TEUTONIC ARMIES STEADILY MARCH ON BREST-LITOVSK

One of the Invading Armies Is Said to Have Taken One Outlying Defense of Great Fortress.

TEUTONS HOPE TO CUT RUSS LINE OF RETREAT

London Military Critics, However, Do Not Believe This Can Be Done—Bad Weather Is Delaying the Invaders.

London, August 25.—Weather conditions are playing a part in the operations on the eastern front. It is reported that the roads in Courland are softening already as the result of continued rains and that the German army is finding it more difficult to move forward their artillery. They are still trying, however, to force back the Russians holding the line between the Rivers Aa and Dvina and claim to have been successful at one point at least.

General Eichhorn, who captured Kovno, is advancing eastward, according to Berlin, while progress is reported by each of the five armies marching on Brest-Litovsk. The army on the southwest front is said to have broken through one of the advanced positions of the fortress.

General Scherzer's army apparently is to march rapidly on Vilna and after occupying that town to attempt an advance to Minsk, placing his army on the Russian line of retreat from the Bug, while Field Marshal von Mackensen and Prince Leopold of Bavaria continue trying to envelop Brest-Litovsk. As Grand Duke Nicholas still has several lines of retreat open to him and his rear guards heretofore have shown their ability to hold off the Austro-Germans until their retirement was effected, military writers here do not believe this plan will succeed.

The only event of importance reported from the west is the recapture by the Germans of part of a trench they lost to the French in the Vosges. Heavy fighting continues on the Austro-Italian front and the Italian claim to have captured the head of the Stimo valley in the Tonale zone.

RUSSIAN REPORT ON OPERATIONS. Petrograd, August 25.—(Via London, August 26, 12:05 a. m.)—Tonight's Russian general staff statement reads: "In the Bialystok district there has been no change in the situation. In the direction of Jacobstadt and Dvinsk the fighting to the westward continues on approximately the same front. In the direction of Vilna the enemy delivered yesterday only isolated attacks on the front northwest of Ivjo, which we repulsed.

On the middle Niemen our troops operating on the left bank gradually are concentrating toward the river. On the right bank the enemy continues to exert the greatest pressure. Heavy fighting continues on the front between the Bialystok and the station of Glinovka and Vieskie-Litovsk and today we repulsed attempts of the enemy to attack our positions on the right bank of the Bug, the enemy striving to advance along the road from Glinovka to the station of Glinovka.

In Galicia, on some sectors of our front there was rifle firing and isolated attacks of the enemy.

On August 25, 1915, the Russian general staff statement reads: "In the Bialystok district there has been no change in the situation. Litovak were broken through yesterday by the Germans, according to an official announcement given out today by the army headquarters staff.

The text of the statement follows: "In the western theater: In the Courland district the enemy successfully exploded several mines. In the Vosges an attack made by the enemy on Schraizmaunne was repelled with hand grenades and southward of Brest-Litovsk the enemy's trench sections which we lost on August 17 was recaptured.

A German battle aviator shot down a French biplane near Nieuport. On the eastern theater: Army group of Field Marshal von Hindenburg: North of the Niemen river 750 Russians were taken prisoners during successful engagements in the neighborhood of Bialystok.

The army of General von Scholtz reached Borecorka, captured Knyszyn and crossed the Narw river to the south of Tykocin.

On the eastern bank of the Bug, northeast of Viadova, parts of the army of General von Scholtz were fighting towards the north, fighting all the way.

ONLY SHELL LEFT FOR THE GERMANS. Petrograd, August 25.—(Via London.) The garrison of Osowetz joined the Russian army in the vicinity of Brest-Litovsk, after blowing up the permanent fortifications, burning the garrison and the city of Osowetz, or crippling the guns, thus ending a year of defense of the principal crossing.

War office officials pointed out that the fortress was especially adapted for the defense of the city of Brest-Litovsk, but that this fact was being worked to its disadvantage by the Germans.

BLOOD OF VICTIMS RESTS ON GERMANY

Sir Edward Grey Charges in Answering Chancellor Bethmann-Hollweg—Grey Denies Belgium Trafficked Her Neutrality.

London, August 25.—Sir Edward Grey, the British foreign minister, tonight gave to the press a letter in answer to the speech delivered last week in the reichstag by the German chancellor, Dr. von Bethmann-Hollweg.

The foreign minister denies that Belgium trafficked her neutrality with the allies and declares that Germany herself deliberately violated the neutrality of the kingdom. In this connection Sir Edward says that there has been "nothing more despicably mean" than Germany's alleged attempt to justify her invasion of Belgium.

With regard to attempts before the war to bring about a conference to settle the dispute in dispute, the letter says that though Germany refused to enter the conference it did not decide Great Britain's part participation in the war.

1914, the German chancellor stated in referring to the violation of Belgium's neutrality of Belgium and Luxembourg.

The two negotiations for an Anglo-German agreement in 1912, referred to by the German chancellor, were brought to a point at which it was clear they could have no success unless the European war of 1914 was absolute neutrality while Germany remained free under her alliances to take part in the war.

The German chancellor does not emphasize in his latest speech that charge, which has been spread broadly, that the German government had plotted against Belgium.

her commerce at sea is to remain as free in time of war as all commerce is in time of peace.

Freedom of the Sea. "Freedom of the sea may be a very reasonable subject for discussion, definition and agreement between the nations after this war, but not by itself alone; not while there is no freedom and no security against war and German methods of war on land. If there are to be guarantees against future war, let them be comprehensive and effective guarantees that bind Germany as well as other nations, including ourselves.

Germany is to be supreme. The freedom of other nations is to be that which Germany meets out to them. Such is apparently the conclusion to be drawn from the German chancellor's speech, and to this the German minister of finance adds that the heavy burden of thousands of millions must be borne through decades not by Germany, but by those whom she is pleased to call the investigators of the war. In other words, for decades to come Germany may be free of all nations who resisted her should labor to pay her in tribute in the form of war indemnity.

Not on such terms can peace be concluded and agreement between the nations. The German chancellor's speech, as it is so, is not a guarantee of peace, but a declaration of war. It is a declaration of war, and it is a declaration of war.

THOUSANDS STOLEN BY CONTRACTORS

With Connivance of Manitoba Officials—Royal Commission Finds Colossal Graft in Erection of Parliament Buildings.

Winnipeg, Manitoba, August 25.—Charges that enormous over-payments were made to contractors who erected the new parliament buildings of the province of Manitoba, that these over-payments in part at least were designed to provide a campaign fund for the recent Roblin government, and that some members of that government were cognizant of what was going on, were sustained today in the report of the royal commission, commonly known as the Mathers commission, which inquired into the charges.

ments in his evidence," says the report. The commissioners were further handicapped by the destruction and mutilation of records, the refusal of contractors to produce their books and their withdrawal to a foreign country to prevent their being compelled to do so. The commission feels itself justified from this in drawing unfavorable inferences so far as the contractors are concerned. Dr Simpson, charged with being treasurer of campaign funds collected through the contractors, had left for military France, and William Salt, an important witness, left the country and was kept away against his will by large bribes, the report says.

During that campaign six government candidates in Winnipeg made returns showing their election expense as nothing, and the commissioners assumed their campaign expenses were paid out of the extras for the parliament buildings.

The commissioners find it proved that the practice of making excessive payments in the steel contracts was continued in the steel contracts, the government's structural engineers all depending prices from 40 to 50 per cent higher than steel could be actually bought and erected for.

## Rouge et Noir Night at Capital City Club Roof

The weird, the spooky and the uncanny held sway last night on the roof of the Capital City club, when a special dinner-dance assembled several hundred people for a novel entertainment.

The "skelton at the feast" was the mock theme of the party, and all that was vivid and fascinating in the decorative detail of the occasion only added to its gayer.

The lights shone through devils' heads and the green eyes of black cats. The almonds and bonbons filled the silver cases, and the ice cream was served in tiny coffins. Miniature kodaks as souvenirs, when they were "aimed," released snakes that rattled, and spiders, lizards and snakes were festooned between the arc lights which follow the line of the flower-decked parapets.

The Bohemian spirit of the entertainment. Among those who had reservations were:

- Mr. A. J. Ryan, Mr. and Mrs. L. Z. Rosser, Jr., Mr. and Mrs. W. H. Glenn, Mr. R. Adams, Mr. and Mrs. Julius DeGivie, Mr. and Mrs. R. Black, Jr., Mr. and Mrs. Frank Adair, Mr. and Mrs. W. H. # ATLANTA MILK LAWS WILL BE ENFORCED RIGIDLY IN FUTURE

In furtherance of the campaign of the city health department to make Atlanta's milk supply purer, a letter was sent Wednesday to all dairymen in Fulton county and other sections of the state who furnish milk to local retailers, notifying them that beginning September 1, the laws would be rigidly enforced.

The communication is signed by Dr. J. P. Kennedy, city health officer, and Dr. Claude A. Smith, director of the laboratory of hygiene, and sets forth that all dealers will be forced to comply with the law placing the bacterial limit at 100,000 per cubic centimeter. The communication, in part, follows:

Since the first of this year we have mailed to you each month a report showing you the analysis of your milk. This has been done to give you an idea of the class of milk which you are producing.

If your milk has been above the bacterial limit allowed by the law (100,000 per cubic centimeter) we feel that you have now had sufficient time to locate the trouble and remedy it. Beginning with the first of September we will enforce the bacterial limit of 100,000 per cubic centimeter and this notice is sent to give you an opportunity to take the proper precaution to see that all your milk, in future, complies with the law.

It is a simple matter to produce milk below 100,000. Thorough cleanliness in milking and prompt cooling during the summer and prompt cooling during the winter are of 50 degrees and kept below this temperature at all times assures a bacterial count below 25,000.

# PLANNING COMPROMISE IN PROHIBITION FIGHT

Anti May Agree to Inclusion of Anti-Shipping Bill in Extra Session.

An apparently authentic report comes today from parties close to Governor Harris that a compromise is being considered in connection with the call for the extraordinary session of the legislature, and the inclusion of the prohibition question.

The matter has given the governor no little worry. He is a prohibitionist himself, and would naturally be inclined to include the prohibition measures. At the same time he is also anxious about the state income and the prevention of deficit in the treasury.

Parties who are informed as to the activities of both sides state that the compromise now being considered is the inclusion of one of the prohibition bills, namely, the anti-shipping bill. This measure is designed to prevent the shipment of any liquors into the state for other than personal use.

It is said that if this compromise should be agreed upon, the governor would insist upon the legislature holding "C" and if the measure should afterwards be amended so as to include other prohibition features he would probably veto it on the ground that the compromise agreement had been violated.

There has been no definite decision reached upon the subject, but this is the phase of the matter that is now being most prominently discussed.

# MAYOR INDORSES PLAN TO CURE DRUG VICTIMS

## Dr. Kennedy Will Today Begin Putting Former Smallpox Hospital in Readiness.

Mayor Woodward upon his return Wednesday to Atlanta immediately endorsed the plan to transform the city smallpox hospital into a hospital for the treatment of drug addicts, and after a conference with city and county officials directed Dr. J. P. Kennedy to begin today putting the hospital in readiness for caring for such patients as will be assigned there by the physicians.

Dr. Kennedy, city health officer, and Dr. Charles Hurt, county health officer, were named a committee to work out the details for the operation of the hospital and the plan to have in readiness for patients by the end of this week.

Since the city has four acres of ground and suitable buildings and equipment already available and having no use for it only the expense for food and a few supplies will be necessary.

### Will Report on Plan

After a conference with Dr. Claude A. Smith, city chemist who first proposed the plan, Chairman A. W. Farringer, of the council finance committee, got busy and will be prepared this week to report on a plan for providing the city's share of the expense of the hospital.

Dr. W. H. Gilbert, of the county commission has assured the city officials that the county board of health and the formal appropriation will be made by the board at a meeting Friday afternoon at 2 o'clock.

Discussing plans for the operation of the hospital Dr. Smith said that within a period of three or four weeks the majority of cases could be cured while a long period would be required for more advanced cases.

### Care for Fifty Patients

About fifty patients can be cared for at the hospital, and it is not believed that more than that number will be handled at any one time. It is believed that financially able will go to private institutions to take the tapering off cure.

As to the practicability of sending the patients to the smallpox hospital, Dr. Smith stated there will be no danger of contagion, as the hospital has been cleared of smallpox patients since last year. He says the place is merely used for the expense of the city, and it may follow that Atlanta will have no other similar epidemic within the next two or three years.

It is believed that with an expenditure of about \$1,000 the city and county co-operating the situation can be met with the expense of the city and county officials and it is through their efforts that the success of the experiment.

## CONSTRUCTIVE EVENTS OF WEEK IN GEORGIA

### Four Cities Vote Improvement Bonds and Many New Buildings Are Planned.

Columbus, Ga. August 25.—(Special) The Industrial Index in its weekly summary of industrial and construction developments of the past week in the southeastern states, has the following pointed reference to the fact that the lynching of Leo M. Frank was only one of the occurrences of the week in Georgia.

Many other things about Georgia besides the news of the lynching of one of its citizens might be published. For instance the same week that the lynching occurred four Georgia cities voted bonds for public improvements. Announcements were made of plans for the establishment of new manufacturing plants and the erection of new buildings. Contracts were awarded for the construction of church buildings, school buildings, business buildings, residences and other buildings, and for the paving of streets and building of highways.

# ESTIMATE STATE CROP AT 2,030,000 BALES

## Cotton Figures for 1915-1916 Given Out by Central Bank and Trust Corporation.

The Central Bank and Trust Corporation yesterday made public its annual estimate upon Georgia's cotton crop, made up from reports from its correspondent banks. This report places the Georgia 1916-1917 crop at 2,030,000 bales.

The report is estimated and compiled by A. P. Coles, vice president of the bank. It is regarded as one of the most accurate obtainable. Last year Mr. Coles' report missed the actual production only one-half of one per cent. For the last seven years his report has come within two per cent of correct.

The report is as follows:

According to our usual annual custom of making an estimate of Georgia's cotton crop we have today received complete replies from all of our correspondents in the state and a careful compiling of these answers develops the following facts:

The acreage is 18 per cent off from last year.

The stand is 13 per cent off from last year.

The cultivation is 8 per cent off from last year.

The general condition is 27 per cent off from last year.

Therefore basing our estimate on normal weather conditions from now on, and average date of frost, we estimate the cotton crop of Georgia for the year 1915-1916 at 2,030,000 bales.

# Catarrh a Blood Disease S.S.S. Drives It From Your System

Because Catarrh affects the nose and throat, causing sores in the nostrils, stoppage of air passages and gathering in the throat, it has been common practice to treat Catarrh by lotions, washes and sprays applied to these parts. This mode of treatment is entirely wrong. It cannot give permanent relief, and it is liable to irritate and aggravate the trouble. Catarrh cannot be trifled with. If allowed to run on it will disease the bronchial tubes, settle on the lungs, the stomach—indeed it is a very serious disease. Don't treat it locally. The fact that it causes headaches is proof that it is caused by impure and diseased blood. The one treatment that has proved effective in the treatment of Catarrh is S. S. S.

It is the greatest blood purifier and blood tonic known. It relieves the cause of Catarrh by the process of renewing the blood, renewing its strength and vigor, giving new life to the red blood corpuscles, and stimulating the flow so that it has the vitality to throw off the poison and germs from the system. It is literally a blood bath. You quickly feel results. Headaches disappear the gathering in the throat stops the nostrils heal—before you hardly realize it you are well. S. S.
