It is one thing to love the place where you were born and another thing to dedicate yourself to the place where you go. You can't be an American if you think of yourself in groups. "I was born in America. You dreamed of what America was to be, and I hope you brought the dreams with you. No man who does not see visions will ever realize any high hopes or undertake any great enterprise. "The president aroused such enthusiasm when he said that he had felt that he ought not to be away from Washington, but after coming found that the gathering had renewed his spirit as an American. "In Washington," he said, "men tell me so many things every day that are not so that I like to come and stand in the presence of my fellow citizens and drink out of the common fountain with them, feeling the sense of their support."

bodyguard, and rode directly behind the president through the streets. In addition, hundreds of policemen led the procession and brought up in the rear. The city troop acted as guard of honor. This was the forty-fifth time the troop has thus escorted a president. On his return trip from the hall, the president rode for three miles along streets almost solidly lined with cheering people. Frequently he raised his hand in a friendly gesture and was greeted with a steady chorus. In the Broad street station of the Pennsylvania railroad several thousand persons cheered as the president stepped aboard his private car. He smiled and waved his hat. Some cheered the president retired.

I certainly could not be one to suggest that a man cease to love the place of his birth and the nation of his origin—these things are very sacred and ought not to be put out of our hearts—but it is one thing to love the place where you were born and it is another thing to dedicate yourself to the place to which you go. You cannot dedicate yourself to America unless you believe in every principle and every purpose of your will through America. You cannot become thorough Americans if you are not in the spirit of groups. America does not consist of groups. A man who thinks of himself as belonging to a particular group in America has become an American, and the man who goes all the way to trade upon your nationality is no worse than a man who goes all the way to trade upon your nationality. GREAT OVATION GIVEN WILSON.
There was a tremendous ovation as the president finished his speech. Afterward he returned to the station and entered his private car. He was due to leave for Washington at midnight and to arrive in Washington early tomorrow. Because of the present status of international affairs, extraordinary precautions had been taken to guard the president. Seven hundred and fifty thousand people were expected to see him as he passed through the city.

AMERICAN FLAG HELD BY THOUSANDS.
When President Wilson reached the convention hall, soon after his arrival in Philadelphia, he found Secretaries Wilson and Daniels on the platform. The hall was densely packed with American flags—were held by thousands, and the hall was decorated profusely with the stars and stripes. "Let us unite in singing 'America,'" were the words spoken with a distinct and fervent emphasis. "I am proud to be an American," said the president, "and I am proud to be an American."

DRAWN TO AMERICA BY FINGER OF HOPE.
It is a very interesting circumstance to me in thinking of those of you who have just sworn allegiance to this great government that you have not only accepted a better beckoning finger of hope, by some vision of a new kind of life, but you have also accepted a better kind of life. No doubt you have been disappointed in some of us. Some of you have disappointed me. No doubt you have found that justice in the United States goes only with a pure heart and a clean conscience. No doubt you have found that justice in the United States goes only with a pure heart and a clean conscience. No doubt you have found that justice in the United States goes only with a pure heart and a clean conscience.

CHARGE OF MURDER AGAINST THE KAISER
Kinsale, Ireland, May 10.—When the inquest over five victims of the Lusitania had been concluded today, the coroner's jury returned the following verdict: "We find that the deceased met death from prolonged immersion and exhaustion in the sea eight miles southwest of Old Head of Kinsale, Friday, May 7, 1915, owing to the sinking of the Lusitania by torpedoes fired by a German submarine."

London, May 10.—The Cunard liner Lusitania, sunk last week off Old Head of Kinsale by a submarine, was struck by only one torpedo, Captain Turner of the steamer, testified today at the coroner's inquest at Kinsale. But this deadly missile found a vital spot and sent the liner on her last voyage in less than 20 minutes, carrying with her more than a thousand souls. The evidence of Captain Turner, which cleared up many other points concerning the disaster and that of members of the crew with a general knowledge of the situation, led the jury to bring in a verdict of "wholesale murder" against the German emperor and his government. The jury found that the submarine directly responsible for the sinking of the ship.

GREAT OUTBURST FOR PRESIDENT.
A sudden, spontaneous outburst of applause greeted the president when he returned to the station and entered his private car. Because of the present status of international affairs, extraordinary precautions had been taken to guard the president. Seven hundred and fifty thousand people were expected to see him as he passed through the city.

identical with that of the United States on the relation to the Lusitania. While this will be the policy of the United States still is giving rise to a wide range of speculation in official circles. There is continued discussion here of the suggestion that the United States never diplomatic relations with Germany without a declaration of war, but it is pointed out that such a declaration would be a declaration of humanitarian work the United States has been conducting throughout the war. Secretary Bryan asked about this and whether any warning had been given to the Lusitania from the state department, said: "I think I had better go no farther than to say that no warning was given."

ITALY AWAITING AUSTRIAN REPLY
Paris, May 10.—The government of Italy today awaits the final reply of Austria. In the interim the publication of important decrees, signed at the last meeting of the cabinet, has been withheld. I learn from an excellent source that unless the Austrian answer arrives before midnight tonight, or if the reply is unfavorable, Italy will consider negotiations terminated.

ALLIES ADVANCING AGAINST GERMANS

Strong Russian forces compelled them to retreat. **GAINS CLAIMED BY THE GERMANS.**
Berlin, May 10.—At the German war office today the following statement was given out: "Western theater of war: The dunes in the direction of Neuport, taking several of the enemy trenches, and the enemy during last night advanced as far as Lombardzde, but were completely driven back. "In Flanders we also gained more ground. We took 162 British prisoners and 100 German prisoners. A great Anglo-French attack, anticipated as a reply to our successes in Galicia, was directed against our position situated to the east of Fleurbaix to the east of Richebourg. The attack was repulsed and our position was strengthened. "Only in the region between Carey, instead of Neuville and St. Laurent, the enemy succeeded in penetrating and establishing themselves in our foremost line trenches. A counter-attack was made and the enemy driven back. "South of Steinbrueck, in the valley of the Fecht, the enemy, who had set himself during a thick fog, immediately in front of our position, was driven back by a counter attack and his trenches were destroyed. "One of our divisions surrounded the fortified town of Southend, to the south of the Thames, this morning with a few hours' delay. "Eastern theater of war: Notwithstanding all attacks for the purpose of preventing our pursuit by means of fresh forces brought up by marches, the allied troops forming the army under the command of General von Hindenburg drove back its opponents from position after position and took nearly 12,000 prisoners. This war material. The number of prisoners captured by this part of our army alone during the last 24 hours increased more than 38,000. "Our advance guards have approached the town of the Slobodka, and have reached the Bratska and the Lower Wisloka. The pursuit continues."

Bit Him on Thumb, Asserts H. W. Lamb; Police Seek Hyslop

Charged with biting H. W. Lamb, 1521 Hurt building, on the thumb, H. L. Hyslop is sought by the police. It is alleged that Hyslop went to Lamb's office and, following some misunderstanding, bit him on the thumb. Hyslop is described as having dark complexion, wearing a blue checked suit and tan shoes.

POLICE BOARD CALLS BASIL STOCKBRIDGE

WILL PROVE CHARGES.

Basil Stockbridge last night announced that on next Saturday night he would deliver an address in which he will substantiate his charges made against Beavers and the members of the police force. The Civic Forum, before which he delivered his talk which has caused widespread interest in Atlanta, has called a special meeting for tonight to consider action.

Basil Stockbridge, the young lawyer who attacked Chief Beavers, the police department and the Men and Religion committee, will be summoned to testify before the board of police commissioners at his regular meeting tonight for a special investigation that is to be directed into his charges.

The commissioners were seriously concerned Sunday and Monday with Stockbridge's charge that a former police commissioner, named Hyslop, had written and turned in his resignation on the ground that his administration had been a failure, and that the resignation was backed by the attitude of Mayor Woodward, who was alleged to have "kicked" the chief of police from office.

An effort will be made by the commission to locate Hyslop to secure from Stockbridge the source of his information and to reveal the identity of the commissioner alleged to have made such a statement. Stockbridge declared Monday that he would not divulge his source until he had consulted with the commissioner.

The young lawyer, who is a former aide to Eugene M. Dorsey, was called before Mayor Woodward Monday morning and questioned. He was asked to give the name of the man from whom he said he obtained the "resignation" story, but refused, saying he had promised to keep the name secret.

When the regular monthly meeting of the police board is called by Chairman W. J. Fisher, and the directors tonight, it is likely that the special probe committee, appointed by Chief Beavers, will be asked to make a temporary report of their findings.

It is known that some of the older commissioners on the board are entirely disinterested in the charges, and police officers that has been carried on by the committee, made up of newly-elected commissioners, the acceptance of Commissioner "Bob" Clarke.

JOHNSON TAKES RAP AT 'JITNEY BUSES'

Recorder Johnson, in police court, Monday declared that it was his opinion the jitney buses were running too fast in the city, and that a stop should be put to it by the police.

There were four cases against the jitney buses. A. J. McClure was given a light fine for exceeding the speed limit on Washington street. Officers said the jitney bus driven by McClure was going about 20 or 25 miles an hour when they stopped him. McClure stated that he had been told that the police were against jitneys, which the officers emphatically denied, and cited several cases in which they had been given a light fine.

J. L. Walton, driving a jitney bus on Peachtree street, stopped suddenly in the parkway, and his engine machine ran into him. Hamilton Douglas Jr., representing Gray, showed the recorder that the bus was in the municipal court, and the judge decided the case could be settled there without trial. The jitney owner stated that he also had brought a civil action against Gray.

W. M. Davis, charged with running a jitney with its lights on, on Saturday night, was fined \$10.75 by the recorder.

E. Bender, charged with being in Grant park, in violation of a sign, "No dogs, and no boys not allowed to play in the park," was fined \$5.00. He had died and he asked some boys to shove him down a hill to start it again. The trip down the hill costed him \$10 into the park. He was fined \$6.75.

AT THE THEATERS

Keith Vaudeville.

(At the Forsyth.)

Time and time again headliners have come to Atlanta and flopped. People have expected fine things (possibly too much) and have been greatly disappointed.

This week there's a different tale to tell. Montgomery and Moore, the men a talent and brains, the work of unusual personality, make you like them, no matter how big the grouch when you enter the house.

The man gets the act going at the first when he starts fingering the keys at the piano. Monday afternoon he received a number of encores. From that time on Miss Moore is "present," with her capital letters and the same kind of fact. In song, in dance, in comedy, she proves her right to headline honors. Montgomery is getting every minute. All told the act is a hummer.

An old favorite, and one which will ever be welcome among the folks of the Ball and Ford street, is the impersonation of the old veteran, now in the work, but ever living in the days of the sixties, and with an embarrassing good memory of faults of other people's relatives, is one of the classics of the vaudeville stage.

The Beau and Belle is one of the most elaborate and attractive musical features of the season. The singing is good, the singing excellent and as a general rule, the costumes all that it should be. To some, however, it seemed that the girl could be gowned with better taste in her song, "The Glow Worm."

Bill Pruitt, the cowboy, who boasts of two kinds of voices, made an extremely favorable impression on Monday afternoon, showing that the vaudeville office made no mistake in persuading him to change the act of the same kind in Dorothy Toy, the little girl with two voices—soprano and tenor. Her songs were greeted with applause.

The Cycling Brunettes opened the bill and Amerson and Baldwin, jugglers, close it. Both acts are of merit. The only criticism of the bill is that there is too much singing.

SULPHUR FUMES BARRED BY THE FEDERAL COURT

Washington, May 10.—The supreme court decided today to enjoin the Ducton Sulphur and Copper Company, Ltd. in Tennessee, from discharging more than a certain percentage of sulphur fumes into the air from its smelters, and would appoint an inspector to report on the operation of the plant and the nature of the fumes.

This action was the outcome of the suit begun eight years ago by the state of Georgia, which claimed that the plants drifted across the state line and injured vegetation in Georgia.

Chief Justice White and Justices Hughes and Holmes dissented.

Ten days were given for the parties to the suit to draw a form of decree.

ATLANTA COUPLE MET DEATH WHEN LUSITANIA SANK

Mr. and Mrs. George H. Hunter, of Atlanta, who sailed for England on the ill-fated Lusitania, are in London.

This was definitely learned last night when Mrs. Nellie Inglis, of 319 East Georgia avenue, advised that she had received a cablegram from the parents of Mr. Hunter, in Aberdeen, Scotland, that the cable had advised that Mrs. Hunter went down with the ship.

TOSSING MATCHES AT WIFE COSTLY FOR THIS NEGRO

Firing matches at one another, Tom Sheppard, colored, ignited his wife's clothing Saturday night, and while a convenient faucet put the fire out, she was slightly burned.

Recorder Johnson remarked upon this as a peculiar species of arson when the Sheppards were brought before him for trial, but let Sheppard off with a fine of \$10. Tom said he was with his wife were fighting, and that they threw matches at one another and a fire was started, resulting in the conflagration.

THE BABY'S WELFARE A MOTHER'S DREAD

A fear clutches at the heart of the mother that her own little one may not live long. She dreads its second summer, or that it may never wake from its sound sleep. All mankind loves a mother—loves to see a mother love her child. A baby and its mother are the most beautiful sight in the world.

Dr. Pierce's Favorite Prescription, a tonic for women, that Dr. R. V. Pierce invented nearly a century ago for women's ills. This is a vegetable tonic, made only of the chemical roots with glycerine, which puts the female system into perfect, healthy action. Before baby's coming it is just the thing that puts the mother's system into a proper condition to make the birth painless and to insure a healthy child.

Many mothers of families in the United States have reason to be grateful to the person who recommended Dr. Pierce's Favorite Prescription. It is put up for the single purpose of curing disease peculiar to women. It is for women's ills on this continent than any other medicine for women. Another point in its favor: it is a temperance remedy and does not contain a single drop of alcohol nor of any narcotic.

Young mothers who preserve the charms of face and figure in spite of an increasing family and the care of growing children, are always to be envied. Dr. Pierce's Favorite Prescription gives the strength and health upon which happiness and contentment depend. It does away with the pains of maternity. It enables the mother to nourish her baby and to enjoy the hour of watching the development of a perfectly healthy child.

Finds a Cure For Pellagra

All Skin Eruptions Gone, Doctors Now Convinced Mrs. Vaughan Is Entirely Well.

Mrs. C. H. Vaughn, Millville, Ark. writes: "There is nothing I ever could do but what I can do it now. There is no sign of skin eruption. One of our doctors told me that my cure was one of the grandest things that ever happened on for me. It is for the good of the community, to let them know that there is a cure for pellagra. All the time I was in the hospital, I was convinced that your remedy is a real cure. The true word from a cured patient is: If you have Pellagra, or know of anyone who suffers from Pellagra, here is your duty to try me. It is a cure. The man who has fought and conquered the dreadful malady right in the heart of the Pellagra belt in Alabama. The symptoms—hands red like sun-burn, skin peeling off; sore mouth, the tongue and tongue a flaming red with much mucous and choking; indigestion and nausea, either diarrhea or constipation.

There is hope. Get Vaughn's Big Eye Book on Pellagra and learn about it. It has been found. Address American Compounding Co. Boston, Mass. Remembering money is refunded in any case where the remedy fails to cure.

In the du Pont offices it is L. B. steel

Everybody knows that du Pont stands for dynamite and powder. And for a variety of by-products, too.

In keeping with the character of its splendid new building in Wilmington, Del., the du Pont Powder Company has equipped its sales division with Library Bureau steel files.

This corporation is partial to L. B. filing methods. Main office and sixteen branches have been standardized with the L. B. Automatic Index.

The choice of steel was an appreciation of the fact by the du Pont Company that, in this age of steel, Library Bureau combines smooth-working construction and beauty of design with service.

Library Bureau steel fits the small business, too. Even the one-man concern.
