

CHIEF BEAVERS SUSPENDED BY POLICE BOARD AND CAPTAIN MAYO APPOINTED ACTING CHIEF

TREATY VIOLATED WHEN SUBMARINE SANK U. S. VESSEL

Washington, July 26.—Surprised at destruction of the steamer Leelanaw by German Undersea Boat.

INCIDENT AGGRAVATES ALREADY TAUT SITUATION

Relief Felt at Saving of the Leelanaw's Crew—United States to Dispute Germany's Right to Destroy American Vessels Even if Carrying Contraband.

DETAILS ARE AWAITED

BY PRESIDENT WILSON
Cornish, N. H., July 26.—President Wilson tonight awaited details of the sinking of the American steamship Leelanaw by a German submarine before deciding what course should be pursued by the United States. Up to a late hour tonight he had received only newspaper dispatches telling of the attack.

He declined to comment pending receipt of further details. The president came here with the intention of returning to Washington should any important business develop, but he made no plans tonight for going back.

Washington, July 26.—Destruction of the American ship Leelanaw by a German submarine drew sharply to the attention of Washington officials today the fact that Germany was insisting on her own interpretation of the Prussian-American treaty of 1828, in disregard of two American notes on the subject.

In three instances of American ships destroyed or damaged—the Gulfport, the Nonraskon and the William P. Frye—Germany has agreed to pay damages, and in the last case Berlin took the position that it had not violated the treaty, but had exercised a right given by inference from the language of the pact.

\$1,000,000 DUE TO PRISON FARM

State Officials Find That All Near Beer License Money Should Go to Farm, According to Law.

At a conference of state officials in Governor Harris' office yesterday, the fact was revealed that the state prison farm at Milledgeville has not received one cent of a fund of approximately \$1,000,000 due the farm under the state law. The money is that which has accrued from the sale of near beer licenses in the Georgia—money which, contrary to the law, has gone into the general appropriation of the state.

Among those present at the meeting were Governor Harris, Attorney General Clark, Senator John D. Walker, Representative W. W. Stark, of Jackson, and Representative H. J. Fullbright, of Burke. Representatives Stark and Fullbright will introduce a bill today to repeal the law, so that the money derived from the sale of near beer licenses will accrue to the state's general fund legally. It is understood that Senator John D. Walker started the investigation.

A law passed by the 1908 legislature provided that all fees arising from the sale of near beer licenses in the state should be paid into the treasury and then credited to the prison farm for its support and development. In 1909 an attempt was made to repeal this legislation. The law passed in that year, however, provided only that the funds arising from the sale of these licenses "now" in the treasury should go into the general fund instead of into the prison farm coffers. Therefore, the law of 1908, according to the laws, lawyers and Attorney General Walker, who have been consulted, has never been repealed except for the single year of 1909. The state farm was due the near beer license money for the years 1910, 1911, 1912, 1913, 1914 and 1915. The aggregate sum involved is approximately a million dollars, which has been used for other purposes.

Under the law, as it stands, the governor now has the right to issue a warrant for \$50,000 to install improvements at the prison farm. Governor Harris has expressed his opinion that the general assembly should be generous with the institution. The governor expects to write a special message to the legislature, urging reforms and calling attention to the fact that the farm has been deprived of about a million dollars due to it by law.

Niles Has Narrow Escape From Death Under Train Wheels

Robert Niles, of 149 North Butler street, had a miraculous escape from death at a late hour Monday night, when he was crushed between a northbound and a southgoing passenger train at the North avenue railway crossing, escaping with only a few slight bruises.

According to Mr. Niles, he was crossing the tracks when, without warning, the trains rushed past him. He states that he was knocked down between the tracks and buffeted first on one side and then the other.

ATLANTA IS MADE ASSEMBLING POINT BY ALLIES' AGENTS

England Agrees to Purchase 100 Mules a Day and to Pay Flat Rate of \$160 Per Head for Them.

CONTRACT WILL MEAN \$480,000 EACH MONTH

Arrangements Have Been Made With I. N. Ragsdale and Two Agents of England Will Be Sent Here.

Atlanta, by reason of being one of the greatest mule markets of the United States, has been designated by the English government as the assembling point for thousands of mules to be shipped to Europe for war purposes. Beginning next Monday, 100 mules per day will be furnished two representatives to be sent to Atlanta to inspect and formally take charge of the stock. Arrangements have been made with I. N. Ragsdale, one of the largest made dealers of this section, to handle, through his stock yards, 100 mules per day for an indefinite period.

The English government will pay a flat rate of \$160 per head for the mules, which will be paid in cash each day at the close of business. This will mean \$16,000 cash that will daily be put in circulation through banking channels in Atlanta, and at an average of thirty days per month, will mean \$480,000, or nearly a half million dollars monthly.

Mr. Ragsdale has purchased several hundred mules for shipment, and is daily contracting for others to be shipped here from other sections of the state. Later it is probable he will extend the territory to the Carolinas, Alabama, Mississippi and Louisiana.

Monday, Mr. Ragsdale purchased a lot of twenty-eight mules from owners in Douglas county, and last Saturday he secured two lots, one from Senola, the other from near Newnan. He plans to keep on hand at his yards 500 head of mules, and to add to them daily as they are shipped away to port for shipment.

A rigid inspection is necessary before an animal is accepted by the foreign purchasing agents. The mules must be at least fifteen hands in height and must be of dark color, with no blemish that would in any way tend toward making them unfit for service. Mr. Ragsdale stated Monday that the governments had agreed to accept iron-gray mules.

Last year the foreign governments paid only \$140 for mules, but England has now agreed to pay the increase of \$20 for mules delivered at the cars. Mr. Ragsdale is first making a personal inspection of the mules, makes the purchase and takes chances on disposing of them to the foreign representatives. In this way he is able to secure them at prices less than that paid by the allies. He states, however, that in order to aid the farmers to dispose of stock since they have laid by their crops he will allow them to send their stock to the yards to be inspected direct by the allies' inspectors.

CHIEF OF POLICE JAMES L. BEAVERS, Who will be tried by police board on Thursday night on four charges.

LARGER BOND ISSUE NEEDED, SAYS LOWRY

Disappointed at Neglect of Great Institution, Says Hospital Head.

"That he will stick by his post at Grady hospital and fight for a bigger bond issue than authorized by city council at its last meeting for that institution," was the declaration of Colonel Robert J. Lowry, president of the board of trustees, which holds its regular monthly meeting this afternoon.

"Rumors are to the effect that I am disgusted with the treatment Grady hospital has received, and that I am thinking of quitting my post on the board," said Colonel Lowry.

"This is true, only in part. I will not resign a post I have filled for twenty years, when Grady needs as much as she does now. It is true that I am disappointed at the neglect of this great public institution that is doing the biggest work for humanity of any institution in the city."

HUGE TRADE BALANCE FOR UNITED STATES

Exact Figures for Year Ending June 30, \$1,094,422,792. Records Broken.

Washington, July 26.—Exact figures of the record-breaking American export commerce of the fiscal year ended June 30, made public today, show that the trade balance in favor of the United States—the greatest in its history—was \$1,094,422,792, an increase of \$23,800,000 over the year preceding.

Exports totaled \$2,768,643,832, an increase of \$49,000,000. Imports were \$1,674,220,740, a \$215,700,000 decrease. The gold movement, which reflects the effect of the war, shows imports of \$17,568,158 and exports of \$146,224,148, against \$6,535,659 imported and \$112,038,538 exported the year before.

The official figures show little variation from estimates previously announced. The board tabulated his resignation for further consideration. Members of the board of trustees declare that there is no "politics" in Grady hospital, as charged by a number of physicians of the city.

Commission Will Probe Charges Against Beavers At Meeting on Thursday

Chief Is Accused of Insubordination, of Disregarding Rules of Board, of Inefficiency, and of Failure to Preserve Discipline in His Department, These Complaints Resulting From Recent Probe by Committee—Efforts of His Friends to Obtain Delay in Trial Prove Unavailing.

"BEAVERS HAS ACTED LIKE BULL IN CHINA SHOP," SAYS ENGLISH

"You Are as Much an Old Bully as I Am," Cried the Chief—Near Physical Encounter Between Two Men Prevented by Police, Commissioners Calling Upon Acting Chief Mayo to Take Beavers Out of the Room—Mayo to Be Permanent Chief, Says Commissioner Clark.

Charged with insubordination, inefficiency, failure to preserve discipline in his department and disregard of the rules of the police board, Chief of Police James L. Beavers was suspended last night by the police board by a vote of 8 to 4 and will be formally tried on the charges next Thursday night. Captain W. M. Mayo was appointed acting chief by Chairman W. P. Fain.

With his title and power removed, Beavers took the floor over the protest of Chairman Fain, who repeatedly ordered him to "Sit down, you are out of order," and buried some stinging remarks at Chairman Fain. Captain English and Councilman Edwin Johnson, who introduced the resolution equating the charges.

ENGLISH AND BEAVERS CLASH AND THE POLICE ARE CALLED

There were cries among the commissioners of "Let's adjourn," but still the chief talked on, charging among other things that while making a visit of inspection at the Atlanta club ten days ago he found Chairman Fain there purchasing a dollar's worth of whisky.

Finally Captain English sought to quiet the suspended chief by saying "Chief, you have always acted like a bull in a china shop whenever you got a chance, and your actions here tonight are enough to back up the charges of insubordination that have been made against you."

"You are as much of an old bully as I am," cried the chief above the din. "You tried to frighten me when I sought to close the district, what did you do when I got after the clubs?"

Several commissioners called to Acting Chief Mayo to "take him out" and Chief Mayo and several other officers circled about the chief as Captain English left his chair and took a step toward him. Beavers took his seat.

Charges Against Beavers

- The formal charges preferred against Chief Beavers follow:
1. The said James L. Beavers, as chief of police of Atlanta, is grossly inefficient and incompetent.
 2. The said James L. Beavers, as chief of police, after a long term of office, has wholly failed to suppress a vast number of felonies and misdemeanors committed within the city of Atlanta, or to apprehend and arrest the perpetrators thereof. The number of felonies committed and the percentage of those which have entirely escaped arrest being abnormal, without excuse, and to the grave injury of the public safety.
 3. The said James L. Beavers, as chief of police, has not been able to obtain the respect and confidence of his subordinate officers and members of the force, thereby rendering the force ineffective.
 4. Because the absence of respect, harmony and co-operation between said James L. Beavers, chief of police, and his officers and the force has resulted in rendering the police department inefficient, and to the detriment of the public good, peace and morals.
 5. The said James L. Beavers, chief of police, has been guilty of insubordination, in that he has failed to obey the instructions of the board of police or to comply with its rules.
 6. The said James L. Beavers, as chief of police, has been constantly conferring with and taking advice given by private citizens with reference to the management of the police department, in disregard of the police board and its rules.
 7. Because said chief of police has not devoted his official time to the discharge of his official duties, and has spent much of said time in conference with parties unofficially related to the police department, and in attending to matters connected with his personal and political preferences, to the grave detriment of the public peace and safety.

MAY BE NEXT CHIEF

CAPTAIN W. M. MAYO. Named acting chief of police.

CHOOSING THE LITTLE THINGS

July is a sort of "in-between" buying month. It is especially the time when many small articles of apparel or comfort are in demand. It is the time when last minute vacation needs have to be provided. Often complete wardrobes of summer clothes are needed. The stores especially fit themselves to the needs of the hour, and the advertising in The Constitution tells where just the desired articles may be had.

SHOP IN THE CONSTITUTION BEFORE YOU SHOP IN THE STORE.

ITALY ALLEGES TURKEY HAS VIOLATED TREATY

Rome, July 26.—(Via Paris).—The Italian government is engaged in gathering evidence to prove that Turkey has violated the treaty of Lausanne, an undertaking, according to the terms of which she pledged herself to withdraw all Turkish troops and officers from the Cyrenaica district in Tripoli and help bring about the submission of the Senusi tribesmen in this locality to Italy.

ROUTE NOT FIXED AT TALLAHASSEE IN MONDAY'S MEET

Tallahassee, Fla., July 26—(Special) A delegation of citizens with four members of the board of county commissioners of Jefferson county met with the Leon county commissioners and citizens here today.

SCIPLES WILL HOLD REUNION AUGUST 28

The seventh annual reunion of the Sciples family will be held this year at Kitterville Park near Allentown, Pa., Saturday, August 28.

AMERICAN ACTION CITED BY BRITAIN FOR THE BLOCKADE

Course of United States During Civil War Used as Precedent for the Order in Council.

DECISIONS ARE QUOTED BY U. S. SUPREME COURT

And It Is Held That These Decisions Justify British Action—Proper to Wait Judicial Interpretation.

Washington, July 26—Great Britain's reply to the American note of March 30, protesting against enforcement of the orders-in-council which restrict neutral commerce, was received here today.

MANY BIG CITIES ARE BEING SHOWN

Wonderful Earth Product Attracts Wide Attention. Tests Made Daily.

Demonstrations and displays of Vitalitas, the wonderful earth product, are being conducted in many large cities. Perhaps no earth substance has attracted so much attention in so brief a time.

In many cases it is performing real modern day miracles for the sick by banishing disease conditions where all other remedies have failed.

Vitalitas assists Nature in bringing a new glow of vital force that sweeps away all such troubles.

SEE OUR Sunday "Ad" — THEN — Come to COX'S Peachtree & Auburn

SEE THE GREAT CH. CAGO DISASTER AT ALAMO NO. 2 TODAY

It is proper to await a judicial interpretation.

The new note, in courteous language, holds that Great Britain's action is justified by decisions of the United States supreme court in cases arising during the civil war.

Secretary Lansing announced receipt of the note. It will be forwarded to President Wilson at Cornish, N. H., and will be given out here for publication in the morning papers Wednesday.

The keynote of the British note is a declaration that the British government has steadfastly held to the broad principles of international law in all that has been done under the order-in-council, and that if a neutral government feels aggrieved there is a remedy in the courts or, eventually, in arbitration.

Generally, it is held that when a neutral country or port is made base of operations against a belligerent, the entire belligerent is justified in blockading such country or port.

Precedent by the United States. The action of the United States in the civil war in blockading the British island of Bermuda is cited as a warrant for the action of the British government in preventing goods from reaching Germany from the United States through Denmark, Holland or Sweden.

The original blockade on the west side of Bermuda having proved deficient, the American warships were stationed on the east side, and through-out the remainder of the war no goods were permitted to reach Bermuda that might be trans-shipped to the Confederate States. That action was sustained by the United States supreme court.

The new note makes the point that the only way to ascertain the real destination of supplies from America assigned to neutral countries of northern Europe is to consider the amount of the goods consumed in their own trade, for it is contended that they are so much in fear of Germany that they fail to prevent the reshipment of such goods into Germany.

On July 17 the United States gave notice that it did not accept the order-in-council as a substitute for international law, so far as it affected American commerce.

American Position Not Affected.

With the sending of last week's note to Germany on submarine warfare, the general impression within official quarters was that the new protest to Great Britain would go forward within another week.

Legal experts of the government understood that the new British note in no wise altered the American position in insisting that non-contraband goods destined to or from a belligerent through neutral countries is not subject to the rules of blockade.

In support of this the American government stands upon the same position as in the civil war in which the United States supreme court ruled that the neutral rights of a third country shipped from England to Mexico destined to Texas then blockaded must be released, since a blockade could not legally be operated against a neutral coast.

It is probable that Secretary Lansing will draft a new note on the entire subject and submit it to President Wilson on his return from New Hampshire.

NO CONTRABAND ORDER IN REGARD TO COTTON.

London, July 26—Despite the recent demand by part of the British press that cotton be declared contraband, the government has not changed its decision on this point.

Sweden Spinnings TO SECURE COTTON.

London, July 27—(2:35 a. m.)—A Morning Post dispatch from Stockholm says that Great Britain has granted permission to the Swedish Cotton Spinning association to convey to Sweden 55,000 bales of cotton now held in English ports.

MASSED GERMANS CONTINUE ATTACKS AGAINST WARSAW

Polish Capital Still Holds Out, But London Believes Its Capture Is Only Matter of Time.

CLIMAX TO STRUGGLE EXPECTED IN FORTNIGHT

Germans Are Centering Main Offensive North of Warsaw and Are Driving Russians Towards Junction of Bug and Narew Rivers.

London, July 26—Field Marshal von Mackensen's effort to throw a heavy body of Austro-German troops astride the Lublin-Cholm railway having failed so far, the Germans now are centering their main offensive north of the Warsaw salient and having crossed the Narew river along a 40-mile front, are driving the Russians toward where the Bug joins the Narew north of the Polish capital.

Warsaw still holds out, but the general belief here is that its capture only is a matter of time.

Tonight's Petrograd dispatches predict that a climax to the great struggle in Poland will come within a fortnight, with simultaneous attacks on the city from the north and south.

Meanwhile General von Buelow, driving south from Courland, is thirty-five miles southeast of Shavli, having reached the Ponevsk railway junction linked with the Vilna-Dvinsk line, which the German cavalry is attempting to seize preparatory to cutting the more important Kovno-Vilna line.

Petrograd estimates the effective German cavalry in this area at 3,000.

Fighting in the west still consists mainly of artillery engagements and sapping operations in which neither side has made material gains.

GERMANS CLAIM GAINS IN WEST.

Berlin, July 26—(Via London)—The German official statement issued today says:

An official telegram from main headquarters dated July 26 says that in the western theater of the war no important events have transpired anywhere on the front.

In the east a war theater North of the River Niemen the army under General von Buelow has reached the district of Poswol-Poniewitz.

On the Narew front our troops forced a crossing of the river. Furthermore, above and below Ostrolonka our troops are slowly pushing the enemy back in the direction of the River Bug.

The Russian are offering obstinate resistance to these advances. Here also we captured about 1,000 Russians and more than forty machine guns.

On the northwest front our troops are advancing toward the group of fortifications around Novogeorgievsk and Warsaw.

In the southeastern theater of the war the front of Wajlawicz and south of Cholm, in the River Bug, German troops in the recent fighting pushed the enemy still further back.

Yesterday we captured here eleven officers, 140 men and eleven machine guns.

Otherwise the situation west of the Vistula and with the allied armies under General von Mackensen shows no change.

The towns of Poswol and Poniewitz are being shelled from the River Bug (about 40 miles) to the east and south (last respectively, of Shavli, in the Russian province of Kovno).

GERMAN AIRMEN ATTACK BRIDGE.

London, July 26—A dispatch from Petrograd to Reuters' Telegram company today says:

A German air raid on the Vistula bridge at Warsaw failed of its object though the bombs caused several casualties among the civilians.

The German advance from the Narew river, now is 24 miles as a crow flies from the Warsaw-Petrograd railway but the Germans still have to fight their way across the Bug river, as well as the enemy's units of virtually endless continuity between the Narew and the Bug.

The fate of Warsaw really depends on the fate of the Vistula river, a more formidable obstacle than is the Narew the crossing of which by the Germans was facilitated by an island mid-river near the confluence of the Orziza river.

ARTILLERY DUEL ON WEST FRONT.

Paris, July 26—Tonight's war office statement reads:

In Artois the cannonading has diminished in intensity. Some shells of heavy caliber have been fired against Arras.

In Champagne on the Perthes-Beaune front and at Vauquois the French have been mining operations in which we have maintained the advantage.

east Poland) the German forces again gained ground.

On the other parts of the front there has been no change.

SEMI-CIRCLE ABOUT RUSSIANS.

Cologne, July 26—(Via London July 27, 4:52 a. m.)—A Cologne Gazette dispatch from eastern press headquarters says:

Following the already reported attempt of strong Russian forces from the Ivanogrod fortresses to break through, a second attempt directed at Sokal failed. The latter salient was planned to force a crossing of the Bug and thus affect the freedom of operations of the Austro-German forces between Cholm and Lublin.

The semi-circle around the Russians is steadily closing in.

HE WAS SHORT \$30,000 WHEN HE KILLED SELF

Alexandria, La., July 26—State bank examiners announced today that William B. Turner, former mayor of Alexandria, who shot and killed himself in Houston, Texas, last Saturday, was short in his accounts with a local building and loan association, of which he was secretary, approximately \$30,000.

VOLUNTARY BANKRUPTCY FOR MACON CONTRACTOR

Macon, Ga., July 26—(Special)—Shaw Bros. company, contractors, builders and dealers in lumber, filed a voluntary petition in bankruptcy today, scheduling liabilities at \$25,000 and assets at \$15,000.

There are more than fifty creditors, the largest being the Fourth National Bank of Macon, to whom the company owes \$12,500.

Edward J. Talley today named B. S. Deavers receiver.

To Miss Ashcraft.

Miss Mal Horine entertained a party of ten at the dinner-dance on the roof of the Capital City club last night in compliment to Miss Jean Ashcraft, of Monroe, N. C., the guest of Mr. and Mrs. Walter F. Andrews.

To Mrs. Cocke.

Mrs. Albert Howell entertained yesterday at luncheon at the Capital City club in compliment to Mrs. Lucien Cocke. The guests were Mrs. Pardee, Mrs. Taylor, Mrs. Chauncey Smith, Mrs. Green, Mrs. Moore and Mrs. Lotz.

Meeting and Picnic.

The Buckeye Women's club will hold its meeting at the pavilion of Grant park this afternoon at 3:30 o'clock. After the short business session a picnic box lunch will be served.

Boys' Hair Came Out in Bunches

Because of Eczema. Itched Badly. Formed Hard Crusts. In Two Weeks Well.

HEALED BY CUTICURA SOAP AND OINTMENT

"My little boy's eczema began on the back of his head. It broke out in little pimples. They itched so badly that he would scratch until they would bleed. They formed hard crusts. His hair came out in bunches. He would cry and could not sleep at night. It was all over the back part of his head and neck. I was told it was eczema. He was treated for two weeks and got no better.

"My sister told me to try Cuticura Soap and Ointment. I got a box of Ointment and a cake of Soap. I used the Cuticura Soap and Ointment for two weeks. He is entirely well." (Signed) Mrs. Verale Grady, Gap, W. Va., Jan. 1, 1915.

Sample Each Free by Mail

With 32-p. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

San Francisco and will return home early in September by way of the Canadian Rockies.

Miss Mamie Gattins leaves today to visit Mrs. Joseph F. Gattins at Ocean Springs, La.

Dr. Leo T. Daly will return Wednesday after two weeks in New York and Baltimore.

Mr. W. E. Chapin has returned home after a week's stay at Battery Park hotel, Asheville.

Mr. and Mrs. George H. Bellinger, Miss Madeline Bellinger and George J. Bellinger, leave today for a ten days' camping trip in Nacoochee valley.

Miss Dolores Bellinger is the guest of Mr. and Mrs. Bellinger on Myrtle street, during the absence of Mr. and Mrs. George Bellinger in north Georgia.

Miss A. C. Stringer is spending some time at White Sulphur Springs, Ga.

LOCAL BILLS FAVORED BY HOUSE COMMITTEE

METHODISTS COMING TO ATLANTA IN 1918

Next Quadrennial Meeting of General Conference to Be Held Here in 1918.

The next quadrennial meeting of the general conference of the Methodist Episcopal church, south, will be held in Atlanta in 1918, according to an announcement Monday by Dr. A. M. Nettie, presiding elder of this district. This is the first time that this great assemblage of churchmen has come to this section of the south. The committee on selection stated that the establishment of Emory university here was a great factor in winning the conference for Atlanta.

PRISONERS SENTENCED TO FIVE DAYS IN CELL

Howard Austin, Adela Williams, Annie Thumond and Hesterly, who were recently arrested by Officers McWilliams and Abstin charged with disorderly conduct, officials and laymen, and it was also because of the exceptional auditorium and hotel facilities of the city which were chosen. The conference, which will be in session four weeks, will be presided over by Bishop of the church in order of their seniority.

UNITED PROFIT SHARING COUPONS Are in Each Package BLOCK'S CRACKERS AND BLOCK'S CANDIES Pure Fresh Candles and Crackers Made in U.S.A. by Block's

TO CLEAR BAD COMPLEXIONS USE RESINOL

Bathe your face for several minutes with Resinol soap and hot water. Then apply a little Resinol ointment. Resinol gently. Let this stand on ten minutes, and wash off with Resinol soap and more hot water. Finish with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing Resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear and velvety.

Had Pellagra; Is Now Well

Rinkgold, La.—Mrs. S. A. Cotter, of this city, writes: "I am perfectly well and the happiest soul on earth. Wish every pellagra sufferer could know of your great remedy. I know how to appreciate health and sympathize with those that are not so bright as I. Am growing stronger, gaining in weight and can do anything I ever could. Oh, I know I am well of that horrible disease, and my heart is full of rejoicing. I feel that I have come out of a dense cloud into the blessed sunshine. God be praised! He has spared my life for some good, and I feel that I have just begun to live."

KEEP CLEAN INSIDE

It's the Only Sure Road to Health and Happiness. You wouldn't go to your office in the morning without washing your face and hands. And yet inside cleanliness is vastly more important to your well being and ability to do your work than produced by soap and water. "Winey-tive per cent" Jacobs' Compound is the conclusion of a distinguished physician. Why? Because it is not kept clean. Eliminate the waste matter and poisons from your system. Take Jacobs' Compound arising in the morning. You will find it pleasant to take, quick and effective in action and wholly without any after effects. Such as accompany calomel and similar dangerous and powerful drugs. Jacobs' Compound is the best remedy for the day's work. Get it at Jacobs' and druggists generally.—(adv.)

BILL TO SYSTEMATIZE KEEPING OF RECORDS

Measure Introduced by Senator Boykin, of Seventeenth, Favored by Committee.

Introduced by Senator Boykin, of the seventeenth, the measure, great confusion in the state's county records, a bill to systematize the various records kept by the county officers of Georgia was recommended favorably by the senate committee on general judiciary yesterday. The bill, if enacted into law, would make the attorney general ex-officio supervisor of county officers and county records, with additional salary and assistants. The measure further provides for the certification of laws that relate to the duties of county officers and records.

"The object of my bill," said Senator Boykin, "is to systematize all the various records kept by the many different county officers throughout the state. In a number of counties the ordinaries have failed to keep their minutes; clerks of superior courts have failed to record proceedings, and in some counties a number of the most important books by law to be kept are not kept at all. In some counties no filing docket is maintained; in some a filing docket is kept but no records, or records of the clerks of the superior courts have indexed deeds made by a sheriff in the county only, with no reference to the name of the owner of the property sold. This is also true of trustees and executors, guardians, and other officers. Certain counties do not record the decrees of the superior court with reference to titles to land, the proceedings being merely filed away in the archives of the office. In other counties it will be found that the books of the various offices are not numbered consecutively, and it is difficult, if not impossible, to locate the records. There are also many indexes to mortgages kept at all by some counties. In order to investigate titles it is necessary to turn over many pages, to find the desired information. Hundreds of cases in the state, where titles involving valuable real estate have been probated in common form, are never recorded, but merely kept on file. The bill seeks to provide that there will be a uniform system of all the records in Georgia. At present the titles of the various offices to whom they can go for advice on matters pertaining to their respective offices."

LAWRENCE FILIBUSTERS AGAINST PROHIBITION

For Hour and a Half Senator From First District Blocks Stovall Measures.

Single-handed, Senator Alex A. Lawrence, the only recognized anti-prohibitionist in the Georgia senate, blocked an hour and a half filibuster yesterday in an attempt to block the Stovall prohibition bill. Long and consecutive was the speech by the gentleman from Savannah as he read some of the cases of the famous old slaughter house cases in New Orleans. Senator A. S. J. Stovall started things yesterday by reading his bill and the second time, winning by a vote of 20 to 8, Stovall's motion was received with a welcome that predicted misfortune for the "antler." Senator Lawrence, then addressed the senate in behalf of referring the bill back to another committee—on general judiciary—with instructions to report on the matter and Senator Lawrence held the floor until a few minutes before 1 o'clock. Then Senator J. M. Mangham, of the thirty-eighth, succeeded in wresting the right to speak from the senator from the first, who seemed to have no objection that he might make. Senator Mangham will have the floor the first thing this morning. Senator Mangham was speaking on the proposed appropriation of \$15,000 for the agricultural school at Americus when the hour for adjournment arrived.

PITY THE BAREFOOT LAD; DOG DAYS START TOMORROW

There is gloom in boydom. Dog days begin tomorrow. If you have ever been a country boy, if you have ever been deprived of the hilarity of the swimming hole from July to September, there is little need explaining the reason of dog days. But to the city youngsters who go around in sandals and shoes and stockings and Astor ties and fringed blouses and their swimming tubs and play on the lawns and paved streets, it will perhaps be worth while to recall that dog days is a season of meteorological witchcraft designed especially for the discomfort and subjugation of the rural small boy. If he is going barefooted and stubs his toe during this period it develops into a sore that is not only incurable until the course of dog days is lifted. If he has an abrasion on his body and goes in barefooted during this period, the effect arises, and his life for an entire month is one of uninterrupted misery. The dog star, Sirius, then is known in the country as the evil eye that winks in the night, and small boys stand around and look with awe upon the dog star and the dog days and mutter speculations upon why business it's got to be up there, anyhow. We are to believe the ancients, whose doctrines have been handed down to us through encyclopedias and other reliable sources, that the dog days consist of a period from four to six weeks variously placed between the equinox of July and the equinox of September. They are titled "canicular days," so-called because of having been reckoned in ancient times by the rising of the dog star, Sirius. Popularly, the sultry, close part of the summer, which is supposed to be especially liable to go mad, is dog days determined. The conjunction has been reckoned in ancient times by the ancients as one of the causes of serious fever and other of the maladies which then prevail.

GANTT EXPECTED TODAY; TO SUCCEED DRAKEFORD

Daniel J. Gantt is expected to arrive today to succeed J. Drakeford, financial revenue agent here, who has gone to take Mr. Gantt's position at Cincinnati. Mr. Gantt was a native Atlantian, was for several years chief clerk of the civil service commission in Washington, D. C. Scott Alexander, vice president of the company, has been ordered to Pittsburgh, subject to ratification of the civil service commission.

CAPITOL GOSSIP

WHEATLEY FOR APPROPRIATION TO REPLACE BURNED BUILDING.

South Georgians are displaying considerable anxiety over the delay of the senate in passing up an appropriation of \$16,000, recommended by the appropriations committee and passed by the house, to replace the burned academic building of the Third District Agricultural school at Americus. The appropriation, after being recommended by the senate committee and passed by the house, was recommended by the senate committee and is now under the consideration of the senate itself. The bill has been argued for two days—Friday and Monday—and the end is not yet.

SHIP WAREHOUSE BILL KILLED BY COMMITTEE.

House agriculture committee No. 1, Mr. Oliver, of Brooks, chairman, Monday afternoon recommended to the senate that the bill of Mr. Shipp of Colquitt, which provides for the grading of cotton do not pass. A third bill was recommended to pass, which would amend the act of Walton, to provide for the official stamping of baled cotton and providing a penalty for violation of the provisions of the bill.

COMMITTEE FAVORS BILL FOR BONDING COMPANIES.

The house insurance committee, Mr. Ledbetter, of York, chairman, Monday afternoon recommended for passage a bill which provides the manner in which the bonding companies may be removed from business in Georgia. The law now requires that they show all obligations paid. The bill provides that the companies may be removed from business in Georgia. The committee recommended that the following bills do not pass: To provide for the removal of insurance companies the presumption shall be that the insured has complied with all provisions of the contract. Obligations is secured.

GOVERNOR HARRIS NAMES UNIVERSITY TRUSTEES.

Governor Harris Monday nominated the following gentlemen for reappointment for eight years as members of the board of trustees of the University of Georgia: Hugh J. Rowe, of Athens; John W. Bennett, of Waycross; Bowdrey Phillips, of Augusta; Howard Thompson, of Columbus; and George P. Gieber, of Marietta. These names will be presented to the senate immediately for confirmation.

REDUCTION OF NOTARIES' FEES IS RECOMMENDED.

House general judiciary committee Monday afternoon recommended for passage the following bills: To change the fees of notaries public from \$1.50 to 60 cents. To make it penal knowingly to receive and harbor stolen goods brought into Georgia from other states. This recommendation was "as amended." The following bills were recommended to do not pass: To prohibit the circulation of slander against candidates for public office, who amend a god senator with reference to work upon the roads so as to reduce the time of service from ten to five days. To repeal a section of the code allowing judges of superior courts in counties having cities of as many as 50,000 population, to appoint special bailiffs.

THE TIMES ARE OUT OF JOINT IN THE SENATE.

There are two clocks in the senate chamber at the state capitol, one on the right and the other on the left of

the president's stand. Exactly eighteen years ago both clocks were stopped. Order that the last night's session might be extended into Sunday morning. The hands on the clocks were turned around several times and then the clocks were stopped. They have never run since. For before the next legislature met a Western Union clock was installed. By one of the clocks it is twenty 7 and by the other it is 1:30 o'clock.

STATEHOUSE KNOWS IT WHEN HOGAN GRATES.

Seldom does a local issue command so much interest as centered in the fight in the senate committee on county officers yesterday when two delegations from Lincoln county spoke on either side of a bill to abolish their county treasurer office. The bill was introduced in the house by Representative Bates. James K. Hogan, a former candidate for governor, J. B. Culvers, James H. Bokin, a prominent banker and editor of the Lincolnian; Judge S. L. Wilkes, T. M. Bentley and other addressed the senate yesterday. Hogan made a fiery and forceful oration, attracting hearers from all quarters. The bill was amended so as not to affect the present incumbent of the office and then recommended for passage. No decision has yet been made.

DR. WILLIAMSON VISITS SENATOR J. M. MANGHAM.

Dr. W. H. Williamson, president of the Bank of Bremen, one of Georgia's most influential citizens, visited the capitol Monday. He was in the city on business and stopped to pay a friendly visit to the senator from the thirty-eighth, Senator J. M. Mangham.

SENATOR CALLAHAN "SAWS WOOD" AND SAYS LITTLE.

When a man doesn't make very many speeches in the senate it very often means that he is doing a lot of work. Such is the case with Senator Callahan, a citizen of Bainbridge, who never "orates" much, but is busy all the time. He is chairman of the committee on railroads. Down in Bainbridge they think Senator Callahan can do about anything he wants to with the laws of Georgia.

SENATOR WALKER "PULLS LAW" ON COLLEAGUES.

Senator John D. Walker, of the Twentieth, is chairman of the senate appropriations committee. His committee has introduced a bill providing for regulation of plumbing in Georgia. Senator Walker, being a business man with his own ideas of how to transact affairs, has reached a rapid conclusion in regard to the plumbing bill. "Does this bill carry the word 'plumber' in it?" asked Senator Walker. "It does," replied an advocate of the bill, smiling broadly. "Well, then," answered the senator, "it will have to originate in the house." The advocate of the bill, however, shrewdly replied: "But we have a substitute which carries the word 'plumber' in it." "That is all right," said the senator. "But if it carries no appropriation, it will not pass." This ended the affair.

GOVERNOR HARRIS WILL BE GUEST OF AD MEN'S CLUB.

Governor Harris will be the honor guest and principal speaker at the annual meeting of the Ad Men's club of Atlanta, which will be held on Monday night at 7 o'clock at the Ansley hotel. At this meeting the Ad Men will elect new officers.

THE FARMER'S NEW VIEWPOINT ON THE AUTOMOBILE.

Perhaps no legislator has ever put up a gamer fight for his bill before a committee than did Mr. Collier, of Stephens, the other day when he tried to repeal the state automobile license tax law came up before the ways and means committee. While the committee recommended that the bill do not pass, the members of the committee did not help but admit Mr. Collier's

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! It's horrible! You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels. Here's my guarantee! Ask your druggist for a 50-cent bottle of Doan's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick, we want you to get back to the store and get your money. Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Doan's Liver Tonic tonight and wake up tonight. If it doesn't start your liver, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

straightforward defense of his measure and the unusual point of view he took. Mr. Collier based his desire for wanting the tax law repealed on the ground that the automobile is the greatest developer of the rural section of the state that Georgia has ever had. "A very few years ago," said Mr. Collier, "the automobile was looked upon with great disfavor and especially by the drivers of teams. They thought the only mission of the automobile on earth was to frighten the horses and scare the drivers of teams. They thought there has been a great revolution of sentiment since that time. The farmer and economist of all machines that have been invented in the last fifty years was the forerunner of the good road movement in Georgia, which has been worth millions to the farmer and business man. We also know today that to replace the energy produced by automobiles with horses is impossible in the state to do it, and the farmer would be left without animals to farm with. If a man came from home the other day I heard a physician say he used to dread to see summer come because he had to drive his horses in hot weather, and when he arrived at the home of his patients he would have to rest because they would wait on them. But since he uses an automobile now, when he arrives at the home of a patient, he is cool and he is composed and he is ready at once to treat his patient. He stated that this has actually been the means of his saving money. The automobile has solved the question of getting to town and to the country. It saves the doctor as well as the patient, for when the doctor was but two miles away from the patient he would take all the time to get to the patient. The automobile has raised the value of real estate in the remote sections of the state. It has made it possible for the farmer to get his business man to the road instead of tearing it up. The narrow road cuts it up. This is why I am against putting a special tax on our best friend."

NEGRO MAN FOUND DEAD

Discovered by Children in Sawdust With Skull Crushed.

Vidalia, Ga., July 26.—(Special).—A party of small children, while playing near the railroad tracks, discovered the body of a negro buried in a sawdust pile with only his hand sticking out. The matter was reported to the authorities here and Coroner J. H. McCloskey was sent to the ground where the negro was murdered. After investigation it was found that the skull was broken with some heavy weapon. No clue to the murderer was found, but the jury is still investigating.

FOR LACK OF LICENSES AUTOISTS ARE FINED

Augusta, Ga., July 26.—(Special).—Twenty-five autoists faced the order on the charge of noncompliance with the law in regard to the numbering of cars. Each was fined \$5. The court could show that he had made an effort to obey the law. Cars are numbered in the city of Augusta, and on many varieties of material.

FIRE AUTO WRECKED WHEN HIT BY TRUCK ON WAY TO A BLAZE

A tragedy was narrowly avoided about noon Monday, when the fire department automobile from No. 2 engine house, speeding, south on Nelson street, in answer to a fire alarm at Mayson-Turner road and Hunter street, collided with a truck of the Reed Oil company at the corner of Madison avenue, which was speeding towards the terminal station. In the terrific impact the fire auto was wrecked and Captain Tass Short, of No. 2 engine house, was thrown out of his seat to the pavement a number of feet to the front of his car. He

was slightly injured, being the only one of the occupants of the two cars to sustain injuries. T. J. Knight, driving the Reed Oil company's truck, and J. M. Purcell, driver for Captain Short, picked him up and, placing him in the truck, carried him back to the engine house. Mr. Knight's car was not damaged.

WHERE RAILROADS CAN HELP. When Georgia delegates representing every section of the state met at Tybee Island Saturday, under the auspices of the city of Savannah and the Savannah Board of Trade, and organized the Georgia branch of the Southern Settlement and Development Organization, they opened the way for as great an undertaking as was ever launched for the development of this state—a work which derives its chief significance from the fact that the railroads of the south are back of it.

For years The Constitution has urged that it is the duty of the railroads which will profit most from it to lend their resources and energy to agricultural uplift and settlement, just as the railroads have done in the west and in Canada.

One of their arguments in reply has been that they are doing it now, that they have organized industrial departments of their own and are engaged in sending out literature showing the advantages of Georgia and other southern states.

Both of these arguments are substantially answered in the establishment of a branch in this state of the Southern Settlement and Development Organization.

At the head of it is S. Davies Warfield, of Baltimore, chairman of the board of the Seaboard Air Line railroad, a financier and railroad man of national prominence, who is giving time and effort and capital to this work without hope of reward other than that which comes to every man and every corporation as a result of the general development and upbuilding of the country.

Many railroads traversing various sections of the south have already joined in the work, others have not. Not one should withhold its material support. It is a south wide proposition. It removes every answer to the railroad argument against participation in working and contributing to bring here that class of agriculturists who are moving over into Canada every year by the thousands.

getting suitable location, and to aid in providing them the land they need upon terms which will make it possible for them to come and work out their own proprietorship through production.

It is in the increasing aggregate of her small farms and their more intensive cultivation that Georgia is growing constantly richer. Nearly 80 per cent of more than 300,000 farms in Georgia today are less than 100 acres, while 40 per cent of the whole number are under 50 acres.

Only about one-third of Georgia's 35,000,000 acres are under cultivation today. We might have three times 300,000 farms of moderate size and still not exhaust our supply of land. The figure will serve to give some idea of our incipient stage of agricultural development, and of the possibilities before us.

The administration of this effort will be placed in the hands of Georgians who will bring to it capacity and enthusiastic interest. They will find the resources with which to meet administrative expenses, and they are going in for results in a direction in which, of recent years, there has been too little attainment.

Atlanta's clearings for last week of \$11,267,000 were 1.9 per cent ahead of those for the same week of last year, at a time when the European war had not begun and was not even anticipated.

With the beginning of the war there was an immediate slump in clearings here as well as everywhere else in the country.

Now we record the best showing we have made since the beginning of the war, and it is quite significant. It shows that things are moving in spite of the war, that we are making substantial progress in the right direction.

There are one or two situations which we must take care of in order to keep things moving right, but they are not being neglected. We are going to have the cotton crop properly and efficiently handled, and we are going to keep on making progress.

With optimism and harmonious effort there is nothing that can stop us. We have already demonstrated that we are on the right road now. All that is needed is that everybody get behind and push, and the predicted prosperity of the coming fall is assuredly ours.

JUST FROM GEORGIA. When Winter Comes. When old Winter comes for sure—Blisterin' around, Mollin' sand the cabin-floor—Take the fiddle down Short on cotton—who's to blame? We'll be dancin', just the same!

ALDERMAN RAGSDALE CELEBRATED FIFTY-SIXTH BIRTHDAY SUNDAY. Alderman I. N. Ragsdale, of the tenth ward, Sunday celebrated his fifty-sixth birthday.

COUNCILMAN FREEMAN IS WINED AND DANCED IN INDIANAPOLIS. Councilman George Freeman is getting a lot of good publicity for Atlanta these days while making a tour of several northern cities.

UNCLE JULES SAYS. IF YOU DIDN'T TELL SOME PEOPLE THAT THE STREETS OF HEAVEN WERE PAVED WITH GOLD YOU WOULDN'T CATCH 'EM IN TEN MILES OF IT.

ACROSS THE DIVIDE. Substantial gain in clearing house receipts to the point of increase beyond the same week of last year indicates that Atlanta is well across the business divide and on the high road to the bigger and better business prosperity promised with the coming fall.

Now we record the best showing we have made since the beginning of the war, and it is quite significant. It shows that things are moving in spite of the war, that we are making substantial progress in the right direction.

There are one or two situations which we must take care of in order to keep things moving right, but they are not being neglected. We are going to have the cotton crop properly and efficiently handled, and we are going to keep on making progress.

GEORGIA'S ORGANIZATION TO BRING DESIRABLE NEWCOMERS TO UNUSED ACRES. Address of S. Davies Warfield, President of the Southern Settlement and Development Organization, on its Plan and Scope.

At the recent remarkable meeting held in the city of Savannah under the auspices of the Savannah Board of Trade a Georgia organization of the Southern Settlement and Development Organization was elected.

Mr. Warfield who is a leading financier of Baltimore and the head of the Seaboard Air Line railroad, undertook the promotion of this organization through patriotic motives, serving without compensation and endeavoring for the common good to enlist the railroads and the commercial and agricultural organizations of the south in the work of bringing to this section a good class of people to settle on the thousands of unused acres found in every part of the south.

Following is a summary of the statement made by Mr. Warfield at the Savannah meeting, on Saturday.

Mr. Warfield's statement. "I do not hesitate to say that it was with some misgivings that I undertook this work. I recognized that the organization should secure a charter in order that its operations might be made more effective.

Later at the same session of the legislature I was fortunate enough to secure an act to incorporate the Southern Settlement and Development Organization throughout the southern states.

Now done the pioneer work we have now turned our attention to the practical work of actually bringing into and locating in this section the proper people who will acquire farm lands and build villages from which will spring towns, thereby increasing the taxable basis of the state and endeavoring to introduce the best class of people what is termed intensive farming bringing about diversification through the ownership by individuals of small farms and the previous experience and investment will necessarily bring about this result.

What we want is greater production from a given number of acres by means of intensive farming—this can be done. But if you want to produce the best results they can be obtained a high class of people must be introduced by smaller farms and better utilized property worked disposing, if you please of part of your property to the proper class of agriculturists so as to be secured to take up surplus lands.

There is no other section of this country of the world that holds out the advantage of the land so abundant as this empire in itself it can grow almost anything and can grow those certain crops which no other section can grow. It is the lands which have the climate we have the most hospitable people in the world. We have growing cities of the south which stand out today as the most beautiful and fertile of any section of this country, and yet with all those advantages there are 250,000,000 acres of unused land in the southern country.

RUSSELL CHARGES MAY BE EXPUNGED

This Recommendation Will Be Made to House This Morning by the Investigating Committee.

So groundless and so utterly without any foundation that the charges made against Judge Richard B. Russell of the court of appeals, by Attorney W. T. Moyers, be declared by the house committee that held the investigation that the committee will recommend to the house this morning that the whole matter be expunged from the records.

Health Commissioner Proposed by Measure Introduced in House

A bill to abolish the office of secretary of state board of health was introduced in the house yesterday morning by Representative L. C. Allen, of Jackson county. The bill creates the office of commissioner of health, who shall be elected by the house for a term of six years from the passage of the act. The state board of health shall elect a commissioner of health, who shall be a competent physician. The term of office shall be four years and the salary \$3,000 a year. He shall perform all the duties of the present secretary of the board of health and in addition shall act as registrar of vital statistics. He shall have general supervision of all public health work, be vigilant in the work of disease prevention, in the conservation of public health, and in the dissemination among the people of knowledge concerning causation and prevention of disease and enforce all the health laws of the state. Mr. Jackson states that the bill does not affect the present secretary of the board of health, as his term expires next October.

Macon Depot Measure Rushed by Committee; Wins Favorable Report

If there can be rushed through the house and senate in the next four days a bill that is under consideration work on the new terminal station at Macon will soon start. It will be close work, however. The house committee on corporations considered the bill with an amendment Monday afternoon. The bill is to perfect the titles to the property that was condemned or purchased for the station site. The amendment is to provide a method for recovery of damages claimed by certain property owners on account of the closing of certain streets. There was a three-hour debate, the property owners contending for the amendment, and the railroad people fighting it. The committee reported favorably on the bill and turned down the amendment. The bill must pass through the house and senate by August 1, as the option on bonds to the amount of \$1,600,000 expires on that date. The bonds will not be transferred unless the bill perfecting the land titles becomes a law.

GOVERNOR WILL SPEAK TO MASONS TONIGHT

Invitations have been issued to members of both houses of the legislature, who are Masons, to attend the communication of Gate City lodge, No. 2, Free and Accepted Masons, this evening, when Governor Harris, past master of Macon lodge, No. 5, will deliver an address. The address will come at the conclusion of the Master Mason degree, which will be conferred in full form. The communication will be held in Masonic temple corner Peach and Cain streets. The lodge will convene at 8 o'clock, confer the first and second sections of the degree, reconvene at 8 o'clock, when the business session will be held, after which the third section will be conferred and Governor Harris will speak. A specially adapted musical program has been arranged, including vocal numbers by Past Master John M. Mullin, and organ selections by Charles Sheldon, organist of Trinity church.

Purchasing Agent Appointed. Rome, Ga., July 26 (Special).—D. B. Hamilton, of Rome, has been appointed as purchasing agent for the board of roads and revenues of Floyd county. The salary of the office is fixed at \$50 a month. In the past the duties of the purchasing agent have been filled by members of the board.

A Guaranteed 15 Jewel Bracelet Watch For \$10.00

Most Bracelet Watches sold in the neighborhood of \$10 are generally inferior 7-jewel cylinder movements.

This new movement is a full 15-jewel lever movement, fully guaranteed, with a 10-year guarantee on the case and bracelet.

Call and let us show you our stock or write for one to be sent you on approval.

Mail orders are shipped prepaid.

A postal request will bring you a copy of our 160-page illustrated watch and jewelry catalogue for 1915.

ENDOWMENT EXEMPTION BILL WARMLY DEBATED

Mr. Heath Accuses Mr. Blackburn of Filibustering to Defeat Measure.

The college endowment bill came up in the house yesterday morning, but was not voted on. Mr. Blackburn, of Fulton, who is opposing the measure, was still speaking when the house adjourned at 1 o'clock. Mr. Heath, of Burke, asked Mr. Blackburn if he was filibustering, and the latter replied that this was no time to be trifling with legislation. He admitted, however, that he might filibuster at times. The bill seeks to exempt from taxation all college endowment funds. It requires a constitutional amendment, and if passed by the general assembly, must be ratified by the people. The bill came from the senate, which has already passed it. It was introduced by Senator Walker, of the twentieth district.

Mr. Heath, of Burke, made the first speech and advocated the measure, stating that it was one of the most important pieces of legislation to come before the legislature at this session. He said that the cause of education should be dear to every citizen of Georgia, and that to help the colleges meant to help educate the young men of the state. He called attention to the present paragraph of the constitution of the state which exempts, among other things, the lands, buildings and college buildings from taxation. He stated that the bill could not be passed until after the people had voted upon it.

Mr. Blackburn, of Fulton, took the floor and spoke until the house adjourned. He said that it was a dangerous thing to tamper with the original constitution in order to give any special privileges or corporations. Fullbright, of Burke, asked him if he did not know that all church property was exempt from taxation to which Mr. Blackburn replied that so far as he was personally concerned, he thought that church property and all other property should bear the same burden of tax. Mr. Culpepper, of Meriwether, asked Mr. Blackburn what about exempting cemeteries, and Mr. Blackburn replied: "You know and everybody knows that you are obliged to exempt the resting places of our dead that no sheriff can levy upon."

Charges Lobbying. Mr. Blackburn stated that the churches had been lobbying for the bill on the floor of the house. "Take away the influences of the churches," he said, "and this bill would not stand a show of passing." "Do you advocate taking away the influences of the churches from the government of the state?" Griffin, of Lowndes, asked him. "No, but I tell you," Mr. Blackburn replied, "when churches get to mixing up with state legislation, it is bad for the state and the churches, too."

Shapiro Bill Reconsidered. Before the endowment bill was taken up Mr. Shapiro, of Chatham, moved a reconsideration of a bill to exempt from taxation all ships registered in the state but not engaged solely in foreign commerce. The motion prevailed and the bill goes to the floor of the senate. It was defeated last Friday.

Committee Favors Branch University At Crawfordville

The committee on education of the house of representatives yesterday afternoon reported favorably on a bill establishing a branch university at Crawfordville in Liberty Hall, the old home of Alexander H. Stephens. The school is to be established at the Alexander H. Stephens Institute. A bill to establish such a school was introduced in the last legislature, but failed of passage. The school cannot be established until the legislature makes the necessary appropriation for it, and it was the appropriation that caused the bill to fail of passage last year.

PLAN COMMISSION TO LEASE W. & A.

Subcommittee Is Appointed to Draft a Bill Which Will Cover Best Features.

The six bills introduced in the house looking to the creation of a commission to re-lease the Western and Atlantic railroad were referred yesterday afternoon by the committee on the Western and Atlantic railroad to the following subcommittee to draft a bill that will cover the best features of the six.

Mr. Hutcheson of Turner, Mr. Elders of Tattall, Mr. Swift of Muscogee, Mr. Cole of Bartow and Mr. Andrews of Fulton. Two of the bills were read and discussed at Monday's meeting, the other four having been given a previous hearing. One of the bills was by Mr. Hutcheson of Turner. It provides for a commission as follows: The chairman of the railroad commission to be ex-officio Western and Atlantic railroad commissioner to act with a special commission of ten to be composed of three members of the house, two of the senate and the tax commissioner, the controller general and two citizens skilled in financial affairs. The commissioner is to be paid \$1,500 a year. The attorney general or the controller general is to be a special assistant attorney general to act with the commission. An appropriation of \$5,000 is provided for expenses.

The other bill was introduced both in the house and the senate Monday morning by Mr. Andrews of Fulton and Senator Dobbs of the Thirty-fifth district. It provides for a commission to be composed of the governor, three members of the house, two of the senate and three citizens from the state-at-large to be appointed by the governor. The commission is to appoint some well qualified person versed in the law relating to railroads and their traffic who shall be designated director for the commission and he shall perform such duties as may be required of him by the commission. An appropriation of \$25,000 is made for the expenses of the commission. All the bills for a commission to re-lease the Western and Atlantic railroad give the commission the power to lease the property on the best and most advantageous terms. The subcommittee will report at a special meeting of the whole committee Wednesday afternoon at 3 o'clock. The same committee made a favorable report on two bills by Senator Persons, the bills having been passed by the senate. Both bills prohibit the building of any railroad that may parallel the Western and Atlantic railroad, one being a statutory act and the other a constitutional amendment.

Go to cool Colorado best and newest way

Neither Atlanta Nor Georgia Will Endure Beckerism

"Many bore false witness against Him."
Mark 14-56

BECKERISM is the protection of criminals in the commission of crime by those whose duty it is to stop crime. Becker was a captain of police in New York. Today, he is trying, in jail, to escape execution as a murderer. The white-slaver, the liquor dealer, the gambler looked to Becker for protection. In the end, he committed murder to prevent exposure. **BEAVERS** is chief of police in Atlanta. He closed the red-light district. In the last two weeks he has pulled five locker-clubs. He has refused to compromise with crime. Today the **CHIEF** has been suspended. What think you? While New York is putting a policeman to death as the result of his trafficking with the underworld, will **ATLANTA** witness the undoing of **HER CHIEF** because of his fidelity to his trust? The power of liquor is frightful. A few months back, in the city of Newark, Ohio, a mob, led by a negro, lynched an officer, Carl Etherington. Etherington had done his duty fighting the liquor traffic. Scarcely will the like happen in Georgia, though a few months back the negro paper in Atlanta joined the pack in the attack on the integrity of Atlanta's force. Since then policemen have had to shoot more than one negro. Lawlessness, seeping down from higher levels, is belching back a frightful tide of filth in black. God pity those who know no better! God open the eyes of men to the shame of the thing that traders in booze and women are trying to put across in the capital of Georgia! God forbid that decent men let themselves be used in this! James L. Beavers, as an individual, is neither more nor less than any other man to the members of this committee. **BUT THE CHIEF OF POLICE** who put an end to **PROTECTED VICE** in this city—the chief who has maintained the **MORALE** of the force in the face of efforts to destroy its efficiency, because the chief would not compromise with crime—**JAMES L. BEAVERS**, the chief, who now has the blind tigers masquerading as **LOCKER CLUBS** facing certain destruction, unless they succeed in dragging him down—the chief who does these things, not because he likes them, but because it is the law and his duty— This Chief of Police, in his fearless stand for civic righteousness and decency, embodies principles for which the Church of the Living God will forever stand. **BECAUSE** of his courage, **BECAUSE** of his honesty, he is so deadly efficient that certain ones have determined **TO GET RID** of him at any cost. And now the day of trial has come. Nominally, James L. Beavers will be tried. In reality, **YOU** will be tried.

ATLANTA WILL BE TRIED BEFORE THE WORLD. YOU must decide. Shall Atlanta crown vice or virtue? Shall liquor and immorality, or law and morality rule in the capital of Georgia? Again we plead with our law-makers now in session in Atlanta! **SENATORS AND REPRESENTATIVES!** Look at the seemingly endless turmoils which uncoil from the near-beer saloons and locker clubs in the cities of our state. Will you not end these? Take from the law-books of Georgia those monstrous hypocrisies known as the near beer saloon and locker club laws! **IF MEN** say, as they unquestionably do today, regardless of law, that, so long as the state puts a high tax upon brewers and sellers of so-called near beer and upon locker clubs the state expects public officials and jurors to perjure themselves and permit the liquor trade, we beg you to repeal those laws licensing near beer and locker clubs. Remove all doubt. Do it clearly, simply, plainly. The **EAKES-FULLBRIGHT** substitute fails to touch the law as to near beer and locker clubs. It is said— **BILLS** were drawn and introduced in the senate and house, which, if enacted into laws, would remove all excuse, but these have been sidetracked because of the men who caused them to be introduced—because of some feeling growing out of the race of **SPEAKER BURWELL**. We had no part in the speaker's race. But, if we had—if we had fought for or against **SPEAKER BURWELL**, at this juncture, we would say—"It matters not—In God's name pass the bills which will free Georgia from the shame of the rising tide of lawlessness!" **MEN OF ATLANTA—REPRESENTATIVES AND SENATORS** of Georgia—what think you of conditions in the capital of your state? Must we endure Beckerism in Georgia? God forbid! In that trial, nineteen centuries ago, it is written—"There stood up certain and bore false witness." And ever since, in the war between right and wrong, men have been found to "bear false witness" against the right, but never yet has the onward march of God been stopped. Right ever conquers in the end. **CHIEF BEAVERS**, though suspended, has no cause for fear. Those who believe in right living and right thinking have no reason to quail. The heart of Atlanta—the heart of Georgia—is sound. **BECKERISM** cannot live in our midst. Neither city nor state will endure compromise with crime. They will uphold the chief.

Even Chicks' Off-Day Today

OFF-DAY TODAY FOR THE LOCALS

Day Tight in the Pinches And Locals Even Series With Some Timely Hits

By Herbert Caldwell. Memphis, Tenn., July 26.—(Special.) Virgil Day, Cracker pitcher by summer profession, wended the season's brush this afternoon and secured it on the Chick's bat artistically as a like job has been done at Ruswood Park this summer.

While the Chicks were trying vainly to turn out a score off Day's delivery, the Crackers, assisted materially by a couple of demerol-moulded, long-hill runs out of the offerings of "Long Hill" Robertson, and for the second time in this season, pitched out the Memphis pitcher.

It was a pretty two-handed argument between Pitchers Day and Robertson, with the exception of one error, contributed by Third Baseman Baldwin, both pitchers were equally assisted by their mates. Sixteen hits were accumulated off Day and but five were amassed off the long Chick chucker.

Those terms in the national pastime known in the parlance of the diamond student as "passes and hooks" gave birth to the Cracker runs.

First Cracker Score. Walked up in the fifth, Kauffman tried open the session with a slow roller to Baldwin, who was slow in fielding, the ball Kauffman heaved and pecked the Cracker first baseman between the shoulders.

The ball bounded to the right field fence and Kauffman bounded on around to third base. Sumner sent Fein to the center field fence to take his fly and Kauffman scored on the out.

Bloland followed then disposed of Day on strikes and McDonald looped out to Stewart in right.

Robertson laid the cornerstone for the second run of the Crackers with a single to left and Lee followed with a double to second by committing larceny on a single to left and Lee Moran drove in the hit best out, but Robertson heaved and pecked the Cracker first baseman between the shoulders.

Moran off second. The only other chance the Crackers had to score on Robertson was in the fourth, when Lee doubled to left and Baldwin followed with one out. He watched the inning pass away and Baldwin and Mitchell moved up a bag. A beautiful throw home by Moran hit Baldwin at third.

With two outs to work out, the squeeze was attempted. After missing one ball, Baldwin and the flash was evidently picked up by the Cracker battery. Baldwin pitched to left and McDonald, who tagged Baldwin in half way between second and third, Crutcher then grounded to second. Thus three hits failed to mold a run for the Chicks.

The Chicks got two other men as far as third, but in each instance they had sent out to work on and the necessary bases were not secured. McDonald sent a terrific drive to left center for three sacks in the seventh, but Baldwin went out to McDonald to Kauffman in the ninth Stewart singled with one down. Anderson, hitting for Roth, grounded out to McDonald, and Alday, sacrifice throw after bobbing the ball.

SOUTHERN LEAGUE

Pelicans 11, Lookouts 1. Chattanooga, Tenn., July 26.—New Orleans batsmen batted very hard today and won an easy victory. Thomas hit two home runs. A single by Pearson and Daley's triple saved the home team's shut-out. It was New Orleans' first victory in Chattanooga this season.

NATIONAL LEAGUE

PIRATES 2, GIANTS 1. New York, July 26.—New York closed a successful home stay today by dividing a double-header with Pittsburgh. The visitors won the first game, 2 to 1, while the Giants won the second, 2 to 0.

The first game was a pitching battle between Adams and Mathewson, the former winning in the sixth inning, when the veteran Vazner singled, took second on Viox's sacrifice and scored. Adams' double, however, secured the second game.

The second game was a pitching battle between Adams and Mathewson, the former winning in the sixth inning, when the veteran Vazner singled, took second on Viox's sacrifice and scored.

The second game was a pitching battle between Adams and Mathewson, the former winning in the sixth inning, when the veteran Vazner singled, took second on Viox's sacrifice and scored.

No Game Scheduled—Will Open a Four-Game Series in Little Rock on Wednesday.

The Crackers have an off-day scheduled for today. The team will probably spend the day in Memphis, looking for a game with the Cardinals.

The Crackers are going to be harder picking than they have been in the past. On their home grounds they will have to hustle in every game in the series.

Johnston Suspended. Chattanooga, Tenn., July 26.—(Special.)—Outfielder Jack Johnston was placed on the indefinite list today pending recovery from a sprained ankle.

Chickamauga 8, Lafayette 7. Chickamauga, Ga., July 26.—(Special.)—Chickamauga defeated Lafayette in the most exciting game of the season here Saturday by the score of 8 to 7.

Crackers' Daily Batting. (Through Monday's Game.)

Table showing daily batting statistics for the Crackers, including players like Leo, Manning, and Moran.

Statesboro 8, Swainsboro 7. Dublin, Ga., July 26.—(Special.)—A two and a half hour ball game here this afternoon resulted in a score of 8 to 7.

Carrollton 9, Lindale 3. Lindale, Ga., July 26.—(Special.)—Carrollton defeated Lindale today by a score of 9 to 3.

Nebraska Indians Win. Albia, Ia., July 26.—(Special.)—The Nebraska Indians defeated the Albia team today by a score of 20 to 2.

Britton and Dundee to Stage Innovation. Britton, S. C., July 26.—(Special.)—The most interesting and closely staged play between the Holland and the Chapin teams on the latter's diamond last Saturday.

South Carolina Dates. Columbia, S. C., July 26.—The playing schedule of 1915 for the football team of the University of South Carolina was announced today.
