AUSTRIAN BOMBS HURLED AT VENICE

Vienna Reports Aerial Bombardment of Italian City. Italians Making Gradual Progress Along Isonzo River.

Vienna, June 8.—(Via London)—The following official communication was issued tonight:

"A telegram from our naval command states that naval flying machine L-47, Commander Bonfeld and Observer Naval Cadet von Strobel, this morning successfully bombarded Venice and dropped bombs on a balloon shed at Murano (3 miles northeast of Venice) and also on an enemy torpedo boat destroyer."

Another official communication tells of the destruction of an Italian airship by an Austrian aeroplane. It says: "The Italian airship Citta Di Ferrara, returning from Piave this morning was attacked and set on fire and destroyed by our naval aeroplane L-48, commanded by Lieutenant Glasling and with Naval Cadet von Fritsch as observer. Two officers and five men of the crew were captured."

GRADUAL PROGRESS MADE BY ITALIANS.

Udine, June 8.—(Via Chiasso and Paris).—Italian forces today were engaged with the Austrians on the eastern banks of the Isonzo, north of Tolmino. They are fighting also around Gradisca, evidently with the intention of encircling that point.

Montero has been occupied as have the mountains between the Isonzo and Idria rivers. These positions dominate the towns of Volzana Ronzina, Canale and Descla, all on the Isonzo.

On the sea operations are being conducted with the idea of gaining pos-

session of the Gulf of Fanesano, whence it will be easier to attack Monfalcone.

POSITIONS TAKEN BY THE ITALIANS.

Rome, June 8.—(Via Paris).—Italian troops are proceeding methodically to take possession of the most important positions all along the frontier, according to a statement signed by General Cadorna, chief of the general staff, issued at general Italian headquarters. The statement follows:

"Our advanced troops proceeded methodically to take possession of the most important positions beyond the frontier all along the line, meeting with slight resistance. At the same time a closely contested artillery duel continued on the plateau of Lavarone and Poligiano."

"The same is the case all along the Isonzo river from Caporetto to the sea, where we are in close contact with the enemy. Strong advance formations protected by artillery actually have reached this important line with the object of establishing themselves solidly at the most suitable passage and of installing there bridge heads commanding the banks, thereby insuring safe crossings."

"Beyond the Caporetto mountains, along the heights and in the valleys our troops are continuing the heavy fighting of June 4-5 against the Austrian positions which are situated on the opposite slope. We have gained firm footholds on both banks of the river and are seriously threatening Udine."

Along the lower course of the Isonzo, after spanning the river with military bridges under the eyes of the enemy, large detachments of our troops, preceded by a reconnoitering force of cavalry, succeeded in crossing to the eastern bank where they now are fortifying themselves. By this maneuver we are assured along the Isonzo front the same liberty of action as on our other fronts. This is important because heavy detachments of troops may thus be employed easily when the time is ripe. Our losses have been relatively light."

Our troops celebrated the national holiday of June 4-5 Sunday with feelings of their high esteem by their courage, their spirit of self-sacrifice and highest patriotic sentiment."

GERMAN TROOPS TO OPPOSE ITALIANS.

Innsbruck Austria, June 7.—(By Courier to Buchs Switzerland, June 8, via Paris).—Extensive preparations are being made by the Austrians to resist the Italian invasion. General Danke arrived at Trent Sunday from the Russian front to take command of one of the Austrian armies. A considerable number of German troops also has been brought into the Trent region.

The Austrians are reinforcing their line all along the Isonzo, where an engagement over a wide front is developing.

Heavy artillery is being brought in from the eastern front by the Austrians for use on the Isonzo.

ITALIANS PREPARE FOR GENERAL ATTACK.

Vienna, June 8.—(Via London)—The

Austrian war office has issued the following in regard to operations against the Italians:

In the Italian coastal district the enemy apparently is preparing a general attack against our positions on the Isonzo river. In his isolated attacks heretofore near Gradisca and Grado he has been repulsed with heavy losses.

In the Carinthian and Tyrol frontier districts the Italians have been keeping up artillery fire without success. An Alpine detachment which occupied Monte Piano, south of Lando, was driven off by our troops. The districts of Ala was visited by plundering Garibaldians."

VIEWS OF JUDGE GARY ON STEEL DECISION

Pittsburg June 8.—Judge James H. Reed, chairman of the Carnegie steel company and a director of the United States Steel corporation, made public tonight a letter from Judge E. H. Gary, chairman of the steel corporation to presidents of subsidiary companies, discussing the recent decision of the federal courts and its effect on the policy of the corporation. The letter says the decision "showed that it has been our intention and effort to so conduct our affairs that we would not be of injury to our employees our customers, our competitors or the general public."

"We must not now make the mis-

take of supposing that, under this decision, we would be justified in changing the course heretofore pursued. We must not become indifferent or careless. We must positively maintain the standards of propriety which we have been following."

People Read Shakespeare

Because:

1. First of all, he is the most interesting and entertaining writer that ever lived. If he were dull, or heavy, or beyond the understanding of the average intelligent man or woman, there would not be a great popular demand for his works.
2. He expresses for all of us the things we long for and feel, but cannot put into words. All the hopes, hates, affections, fears, struggles and triumphs of humanity find utterance in his pages.
3. As a master of English—the greatest living language—he stands absolutely alone. People read him for the wonder, strength and beauty of his words, and in doing so they learn to speak and write effectively.
4. His writings bubble over with joy and health and life. He gladdens, refreshes and stimulates you.
5. To be ignorant of Shakespeare is to be uneducated. The characters he created, the scenes he pictured and the phrases he employed are so much a part of our common speech today that unless you are familiar with them you must appear as one who cares little for education.
6. It is pleasant and profitable, if only for a half an hour when work is done, to shut out trouble and toil, and abandon yourself to the pure enjoyment to be found in Shakespeare.

That Is Why

People read Shakespeare, and that is why you will want to seize this chance to get his complete works in this large type edition, on Bible paper, imported by us from Thomas Nelson & Sons. It includes a dictionary of Shakespearean words and phrases.

GREAT STRUGGLE RAGES IN GALICIA WITHOUT DECISION

The Austro-Germans Gain at Certain Points While the Russians Claim Successes at Other Places.

London, June 8.—The big battle in Galicia has reached no decision. The Austro-Germans have crossed the Dniester south of Lemberg and have assumed the offensive farther to the south, and according to the Austrian official report, have pushed the Russians back between Kolomea and Kalusz in eastern Galicia.

The operation was necessary before the Teutonic allies continued their advance toward Lemberg, as Russian attacks in the region of Kolomea were beginning to look dangerous, after the Russians had, as reported by Petrograd last week, inflicted a defeat on the Austrians in this district.

British and Russian military opinion is that the Austro-Germans, after their big effort, which regained for them the greater part of Galicia, have about exhausted themselves, and the view is expressed that they soon will have to fortify a line on which they can withstand the Russian counter-offensive, which already has made itself felt on the lower San.

FRENCH ATTACK AT MANY POINTS.

If the Russian positions really were dangerous, these authorities say, the allies long ago would have taken the offensive in the west to relieve the pressure on the eastern front.

It is true that the French have been attacking at a number of points between Rheims and the district north of Arras and have gained some ground but the British are quiet and it hardly can be said that a general offensive in the west has begun. North of Arras the French have gained additional

The British report all quiet on their front, but the Zeppelin brought yesterday they claim to have added two German aeroplanes as an offset to the destruction, reported by the Germans, of an allied aeroplane near Douai.

ROADWAY MADE ACROSS CORPSES.

London, June 8.—The fiercest fighting of the war as far as the Baltic provinces are concerned, is being waged in a battle for the mastery of the Dubysa river, according to The Post's Petrograd correspondent. The river changed hands five times in one day and at night the stream was choked with dead so that a plank roadway for artillery was laid by the Russians across a solid bridge of bodies, the correspondent says.

The Dubysa, although wide, is shallow and can be crossed on foot at some places. The Russians and Germans met at a ford half a mile wide north of Hosiulejny, where they fought a day in the water. There were several bayonet charges in midstream and all who fell even though they were only slightly wounded, were drowned.

MORE GAINS FOR FRENCH.

Paris, June 8.—Tonight's war office communication set a very violent "In the region of Notre Dame de Lorette there has been a spirited artillery engagement today. Our infantry has everywhere consolidated the positions previously gained and has made new advances."

"At Neuville-St. Vaast we have carried the entire group of houses to the west of the village, also additional houses in the principal street north of this group."

In the "Labyrinth" our troops repulsed a violent counter attack and slightly increased their progress.

"South of Hebuterne we have maintained a quiet position since last night, notwithstanding a strong attack delivered by two German battalions which were brought up hastily in automobiles from the region east of Arras. Following this we continued our progress farther to the east on a front of about 1,200 meters."

"The enemy violently bombarded the trenches which we took up yesterday north of the Aisne near Moulon-Sous-Touvent. This bombardment, to which our artillery valiantly replied, was not followed by a counter attack."

The communication issued in the afternoon follows:

"North of Arras there were some infantry engagements yesterday and last night. On the eastern slopes of the Plateau of Lorette the enemy replied to an attack from us by three violent counter attacks. This activity did not result in any changes of position."

"Northeast of the sugar refinery of Souchez we made further progress."

At Neuville St. Vaast we gained possession, as a result of very violent fighting, of a further group of houses in the region of "The Labyrinth" a German counter attack, which was repulsed.

"Southeast of Hebuterne the Germans endeavored to capture the positions they had lost. Our different units were driven back. We increased our gain to the northeast by taking possession of two lines of German trenches along a front of length for 500 yards, or as far as the roadway running between Hebuterne and Seneffe."

We took a total of 150 prisoners of whom 100 had not been wounded.

ADVANCE CLAIMED BY THE TEUTONS.

Berlin, June 8.—(Via London.)—General von Linsingen, in his advance from Przemysl in the direction of Lemberg, has reached Lubaczow, 45 miles northeast of Przemysl.

This information was contained in the official report given out at German army headquarters today.

The report follows:

"Western theater An enemy attack on the southern slope of the Lublin hills failed completely, and the French refrained from making further attempts to attack. South of Neuville an attack was prevented by our artillery fire."

"Southeast of Hebuterne the battle continues. An attack on the heights of Soissons at Moulon-Sous-Touvent has been brought to a standstill by our counter attacks. At the Auville, northwest of Berry-au-Bac, the enemy suffered heavy losses in an unsuccessful attempt to recapture the position lost in May. A flying machine of the enemy was shot down."

"Eastern theater Our offensive movement in the Shavil district and east of the Dubysa is taking its course. Southwest of Plozook an enemy aeroplane was captured."

"Southwestern theater: Last of Przemysl the general situation is the same. The number of prisoners taken by the army under General Mackensen since June 1 amounts to more than 30,000. In the hills near Nowoszn, northeast of Zoralt, the troops under General Linsingen again defeated the enemy. The pursuit reached the line of Lubaczow and crossed the Lukwa and reached Byalow, east of Kalusz, Wojnilow, Ferodnie and Kolodzielow. The booty taken by the army amounts to 4,300 prisoners, 4 cannon and 12 machine guns."

RUSSIANS REPORT BLOODY FIGHTING.

Petrograd, June 8.—(Via London)—The war office communication says: "Fighting continued in the Shavil region without essential changes in the general situation. Artillery duels still prevailed at Ossawer."

"Note on the Skwa and Rozoga rivers the enemy made an ineffectual attempt to assume the offensive. There was artillery firing in the Orak valley and the region of Przemysl on the 6th."

"On the left bank of the Vistula and on the San and Lubaczowka rivers there is no change in the situation."

In the direction of Miosziska, on the 6th and on the morning of the 7th, the enemy made obstinate attacks on the left bank of the Wiszania and on the front of Cielki, Fokost and Przemog. On hill No. 255, southwest of Radevice, a hand-to-hand engagement lasted a long time."

"On the Dniester the enemy has not renewed his offensive in the direction of Slobodiv, but he unsuccessfully attacked our bridge heads near Zidoczay."

"In the region of Zurawna the enemy succeeded, on the night of the 6th, in crossing the Dniester with some of his units."

"In the valley of the Lukwa we repulsed an enemy attack, taking over 400 prisoners."

In the region of Kolowee, the enemy ceased his determined attacks against our forces and has been thrown back with heavy losses. Before the front of one of our divisions the Austro-Germans abandoned 5,000 dead in the attack in this region we took twenty officers and 700 men prisoners."

NO CHANGE ON BRITISH FRONT.

London, June 8.—Field Marshal Sir John French, in a report on the fighting on the western line, says:

"The situation on our front has not changed since the last communication of June 4. There has been less activity on the part of the enemy."

"On the 6th, in front of the Plogsteert wood, we successfully exploded a mine under the German trenches, destroying thirty yards of the parapet."

"We have brought down two German aeroplanes, one opposite our right by gunfire and the other in the neighborhood of Ypres as the result of an engagement in the air with one of our aeroplanes."

RUSSIANS DRIVEN, AUSTRIANS SAY.

Vienna, June 8.—(Via London.)—At army headquarters today the following statement was given out:

"In the districts of the Pruth and Dniester (Gich) the troops of the Teutonic allies yesterday prosecuted an attack along the Lanczyn-Nadworna-Kalusz line and pushed back the enemy toward Hosiulejny and Kalusz. Further progress was made on the left bank of the Dniester, and on the night of Zurawna 6,000 Russians being captured. Otherwise the situation is unchanged."

BRITAIN MAY INSURE AGAINST AIR RAIDS

London, June 8.—Premier Asquith announced in the house of commons today that the British government was considering initiation of a national insurance scheme to cover the losses inflicted by German air craft.

The premier made this statement while replying to a number of questions relative to the damage done in the recent German air raids.

"Relief will be granted in all these as well as in previous cases," said Mr. Asquith.

MUNITIONS MEASURE PASSED BY COMMONS

London, June 8.—The house of commons today adopted an amendment limiting the powers of the new ministry of munitions "to those already conferred by statute or otherwise on any government department or authority."

That apparently met the objection that David Lloyd-George, in his new office would have unlimited power.

The house passed the munitions bill on third reading.

Most Old People Are Constipated

The wear of years impairs the action of the bowels. With advancing age people are disposed to restricted activity and exercise which is responsible for the constipated condition of most old folks. The digestive organs are more sensitive to the demands made upon them and rebel more quickly.

A mild effective remedy for constipation, and one that is especially suited to the needs of elderly people, women and children, is the combination of simple laxative herbs with pepsin that is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 462 Washington St., Monticello, Ills.

MAYO VICE ADMIRAL; TOLD HUERTA TO SALUTE

Wilson Promotes Officer Who Precipitated the Crisis at Vera Cruz.

Washington, June 8.—Rear Admiral Henry T. Mayo, commander of the first division of the Atlantic fleet was designated today by President Wilson as a vice admiral of the navy. He is the first of three vice admirals to be appointed. Admiral Mayo will be second in command of the Atlantic fleet and continue in command of the first division. He was appointed under one of the

final acts of the last congress which authorized the creation of three admirals and three vice admirals, to hold their grades while afloat. No decision yet has been reached on the appointment of a vice admiral for the Pacific fleet, and it was held to be possible that none would be named for the comparatively small Asiatic fleet. Admiral Winterhalter, now en route to the Far East to take command of that fleet, will soon make recommendations on the advisability of such an appointment. Admiral Mayo is the officer who demanded a salute to the Stars and Stripes by General Huerta, precipitating the crisis which led to the American occupation of Vera Cruz.

SUBMARINES SINK NEUTRAL VESSELS

Three Norwegian Ships Sent to Bottom—Belgian Steamer Torpedoed and Seventeen Lives Lost.

London, June 8.—The Belgian steamer Menapier has been sent to the bottom by a German torpedo near the North Foreland. Out of twenty-three persons on board only six were saved. The captain, his wife and his daughter, the first mate and the pilot and twelve members of the crew lost their lives. The Belgian steamer Menapier of 1,425 tons, was 281 feet long. She was built in Sunderland in 1908 and was owned in Antwerp. The North Foreland is in Kent county, on the North sea. The survivors were landed today at Margate. One officer, badly injured, was sent to a hospital. The survivors say the Menapier sank in a few minutes.

THREE NORWAY SHIPS SUNK BY SUBMARINES.

London, June 8.—The Norwegian vessels Trudvang and Superb have been sunk by German submarines. The Trudvang, a steamer of 640 tons, was 224 feet long. The Superb was a bark of 1,293 tons. The Trudvang was halted by a German submarine soon after midday yesterday off St. Ann's head. The captain was ordered to bring his papers aboard the submarine, whose commander gave the crew twenty minutes to take to the boats.

The submarine then sent twelve shells into the Trudvang. The shooting brought out a patrol boat from Milfordhaven, which picked up the skipper and crew numbering thirteen, from the boats. During the operation the submarine attempted vainly to torpedo the patrol boat. The men from the Trudvang were landed today at Milfordhaven.

The sinking of the Superb occurred 50 miles east of England. Explosives were placed on board the vessel after the crew had taken to the boats. Seventeen survivors were landed today at Margate.

Another Norwegian steamer sunk is the Glittertid, 376 tons net. This vessel was built in 1913 and was 188 feet long. The crew of the Glittertid was landed today in the Tyne. The vessel with a lumber cargo, was on her way from Sweden to Harwich when she encountered the submarine. The Germans gave the crew ten minutes to take to the boats before firing a torpedo, and afterwards towed the ship's boats for thirty minutes until a trawler hoisted a signal.

TRAWLER SUNK IN NORTH SEA

Hull, England, June 8.—The trawler Pentland has been sunk in the North sea by shell fire from a German submarine. The crew was saved.

FRENCH BARK SENT TO BOTTOM.

London, June 9.—(150 g m.)—The crew of eleven men of the French barkentine Liberté have been landed at Milford. The vessel was torpedoed and sunk by a German submarine in the channel after the crew had been given time to get away from her.

NAKED CHILDREN BEG FOR BREAD

Little Ones Die Before Doors at Which They Beg in Mexico City—Conditions Are Appalling.

San Antonio Texas, June 8.—Mexico City's streets are filled with paupers begging for food, and the death rate is averaging 500 a day, many of them children, who die from hunger, a letter received here today from S. Jamieson Swarman, for 15 years a merchant in the capital, asserted.

While our residents are dying of hunger, said the letter, "the soldiers of Zapata are robbing, stealing, killing and destroying. President Roque Gonzalez Garza is in charge of the situation but he is unable to offer any relief. He already has confiscated all foodstuffs in the stores, private residences and restaurants for distribution among the poor and middle classes. He was unable to give each family enough rations to last them through seventy-two hours if they practiced economy.

All day the streets are filled with paupers begging for a bite to eat. Most of the street beggars are women with babies in arms. At night naked children go to the doorsteps of the richer Mexicans to plead for food, and when morning comes their little bodies are stilled by ambulances are removing their bodies by the hundreds every day. It is estimated the death rate is 500 persons a day."

PLANNED TO DESTROY NOTED SIMPLON TUNNEL

Geneva, June 8.—(Via Paris.)—A dispatch from Brig. Switzer only declares that a man had been arrested at Domodossola, Italy, charged with the intention of blowing up the Simplon tunnel. He was presumed to be an Austrian agent. He had in his possession a plan of the tunnel, which is 12 1/2 miles long, and connected Brig with Domodossola, and in the room where he was living the authorities found a powerful bomb.

SOCIETY

Cox-Reins.
The marriage of Miss Alice Bacon Cox and Mr. Francis Baker Reins will take place on the evening of June 20 at the home of the bride's mother, Mrs. Charles C. Cox, on Piedmont ave.

Tea-Dance.
The weekly tea-dance will be this afternoon at the Driving club. Among those entertaining parties will be Mrs. Mottie Fitzsimmons, Mrs. W. D. Ellis, Jr., Miss Caroline Muse, Mrs. Robert C. Alston, Mrs. Gus Dode, Mrs. George Kent Varden, Dr. E. A. Ballinger and Miss Aileen Moran.

Albert-Jeter.
The wedding of Miss Irene Albert and Mr. Francis Hamilton Jeter, of Raleigh, took place last night at the home of the bride's mother, Mrs. Ada G. Arnold, in West End.

Mrs. George Ripley, Jr., was matron of honor, and was gowned in white crepe de chine and lace, and carried pink roses. Miss Ruth Johnson, wear-

ing pink crepe de chine and carrying pink roses was bridesmaid, and the little Miss Browlie Merritt carried the ring in a big pink rose, and she was a dainty gown of pink tulle. Mr. William Roseborough was best man, and Dean Atkinson, of St. Philip's church, officiated.

Before the ceremony, Mrs. Nina Hunter sang "O Promise Me," and Mrs. Hattie M. Jones sang "Promises, Promises." Mrs. Eugene Booth played the wedding march.

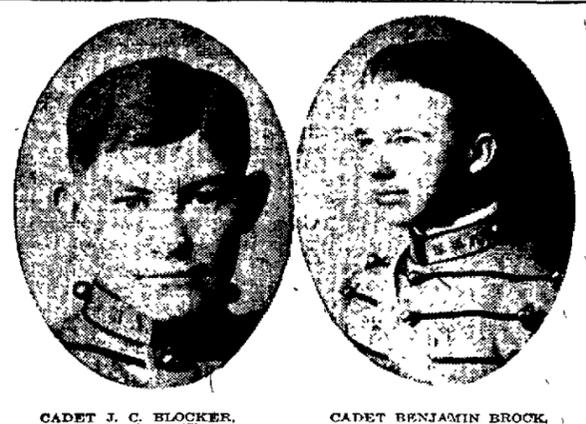

The bride was charming in white crepe de chine, the corsage of tulle, and her tulle veil fell from a chaplet of orange blossoms. Her flowers were a shower of bride roses and valley lilies.

The bride's mother wore gray silk combined with lace, and assisting in entertaining were Mrs. J. H. Merritt, who wore black net, and Mrs. Arthur Hale, gowned in white embroidered voile. Miss Mary Merritt and Miss Charlotte Taylor served punch.

After a visit to relatives in South Carolina, Mr. and Mrs. Jeter will travel in the West. They will make their home in Raleigh.

ATHENS HIGH HOLDS HOME-MADE EXERCISES

Athens, Ga., June 8.—(Special).—The Athens High school celebrated a "home-made commencement" this week in ending the term with thirty-three girls and boys receiving diplomas. The Association of High School Superintendents and Principals, here for their annual meeting, formed an appreciative part of the audience. Tonight the simple exercises revealed what the boys and girls can do in addition to the literary curriculum work. The essays and speeches were, of course, their own productions; the girls wore dresses,

SUMMER EXERCISES FOR ATLANTIC FLEET

Almost Continuous War Game Off Atlantic Coast for Next Three Months.

Washington, June 8.—A summer program for the Atlantic fleet to take the place of the recently abandoned cruise to San Francisco through the Panama canal was announced today by Secretary Daniels after a conference with Admiral Fletcher, commander-in-chief of the fleet, and Rear Admiral Benson, chief of operations.

The fleet will assemble in Narragansett bay, June 25, and remain there until July 15, when the ships will go to Block Island sound for fleet maneuvers, to continue until August 31. Two squadrons will exercise in the vicinity of Cape Cod, Nantucket, and other points.

On September 10 the fleet will assemble in Hampton Roads, target practice in Tangier sound occupying the next fortnight. Leaving Hampton Roads on September 29, the ships of every description will go to sea for a war game which will continue for ten days.

No formal announcement had been made hitherto of the abandonment of the cruise to San Francisco. In giving out the summer program today Secretary Daniels merely said "the program previously announced including the cruise to San Francisco will not be carried out this summer."

The battleships Wisconsin, Missouri and Ohio, comprising the first and second practice squadrons will leave Annapolis for San Francisco by way of the Panama canal as soon as the court of inquiry into the Lusitania disaster has concluded its sittings.

FORCEFUL COURSE AGAINST GERMANY

Continued From Page One.

tee against other violations of American rights. The German ambassador, Count von Bernstorff, the German ambassador, called on Counselor Lansing early in the day to inform him that, although the German note had been removed to Cedarhurst, he would remain here indefinitely to await a copy of the American note. Later in the day Mr. Lansing had transmitted two more affidavits of persons who claimed to have overheard people say there were guns on the Lusitania.

Mr. Lansing indicated that the affidavits were not regarded as important. The department of justice has investigated the evidence given in all the affidavits and has definitely decided that there were no guns on the Lusitania.

The report of this investigation came to hand today and is believed to have been one of the things which delayed the American note. The president emphasized to callers early today that there had been no intentional or unnecessary delay in preparing the document. He said many suggestions had been made by Mr. Bryan and others but that the general character of the note had not been modified. This was interpreted later as meaning that the note would be issued as it was disposed of last week and that the delay subsequent thereto was really due to details in the careful preparation of the phraseology of the note.

NOTE OF DEFIANCE SOUNDED IN BERLIN. Amsterdam, June 8.—(Via London.) George Bernard, writing in the Voetsche Zeitung, today says: "It is a disgrace that America will shirk the obligation to discuss with us preliminary questions concerning the character of the Lusitania. Whether this British ship had weapons and ammunition on board seems to President Wilson to be less important than to learn from us what we think of the prosecution of a submarine war."

We confidently hope that our government will have nothing to do with such distortion of facts. If President Wilson wants a decisive answer from us it ought to be given. The Lusitania was a British ship with contraband war material, to torpedo which was an absolute right within the war zone.

We cannot allow ourselves to be lectured by the United States on this right which we exercise in self-protection.

GERMANY DELAYS ABOUT THE FRYE. Berlin, June 8.—(Via London.) June 8, 1915. Germany has sent a note in reply to the representations of the American government regarding the American steamship William Frye, which was sunk by the German auxiliary cruiser Prinz Littel Friedrich last week. The note reiterates the original view taken by Germany, which was that the ship should be sent to a prize court.

The American government asked that compensation should be paid for the destruction of the vessel without waiting for a decision by the prize court, but Germany, although ready to indemnify the owners for their loss in any case, under the provisions of the German-American treaty, holds as a general principle that owing to the possibility that others than Americans have interests at stake, the prize court should first pass on all cases.

NEUTRALITY DECLARED BY TINY LICHTENSTEIN. Zurich, Switzerland, June 8.—(Via Paris.) The principality of Lichtenstein, having a telegraph and postal communication with Austria-Hungary, has declared its neutrality. Consequently, the Swiss government, with the consent of France, is allowing the transit of wheat from Austria-Hungary to France.

The principality is located between Austria and Switzerland, and has an area of 85 square miles and a population of about 11,000 persons; almost all devoted to agriculture.

Austria-Hungary has notified Switzerland that Lichtenstein is under its censorship, telegraphic and postal, and that it is within Austro-Hungarian theater of war.

EFFICIENCY IN WHISKY, DECLARES LIQUOR CHIEF

President Woolner of Liquor Association Makes Attack on Prohibition.

Cincinnati, June 8.—Opponents of prohibition and exponents of temperance fell away at the opening sessions of the annual convention of the National Wholesale Liquor Dealers here today.

"Let those men who call themselves republicans and democrats at all times be endeavoring to foist prohibition upon these great parties," said Congressman Jacob M. Meeker, of Missouri, "let them say they have not been with the national prohibition party for the last quarter of a century and let them now get into the prohibition party with all other political malcontents who are trying to ride into public favor on this single issue."

"We must be on our guard against that type of man who will secretly edge himself in advance of his nomination and election to support a 'dry' measure or any other measure, simply that he may obtain the favor of some gang."

Delegates were welcomed by Mayor Spiegel, who said: "I am opposed to prohibition, but I am in favor of temperance. I believe in the widest range of human liberty consistent with the happiness of all concerned. I believe in home rule. No person should be deprived of opportunity to enjoy himself, or partake of that which he knows will benefit him, simply because some other person cannot control himself."

Efficiency in Liquor. "The solution of what is commonly called the liquor question depends upon what we consider the problem to be," said Senator Woolner, Jr., of Florida, Ill. president of the liquor trade.

"The prohibitionists," continued Mr. Woolner, "would have us believe that the abolishment of the legitimate manufacture and sale of liquor would remove entirely the demand for drinking absolutely; that the nation would be much better off and that the individual living in this padded and perfumed atmosphere would be happy and contented more than ever."

After reading the annual report of United States Commissioner of Internal Revenue William H. Osborn, in which illicit distilling during the past year was said to have increased slightly over the preceding year, Woolner said:

"It was readily seen from the commissioner's report that prohibition neither prohibits nor lessens the demand, merely changing from the legitimate manufacturing and distribution to illegitimate."

so let us have local self-government free to eat or drink what he chooses until he has proven himself incompetent to govern his freedom without jeopardizing the life, property and liberty of his fellow men."

WALSH IS DEFENDED BY SAMUEL GOMPERS

New York, June 8.—A defense of Frank P. Walsh, chairman of the federal industrial relations commission, presented by Samuel Gompers, president of the American Federation of Labor, in an address here today before the biennial convention of the National Women's Trade Union League of America.

Mr. Gompers' reference to Walsh followed his criticism of the adoption of the Clayton bill and the season's bill. These measures, he said, "would be attacked by interests supported and backed by foundations of unlimited wealth."

"In nearly all the newspapers we see bitter attacks on Frank P. Walsh," continued Mr. Gompers. "These attacks are the result of the origin in the foundations that have at their disposal the millions of the Rockefeller family, who are bent upon poisoning the minds of the people."

"It has been my great pleasure to express my very deep appreciation of his splendid work. I refer to this matter for the reason that it is an example of the terrific power that wealth has over our working people."

Mr. Gompers, referring to the work of the organization that he was addressing, said that the American Federation of Labor recognized the right of woman to equal consideration in all affairs having to do with the betterment of mankind.

Sample of crude Vitalitas, just as dug from the earth, and a miniature plant showing how the new earth fluid is produced, from it have arrived from Houston, Texas, for a several weeks' display and demonstration here.

Vitalitas is the wonderful new product discovered recently by scientists in the region of Mexico. This place in the world it has been found. JITNEYS ARE HELD COMMON CARRIERS

Railroad Commission Issues "Public Motor Vehicle Rules" and Says They Are "Here to Stay."

The Georgia railroad commission on Tuesday handed down a decision holding that "jitney" buses are common carriers and, as such, are subject to regulation by the commission. The commission also drew up a set of tentative regulations to govern "jitneys" and set July 13 as a date when the hearing will be reopened for the purpose of allowing all interested to favor or disfavor these regulations so that a just and reasonable degree of regulation may be arrived at. The question of the power of the railroad commission to regulate "jitney" buses was presented to the commission several weeks ago when the Georgia Railway and Power company petitioned the commission to assume jurisdiction over the "jitneys" and regulate them. This petition was indorsed by street railway companies of other cities where "jitneys" were in operation.

Georgians Leave Tomorrow to Attend Booster Meetings Along Route.

Rome, Ga. June 8.—(Special)—Fifty Romans in ten automobiles will leave here Thursday morning for a trip to Birmingham and return on the proposed Alabama or "Forrest" highway from Birmingham to Atlanta, leaving the Dixie highway at Rome. Thursday at Centre, noon at Gadsden and 8 p. m. at the Chamber of Commerce building in Birmingham. The return trip will be made Friday via Anniston. The purpose of the trip is to encourage the building of a through highway from Birmingham to Atlanta via both Anniston and Gadsden, the two routes uniting at Rome and following the Dixie highway from here to Atlanta. All of the counties along the route are interested and their civic bodies are displaying great enthusiasm in the matter. The road via Gadsden is already in good shape and is the accepted route for motorcycle races and auto tours. With a little surfacing the road would be in splendid condition. This work is being done by the Georgia highway commission and the road incorporated as a branch or feeder for the Dixie highway system.

Easier Thinking

Brain-fag—mental confusion—indecision—a mind that must be driven to perform a task well within its ability—these are signs of something wrong.

The power to think easily and quickly and accurately is dependent upon physical energy.

When the brain refuses to work, it is often the rest of the body that needs attention. The causes of depleted mental energy are many, but mostly of physical origin.

At Battle Creek you learn why work has become so hard, and how to make it easier through applying the laws of correct living to your individual case.

A month of scientific rest and proper living will turn the other eleven months of work into a season of gratifying activity, instead of one of protesting weariness.

Speedometer Gives Damaging Evidence Against Speeders

From unlooked-for and unseen places a silent motorcycle gilded and noiselessly followed the speeding auto.

Cats were flying at a speed of between 25 and 40 miles an hour. He had their numbers and he was keeping a record of their speed.

This work was started secretly four or five days ago.

The result was that eleven cases were made and tried in the police court Tuesday afternoon.

Those that pleaded guilty were let off with a word of warning. Those who fought the record of the unseen motorcycle with its tell-tale speedometer were fined \$15 each.

Here is the first result of the mythical motorcycle.

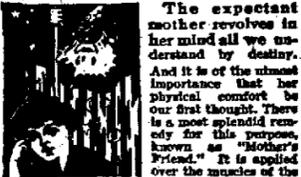

Let off with a word of warning on plea of guilty: George L. Hope, Jr., M. M. Masburn, W. D. Huff, J. B. Miller, James Carroll and W. H. Baldwin.

Fined \$2.75 for fighting against fate: Bill Davis, colored; A. L. Brandt, W. B. Barrett, Louis South.

Not present for trial: W. A. Herling.

And the work is going on. The unseen motorcycle with its speedometer will catch the speeders and no denial of the speeding will save those who are caught.

Emerson Hough with a box of worms, a little basket with a hole in the top and a happy grin, was on his way to a Wisconsin trout stream when a Universal telegram flagged him at Oshkosh and yanked him back to Chicago. "O, Emerson, will you or will you not write our next serial?" said the Universal wire, and Emerson answered, "Well I've got ten thousand bones handy and don't keep asking me how're ye gettin' along with that manuscript." So the celebrated author of "The Mississippi Bubble," "54-40 or Fight" and other thrillers, put his worms in the safe, plucked his grin, hung his basket on the postcullis and wrote "THE BROKEN COIN."

And Emerson has written a yarn that will peel the paper off the wall, scratch the furniture, joggle the What-Not and wake the children. When Francis Ford and Grace Cunard read it and saw what they had to do, they simply went bugs. Now, watch these screws start work.

"THE BROKEN COIN" succeeds "THE BLACK BOX" June 23. Go to your best theatre now and tell the manager you know this serial is on the way and that you want to see it on his particular screen. BRYAN PROMISES FULL STATEMENT

Will Explain His Attitude in Detail as Soon as American Note Is Dispatched to Germany.

"PREVENTION OF WAR" NEAREST BRYAN'S HEART Washington June 8.—In connection with Secretary Bryan's declaration in his letter of resignation that the prevention of war was the cause nearest his heart it was recalled here tonight that in a speech eight days after taking office the secretary said: "I made up my mind before accepting the office of the secretary of state that I would not take the office if I thought there would be a war during my tenure."

Washington June 8.—Secretary Bryan virtually had congratulated himself out of the administration all day Denning himself to newspaper men twice during the day at his usual time for receiving them the secretary there by aroused suspicion that something unusual had occurred. After lunching with other members of the cabinet he returned to his office accompanied by Secretary Daniels, who remained for a few minutes. Later Secretary Daniels steadfastly refused from discussing what had occurred at the cabinet meeting.

Secretary Bryan was at the state department until 10 o'clock and during the afternoon saw Mr. De Gama, the Brazilian ambassador. A few minutes before leaving the secretary dropped into the office of Counselor Lansing for a brief chat with the man who will take up his portfolio tomorrow.

Bryan Meets Newspaper Men. There is nothing to be said, Mr. Bryan remarked to a group of newspaper men as he left Counselor Lansing's office. They were there a few minutes before it had been learned unofficially that the resignation had been submitted and accepted.

There is much speculation about someone suggested to the secretary. To all Mr. Bryan responded with a smile. You know there is a law against speculation in futures. You gentlemen want to be very careful about speculation in futures, you know.

When he was asked by a reporter who awaited him in an automobile they rode for an hour returning to their home about 6 o'clock. Mr. Bryan had just prepared to go to the dining room for a reporter of the Associated Press reached the house. The secretary was attired in evening clothes and appeared in a jovial mood.

Mr. Secretary, we are informed that you have resigned. Where did you get that information? he asked sharply. I would like to be a reporter and to do such an occurrence before I discuss it.

Bryan to Make Full Statement. What has happened here has been announced at once by the secretary and asked for an interchange of letters between the president and himself had been made public. This he learned had been done.

The letters, said Mr. Bryan, state the reasons for my resignation showing that it was precipitated by differences of opinion as to what should be taken with regard to the American reply to the German note. I will have a more complete statement that will be given out as soon as the note is sent which probably will be tomorrow.

I would like to say more but cannot do it at this time. It would not be appropriate for me to make public my statement regarding the situation until the note has been forwarded to the German government. There is no possibility of that being done tonight because the note has not been prepared and will be ready for the wire early tomorrow.

What are your plans for the future? Mr. Bryan began just as Mrs. Bryan appeared at the door to remind him that he must hasten.

We have only twelve minutes, said Mrs. Bryan. All right, I will be right there, the secretary answered, turning again to the correspondent he continued.

To Remain in Washington. We will remain in Washington for a while. Just where we will go or what we will do I cannot say at this time. Our plans, necessarily, are not matured.

By this time the secretary was walking toward the time to join Mrs. Bryan. They had started to leave the grounds when Secretary Daniels, driving by, halted the secretary and Mr. Daniels talked for a few minutes before the Bryans hastened on to keep their engagement.

department seemed to foreshadow a sensational climax. The situation from early morning until late at night was strained one. When Secretary Bryan reached his office early in the morning he wore a troubled look. This had worn off later in the day, particularly after the luncheon with other cabinet members. Those who saw the secretary early in the day, particularly in the morning, to the gravity of the situation relating to the German negotiations, and while continued was aroused with after 11 o'clock the hour for the cabinet meeting had passed.

Usually on cabinet days the secretary does not give audience to newspaper men, but meets them in the corridor a few minutes before the hour and asks them to walk with him over to the white house. This morning more than thirty newspaper men were waiting outside the cabinet hour and Mr. Bryan did not appear.

Correspondents looked inquiringly at each other and wondered about the delay. Was he going to the cabinet meeting? they asked. Do you suppose he's resigned? The later word was sent in asking the secretary if he would see the newspaper men. Mr. Bryan directed a reply that he was detained from the cabinet by important business.

When he appeared at last just before noon, brisk and smiling he greeted the waiting press with: Well will you walk with me? Do you mind my following directing and the questions which I had important business which detained me. Mr. Bryan answered to all and no one but the press until after the formal announcement from the white house.

WHO WILL BE CHOSEN FOR BRYAN'S PLACE? Well-Informed Persons Believe Counsellor Lansing May Be Retained as Secretary.

Washington, June 8.—Robert Lansing successor to John Bassett Moore, as counselor of the state department, becomes secretary of state and interim plenipotentiary when Secretary Bryan's resignation takes effect. He is a son-in-law of John W. Foster, secretary of state under President Harrison, a lifelong democrat and has been an international lawyer for many years.

Mr. Lansing is a well known figure in the diplomatic world and has already gone to President Wilson's probable selection for the secretaryship. It is the president's plan to make no immediate appointment. It would not be surprising if he made no change in the present status of the department's personnel for two or three months.

Secretary Franklin K. Lane of the interior department has been frequently mentioned as a possible successor to Secretary Bryan but the belief exists that he will not be chosen on account of his Canadian birth and the considerable difficulty in finding a man to take over Mr. Lane's important work on the Alaskan railways and other projects of the interior department.

It is considered entirely probable that the president will make no shift in his cabinet, if all but will choose a new man to fill the vacancy in well known to the public. It is thought likely that he will retain Mr. Lansing as secretary. To do so would require the removal of another counselor, a difficult task.

Mr. Lansing has prepared memoranda for all of the important matters that have gone to belligerent governments, since the European war began, and is looked upon not only as an expert in international law but as a clear thinker and adviser. For many years he has served on boundary commissions and arbitration tribunals. He is a comparatively young man, well acquainted with the present situation, and has won the admiration of the president and Mr. Bryan by his loyalty and ability. On many occasions Mr. Lansing has submitted memoranda expressing his views on the situation of Mr. Bryan but he has tactfully avoided embarrassments.

Lane Called to Washington. New York, June 8.—Franklin K. Lane, secretary of the interior, in this city tonight to attend a private dinner given by Chancellor Edwin E. Brown at the University to candidates for honorary degrees was called to Washington before the dinner began. It was learned late tonight.

GERMAN SPY CARRIED AMERICAN PASSPORT Passport Secured in Berlin. Rosenthal Swore Falsely He Was U. S. Citizen.

London June 8.—Robert Rosenthal, who confessed to being a German spy sent to England by the German admiralty after his arrest here on Saturday, had in his possession a passport issued by the American embassy in Berlin. There is no evidence that the passport was forged. The seal is genuine and in other respects the passport is regular, according to his own confession. Rosenthal never was an American citizen.

Information gathered here as the result of an inquiry conducted by the American embassy indicated that Rosenthal went to the Berlin embassy, accompanied by several friends, one of whom was an American citizen. Rosenthal is said to have sworn falsely that he was an American citizen. His statement being attested by his companions. He was given a temporary passport.

No further steps will be taken by the embassy here, as it has been established that Rosenthal is not an American citizen. Any further action which may be taken to investigate Rosenthal's methods of procuring the passport will be left to the Berlin embassy.

AIR RAID MADE ON THE TURKS. London June 9.—(2:39 a. m.)—A successful English air raid on the Gallipoli peninsula is reported by The Daily Telegraph's Bucharest correspondent. The Turkish base in the harbor of Gallipoli, killing three soldiers and wounding a dozen, and severely damaging the storehouse and stores.

The correspondent adds that the German submarine T-21, which recently sank the British battleships Triumph and Majestic, has arrived in Constantinople, where her crew was feted.

Wilson Showed Deep Feeling Over Bryan's Resignation

President Allowed Bryan to Go Only After He Was Convinced That He and Secretary Were Unalterably Apart in Regard to Germany.

Washington, June 8.—President Wilson by his every word and act today showed his deep feeling over Secretary Bryan's decision to resign from the cabinet. He attended the resignation with the greatest reluctance and only after he had become finally convinced that he and the secretary were unalterably apart on the kind of note to be sent to Germany.

Ever since last Friday when he began to feel that his views and those of Mr. Bryan could not be reconciled the president has not been secret of his sorrow to his closest advisers. Sunday he called at the home of Secretary Bryan to discuss the situation. Since then he has seen Secretary Bryan several times and has done his utmost to win him over to his point of view. During a conference yesterday at the white house, Secretary Bryan over it became finally evident that Mr. Bryan would leave the cabinet.

Not wishing to be questioned about the situation, the president directed Secretary Tumulty to cancel his regular Tuesday conference with newspaper men this morning but later he rescinded the order, and saw them. At the conference he looked care worn and his replies to questions were sharp and abrupt. Just before the cabinet meeting he saw Postmaster General Burleson for a short time.

Mr. Bryan's resignation it is known was discussed thoroughly at the cabinet meeting and efforts were made to get him to reconsider his determination. The president again spoke his deep regret when Mr. Bryan told him he could not remain in the official family and other cabinet members joined in the expressions of their chief.

Immediately after the cabinet meeting the president went to the white house, taking Secretary Tumulty with him. He talked little on the way but several times referred to Mr. Bryan and his regard for him.

For several days Mr. Wilson has been suffering from violent headaches, and this afternoon Dr. Graves, his physician, insisted upon his making a round of the golf links. It was while he was away from the white house that the debate regarding Secretary Bryan had resigned reached the public. A few minutes later the president returned and other cabinet members Tumulty by telephone to formally announce the acceptance of Mr. Bryan's resignation. He requested that the newspapers be asked not to speculate about who the successor would be. To the official Mr. Wilson remained in the white house with his family and retired early.

YALE OARSMEN SUFFER FROM POISON ATTACK. New London Conn. June 8.—Fifteen members of the Yale rowing squad are seriously ill of ptomaine poisoning at the training quarters at Oakes Ferry. Head Coach Guy Nickalls speeded into the harbor late tonight in a launch and took back physicians with him to the quarters. Nickalls said the oarsmen had fish for supper last night and a few hours later the crew men became violently ill.

Hundley Heads College. Lynchburg Va., June 8.—Announcement was made here today of the election of Rev. J. T. Hundley, as president of the Virginia Christian college. He succeeds the late Dr. E. P. Coler, whose death occurred last winter. Mr. Hundley has been financial secretary of the college.

It was announced today that the committee will handle the Mexican relief problem and will co-operate with the various Red Cross state boards.

BRYAN'S ACT IN LINE WITH PAST ACTIONS

Continued From Page One.

well as the birth of a personal feud with Champ Clark. During the national campaign of 1912 Mr. Bryan made many speeches for Mr. Wilson, principally in the far west. The two met for the first time during the campaign at Lincoln, Neb., when they spoke from the same platform several times and received a tremendous ovation. Later Colonel E. M. House, a mutual personal friend, brought them together on the subject of the secretaryship of state, a place which Mr. Wilson felt he owed to Mr. Bryan because of the latter's position in the democratic party.

While holding the portfolio of secretary of state, Mr. Bryan has continued to the public eye but alone through his office acts but his devotion to two things—lecturing and politics.

Bryan and Grape Juice. One of the first sensations of his official career was his announcement that grape juice would be substituted for alcoholic beverages whenever he entertained members of the diplomatic corps. His statement that at one place a year was not sufficient for a cabinet officer and that he, therefore, must lecture to earn more money, was another episode which drew fire from all around the world. He directed newspaper criticism declaring Secretary Tumulty to cancel his regular official business required his presence in Washington. His later complaining the duration of official duties placed Domingo to deserving demerit was another incident widely discussed.

Mr. Bryan's opposition to an nomination of Roger Sullivan in Illinois and his activity in other primary ways, his continued official identification with the Wilson administration. His editorials in his newspaper, his columns on prohibition and woman suffrage, the signing of thousands of pledges in temperance meetings, his outspoken and radical views on these issues irrespective of the attitude or silence of President Wilson have furnished political gossip over his future plans and ambitions.

Loyal to Wilson. Members of the cabinet who know Mr. Bryan most intimately, however, believe that he has always been the least ambitious man at the cabinet table and has been a steady and loyal support of the president. He used his influence in congress to keep the ranks of the administration solid for the tariff and currency bills.

The secretary handled personally the negotiation between the United States and foreign nations by which all disputes were to be submitted to an impartial investigating commission for a year before hostilities could begin. The delicate debate regarding the Chinese situation recently were directly in the hands of Mr. Bryan who was able to bring about a peaceful settlement. He was a stickler for secrecy, refusing to give the slightest inkling as to the nature of his official duties until negotiations were concluded.

When the anti alien land law controlling the Chinese and Japanese went to California and continued later here untriflingly on the detail of these negotiations leaving little to his subordinates.

Famous Remark to China. Mr. Bryan's now famous remark to Ambassador China, in a moment in the resolutions between the United States and Japan. There is nothing to be said of officials and but one of his numerous expressions in the advocacy of lasting peace.

The numerous visits he has given in the dealings of the United States with the factional leaders in Mexico also have been widely noted to all hours of the day and night. Mr. Bryan's home life in the capital has won the admiration of officials and diplomats. He and Mrs. Bryan have entertained lavishly, giving a series of luncheons, dinners and garden parties during the last two years. When Mr. and Mrs. Bryan came here from Lincoln they took the house in which General John A. Logan formerly lived. Secretary Bryan plans to return to his lectures and editorials.

Men and Religion Bulletin No. 173. CERTAIN MEN ARE OVER-RIDING THE LAW OF GEORGIA IN HER CAPITAL CITY. THEY CAUSE THE USELESS FRICTION IN ATLANTA WHICH HURTS YOU. "Examine yourselves, whether ye be in the faith; prove your own selves. Know ye not your own selves, how that Jesus Christ is in, except ye be reprobates?"—II Cor. XIII, 5.

"There is a Norse legend— "A man thought he was pursued by a monster. "His stacks were fired, his barns unroofed, his cattle destroyed, his lands blasted, his first born slain. So he lay in wait for the monster, where it lived in the chasm near his house, and in the darkness of night he saw it. "With a cry he rushed upon it— "Long he wrestled with it, reeling, staggering, falling, and rising again; but at length a flood of strength came to him, and he overthrew it, and stood over it, covering it, conquering it, with its back against his thigh, and his hand at its throat. Then he drew his knife to kill it, and the moon shot through a cloud, opening an alley of light about it; and he saw its face, an lo— "The face of the monster was his own. "Hugh Black comments— "We must learn that a man is his worst enemy—nay, that the only enemy we have to fear is ourself: and that we must come to close quarters with self: for it is only— "When the fight's begun with himself "A man's worth something." Paul wrote—

"EXAMINE YOURSELVES" A morning paper suggests self-examination for the city, asking: "What is the matter with Atlanta? Why is it the matter? And what is the remedy?" You know. Is it not thus? Men are over-riding the law of Georgia— Men, blind to the effect of their attacks upon the city—men, who would not actually steal a dollar, are helping to try to steal the reputation of Atlanta's Chief of Police and her force. The Police Chiefs of America, at their annual meeting in May, cheered the Chief for the echo for his address upon police efficiency, while carping critics here were trying to bolster a charge of inefficiency. The cause? Those opposed to law enforcement against the social evil, saloons and locker clubs. They know that to continue law-breaking they must break the Chief. The liquor traffic and an honest, and by revoking the licenses of together indefinitely in the Capital of a Prohibition State: one or the other will leave. We suggest: The liquor traffic will have to go. We ask: Only obedience to law.

LOVERS OF ATLANTA Had hoped that the Mayor and Council would purge the capital of Georgia of the shame of open disregard for law by refusing to renew the beer saloon licenses which expire July 1st, and by revoking the licenses of saloons and locker-clubs which do not expire at that time. Heretofore Mayor and Council have licensed law-breakers to break the law, thus hampering honest policemen. Can this not stop? If city officials, over the protest of citizens, persist in selling to men the privilege of breaking law, what is the private citizen to do? Has he any course open, to free himself from the stigma of sharing in the sale of liquor, excepting the injunction? Again we appeal to COUNCIL AND MAYOR Respectfully we ask that you, as our representatives, refuse to renew the licenses of beer saloons about to expire. We beg you to revoke those licenses which do not expire July 1st. We appeal to every private citizen and to every public official to help to put an end to strife in Atlanta—uphold respect for law and decency. Are you causing useless friction in your city? "Examine yourselves— "Prove your own selves." THE EXECUTIVE COMMITTEE.

Washington June 5.—A billion bushels of wheat, the greatest ever grown in the world's history is indicated for the coming harvest in a forecast by the federal crop reporting board on the growing winter and spring wheat crops.

Should the enormous quantity be harvested, the United States would have upwards of 335,000,000 bushels of wheat during the coming year to supply the demands of the warring European nations which are expected to increase rather than diminish.

Recorder Is Moved By Pathetic Story From Young Widow

A young widow dressed in deep mourning with a babe in her arms and a little tot toddling by her side, was the central figure in one of the most pathetic scenes ever enacted in the police court of Atlanta.

Mrs. Bertie Lee Cochran, widow of J. A. Cochran who died less than a year ago had been brought into court by her sisters who claimed that she had become a burden to them, that they had done all they could for her, but she would not help them with the household cares.

The young widow tried to tell her story but her sobs and the tears that fell from her eyes caused her words to be almost inaudible.

Here take this Recorder Johnson told her as he passed over his desk to look after the case. "I am not going to do anything that will take these children from their mother, but I am willing to work, but I want my children."

It was shown that her sisters had withdrawn their kindness but the creditors were such that they were forced to let it go.

Recorder Johnson offered several suggestions as to how the woman could get a hearing place for the unfortunate woman.

Mrs. Cochran went back to the home of her sisters for the night. Something will be done for her and the babes the recorder stated in a few days.

FACTS not Fiction. LIEBIG, the world renowned chemist and scientist of nutritive foods, said of Beer: "It is Liquid Bread". He was right from the chemical point of view and he was right, too, from the historical one. As soon as man harvested grain and made bread, he learned through the fermentation to brew beer. This he used in his religious ceremonies, his family festivals and as a pleasant nutritious beverage. Liebig would have had further proof of his "winged phrase" that "beer is liquid bread" if he could have tested the Ambrosia, Bohemian and Munchener brews—known everywhere today as "WIEDEMANN'S". It is the cleanest possible food. No human hand touches it from the receipt of the grain to the sterilizing and bottling. THE GEO. WIEDEMANN BREWING CO., Inc. HAS SOMETHING MORE TO SAY TO YOU.
