Sam at a low rate of interest. It is of such benefit to the farmer in the small town as in the large city.

"A national bank in Cordale or some small town has the same right to borrow of the funds as a Macon or Atlanta bank."

The details of transactions between the farmer and his local national bank will be left with the bank's officers, and any farmer who turns in to his bank a receipt for his cotton properly warehoused and insured can borrow money on it, with the knowledge that he will not have to pay more than 5 per cent interest.

The local banker loans 50, 75 or 100 per cent of the market value on the cotton, the reserve bank takes no part but leaves such details up to the member bank.

Under such conditions it is anticipated that less than 6 per cent will be charged on such cotton loans.

**STRENGTHEN MARKET.**

Since the primary object of the plan is to enable the cotton producer to plan his product for better prices and to get money on his crop at a very low rate of interest, it is believed that there will be a tendency to strengthen the cotton market and result in a high market when the season gets well under way this month.

The plan of operation and the conditions under which member banks could borrow of the big fund, Mr. Toole gave out the following statement:

Notes and bills of exchange offered to this bank for discount by member banks, secured by standard non-perishable commodities, properly warehoused, margined and insured with warehouse receipts and insurance policies attached, the rate of discount will be at the rate of 2 per cent per annum provided:

That the borrower has not paid in interest, discount and commissions exceeding 6 per cent; that the paper submitted is not only eligible, but that the borrower is interested in and committed to the interest discount and commissions exceeding 6 per cent per annum.

The other rates are still applicable when banks do not care to take advantage of the plan.

**URGE BANKS TO ACT.**

Mr. Toole announced that each national bank affiliated with the plan should immediately take advantage of the plan. This idea is not new to Mr. Toole, who is president of the First National Bank of Windsor, Ga. Only last week he published in his local newspaper a statement to the effect that money would be available under such a plan to farmers in that section of Georgia.

A banker from Montgomery, Ala., coming to Atlanta on Friday, said officials of the reserve bank relative to possible loans on cotton and the security of such loans. He said that when the news came from Washington of the commodity rate agreed on by the board.

This action on the part of the reserve board is expected to prove an incentive to banks to become members of the reserve bank.

**Story from Washington.**

Washington, September 3.—Definite steps were taken today by the federal reserve board and Secretary of the Treasury McAdoo to extend aid to cotton-growers and to clear the way for the resumption of the cotton trade last year's uncertainty and difficulty.

The board issued new regulations authorizing reserve banks to give special discount rates on promissory notes issued by warehouse receipts for staple agricultural products which the member banks have which avail themselves of this rate must not charge more than 6 per cent on the loan.

Mr. McAdoo announced he would deposit \$5,000,000 in gold as an initial deposit in each of the federal reserve banks at Richmond, Atlanta and Dallas.

The secretary said that if conditions showed it would be desirable to have where to aid in handling any other crop he would extend similar aid.

The new regulations are broad enough to apply to all staple readily marketable crops, but it is well known that the cotton crop is the one that has given concern of late.

The board announced that the reserve banks at Atlanta and Dallas already had requested discount rates of 2 per cent on the sort of paper approved in the regulations.

Discussions of the matter followed meetings that have occupied the time of the board and Mr. McAdoo most of the last two days. The secretary's proposal several months ago of deposits of government funds in southern reserve banks along with the powers under the federal reserve act and the regulations of the federal reserve board through which the proposed aid may be most effectively rendered.

"I have concluded that the best plan for extending aid to the cotton producer in each of the federal reserve banks is to deposit the \$5,000,000 in gold, concentrating it in Atlanta, instead of the member banks of the federal reserve system," said Secretary McAdoo.

"Five million dollars will be deposited immediately in each of these banks, making a total initial deposit of \$15,000,000. The federal reserve banks have the organization, the knowledge of local conditions and the powers under the federal reserve act and the regulations of the federal reserve board through which the proposed aid may be most effectively rendered."

**SERBIA TO GRANT BULGAR DEMANDS**

Proposals of Allies as to Concessions to Bulgaria Accepted—Reported Balkan Powers Will Revise Bucharest Treaty.

Athens, September 3.—(Via Paris)—It is announced here that Serbia has accepted in principle the entente proposals for the restoration of Bulgaria, with the reservation that the new Serbian frontier remain in contact with Greece at some place.

The Greek chamber of deputies adjourns tomorrow until October 14.

London, September 3.—A Reuter's dispatch from Nish says it is semi-officially announced that the entente powers have been drafted and will be presented soon.

**STATEMENT MADE FOR BULGARIA.**

Sofia, Bulgaria, September 1.—(Via London, September 3)—Despite the fact that a decision of the Bulgarian government regarding the Macedonian question is generally considered imminent, as it is realized the time is not distant when this issue must culminate in more than diplomatic conversations there are no signs of excitement here.

At the foreign office today the following statement was made to the Associated Press correspondents:

"The Bulgarian government is engaged in formulating its reply to the Serbian government, although the latter statement has not yet been received, being guided in this by an intimation of the Turkish government that the entente powers are continuing its negotiations with the Turkish government concerning the cessation of the Ljupmetz-Adrianople-Dedeagatch railroad line and certain other factors of great strategic importance. The prospects of a quick and satisfactory settlement of the Macedonian question, although the Turkish government has required much time in reaching decisions on matters contrary to the interests of Bulgaria.

Factors Guiding Bulgaria.

"The Bulgarian government is not inclined to embark upon an adventurous career. Statements to the contrary published in the press and other sources are made by political opponents of the government who are using them to attract the people to their political purposes. Now, as heretofore, the Bulgarian government is guided by three factors:

"First, non-acceptance of the treaty of Bucharest, which was not ratified by the national assembly and is not acceptable to Bulgaria so long as it remains unrevived.

"Secondly, the unwillingness of the Bulgarian people to engage in a war, the outcome of which is at all doubtful.

"Third, the absolute necessity of convincing the Bulgarian people that the action is undertaken for a result to be achieved will be such that no betrayal afterwards will be possible.

From other government sources it was learned that the Bulgarian government, and it is declared the Bulgarian people, have agreed to the principle of the restoration of Macedonia, but only on the condition that the principles for which Bulgarians had stood for many centuries and that Bulgaria could not and would not beheadless of the appeals of the Macedonians.

**Wants All Macedonia.**

Bulgaria it is learned, wants all of Macedonia and not only those parts made the subject of recent notes by the quadruple entente. Meanwhile the entente powers insist that Bulgaria earn these parts by making war upon Turkey, while the proposals of the central powers were further than to assure the free passage through Bulgaria of materials needed by Turkey. It is argued here that while the proposals of the entente would, if accepted, involve the shedding of Bulgarian blood against the Turks, coming from the other side do not necessarily demand this from a nation still reeling under the weight of its losses in the recent Balkan war.

All Macedonia is the slogan now of all circles in Bulgaria and the country is still divided into two camps as to the best method by which the goal may be reached.

The ability of the Turkish army in beating off attacks on the Gallipoli peninsula has made a deep impression here. A high military official said today:

"Evidently the Turkish army of today is altogether unlike the army we fought two years ago.

"The German army, of Mecklenburg-Schwerin, former regent of Brunswick, who recently was in Constantinople on a diplomatic mission, is in Sofia accompanied by a Berlin foreign office expert on Balkan affairs.

"From our reliable sources it is learned that no change in the present situation is likely for the next eight days."

**BELGIANS HOLD UPPER HAND.**

Paris, September 3.—A statement on the operations of the Russian army was made public today by the Belgian military authorities. It said:

"On the night of this morning we were quiet. During the afternoon marked activity was shown by the German army in the region of Lessenz and Etrun. On August 27 and 28 the Serbian army was active in the region of Goudrexon and Chazelle. Cannonading also is reported in the region of Lessenz and Etrun. The Russian army is holding the upper hand."

**RUSSIANS RETREAT, AUSTRIANS REPORT.**

Vienna, September 3.—(Via London)—The Austro-Hungarian war office statement today says:

"Russian war theater. In East Galicia the enemy everywhere is retreating. On the frontier north of Zaslav and east of Brody, and in the district of the village of Starchove, in the Volhynian triangle of fortresses, the enemy again is offering resistance along the entire front. Our troops are attacking."

"On the upper Jacetia river fighting has been going on since the 27th. The enemy has been ejected from some of the fortifications erected at the border of the swampy region."

"On the Danube front the enemy's work of fortifying an opposite bank of the river and his work has been stopped by the fire of our infantry. On the same front toward Kuchuk there has been a brief fighting between one of our batteries discovering the enemy's guns and immediately reducing them to silence."

**ARBITRATORS MAY FIX AMOUNT OF REPARATION**

To Be Paid by Germany for American Lives and Property Destroyed by Submarines.

Washington, September 3.—The American position toward a method of fixing reparation for lives and property lost in German submarine operations, such as the Lusitania and Arabic, has not been finally determined, but there probably will be no opposition to fixing the amounts by arbitration.

An arbitration, however, could cover only the extent of damages and not the question of the principle that unarmed merchant ships must not be sunk without warning and opportunity for the escape of non-combatants.

**GERMANS BATTLING FOR SHORTER ROUTE**

Continued From Page One.

Austro-Hungarian forces are penetrating eastward and southward of Boloto and Dubovojce. The army of General von Bothmer is attacking the Serbs, fighting all the way.

The capture of Grodno by the Germans marks the fall of the twelfth fortress within a month, beginning with the fall of Warsaw on the 13th. It is the last of the Russian fortresses in Poland to hold out. It became untenable when the German cut the railway line running from Petrograd through Vilna to Warsaw. The city of Grodno is in the center of the province and has a population of about 40,000.

**GERMANS GAIN TOWARDS RIGA.**

Berlin, September 3.—(Via London)—The German troops which are advancing on the Baltic, have made a further consequential gain.

The capture of Grodno was made here today that they had captured a position northwest of Friedrichstadt, which is about 40 miles from Riga.

**TEUTON ARMIES TO PART COMPANY.**

London, September 3.—The German and Austrian armies on the eastern front are about to part company, according to a dispatch to the Exchange Telegraph company from Amsterdam.

The dispatch states that a message announcing that Field Marshal Archduke Frederick, commander-in-chief of the Austro-Hungarian army, had been called farewell to Field Marshal von Mackensen, the German commander at Brest-Litovsk, at heretofore the armies of the two commanders were to cease co-operating.

The message says it is believed the Austrian army will shortly be removed in the direction of Serbia.

**NO PEACE POSSIBLE FOR GREAT BRITAIN**

Continued From Page One.

of the contents of the message is known, however, to give basis for judgment. It is believed that the British and Turkey are not adverse to discussing peace.

It is known that the pontiff's message praises President Wilson's attitude and indicated a belief that the United States might be in a position to help in bringing about a cessation of hostilities in Europe. The cardinal also told the president that the United States had been placed in a very advantageous position to aid in bringing about a settlement of the issue between the United States and Germany over submarine warfare, which had greatly aided the cause of peace.

It was said unofficially that the president was greatly pleased with the message and with the interview.

**POPE TO SUPPORT MOVE FOR PEACE.**

Rome, September 3.—(Via Paris)—Pope Benedict today expressed pleasure over the fact that the diplomatic negotiations between the United States and Germany had resulted in a promise from Germany to modify her submarine warfare. The pontiff said that he had given his approval to both groups of the belligerents the fairness, firmness and good will of the American government now cover address them with authority and probably induce them to take the preliminary steps toward the peaceful settlement of the issue.

The pontiff was gratified to learn of the cordiality that pervaded the conversation between President Wilson and Cardinal Gibbons Thursday, when the cardinal delivered to the president a message from the pope dealing with peace.

His holiness said today he hoped everybody both in Europe and the United States would be convinced that the constant prayer is for the end of the war and that his work in this direction is entirely disinterested.

# FARMERS ARE URGED TO CULTIVATE OKRA

### More Money in It Than in Raising Cotton, Declares John Whitson.

That there are millions of dollars for Georgia farmers—even more money than in raising cotton—in the cultivation of common garden okra is the belief of John Whitson, of Santa Rosa, Cal., who is registered at the Ansley hotel for the purpose of holding a conference today with Commissioner of Agriculture James D. Price, upon the adaptability and accessibility of lands for this purpose in Georgia.

to some extent in Georgia from pine and gum pulp, but it is impossible to make the fine grades without the combination of the spruce pulp of the north, one of these trees producing a soda pulp, and the other a sulphate pulp, both of which are essential in fine grades. Okra, says Mr. Whitson, produces a fiber which combines both of these qualities. It is very easily raised and costs only about \$3 per acre in production, he declares.

# MILLIONS LOANED TO GREAT BRITAIN

### To Stop Drop in Exchange. Sum Estimated From 50 to 100 Millions—Great Credit Loan to Be Arranged.

New York, September 3—All indications today tended to confirm a report current in Wall street that Great Britain had borrowed from \$50,000,000 to \$100,000,000 temporarily in this market to correct the exchange rate on sterling until her commissioners reach New York and consummate negotiations for a much larger credit loan here.

There was neither confirmation nor denial of this report, which says the collateral on which the loan was issued aggregated the approximate figures of the sum borrowed. Two shipments of collateral, totalling about \$55,000,000, were brought from Great Britain to Halifax aboard British men-of-war and shipped thence to New York with about \$40,000,000 in gold within the past thirty days. The other bundles of securities were said to have been brought here yesterday aboard the liners Adriatic and St. Paul.

### Rates Rallied.

This loan, if made, was regarded as only a makeshift to clarify the surcharged atmosphere of the foreign exchange markets. Spurred by an artificial stimulus, rates rallied in spectacular manner today, sterling soaring 10 cents or more at the opening of the market. They fell back later, but on the day's transactions a substantial gain of 2 1/2 cents was recorded. Sterling closed at \$4.66.

Estimates of Great Britain's needs here in the form of credit placed sum today at a minimum of \$50,000,000, with a maximum of \$100,000,000, and a billion-dollar credit loan would not, it was thought, be raised on one huge issue. But a half billion-dollar loan, it was thought, might be floated.

This raises a staggering sum. It was said, bankers of all the chief cities of the country would be called on to participate. Boston, Philadelphia, Chicago, Pittsburgh, Atlanta—in fact, all reserve centers and cities where there are no reserve banks—would be represented in conference in New York. The situation then would be placed before them and they would be asked to contribute their share to insure uninterrupted continuance of America's export trade.

### Loan.

Whether Great Britain could furnish sufficient American securities at present to serve as collateral for this big loan was another question. It was thought that should she not be able to raise this sum, Canadian and South American securities—government bonds and even high-class railway bonds—would be thought sufficiently stable to serve as collateral.

This raises a question. Would the controller of the currency sanction loans by national banks on the bonds of South American countries and to go further, would such loans be sanctioned where high-grade South American railroads are mentioned as collateral? There is no market here for these issues and it was pointed out that under present conditions they would have to be sold in London. The opinion that official sanction might be withheld on loans of this character seemed to prevail. All this, however, was surmise.

Today's recoveries in rates were attributed by leading bankers here chiefly to a normal return to real value from fictitious low prices. Closing quotations on London were \$1.67, on France \$2.95, on reichmarks, 83 1/2 cents, and on lire \$2.46.

# VICTIMS OF CONSPIRACY, SAYS ACCUSED WOMAN

### Mrs. Mohr Alleges Plot to Kill Both Herself and Husband. Girl in Case Talks.

Providence, R. I., September 3—The defense of Mrs. Elizabeth Tiffany Blair Mohr to the charge that, in a jealous rage, she plotted the death of her husband, will be that both Dr. S. Franklin Mohr and herself were victims of a conspiracy, unless present expectations are gratified.

In an interview today which was terminated when she lost her composure for the first time since her arrest, Mrs. Mohr declared her belief that the three negroes who now accuse her had planned to waylay Dr. Mohr and rob him. She holds that when they broke down under the grilling of the police, they hoped to mitigate their punishment, by representing that they had been induced by her on the promise of a reward.

### Mrs. Mohr at Funeral.

The body of Dr. Mohr was placed in a receiving tomb today. Mrs. Mohr and her two children were present at the service at the Mohr home, and accompanied the body to the cemetery.

Miss Emily G. Burger, the doctor's secretary, jealousy of whom, it is alleged, inspired the crime, has not been told of her employer's death. She remains at the hospital recovering from bullet wounds received when the automobile ride when Dr. Mohr was attacked.

For a long time, said Rooke, "Miss Burger did all in her power to reunite Dr. Mohr and his wife. She was bitter against Mrs. Mohr and would not entertain any such idea."

Miss Burger gave Rooke a statement for the press concerning her night ride with Dr. Mohr toward Newport. In substance it reads:

"I was suspicious during the ride. Healis ran the machine from the Stewart street office at a high rate of speed. Several times the doctor remarked: 'We did not stop until the chauffeur brought the machine under the trees on the sidewalk, remarking, 'I am having trouble with the gas.'"

"We sat in the tonneau of the machine and neither questioned him. I was startled by the first shot, but thought it was the car backing fire. A second shot did not make me realize my danger. The third shot, more than caused me to feel pain behind my ear and in my shoulder but even then I did not realize that I was wounded, and thought some accident had occurred to the car."

"I jumped up when I saw the blood streaming from Dr. Mohr's wounds, but all this time I had no idea of the true state of things. I sprang out of the car."

I remember standing on the ground and Healis grabbing me roughly by the arm. He dragged me to the grass by the side of the car. I did not see either Dr. Mohr or Spillman before or after the shooting.

Arthur Cushing, chief counsel for Mrs. Mohr, said it was doubtful whether after all the evidence she would have a bare plea of "not guilty," when the case came up September 16.

### Death Sentence Her.

Mrs. Mohr today met for the first time Charles M. Mohr, a son of Dr. Mohr by a former marriage. She assured him there was no question but that she and his sister, who is the wife of Dr. Ernest Marr, of Baltimore, would share in their father's estate.

Mr. Mohr expressed his belief in the innocence of the accused woman. He said he had long expressed doubt whether the confessions of the three negroes would have any standing in court, insofar as they tend to implicate Mrs. Mohr. He said he considered their explanations does not allow the admission as evidence of a confession by one person tending to incriminate another.

# 8-HOUR DAY ADOPTED BY STANDARD OIL CO.

### 25,000 Employees Affected by Order Which Becomes Operative September 15.

New York, September 3—Announcement of the adoption of an eight-hour day by the Standard Oil company of New Jersey was made here today on behalf of the board of directors of that concern. Twenty-five thousand workers were said to be affected by the order, which would become effective September 15.

Employees of the Standard Oil Company of New Jersey heretofore have been working an average of ten hours a day. The announcement reads:

"In accordance with the policies of this company, it has been decided to adopt the eight-hour day. This change will be made without loss to the men. As it will be necessary to make certain changes in the present methods of conducting the plants, the eight-hour day will become effective on September 15, and notices have been posted to that effect in the various works operated by this company."

### SIX MEN PUT TO DEATH IN THE ELECTRIC CHAIR

Ossining, N. Y., September 3—Five murderers were put to death in the electric chair at the State prison today inside of sixty-five minutes. The men, in the order of their execution, were:

Antonio Saleme, of Rochester county, Pasquale Venditti of New York, Louis M. Roach, of Palatine Bridge, Thomas Tarpey and William Perry, of New York.

Venditti shot and killed Mrs. Alford Carrigan, with whom he boarded in Brooklyn, on July 25, 1914. Tarpey killed Michael Kreba, a former inmate of the prison, who had worked in Brooklyn, on May 30, 1914, while Perry, a negro, killed Leonard Reddick, a negro, on September 17, 1914. Saleme murdered his bride of a few weeks in June, 1914, after he accused her of being unfaithful.

Raleigh, N. C., September 3—Charles E. Trull, a young white man, convicted at Charlotte of the murder of Sydney Reddick, an negro, on September 17, 1914, today paid the death penalty in the electric chair in the state prison here. Trull had been twice reprieved by the governor, once to allow an appeal to the supreme court, and a second time to allow a special commission into the case.

### DRASTIC PROHIBITION SUITS WEST VIRGINIA

Clarkburg, W. Va., September 3—Governor H. Hatfield in a speech here yesterday declared that he would not call a special session of the West Virginia legislature for the purpose of repealing or weakening the prohibition laws of the state. He said he believed a great majority of the citizens wanted drastic prohibition laws, and it was his duty to carry out their wishes.

Reports from various West Virginia cities recently said petitions were being circulated, urging the state executive to call a special session to enact legislation which would permit the use of light wines and beer.

### New Coat Suits

The styles are distinctly young folk's; very, very different from the grown-ups', in that coats are loose-fitting, often falling from a raglan sleeve; some are yoked, some fashioned after the Russian style. They are \$13.50 to \$21.50.

### Middy Blouses

Scores of them in one style after another—in the well-known and well-liked Paul Jones make. See them!

### Wash Dresses

For children. The new gingham and percale dresses with long sleeves and high necks, prettier this fall, we believe, than in many a season. We have gathered lavishly—the inexpensive sorts, the finer sorts, all sizes.

### Sweaters

For the smaller children who need the "woolly" clothes first. Little smocked affairs are new; others are plain with pockets and pearl buttons. They come in white, rose, red and Copenhagen. Priced at \$1.25 to \$3.50.

### Street Dresses

Intermediate sizes. Very attractive affairs are these serge and silk combination dresses that feature the new jacket effect—the jacket is often a short bolero, of serge, the skirt of taffeta, sometimes a plaid, sometimes a plain shade. They are \$9.75 to \$17.50.

Third Straight Defeat, Though It Took Twelve Innings to Turn the Trick

By Jack Bethan. Birmingham, Ala., September 3.—(Special.)—Fighting desperately to avert a third defeat, Billy Smith's Crackers tied up in the seventh only to lose in the twelfth on an inside hit, an error and a sacrifice fly. Charley Chaplin Johnson was in form today and early outbatted Perry on the mound for the Crackers.

The barons made three in the sixth when Arthur Johnson up to the third time, with two on bases and two out, stung one to Reed and he threw the pill to the dugout to catch Coyle at third. Coyle, first up, rapped one over second and went to the keyhole on Coombs' perfect sacrifice. Ellam walked, and the Swede came through with his hit, both counting on Sloan's single to Lee. Tod was killed trying to stretch it.

IN ALABAMA NOT SINGLE COMPLAINT Heard by R. C. Carroll About Vitalitas—Traveling Man Interviewed.

"I venture to state that there has never been a remedy so much talked about as Vitalitas, and I am in position to know because I am constantly calling on the public," states Mr. R. C. Carroll, a widely-known traveling man representing the Kenon Printing and Manufacturing Company, of Des Moines, Ia., and whose home is 2150 Bessemer Blvd., Birmingham.
