It is a curious coincidence that at the same place, in the same make car, and at the same time of day, a young woman lost her life in a similar accident some months ago.

At about 7:40 Tuesday morning a young man who refused to give his name drove his car on the railroad tracks and, it was said, lost control of the car upon seeing the train coming down the track only a short distance from him.

Young Mother's Plea For a Jail Sentence Refused by Recorder

Didn't Want It Said of Her Children That Their Mother "Was the Woman Under Probation."

Mrs. Maddox J. Watson, the pretty young woman arrested in company with J. H. Snerry, in the Folsom hotel, told the recorder Tuesday that she would rather pay a fine or go to jail than to be put under probation.

She said that she had three young children here in a charitable institution, that she would be pointed out as "the woman under probation," and that the stigma would be laid to her children.

She was arrested and put under probation May 5 for conducting a disorderly house in company with her sister. She had promised to leave town.

Recorder Johnson told the young woman that he wanted to help her, and that if she would try to live a good life the probation officers would be her best friends.

He refused to fine her or send her to jail, but sent her back to the probation officers, who will try to aid her in earning a living.

LUSITANIA HORROR WILL BE DEFENDED IN GERMAN ANSWER

Reported That the Kaiser Will Throw Responsibility for Disaster on Great Britain and the United States.

TEXT OF AMERICAN NOTE IS PUBLISHED IN BERLIN

Some of the Papers Carry Bitter Criticism of United States—Alleged That British Ambassador Aided in Preparing Note.

Berlin, May 18.—(Via London)—The official text of the American note to Germany was published here today. It was said at the foreign office it would be some days before the answer of the imperial government was ready, as the note raises many points, and consultation between several departments of the government would be necessary in preparing a reply.

NO YIELDING BY GERMANY. Amsterdam, May 18.—(Via London)—The Cologne Gazette makes the following comment on the American note to Germany.

"It shall, we are sure, receive an answer from our government that it deserves its contents and language seem to indicate that it must be considered to be the consequence of the anti-neutral attitude the American Government has assumed against Germany in an increasing measure.

"For this reason, it is comprehensible that the note has found the friends of the Kaiser and the enemies of the Kaiser. That also will be its only success. It cannot be supposed that the German administration of defenses will depart from the path which the imperial government, after mature consideration, has considered necessary and entered upon."

GERMANY TO DEFEND LUSITANIA HORROR. (Paris, May 18.—Germany's reply to the American note, the sinking of the Lusitania, will be sent Thursday, according to The Matin's Amsterdam correspondent, who says he is informed it will justify the attack on the ship.

He said that the torpedo was fired, which convinces him that the second explosion was due to the fact that the ship carried munitions of war. The report that only one torpedo was fired, which convinces him that the second explosion was due to the fact that the ship carried munitions of war.

The Matin's correspondent says it is reported that the German government will throw the responsibility for the disaster on England and on the American authorities who permitted passengers to embark on a ship carrying explosives. It is believed in Holland, he asserts, that Germany will decline to modify its methods of submarine warfare.

SHARP CRITICISM OF AMERICAN NOTE. The Hague, Netherlands, May 18.—(Via London)—Berlin newspapers as a rule refrain from comment on the American note to Germany. The Tages Zeitung, however, says:

"The United States makes the British demand that Germany abandon the submarine war against Great Britain with complete disdain. The German zone declaration, communicated to Washington on February 4, and later, in the course of the exchange of notes, disapproves as 'surprising irregularity' the German embassy's warning in the press, and permits itself to impute to the German government as an excuse the probability that German submarine commanders acted contrary to orders.

"The present note, so far as concerns the Lusitania, makes a complete abandonment of the Lusitania can scarcely escape the impression that the British ambassador at Washington was not far away when it was framed. One could equally as well imagine its contents to be an extract from Premier Asquith in the house of commons."

Reventlow, the naval critic, declares the German war zone declaration followed the British declaration, against which America failed to protest.

German Chancellor Practically Admits That Triple Alliance Is Shattered, and That Italy Will Fight Former Allies—Chancellor Says Germany Is Ready for New Foe—Ten Thousand Italians Employed at Austrian Arsenal at Pola, on the Adriatic, Revolt and Battle With Austrian Troops—Departure of Austrian and German Ambassadors From Rome Momentarily Expected.

Rome, May 18.—(Via London, May 19, 2:06 a. m.)—The Idea Nazionale reports a revolt at the Austrian arsenal at Pola, on the Adriatic. It is asserted that 10,000 Italians employed there came into conflict with the troops and that 50 persons were killed and 100 wounded.

TRIPLE ALLIANCE SHATTERED. London, May 18.—The next few days, if not hours, it is believed, will find Italy renouncing her old allies of the triple alliance and joining the triple entente powers as a belligerent.

The German imperial chancellor in the reichstag today outlined offers made to Italy as the price of her continuing neutrality, and while he said he had not entirely given up hope that peace would be maintained among the powers of the triple alliance, he left no impression on the mind of his hearers that the end of the alliance, so far as Italy is concerned, is far off.

PASSPORTS DEMANDED. London, May 18.—(2:05 a. m.)—A dispatch to the Central News from Rome, dated Tuesday, says:

"The Giornale d'Italia announces that Prince von Buelow, the German ambassador, and Baron von Macchio, the special ambassador of Austria, have demanded their passports. The newspaper adds that the staffs of the German and Austrian consulates will leave Rome Tuesday evening."

FORCES OF THE CZAR HAVE SWEEPED THROUGH BUKOWINA, DRIVING THE AUSTRILIANS AND CAPTURING THOUSANDS OF PRISONERS.

London, May 18.—(Via London)—The British First Army, north of La Bascas, and the French forces south of this town continue their offensive against the German line, and, according to their respective commanders, still are making progress. The German official statement, however, declares that all the offensive movements against the Germans have been repulsed.

The same inconsistency appears in the reports of the fighting along the Yser, although the Germans admit a retirement and the French assert that they have inflicted heavy losses on the invaders. From all accounts, however, it would appear that the allies have incited the Germans to counter-attacks both on the Yser and in the Arras region, and that to the north of La Bascas the British are doing the attacking.

HEAVY FIGHTING ON EAST FRONT. The Germans, in conjunction with the Austrians, continue their big efforts in the east. Heavy fighting is in progress along the River San in Galicia, where the Russians are attempting to make a stand after their retirement from western Galicia and the Carpathians. According to the Austrian account of the fighting the Germanic allies have forced a passage of the San at several points.

North of this war zone—in southern Poland—the Russians are delivering vigorous counter-attacks. They also are pursuing their offensive in Bukovina, where it is asserted they have driven the Austrians and Germans back from the Dniester to the Pruth, and are trying to clear them out of Bukovina.

At the other end of the long line in the east—in the Baltic provinces and along the East Prussian frontier—heavy fighting also is in progress. In both these sectors each of the belligerents claims an advantage.

Emperor Nicholas, of Russia, today signed an order utterly defeating the hopes of his exact destination has not been divulged.

AUSTRIAN ROUT IN BUKOWINA. London, May 18.—The Austrian defeat in Bukovina was of such vast proportions as to more than offset the gains made by the Germanic allies in west Galicia, according to a Russian official statement contained in a dispatch from Petrograd to the Inter-Telegram Company.

The Austrians are reported to have abandoned Austrian prisoners in their flight and important positions organized on a front of 140 versts (92 miles). The Russians claim to have occupied Czernewitz and that the remnants of the Austrian army retreating in the direction of the Pruth are in danger of disaster.

The Reuter dispatch says: "The Russian official statement describes the Austrian debacle in Bukovina as of such vast importance to the Russian cause that it is almost a success in west Galicia."

"The latest particulars report that the entire region between the Dniester and the Pruth is in Russian hands as the result of the brilliant victory secured by the Russian army. The Austrians are in disorderly flight. They have abandoned 20,000 prisoners and important positions. The Russian army is on a front of 140 versts for the defense of which they made tremendous sacrifices in money and men in danger of disaster."

"Everything tends to prove that as a consequence of this victory Czernewitz already is in the possession of the Russians while the remnants of the Austrian army flying in the direction of the Pruth are in danger of disaster which seems inevitable because of the fierce action of our cavalry, which fell upon the retreating enemy in full divisions, destroying him and incessantly assaulting the number of our trophies. This furious pursuit, so advantageous for us, continues."

"At the present moment the cluster of roads in Bukovina occupies our attention."

FOR MORE TROOPS AND POISON GASES KITCHENER CALLS

War Secretary of Great Britain, Tells Lords He Needs 300,000 Men to Form New Armies.

London, May 18.—Lord Kitchener told the house of lords today he wanted 300,000 more recruits. He expressed confidence that in the very near future the country would be in a satisfactory position with regard to the supply of ammunition. The news from the Gallipoli peninsula, in other words the Dardanelles, was thoroughly satisfactory, Earl Kitchener declared. To Use German Methods. Lord Kitchener stated that the British and French governments felt that the allied troops must be adequately protected against poisonous gases by the employment of similar methods of warfare. These would remove the enormous and unjustifiable advantage which must otherwise exist, he said. "The Germans," said Lord Kitchener, "have persisted in the use of these asphyxiating gases whenever the wind favored or other opportunity occurred, and his majesty's government, no less than the French government, feel that our troops must be adequately protected by the employment of similar methods so as to remove the enormous and unjustifiable disadvantage which must exist for them if we take no steps to meet on his own ground the enemy who is responsible for the introduction of this pernicious practice." Kitchener on Recent Fighting. Referring to the offensive movements now in progress in La Bassée and the Arras region, Earl Kitchener said: "We have all followed with admiration the forward movements of our brave allies in an offensive operation which has been marked with complete success, and in which we are still proceeding with every promise and indication of being wholly satisfactory. The attacks delivered by our forces, at first, were not attended with the same immediate success owing to the elaborate arrangements made by the Germans to defend their lines after their experience at Neuve Chapelle, but on the night of May 15, by a renewed effort, the British forces drove back the enemy on a front of approximately two miles for a considerable distance. Captured from 400 to 600 prisoners. This action also is proceeding, and we hope that in conformity with the French operations it will achieve important results. These offensive operations against the trenches of the enemy have demanded enormous expenditures in ammunition, both of high explosive and also of the highest explosive pattern which we are now making. I am confident that in the very near future shall be in a satisfactory position with regard to the supply of these shells. In these recent offensive operations our losses and those of the enemy have been heavy, but the task our armies has accomplished has necessitated great sacrifices on the part of the men of our troops has never been higher than at the present moment." Position of the Russians. The war secretary had this to say concerning the position of the Russians. "The Russians now hold a strong line from the eastern Carpathians to Przemysl, which forms a pivot of their line, and then along the banks of the Vistula in Bukovina the Russians have made a counter offensive and driven the Austrians back from the Dniester to the Pruth. The German losses in killed and wounded in these operations have been enormous, and many thousands of unarmored prisoners have fallen into the hands of the Russians. Turning to the Dardanelles, Earl Kitchener said that the progress of the allies was necessarily slow, since the country was most difficult. But the Turks are gradually being forced to retire from positions of great strength, he continued, and the enemy is being constantly reinforced, the news from this front is thoroughly satisfactory. Earl Kitchener then referred to the South African campaign and the occupation by Union of South Africa of Windhoek, capital of German Southwest Africa. "The military ability displayed by General Botha has been of a very high order," he said in this connection, "and has confirmed the admiration felt for him as a commander and a leader of men. Indian soldiers were utterly routing the Turks in Mesopotamia, and were gradually clearing the whole country of hostile forces. After referring in eulogistic terms to the men in the new army, Earl Kitchener continued: "I said I would let the country know when more men were wanted for the army. The time has come, and I now call for 300,000 men to form new armies. Those who are engaged in the production of war material of any kind should not leave their work. It is to men who are not performing this duty that I appeal, and I am convinced that the manhood of England still available will loyally respond. In my first speech in your lordship's house, I pointed out that this war would be a long one and would demand great sacrifices. Those sacrifices have been cheerfully made by the people of this country, who not only responded in vast numbers to the summons to create the new armies, but have since continuously supplied a constant stream of recruits which has enabled us to maintain the forces in the field and in training at their full strength with effective men. "Your lordships have watched the growth of the new armies and have noted doubtless the difficulties which confront them in their progress with all the material of war they require. "I cannot speak too highly of the men and the devotion to duty they have displayed, or of their cheerful acceptance of hardships incidental to inclement weather which have provoked the admiration of every one who has reported to me as to the wonderfully rapid progress made in their training to become efficient soldiers. "I am certain that in the activities in the field which immediately await them, these men will maintain the reputation they already have attained at home."

ADVOCATES OF PEACE MEET AT LAKE MOHONK

Mohonk Lake, N. Y., May 18.—Because the present war is unprecedented in its extent, the Lake Mohonk conference in international arbitration, which opens here tomorrow, will disregard its time-honored title and discuss the discussion of existing conflicts and consider how the cause for which the conference has labored for the past twenty-one years may profit by the results of the struggle now raging. Between 200 and 300 diplomats, college presidents, experts on economics and international law, leading business men and others here tonight were almost unanimous in their opinion that one of the first lessons taught by the war was the need of a workable plan of settling international disputes without recourse to arms. Speakers have been advised that there should be no discussion of the causes and conduct of the war in the form of direct criticism of specific policies or acts of any belligerent or groups of belligerents.

UNIVERSAL PICTURES. Side Whiskers as art—Francis Ford, original hero of the side-whisker stunt, was one of the first actors to recognize bread and butter in moving pictures. He is a P. P. P., pioneer picture player, with 25 many skins as a piece of birch bark. He not only acts, but he directs, produces and writes scenarios, preferring the home-baked kind to the incoherent plots sent in by correspondence-school athletes. Do you recall him as the polished villain in "Lucille Love"? He likes to play the bad man, but he's as sunny as California. Ford is at Universal City, the only moving-picture city in existence—the queerest, maddest, wildest, most romantic and picturesque city in the world. It has nearly 3,000 people in it, all actors, actresses or stage folk of some description. There's where most of the Universal program is made—the program that has made and is making money for the exhibitor and fast friends of all the fans. BIG DELEGATIONS MAKE PLANS TO GO TO HIGHWAY MEET

Calhoun, Ga., May 18 (Special)—Interest in the location of the Dixie highway is at its highest pitch now along the route that runs through Calhoun, Ga., and Dalton, Ga. The Calhoun delegation declared a holiday for Thursday, May 26, in order that the people might attend the meeting of the highway commission to be held at Chattanooga on that day.

The Calhoun delegation consists of business houses of every kind in Calhoun will close their doors that all may go to Chattanooga in a body and contend for the routing of the highway through Calhoun, Whitfield, Gordon and Bartow counties. The Calhoun band along with them. The majority of Dalton has also declared a holiday.

Information from Dalton is that within a very short time Whitfield county will have a delegation organized and ready for presentation to the commission and that the work is being rapidly pushed in Calhoun county. Only a few miles are to be finished on the Partow link in Gordon, several miles have already been completed and a road building outfit is on the way here which will be put to work immediately.

The route through Calhoun and Dalton is the historic route can not be denied. This is the exact route that was blazed by the States of John and Sherman in the 60's and there is hardly a mile from Chattanooga to Atlanta on this road where a battle was not fought. Besides this the Dalton-Calhoun route it is claimed is from fifteen to twenty miles the most direct of any proposed route.

Will Have Big Delegation in "Seeing Ga." Trip—Wynn to Entertain.

Frank L. Boud, representing the city of Marietta and its chamber of commerce and the county of Cobb, has written a letter to Mr. Smith, secretary-manager of the "Seeing Georgia" tour, in which he states that Marietta's city council has appropriated \$1,200 to defray the expenses of the Marietta delegation on the tour.

Mr. Boud said he believed that the commissioners of Cobb county would make a similar appropriation.

In his letter, Mr. Boud says:

"This is the first time to my knowledge that any similar plan for the promotion of the mutual interests of county, state and manufacturing industries has received the entire support of the city council, the county commissioners and every manufacturing industry of any community. It is our desire to make the best showing on this tour and considerable advance advertising is being promoted in every city visited and the local representatives of the manufacturers of Marietta will be on hand to welcome the Georgia touring party with a big loud noise."

"MY HEALTH IS PERFECT"

So Says A North Carolina Lady In Telling What She Owes To Cardui, The Woman's Tonic.

My Mrs. N. C.—Mrs. Ada Hu of this place says: "About six years ago I got in very bad health. I suffered terrible pains in my abdomen and back. I dreaded to see the sun rise and to dread to see it set, for I suffered such agony. No one except myself will ever know how badly I suffered. The doctor said I was suffering as a result of the menopause."

As nothing gave me any relief, I asked the doctor if I hadn't better try Cardui. He said it might help me, and told my husband to get me a bottle. At this time I was so weak I could not lift my head, and my voice was so weak people had to lean towards the bed to hear what I said. I looked so bad and had such a dark color that I looked like a dead woman, and my relatives thought I was never going again."

I took one bottle of Cardui and it relieved the pain and suffering so much that my husband got another bottle and that improved me still more. I began to strengthen and gradually got well. I have now had better health for six years, than I ever had in all my life. I have taken no medicine since, and my health is perfect. Cardui is the finest medicine a woman could use. Try it. What to Eat In Hot Weather

MEATS, heavy and greasy foods, should be eaten very sparingly during hot weather. They heat the system and tax the digestion. Faust Spaghetti ought to be indulged in during summer not only because it does not heat and is very easy to digest, but because it is also extremely nutritious. It contains the rich gluten of Durum wheat, which is a blood enricher and muscle builder. There is practically no end to the ways that Faust Spaghetti can be prepared to make relishable eating. Grice Has Returned After Filing Decree In Ducktown Matter

Attorney General Warren Grice returned to his office Tuesday from Washington, where he represented the state of Georgia before the United States supreme court in the filing of the decree against the Ducktown Sulphur, Copper and Iron company, which stipulated that the plant should greatly reduce its output and operate under the supervision of an inspector.

When the court asked for suggestions of who should be appointed as inspector, Attorney General Grice suggested the name of Charles Lathrop Parsons, a former Georgian, now chief mineral chemist of the federal bureau of mines.

The opinion of the court found that Georgia's complaint was well founded, but concluded that adequate relief would be given Georgia by restraining the company from operating its plant only on certain conditions to-wit:

That its output should be greatly reduced and that no fumes be allowed to escape containing over a certain per cent of sulphur dioxide, and that in the meantime the court would appoint an inspector to make frequent visits to the plant and careful observations, and at the October term of the court file a detail report as to the effect upon Georgia's territory of the reduced output of the plant; that the case be retained in court for such order as seemed to the court appropriate after the inspection had been made.

WIN AGAIN; PITCHER PERRY IS SIGNED

Edited By Dick Jamison

Crackers Continue Good Work; Take Second From Travelers; Allen Was in Good Form

Continuing to pound the ball when hits meant runs, and served with faultless pitching on the part of Allen, the Crackers took the second game of the series from the Little Rock Travelers Tuesday afternoon by a count of 5 to 1.

Allen pitched good ball, and was seldom in danger. He had only one bad pitch in the seventh, after two men were out. Shaw and Starr singled, and Baker walked, filling the bases. Allen pitched a sharp downward curve, and the Travelers' only run was due to an error on the part of Bisland.

Allen fanned six men, walked four and allowed only six safe bingles, none of which went for more than a single, and with the exception of the seventh frame, not more than one in an inning was secured. His pitching was all that could be desired.

Manning and Jenkins led the Cracker attack, with three safe blows apiece. One of Jenkins went for two bags. Lee got a triple and Williams a double, being the only other extra-base hits of the afternoon.

Bill Rumlmer made a spectacular one-handed catch in the first inning of the ball game, and was the only one worthy of at least a triple. The ball was headed for the bull sign, and

How They Scored

The Crackers took a one-run lead in the first on a triple by Lee and a double by Williams. They scored again in the fourth. Score being 1-0. Manning singled, and sacrifice by Eibel, and went to third on Manning's single. He scored when Allen sacrificed out to Shaw. Manning stole second, and scored when Lee singled to right. Lee stole second and scored on Bisland's single to right.

The Travelers scored their only run in the fifth frame. Gribbens walked and went to second on a single by Merritt. Shaw fanned and Starr hit to Eibel, who caught Merritt at second to Bisland. Bisland attempted to complete a double play and threw the ball over Eibel's head, allowing Gribbens, who went to third on that out, to score. The Crackers' other run came in the seventh. With two down, Moran singled, stole second, and scored on Rumlmer's single to right.

Newark & Pittsburgh 0. Pittsburgh, May 18.—Newark shut out the Pittsburgh Federals today, 8 to 0, through the effective pitching of Kaiserling, backed up by brilliant fielding by Scheer and Roush and timely hitting by Strand. Allen, the locals' leading pitcher, was easy for the visitors in the first two innings. Eibel stole a base. Moran, Manning and Stradford, all pitched poorly.

King Quits Cotton Exchange. New York, May 18.—William V. King, for seventeen years superintendent of the New York cotton exchange, today resigned, effective June 1. The board of governors accepted it with resolutions of regret.

Atlanta. May 18.—Pitcher Scott Perry, recently returned to the Louisville American association club from the St. Louis Americans, has been sold to the Atlanta club of the Southern association. President O. H. Watson, of the local club, made the announcement today.

Manager Bill Smith when interviewed last night over the phone stated that Perry had been purchased and would report to the locals either today or Thursday. Perry is a right-hander and with the Colonels twirled in three full games, winning one of them and losing the other two, due to hard luck. The reason that Perry was sold was due to internal dissension on the Colonels, and according to advices received from Louisville last night his wife was as good as any of the other pitchers on the Colonels' staff.

One present member of the Cracker crew will draw a release to make room for Perry. Just who this man will be Manager Smith would not state last night. He said that any would have to be released, but did not name him. It will in all probability be a twirler, as by releasing Nelderkorff, Peaslee and Cracker, any of these fielders would be around loose. However, just who this will be is a mystery.

Louisville, Ky., May 18.—Pitcher Scott Perry, recently returned to the Louisville American association club from the St. Louis Americans, has been sold to the Atlanta club of the Southern association. President O. H. Watson, of the local club, made the announcement today.

Manager Bill Smith when interviewed last night over the phone stated that Perry had been purchased and would report to the locals either today or Thursday. Perry is a right-hander and with the Colonels twirled in three full games, winning one of them and losing the other two, due to hard luck. The reason that Perry was sold was due to internal dissension on the Colonels, and according to advices received from Louisville last night his wife was as good as any of the other pitchers on the Colonels' staff.

One present member of the Cracker crew will draw a release to make room for Perry. Just who this man will be Manager Smith would not state last night. He said that any would have to be released, but did not name him. It will in all probability be a twirler, as by releasing Nelderkorff, Peaslee and Cracker, any of these fielders would be around loose. However, just who this will be is a mystery.

O'BRIEN AND HIRST WILL MEET TONIGHT

Mike Saul Will Stage 30 Rounds of Boxing at the Columbia Tonight—Popular Prices Will Prevail.

Mike Saul's Columbia boxing show will be opened tonight with the absence of Philadelphia product, and Yank O'Brien will furnish the main attraction of the evening, and from all the advance notices obtained he should put up with corking good scrap, while the exciting Budd-Kid Underwood semi-wind-up should prove almost as interesting as O'Brien is from Jacksonville, and has appeared here once before, knocking out Hirst in a private round of a ten-round bout. Billy Lotz, who saw this fight, has been a strong exponent of O'Brien since this time, and in his corner tonight. Lotz expects O'Brien to win by the knee route, and confidently predicts it will end in this manner.

Hirst has also shown his wares here once before, engaging in an eight-round bout in private with Yank O'Brien. Hirst won the decision, but, due to the fact that he hurt his hand in the first few rounds did not show so much. However, he declares that he will win easily from O'Brien.

The winner of the main attraction will probably be offered a go with O'Brien's manager, while the winner of the Budd-Underwood bout will be given a chance at Kid Young, the new-boy champion. Tickets are on sale at Elkin's drug store at five points, and the Rex sale, according to the advance sale, a single by Schatz, bunched in the first brace of runs. That a negro dive has been running full blast at 39 Courtland street, directly across the street from the Boys' High school, was divulged in Recorder Johnson's court Tuesday, when fourteen negroes, gathered in a single raid on the place, by detectives, were fined \$10.75 each.

C. D. Knight, chairman from the second ward, and chairman of the auditorium committee, appeared and testified that while language in the house was so audible on the street that patrons of grand opera had complained to him against the place.
