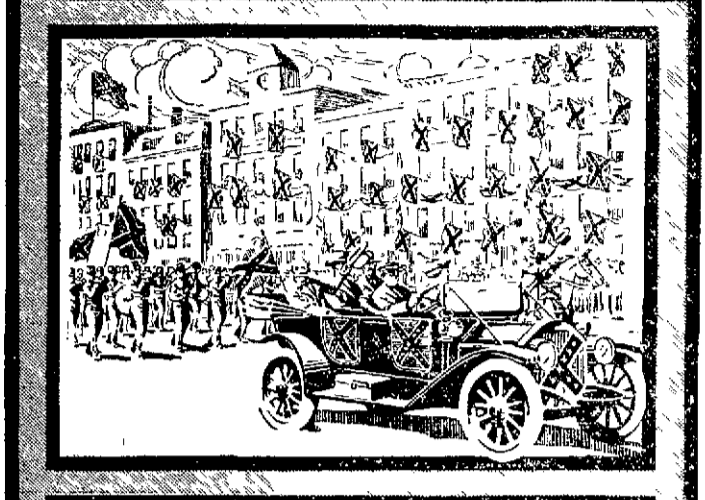

FARM MONEY MEASURE BLOCKED BY M'CUMBER

Washington, May 3.—Passage of the agricultural appropriation bill was blocked in the senate today by an effort of Senator McCumbar to get another consideration of grain inspection legislation. He kept the senate on the amendment to increase the salary of Assistant Secretary of Agriculture Galloway, urging that senators should not vote on the increase until they voted against Dr. Galloway's bill relating to grain inspection.

Senator McCumbar has fought the Galloway bill for weeks to get passed his own bill which failed yesterday. Today he announced he would be content with the Galloway bill's provisions for the standardization and making of uniform grades of grain by the government.

The bill was laid aside to allow Senator Gore in charge of the agricultural bill, and Mr. McCumbar to compose their differences.

Senator McCumbar was so much aggrieved by the defeat of his grain inspection measure that he notified the senate he intended to "educate" the senators as a kindergarten on the

WHICH METHOD DO YOU PREFER, MR. TAXPAYER?

This is a picture of the way Fulton county moves dirt. Recently I had an excavating contract side by side with a piece of work the county was doing. The county's work and my work were exactly the same—excavating dirt and hauling it away. The county had 28 convicts at work with the pick and shovel. Figuring their food, clothes and housing at 37½ cents per day per man—which is a very low estimate—they cost \$10.50 per day. Figure two guards and a foreman at a combined cost of \$5.00 per day. Figure \$4.00 per day to cover the cost of powder used in blasting to loosen the dirt. This makes a total cost of \$19.50 per day to put the dirt on the wagons. There were eight wagons on the job, and one of them was idle all the time because of wasted time in loading. Now read, on the other side of this page, what it cost me, as a private contractor, to put dirt on my wagons with my steam shovel.

To the Voters of Fulton County

I am a candidate for County Commissioner.
**ECONOMY,
EFFICIENCY,
HUMANE TREATMENT,
MODERN METHODS—**

These are the main planks in my platform.

Some of my opponents and their friends have circulated rumors that if elected I will vote for certain men for superintendent of the public works department of the county.

I take this occasion to say I will never vote for Mr. Shelby Smith for this position. With due respect to Mr. Smith, he is not an expert in road building, and I would no more, as a county commissioner, vote for a non-expert man for this position than I would, as an individual, engage a non-expert to give me medical attention.

In fairness to the voters, and with due respect to Captain T. J. Donaldson, I say that I will never vote for him for this position either. My reason is that Captain Donaldson permitted conditions to exist in the convict camps of Fulton county that were very wrong. Further, Captain Donaldson is not abreast of the times in the matter of modern machinery, his attitude being outspoken and well known.

I pledge the people, if I am elected, to turn the light of publicity on county affairs; to stop waste and increase efficiency; and to see that the convicts are treated like human beings.

Respectfully,
J. W. MADDOX

This is a picture of the way I move dirt. My steam shovel costs me \$2.00 per day for fuel and oil. Interest and depreciation on the shovel amount to \$1.20 per day. My engineer and fireman together cost me \$6.80 per day, and they are all the men I need to keep the work going. This makes my total operating cost \$10.50 per day. But I had nine wagons on my job, against the county's eight, and not a single one of my teams lost a step because of time wasted in loading, which makes it a comparison of nine wagons against seven. Thus, reducing the cost of my operation to cover the difference between the dirt I put on my wagons and the dirt the county put on its wagons, I figure my cost down to \$8.00 per day. My cost \$8.00, the county's cost \$19.50. I say, Mr. Taxpayer, the county public works department ought to use steam shovels and put the convicts to laying pavement instead of shoveling dirt. Don't you agree with me?

on Grady hospital. The city not only got its money's worth on that, but more than its money's worth. I have the greatest confidence that the present issue of \$750,000 will be expended in a manner which will be equally beyond criticism. If the public supports the issue at the polls on May 5.
An Impossible Task.
"There has been a great deal of complaint against the Grady hospital for not being able to give accommodations to those who need it. It is not possible to put 400 patients in 200 beds. That is just what Dr. Summerall, the superintendent, has been trying to do. Grady hospital should be twice as large as it is to equal the present demands of Atlanta's population. My entire attitude during my present administration of affairs from the mayor's office has been one of strictest economy. On this matter, however, I am absolutely certain that the revenue derived from the pay wards of the proposed greater Grady hospital will both pay the interest on the bonds and will meet the principal when due."
The mayor also laid considerable stress on one aspect of the present Grady which has not been greatly emphasized during the campaign, because there were so many other things which were just as bad or worse. He put it, in such a manner that it brought home the personal responsibility of the voter for any disaster which may result from Atlanta's indifference to the care of the city's sick and injured.
"Grady hospital," he said, "is a fire trap. The kitchen and boiler room are located in such a way that an explosion in either would result in the loss of hundreds of lives among the patients housed in the adjoining wards, unable to help themselves, and, in all probability, cut off from assistance by the rapid spread of the flames. The hospital would stand a chance of escaping would be the convalescents, in case of a catastrophe of this kind,

every citizen who had either voted against the bonds or had failed to vote in either way, could feel that he was directly responsible. In the hands of Atlanta's citizens, and in them alone, lies the safety of the sick and injured in her care."

Dr. W. B. Summerall, superintendent of the hospital, went into a more detailed statement of conditions at the hospital, comparing them with conditions in hospitals of other cities of Atlanta's size.
"Grady hospital," said Dr. Summerall, "does not need to be improved. It needs to be rebuilt. You can't improve a worn-out engine or bridge; you have to tear it down and rebuild it. That is what should be done with Grady hospital, with the exception of the addition made in 1910. The addition requires no improvement. It is a first-class, modern hospital building, fully equipped and without it, many persons, especially in need of medical and hospital attention, would be turned away from our doors every day."
"The normal capacity of the hospital at the present time is 100 white adults, 66 negro adults and 20 white children, a total of 186. The hospital now has from 210 to 218 patients every day, which is 24 patients more than its capacity permits. These patients have to sleep in hallways and on porches. The hallways are dark and crowded. The patients have to be moved inside, a dangerous and painful process."
"But this isn't the worst of it. We cannot take good care of the 200-odd patients who can crowd inside our doors. Our nurses have to sleep in unventilated rooms. Some of them even sleep in closed doors. Emergency cases have to be treated in the outdoor clinic. When a man with a broken leg or a fractured skull is brought in by the ambulance, it is quite often that some one has to go outside to attend to the patient before the new arrival can be treated. After he has received attention, some

one who ought to be in the hospital for another two weeks or so may possibly have to be sent home before the new patient can be given a bed.
Candidates Battle for Years.
"All this is nothing new. Some of these conditions have existed for years. Such conditions often do exist for years, until they become too aggravated for endurance. That is the state of Grady. The population of Atlanta has grown so fast that the sick are being turned into the streets. Grady cannot hold them. Five years ago we treated 1,906 bed patients each year. Last year the total number of patients was 23,349 in 1908. The ambulance answered 1,850 calls; last year it answered 4,213. The work of the hospital has doubled or tripled, while its capacity, except for the addition, with room for less than 100 patients, remains unchanged."
Councilman Claude L. Ashley, who took the platform next, said that in the matter of capital Atlanta had shirked its responsibilities.
"It is now compelled to do something about it," he said, "and that something will cost \$750,000. But with one exception, it will be the first money Atlanta has ever put in this cause."
Councilman Frank S. Galloway called attention to the necessity that everyone in favor of the bonds vote for them.
"The only way to save the vote for the bonds," said Mr. Doherty, "will be voted against them. It requires two-thirds of the total registered vote to carry a bond issue in Atlanta. The bond boxes will be placed as close as possible to the polls for the county election. It is the duty of every voter to find the bond boxes and vote for a Greater Grady hospital."
The world is growing better. The stock of male sopranos isn't nearly as large as it used to be.
Vote for W. F. Wesley, the salary system candidate for tax receiver.

FARM MONEY MEASURE BLOCKED BY M'CUMBER
Washington, May 2.—Passage of the agricultural appropriation bill was blocked in the senate today by an effort of Senator McCumber to get another consideration of grain inspection legislation. He kept the senate on the amendment to increase the salary of Assistant Secretary of Agriculture Galloway, urging that senators should not vote on the increase until they voted against Dr. Galloway's bill relating to grain inspection.
Senator McCumber has fought the Galloway bill for weeks to get passed his own bill which failed yesterday. Today he announced he would be content with the Galloway bill's provisions for the standardization and making of uniform grades of grain by the government.
The bill was laid aside to allow Senator Gore in charge of the agricultural bill, and Mr. McCumber to compose their differences.
Senator McCumber was so much aggrieved by the defeat of his grain inspection measure that he notified the senate he intended to "educate" the senators as a kindergarten on the

need for the legislation and that he would offer his bill as an amendment to the bill.
"I do not use the point of a quorum every three minutes. If necessary to get a hearing on my bill," said Senator McCumber.
As the agricultural bill was taken up, senators refused to touch it, only to be called back with a Senator McCumber demand for a roll call.
BANKS ARE TAKING U. S. RESERVE STOCK
Washington, May 2.—Advises to the treasury department today indicate that banks are taking U. S. reserve stock in place of the 12 per cent gold certificates which they are required to hold.

A vote for W. F. Wesley is a vote for the salary system, which means lower taxation.

TWO SIMILAR QUESTIONS

Huerta, for Failure to Salute American Flag, Is Rebuked by a Rain of American Bullets.

A few weeks ago the Mexican government, through their president, offered an insult to the United States by failing to salute the Stars and Stripes.
Our president, realizing the outrageous insult, ordered to our front our young men-of-war, equipped by young men who had sworn allegiance to the Stars and Stripes. They did not hesitate to fire bullets into the men who represent the Huerta government who represent the Huerta government in Fulton county, in the person of A. P. Stewart, Tax Collector, who failed to salute the flag of Democracy, and was elected at the regular election. But after being sworn in, he says: "I have obeyed the people by accepting the office of Tax Collector by a majority of votes, but when it comes to dictating to me as to what I will do in reference to the fee system," he turned his back upon 85 per cent of the people, also the fifteen grand juries who recommended the salary system, the three sets of county commissioners, both the House and the Senate.
Then after Judge Ponderton had declared upon a reasonable doubt that the salary system act was constitutional, Mr. Stewart appealed the case to the supreme court, thereby following up the same principles as he did with reference to the people.
The best way to punish Huerta for failing to salute the Stars and Stripes is to shoot bullets toward the enemy

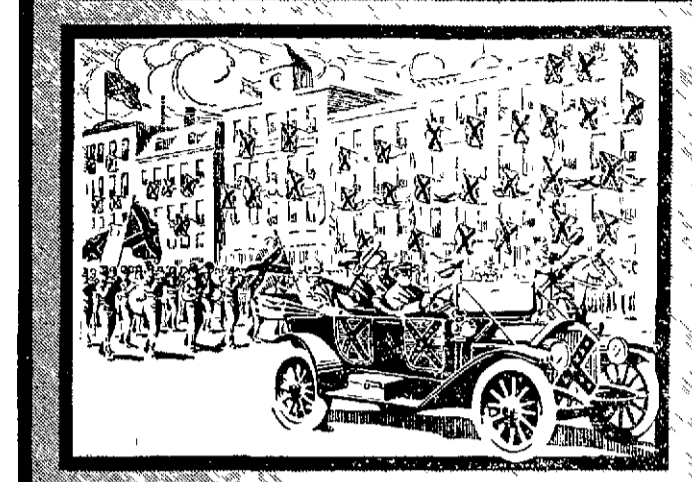

CHARLES I. BRANAM

CHARLES I. BRANAM
Candidate For Tax Collector

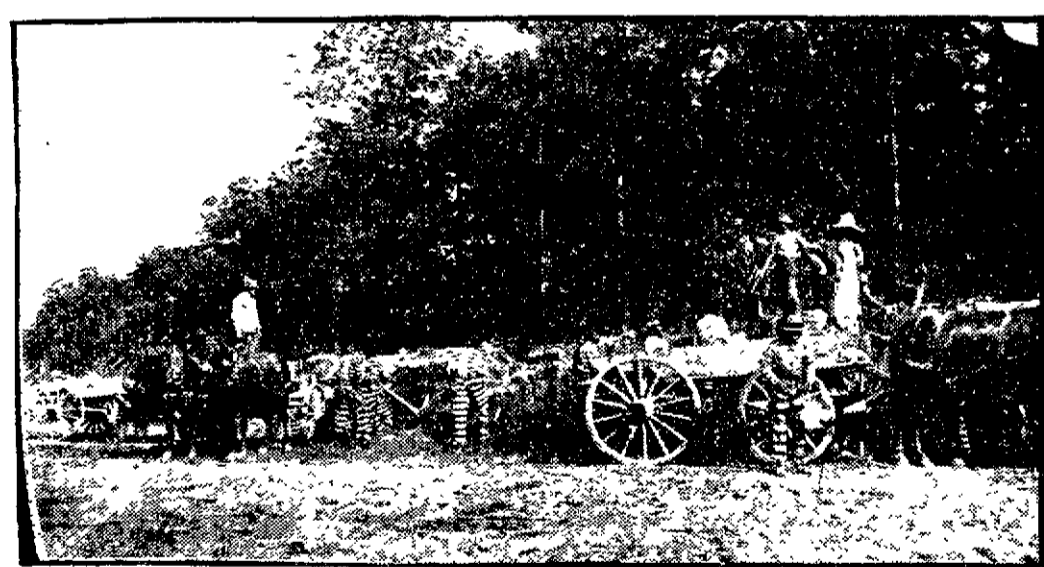

A. P. Stewart, for Failure to Salute Flag of Democracy, Should Be Rebuked by Fulton Ballots.

It might be true that Mr. Stewart has been clever to them. But when a principle is at stake, like it is in this campaign, that is, Mr. Stewart failed to SALUTE THE DEMOCRATIC FLAG, and offered an insult to the 85 per cent of the people who stand as the voice of the people and not men-man rule, I congratulate the manhood of our citizens who are coming out boldly and saving. I have no personal hard feeling toward Mr. Stewart, but my political integrity will not permit me to cast my vote for him, and May 6th is going to see the people gain one of the greatest victories on record in Fulton.
I myself have no personal feeling toward Mr. Stewart. It is a public question as to whether the people shall rule, or him. If I receive the nomination on May 5th, the echo will sound in every county in the state that Fulton county not only stands for democracy, but for principles rather than for any one man.
In conclusion, I challenge any man to bring forth an incident like Mr. Stewart has brought in Fulton county by his defiance and fighting the people through the courts after he had grown rich on the fee system out of the pockets of the people, thereby showing his ingratitude to the people who have made him wealthy.
Is it possible for a man to vote for A. P. Stewart who know the facts?

WHICH METHOD DO YOU PREFER, MR. TAXPAYER?

This is a picture of the way Fulton county moves dirt. Recently I had an excavating contract side by side with a piece of work the county was doing. The county's work and my work were exactly the same—excavating dirt and hauling it away. The county had 28 convicts at work with the pick and shovel. Figuring their food, clothes and housing at 37½ cents per day per man—which is a very low estimate—they cost \$10.50 per day. Figure two guards and a foreman at a combined cost of \$5.00 per day. Figure \$4.00 per day to cover the cost of powder used in blasting to loosen the dirt. This makes a total cost of \$19.50 per day to put the dirt on the wagons. There were eight wagons on the job, and one of them was idle all the time because of wasted time in loading. Now read, on the other side of this page, what it cost me, as a private contractor, to put dirt on my wagons with my steam shovel.

To the Voters of Fulton County

I am a candidate for County Commissioner.
ECONOMY, EFFICIENCY, HUMANE TREATMENT, MODERN METHODS—
These are the main planks in my platform.
Some of my opponents and their friends have circulated rumors that if elected I will vote for certain men for superintendent of the public works department of the county.
I take this occasion to say I will never vote for Mr. Shelby Smith for this position. With due respect to Mr. Smith, he is not an expert in road building, and I would no more, as a county commissioner, vote for a non-expert man for this position than I would, as an individual, engage a non-expert to give me medical attention.
In fairness to the voters, and with due respect to Captain T. J. Donaldson, I say that I will never vote for him for this position either. My reason is that Captain Donaldson permitted conditions to exist in the convict camps of Fulton county that were very wrong. Further, Captain Donaldson is not abreast of the times in the matter of modern machinery, his attitude being outspoken and well known.
I pledge the people, if I am elected, to turn the light of publicity on county affairs; to stop waste and increase efficiency; and to see that the convicts are treated like human beings.
Respectfully,
J. W. MADDOX

This is a picture of the way I move dirt. My steam shovel costs me \$2.00 per day for fuel and oil. Interest and depreciation on the shovel amount to \$1.20 per day. My engineer and fireman together cost me \$6.80 per day, and they are all the men I need to keep the work going. This makes my total operating cost \$10.50 per day. But I had nine wagons on my job, against the county's eight, and not a single one of my teams lost a step because of time wasted in loading, which makes it a comparison of nine wagons against seven. Thus, reducing the cost of my operation to cover the difference between the dirt I put on my wagons and the dirt the county put on its wagons, I figure my cost down to \$8.00 per day. My cost \$8.00, the county's cost \$19.50. I say, Mr. Taxpayer, the county public works department ought to use steam shovels and put the convicts to laying pavement instead of shoveling dirt. Don't you agree with me?

REAL ESTATE THE SUNDAY CONSTITUTION'S SPECIAL PAGE DEVOTED TO REALTY AND BUILDING

Preparation for Construction of Buildings Begins in Walker and Nelson Streets Section BUILDING SPREE BESETS ATLANTA

Photo by Francis E. Price. Staff Photographer.

Steam shovel at work grading sites for new wholesale buildings in the Walker and Nelson streets development. In the foreground is a trainload of dirt ready to be hauled out.

Steam shovels and dirt trains started to work last week in the big Walker and Nelson street development, grading sites for four buildings, the first to be constructed in this proposed new wholesale and manufacturing district. One of these buildings, and the first of them to go up, will be the big building of the John Deere Plow company, from which it will conduct its business over the entire territory of the southern states. The details of this structure have already been announced. The nature and the lessees of the other buildings which have been planned are not yet ready for announcement. It is assured, however, that other buildings will be built.

The need of a new centrally located wholesale and manufacturing district for Atlanta has been a long-felt need, and the Walker and Nelson street development has been designed to meet this necessity. The idea of developing this territory with railroad frontage was originated about two years ago by a group of Atlanta capitalists and business men, who formed themselves into a syndicate and bought up the property between Walker and Nelson streets and the railroad parcel by parcel.

At first the project looked to be so big that many were afraid it could not be "put over." The inherent faith of people in Atlanta real estate, however, soon asserted itself and property in this neighborhood has since been the subject of brisk buying and selling and speculation. Several months ago the work of building spur tracks into the tract was completed, and now that actual preparations for substantial improvement of the property has begun, it is anticipated that there will be considerable revival of real estate activity in this section during the course of the coming several months.

Regraded Whitehall Lined With New Buildings; Work Starts on Last Section of Uniform Grade

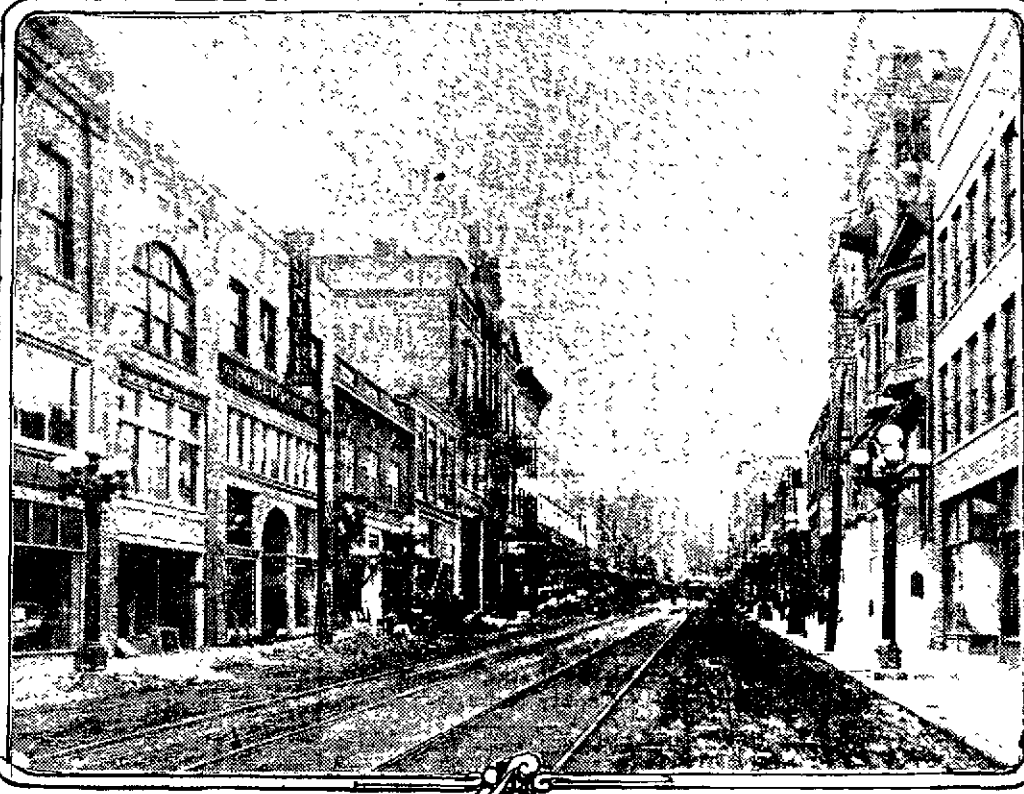

Photo by Francis E. Price. Staff Photographer.

Scene looking down the regraded portion of Whitehall street southward from Mitchell street, showing the improved grade and appearance of the street and the manner in which the buildings on either side have been remodeled and had stories added below the old street level.

It is just beginning to be possible now for one to gain some idea of the tremendous improvement that the regrading of Whitehall street has brought in that trunk thoroughfare to the south side of West End. From Alabama street to Garnett it is now of a uniform grade, making it easy traveling for people, animals and vehicles and improving the appearance of the street beyond comparison. Also, the strange psychological problem with which all merchants and owners of business property are acquainted, which is the dislike that people have to going up or down even a very slight grade to arrive anywhere, is now solved, and it will undoubtedly tell in the increase of business along the entire street.

Practically every building in the entire regraded section has been remodeled to its height, thus being built upon the new street level and below the old street level. In a large number of cases old buildings have been torn away in their entirety and new buildings have been erected, or are now in the course of construction, in their stead. It is practically a newly built street upon both sides. This, of course, is not to mention the substantial and imposing five-story store building which Charles M. Black has just completed on the site of old Trinity church, at the southwest corner of Whitehall street and Trinity avenue. No building of its size more serviceable or ornamental to a street exists in the city than this.

The work of regrading the second and last section contemplated in the Whitehall and Forsyth regrading plan has begun. Retaining walls are now being built at Forsyth and Brotherton streets and will soon be done. A big fill will be made at this point. A similar fill will be made at Whitehall and Brotherton streets. When this work is done a uniform grade will have been established on both Whitehall and Forsyth streets from the center of the city outward.

PROPERTY OWNERS WILL ASK TO HAVE CAR LINE EXTENDED

W. E. Worley president of the Woodland Hills company, who has subdivided a tract of 400 acres of land into about 600 lots, and who now is having water and sewer mains laid, grading streets and laying the sidewalks, has asked all property owners north of Virginia avenue, on Highland, to meet with him at the company's office, 529 Candler building, on Thursday afternoon at 4 o'clock, for the purpose of making a showing to the Georgia Railway and Power company to extend their line from Virginia avenue into and through Woodland Hills. Every property owner on this route is earnestly requested to be present.

ANOTHER REALTY FIRM IN HEALEY BUILDING

The Farantha-Cantrell Realty company, successors to Smith, Turner & Farantha, with offices at 201 Empire building, have moved to 320 Healey building, facing the main entrance of the postoffice. In addition to change in location they have broadened the scope of their business to include the handling of farms and acreage in all sections of the south, as well as increasing their facilities for the rapid and satisfactory handling of city and suburban property. M. W. Turner and Harry St. Clair, of the old sales force, will be associated with this firm at their new quarters and will be pleased to meet their old friends and welcome new acquaintances.

Judging from the mustaches some of the girls are developing there may come a time when a fellow will have to wait until his steady shaves himself before he goes to the theater with him.

There are a whole lot of men in the world who wear red whiskers and imagine it is up to them to sympathize with blind people.

Woodside, Sharp and Boylston Form Mammoth Renting Agency

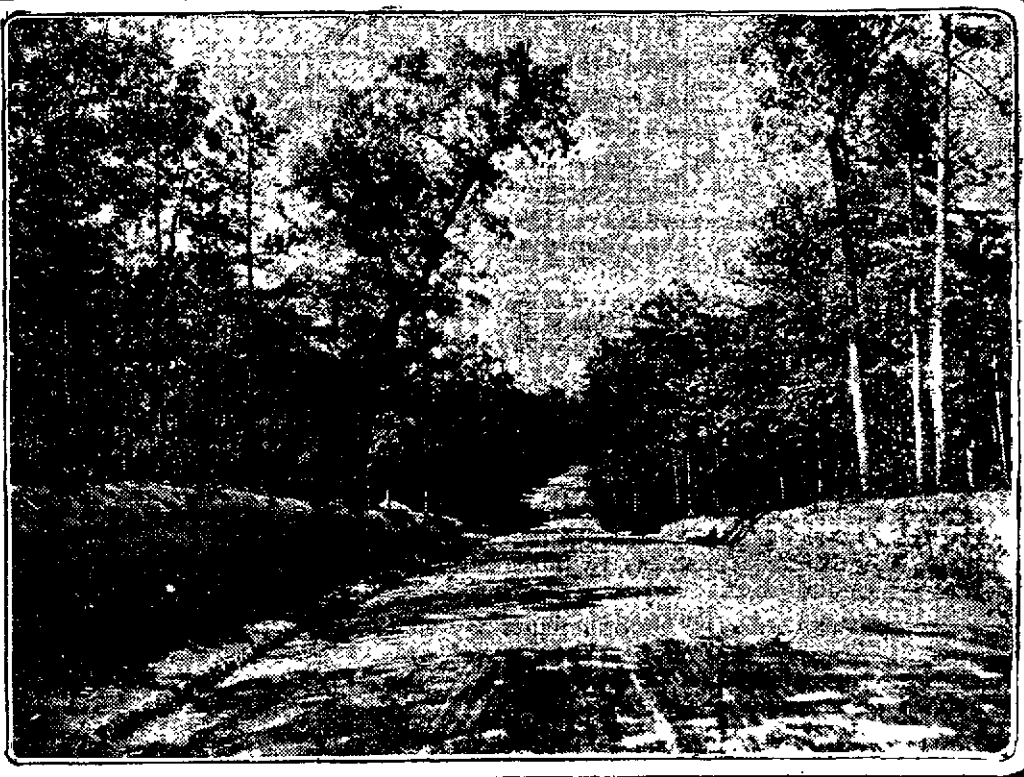

Name of New Firm Will Be John J. Woodside and Sharp, Boylston & Day. T. J. Day, Well-Known Insurance Man, Will Have Charge of Loan Department.

The largest renting agency in the southern states has just been formed by the consolidation of the Sharp & Boylston agency and the John J. Woodside agency. This consolidation became effective May 1, and the headquarters of the new firm have been established in the offices of the former John J. Woodside agency, at 12 Auburn avenue. By June 1 the business of the Sharp & Boylston agency will have been completely transferred in all details to the Auburn avenue offices, and the present office of Sharp & Boylston, on South Broad street, will be discontinued. The name of the new agency will be John J. Woodside and Sharp, Boylston & Day. John J. Woodside has for years enjoyed the reputation of being at the head of the largest renting agency in the city and one of the largest in the south. The Sharp & Boylston agency also has a very substantial rent list. Both enjoy the high esteem of their patrons, both owners and tenants, and have assurances that their service has been eminently satisfactory.

Well Established Firms. Both firms are old and well established. The Sharp & Boylston firm was established originally by D. M. Matthews, under the style of Green & Matthews, in 1892. After several changes it became Sharp & Boylston five years ago. Since that time the renting business of the firm has increased practically 100 per cent. The new firm in addition to its rent business will conduct a general real estate sales business, dealing in city, suburban and acreage properties. A loan department will also be opened in connection with the other branches of the new agency. This department will be under the supervision of T. J. Day. Mr. Day has for years been identified with the progress of Atlanta. He is well and favorably known by his fellow business men. He has been a member of city council. Prior to taking the head of the loan department of the new agency, Mr. Day was for six years in the fire insurance business in Atlanta. The other members of the new firm are equally well known.

Thirty Years in Business. Colonel John J. Woodside began business here about thirty years ago. Since that time he has built up the largest renting business in the state of Georgia. He has been a leader in civic and business life of the city. He has been a member of the city water board, chairman of the police board and a captain in the national guard.

How Is This for a Country Residence Site?

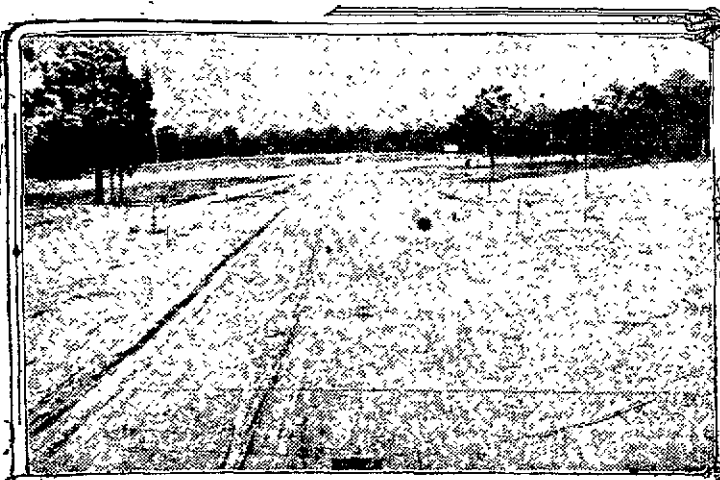

HERE IS A VIEW OF THE BEAUTIFULLY SHADED HABERSHAM ROAD AS IT STRETCHES LIKE A SILVER RIBBON THROUGH PEACHTREE HEIGHTS.

There is hardly to be found in Fulton county a prettier spot than that tract of wooded land lying off Peachtree road which has been developed into Peachtree Heights. Its desirability as a place of residence is amply testified in the splendid sale its lots have had. The development and sales of Peachtree Heights are handled by the E. Rivers Realty company. Mr. Rivers has had his heart and soul wrapped up in the development of this tract of land into the subdivision ideal. Of it he says: "Atlanta is built up in homes right to Peachtree Heights park. It is built in many handsome homes beyond it, and now many Atlantans who are most particular about their location are building their homes in Peachtree Heights park proper was not ready for the market until last October. Now we are ready for anybody's most critical inspection, and I do not know of a prettier tract, more beautifully winding roads or lots that lay better, with all city conveniences and located at just the proper distance from the business center of the city for homes."

When a pitcher has nothing but a round house curve he can't win a thing. But it is different with a girl.

DR. JOHNSON GOES WITH NEW REAL ESTATE FIRM
Dr. J. L. Johnson, formerly of the firm of Johnson & Young, will be connected with the new realty firm of John J. Woodside and Sharp, Boylston & Day, in the real estate sales department. Dr. Johnson has had years of wide experience in selling real estate in and around Atlanta, and in selling Georgia farm lands. He has also made a specialty of handling property in Decatur and vicinity.

Hedgerose Heights--a Dream of Beauty and an Ideal Residence Place

VIEWS OF TWO OF THE BEAUTIFUL DRIVES OF HEDGEROSE HEIGHTS SUBDIVISION.

Hedgerose Heights is one of the many beautiful north side country residence subdivisions for which there is such great demand. This subdivision is handled by the Holmes & Luckie Realty company. Hedgerose Heights is located just east

of Buckhead and south of the intersection of Peachtree road with Plaster's Bridge road. All of the lots are within from five to ten minutes' walk from the Buckhead car line. The lots front on East Pace's Ferry road, Pharr road and Plaster's Bridge road, which

last named road is an extension of Piedmont avenue. The subdivision consists of a tract of about fifty acres of beautifully wooded, rolling land. It is divided into forty-five large lots.

East Pace's Ferry road, which runs through the center of the subdivision, has been graded 50 feet wide and is the new and short way to Buckhead from Plaster's Bridge road. The lots fronting on this road range from 30 to 100 feet front and have an average depth of 250 feet. Such restrictions are placed on these lots as are usual in the best residential communities.

THE ATLANTA CONSTITUTION

For The Tango Devotee

Sunday, May 3, 1914

BRILLIANT is the white satin gown at the left resplendant with a draped panner effect which forms a pointed panel. This is of blue green chiffon embroidered in gold beads. A large crushed bow of gold cloth is placed at the back. The waist is of shadow lace.

Pale yellow mousseline and tulle form the bodice of the gown on the right, while the skirt is of yellow mousseline with a bouffant drapery of a deep yellow taffeta over a plaited tunic of white chiffon, which also forms a girdle. Vermilion, blue and violet tones appear in the corsage bouquet. The slippers are of yellow satin. A Roman scarf adds a new touch of color.

The gown in the background is of blue charmeuse and lace. Strings of rhinestones over the shoulders support the bodice drapery.

HANK AND HIS ANIMAL FRIENDS By Walt McDougall

Fascinating Footwear and Dainty Hosiery

For the Tango Devotee

Everybody knows the charm of the well-dressed, fashionable woman depends much on the accessories of the toilette; more attention than ever before is paid to the hosiery and footwear of the tango devotee. The slippers harmonize with the stockings, the toilette, and change of hats and all carry out the mode of the day.

The sandals at the top of the page are of gold cloth and emeralds. The slipper at the upper left is of gray brocaded silk. The stocking of gray silk is embroidered in black.

The slipper to the right at the top of the page is of black satin; the stocking, pale gray, with black embroidered clock.

The white silk stocking embroidered at the side in white is worn with a green slipper of bro-

...caded silk at the left of the page. The slipper has three narrow straps, which fasten in an attractive manner.

Opposite on the right the stocking is of silk tulle, and the cothurne of green satin.

Below this on the right is the slipper of black and white satin, worn with stocking of mauve, embroidered in a curious manner at the side.

Opposite this, on the left, is a black satin cothurne, worn with gold-color silk stocking.

The gown on this page is of a charming shade of blue taffeta, with collar and wide girdle of black satin. The frills on the sleeves and the bottom of the skirt are finished with half-inch bands of black satin. The appropriate little hat is quite smart and very becoming.
