

**WILSON CONVINCED
PEOPLE WILL FORCE
ACTION BY CONGRESS**

He Believes the Country Is
With Him on Preparedness
and Feels Trip Has Been
Great Success.

**PRESIDENT IS URGED
TO SWING THRO' SOUTH**

West and Northwest Also
Insist on Visit—Wilson
Feels Much Refreshed by
His Trip.

On Board President Wilson's Special, Indianapolis, Ind., February 3.—President Wilson was speeding back to Washington tonight convinced that the people of the middle west are with him on the issue of national defense and are prepared to insist that congress take speedy action. He finished his speaking tour in St. Louis today and expressed the conviction that his mission had succeeded beyond his greatest hopes. He will arrive in Washington at 1 p. m. tomorrow.

When the president's train reached Indianapolis at 5:45 p. m., for a five-minute stop, a large crowd greeted him at the station. When cries were made for a speech, he appeared on the platform of his car and said: "Indiana is all right." The crowd then shouted for Mr. Wilson, but the president told them she was resting. Members of the Indiana democratic club sent her a large bunch of American Beauty roses.

Many Converts Won.
President Wilson's advisers believe he has explained clearly why he considers immediate preparedness imperative, has won many converts to the movement and has given impetus to a discussion of the cause. From the sympathetic attitude of most of his audiences, from the enthusiasm his every appearance in public has evoked, from the huge crowds which have greeted him, they have drawn the conclusion that the people overwhelmingly support his plan—at least in the middle west.

The president's official family want him to start soon on another tour. Some of them liken his swing through the middle west to an operation not yet completed. En route to Washington tonight they looked both south and west for the setting of his next appearance in the role of champion for national preparedness.

Dixie Wants Visit.
The south beckons with many hands. Senators and representatives from most of the southern states already have asked him to include their sections on his next tour. To this have been added invitations from many public bodies, with Texas strongly asserting her claims. There is a feeling among some of his most intimate advisers that in choosing the scene for his next plea to the people, the president could pay no greater compliment to his own political party than by going into its stronghold.

The west and northwest are hardly less insistent that the president's next visit shall be to them. Minneapolis, St. Paul and Denver have presented claims and it is known that a trip to these cities is receiving careful consideration. It is possible that if the president makes another preparedness tour it may be a combination of the two—a swing to the northwest, including Minneapolis or St. Paul, or both, Denver and then south to Texas, possibly returning by way of New Orleans, Birmingham and Louisville.

Refreshed by Trip.
President Wilson goes back to Washington refreshed by the trip, not fatigued as some thought he would be. The enthusiasm displayed wherever his itinerary has taken him, the throngs which flocked to hear him, have been tonic to his nerves. His physician said today his appetite is good and his rest has been uninterrupted. The addresses delivered at the chief stopping places have been apparently as beneficial as his usual game of golf.

At least 100,000 persons, his advisers estimate, heard the president's chief speeches. At least 50,000 more crowded about the rear platform of his car during his five-minute talks, though the great majority of these were out of range of his voice. Hardly fewer than half a million others have been basking on the sidewalks to watch him pass.

**Training Camp Value Shown
By General Leonard Wood;
Comes to Atlanta Feb. 10**

GENERAL LEONARD WOOD.

This picture was taken at the Plattsburg camp.

Major General Leonard Wood, chief of staff of the United States army, is in Atlanta for twenty minutes yesterday afternoon, en route to New Orleans, Galveston and other southwestern points, in the interest of the business men's training camp, which opens at Fort Oglethorpe April 1.

General Wood will be in Atlanta February 10, for the purpose of ascertaining the progress that is being made in Atlanta toward sending a contingent of men to the Fort Oglethorpe camp, and to outline to the men of

Atlanta the importance of the camp. Captain Gordon Johnston, one of General Wood's aides, stopped off in Atlanta for the purpose of working up interest in the camp here and in this section of the country. He registered at a local hotel last night and will be here for several days, in the meantime making trips to the University of Georgia, the University of Alabama and other institutions in Georgia and adjoining states.

After Visiting New Orleans and Galveston.

**CLAIMS COLOMBIA
WILL REJECT PACT**

Minister Betancourt Issues

Statement Attacking Reduction of Indemnity and Making Expression of Regret Mutual.

Washington, February 3.—While the Colombian treaty was being brought into the senate today, Julio Betancourt, the Colombian minister, was issuing a statement expressing his disapproval of the amendments to reduce the indemnity the United States would pay Colombia from \$25,000,000 to \$15,000,000 and to make the expressions of regret for the partition of Panama mutual to both nations.

Minister Betancourt's disappointment was unfeigned. He was certain that the treaty, already accepted and ratified by his country, would be rejected now with the proposed amendments. How much further than the issuing of his statement he might be preparing to express his disapproval was not stated, but there were suggestions in Latin-American quarters that the minister was considering whether it would be an expedient and dramatic method of expressing disapproval if he left the legation and returned to Bogota.

Statement by Betancourt.
Further than his formal statement, Minister Betancourt declined to talk for publication. His statement follows: "I cannot conceive the reason why it is sought to make the expression of regret mutual. It is as though a weak man who has been hit over the head with a big stick by a strong man should be asked at the time of reconciliation to apologize for having been assaulted."

Continued on Page Two.

**\$60,000 STRUCTURE
FOR PONCE DE LEON**

C. W. Lane Pays \$25,000 for Lot on Northeast Corner of Ponce de Leon Avenue and Durant Place.

One of the most important sales in many months in a residential section of Atlanta was announced yesterday by the M. L. Throver Real Estate agency, Forsyth and Walton streets. While the sale itself is a significant event, it carries with it a building investment in the nature of a new apartment house of an approximate cost of \$60,000.

M. L. Throver sold on Thursday for C. W. Lane, the railroad contractor, a lot at the northeast corner of Ponce de Leon avenue and Durant place, fronting 100 feet on Ponce de Leon and 135 feet on Durant place.

The consideration was \$25,000, or \$250 a front foot, a large part of which was paid in cash. This is one of the best front-foot prices paid for property in Atlanta since the period of depression first set in.

Build Apartment House.
It was also learned that the E. E. Mackle Construction company is making plans for a new apartment house which Mr. Lane will erect on this lot. The plans call for a three-story brick apartment, with every modern convenience, costing approximately \$60,000. There will be eighteen apartments, six of which will contain three rooms, six four rooms and six five rooms.

The plans call for a ground dimension of 97 by 120 feet, the building being planned so as to set back from the sidewalks somewhat. Very little excavating will be required for the basement of the apartment house, as the lot possesses a natural basement pit to it.

Now Have Waiting List.
"Since this first of the year my firm has been able to lease practically all the apartment houses listed with us, and we now have waiting lists for five of the largest apartments—the Russell, North Park, Elliott, Tyrol Court and Lambright. There are very few vacancies in any of our apartments."

Duma to Meet.
Petrograd, February 3.—(Via London.)—The Novoe Vremya says it has learned from a reliable source that the duma will assemble February 15.

**ZEPPELIN AIRSHIP
LOST IN NORTH SEA
AND CREW DROWNED**

Believed Dutch Guns May
Have Brought Down L-19.
Teutons Refused Aid by

**ZEPPELIN BOMB SENDS

Thirteen Drown When Ship
Sinks in Two Minutes.
British Positions at Loos
Heavily Bombarded.

London, February 3.—A Zeppelin airship and probably all her crew has been lost in the North sea. It is possible she met her fate through the fire of Dutch anti-aircraft guns.

An English trawler reaching Gelma by reports having seen in the North sea the Zeppelin L-19 partly submerged, and with from seventeen to twenty men clinging to her gas envelope. Aid was refused the Germans because they outnumbered the trawler's crew.

Fifty shots, some of which it is believed hit her, were fired at a Zeppelin Wednesday morning and she flew low in a fog over the island of Ameland, off the coast of Holland. This airship, says an Amsterdam report, finally disappeared northward, a course which would have taken her to the North sea.

**COLLIER IS SUNK
BY ZEPPELIN.**

Thirteen men of the crew of the collier Franz Fischer were drowned when the collier was sent to the bottom in two minutes by a bomb dropped by one of the Zeppelins returning from the raid made on England. Only three men of the Fischer were saved.

Heavy bombardments are in progress at various points along the western line, especially in the region of Loos, held by the British, and around Neuville, where the Germans recently captured French positions. The British are carrying out mining operations around Hulluch. Near the Bois des Buttes, north of the Aisne, the French put down a German attack.

**TEUTONS RETIRE
BEFORE FLOODS.**

There is comparatively quiet on the Russian front except for bombardments and minor infantry engagements. Unofficial advice says that floods in the Sty river region have compelled the Teutons to abandon strongly fortified positions, and that many deaths have occurred among the Germans from pulmonary troubles owing to exposure.

Along the Austro-Italian front heavy artillery duels continue. Nothing new has come through with regard to the situation in Albania.

**BULGARIANS REPULSED
BY ALLIED TROOPS.**

An Athens dispatch gives a report of an encounter between Bulgarians and entente allied detachments at the junction of the Greek-Serbian-Bulgarian frontiers, in which the entente allies repulsed the Bulgarians.

News is lacking concerning the operations in the Caucasus and in Mesopotamia. A Bucharest dispatch says the German field marshal, Von Sanders, who was commander of the first Turkish army on the Gallipoli peninsula, has now been made commander of the Turkish troops in the Caucasus.

An Austrian submarine in the Adriatic sea has captured from the Italians the North German Lloyd steamer Koenig, which was carrying the German Italian troops in the harbor of Genoa in 1914.

**SAW ZEPPELIN SINKING
AND LEFT CREW TO FATE.**

Grimsby, February 3.—Skipper William Martin, of the trawler King Stephen, who has arrived here, reports that he saw the Zeppelin L-19 with her bows and a portion of her envelope submerged. He noticed from seventeen to twenty members of the crew clinging to the envelope.

They asked to be taken off, but as the men on the Zeppelin outnumbered the trawler's crew, the skipper declined to accede to the request. Instead he came straight into Grimsby and reported the matter to the admiralty authorities.

London, February 3.—A fishing trawler reported today to the naval authorities that she had seen a German Zeppelin in the North sea in a sinking condition. It was stated in an official announcement given out this evening.

According to a story current tonight, which, however, cannot yet be confirmed, all the crew of the Zeppelin probably were drowned. It seems that the trawler fired so many men clinging to the Zeppelin that she made no effort at rescue and left them to their fate.

The captain of a French vessel arriving at Hull reports having seen the wreck of a Zeppelin in the North sea yesterday morning.

**COLLIER SUNK AT SEA
BY RAIDING ZEPPELIN.**
London, February 3.—The collier Franz Fischer, which left Hartlepool Monday afternoon, was sunk at sea by one of the raiding Zeppelins that visited England. Thirteen of the crew, including the captain, were drowned. Three men were saved—Chief Engineer Birch, Steward Taylor and Sea-

Continued on Page Two.

**CANADIAN PARLIAMENT BUILDING
IS RAZED BY INCENDIARY FLAMES****Girl Wrapped in Flames,
Teachers Save Her Life**

Clothes of Miss Helen Hill Are Destroyed by Blaze But
She Escapes Practically Unhurt Due to the Bravery
of Miss Elizabeth Caldwell and Miss Jessie
Muse—Miss Caldwell Is Painfully Burned.

After being wrapped in flames that burned away all of her clothing, Miss Helen Hill, a pupil of the first grade of the Girls' High school, was yesterday morning saved from a terrible death by the heroic work of her teacher and the principal of the school, who were both painfully injured.

The accident occurred at the Girls' High school, on Washington street, about 10 o'clock, and was caused by the girl's dress becoming ignited from an open gas stove.

The building, which is poorly heated, has been furnished with a number of gas stoves, some of which have no screens. Miss Hill had just entered the classroom after a short recess, and stood before the stove to warm. Her skirt was wafted into the open stove and came in contact with the flames.

Teachers Save Her Life.

Miss Elizabeth K. Caldwell, her teacher, heard the cries of Miss Hill's classmates and ran to her assistance. At the same time Miss Jessie Muse, principal of the school, ran into the room, and she and Miss Caldwell threw Miss Hill on the floor and covered her with clothes that were handed them by the other pupils.

Miss Hill did not move or utter a cry, although she was enveloped in flames. Had she tried to run, Miss Muse states, she would in all probability have been burned to death.

It was at first believed that the girl

was badly burned, and Dr. James B. Beard, whose residence and office is near by, was summoned. He made a careful examination and announced that, miraculous as it might seem, there were no serious burns on the girl's body. Under his advice Miss Hill was sent to her home at No. 497 Highland avenue.

She Returns to School.

Mrs. C. L. White, the mother of Miss Hill, after hearing the story of her daughter's remarkable rescue, consented for her to return to school.

Miss Hill dressed for the second time that day and was soon back at school, carrying with her the shocks she had borrowed to wear home.

Both Miss Caldwell and Miss Muse had to have their hands dressed by a physician, as they were painfully burned. Miss Caldwell suffering the most. The scars on Miss Caldwell's hands, the physician thinks, will last through life.

Her Mother Gives Thanks.

"It certainly was fine and big on the part of Miss Caldwell and Miss Muse," Mrs. White, talking to a Constitution reporter of her daughter's narrow escape. "They certainly saved my child's life. Why, all of her clothing was literally burned off of her. Her hair was almost badly, but outside of that she was not even blistered. I just don't know what to say, her escape was so miraculous."

The superintendent has ordered that all gas stoves in the school be at once covered with fire screens.

**TWO WOMEN PERISH
AND TWO MEMBERS
REPORTED MISSING**

Many Policemen and Attendants Are Believed Killed in Collapse of Building—Members Have Narrow Escapes and Some Are Injured.

**FLAMES BURST FORTH
WITH GREAT RAPIDITY
AFTER TWO EXPLOSIONS**

Gas Bombs or, Some Other High Explosives Were Discharged in Reading Room. Whole Place Ablaze in Few Seconds.

Ottawa, Canada, February 4.—The historic Canadian parliament building was destroyed last night by a fire declared unofficially to have been caused by the explosion of a gas bomb or an internal machine. Two women, guests of the wife of Speaker Seigney, were overcome by smoke and perished. Several policemen and firemen were buried under debris when one end of the building collapsed. The number of persons taken to hospitals had not been determined early this morning. Frederick F. Farde, chief liberal whip, and William S. Logie, a member of parliament from New Brunswick, are missing and it is feared they have lost their lives.

**FIRE WAS STARTED
BY EXPLOSION.**

It has been established that the first burst of flame in the reading room of the house of commons was preceded by at least one explosion and probably by two. The force of the concussion was so severe that persons standing some distance away were hurled to the floor. A rigid investigation to determine the cause of the fire already has been taken by the Dominion authorities.

Two Dominion policemen and two house of commons attendants who were working with other men in the chamber below the speaker's quarters when the roof fell are declared to have been killed.

The main tower fell at 1:30 o'clock this morning. It was believed at that hour there still was slight hope of saving the library.

The flames spread with such amazing rapidity that the Ottawa fire brigade was utterly helpless to cope with them. Aid was sent from Montreal on a special train, but at 1 o'clock this morning the fire was still raging.

**LOSS CANNOT BE
ESTIMATED IN MONEY.**

The loss can't be estimated in money. The building was valued at about \$5,000,000. But the contents are of incalculable value. There was no insurance.

At midnight the commons and senate chambers had been destroyed and the great clock boomed out the hour flames were swirling up the magnificent tower and licking their way to its top. The parliamentary library at the rear, probably will be saved. Soldiers were assigned to carry out its contents.

Members of the parliament, spectators in the gallery of the lower house, government employees and others who were in the building narrowly escaped.

Buy-Right Hints for the Housewife

Furniture News Flooded With Bargains

There are luxuries in furniture, just as there are luxuries in many other things for household use and personal needs. They cannot be said to be more ornamental than useful; for few, if any, of them but supply a comfort and convenience, with the added charm of beauty of design, and elegance of finish. Many of them perhaps can be handled done without, and not create any particular discomfort; but the desire to have them is just as strong. If you have been "bedging" a purchase along this line of theory, NOW is the time to indulge, while the great furniture emporiums of Atlanta are cutting and slashing prices right and left in their clearaway offerings; for amongst

the many listings of reduced prices will be found the very articles you want, and didn't buy at original prices, because they seemed to come under the head of luxuries. Nothing appeals so irresistibly to the housewife as beautiful furniture; and no time in the history of furniture sales in Atlanta have such wonderful opportunities been presented for liberal buying, on liberal terms, as are now proclaimed. Read the furniture sales news in The Constitution and you'll see how easily you can indulge yourself in some of the "luxuries" you've been wanting.

The best market news in the city will be printed in tomorrow morning's Constitution. Mighty good reading.

NOTE—The CONSTITUTION guarantees a marked saving on every purchase made in Atlanta in stores that advertise their lowest prices in these pages.

death or injury. Within a few minutes after the fire began corridors were filled with smoke and at many points walls of flame barred progress.

MOTHER SAVED HER TWO CHILDREN.

There were many doors to the great building, but since the outbreak of the war all except the main portals have been closed to safeguard the legislators. This precaution made escape more difficult and probably was responsible for the deaths of Mrs. Bray of Montreal, and Mrs. Morin, of Beaconsfield, in one of the rooms of the speaker's suite.

Mrs. Sevigny saved her two children by dropping them into a fireman's safety net and then leaped to safety herself. Another of her guests, Mrs. Dussault, saved herself in the same way. Among those severely burned was Minister of Agriculture Burrell, who fell unconscious after plunging through a curtain of fire and groping his way along a smoke-filled corridor.

APPAM PROBABLY WILL REMAIN PRIZE

VILLA IS REPORTED LOCATED NEAR TULE

El Paso, Texas, February 3.—Francisco Villa was located today near Tule, about fifty miles east of Gallegos, according to General Gaviro, commander at Juarez. Gaviro dispatched 100 men to reinforce those sent on yesterday towards Bosque Bonito and aid in the capture and extermination of the Villa band.

The flight towards the American border of Francisco Villa officially reported has been followed by the movement eastward from the mountains of western Chihuahua of a large number of alleged bandits, according to reports received today.

No news has been received from the detachments of Mexican troops sent in pursuit of a band of Mexicans, said to be led by Villa, and which was reported traveling towards the Texas border under the leadership of Francisco Villa was reported to have with him a large quantity of loot accumulated in the course of his operations in northern Mexico.

The short handed German prize crew aboard the former British liner Appam sailed today for New York. The ship, which was captured by the British, was reported to have with it a large quantity of loot accumulated in the course of his operations in northern Mexico.

The Appam was reported to have with it a large quantity of loot accumulated in the course of his operations in northern Mexico.

Many Changes Made

Plans were changed yesterday when during the afternoon and evening, but the military authorities prevailed finally and a special boat was provided to take the Appam to New York. The Appam was reported to have with it a large quantity of loot accumulated in the course of his operations in northern Mexico.

The British government is caring for all passengers and crews of the Appam and will send them on to England aboard the first available ship. The Appam was reported to have with it a large quantity of loot accumulated in the course of his operations in northern Mexico.

LANE EXPLAINS RISE IN PRICE OF GASOLINE

Caused by Shortage of Supply and Increase in Demand, He Says.

Washington, February 3.—The greatly increased price of gasoline, today in response to a resolution, is caused by shortage of supply and increase in demand. Lane recommended that the situation be relieved by the use of heavier distillates in internal combustion engines.

Secretary Lane's report asserts that authorities agree that the automobile and other internal combustion engines are primarily responsible for the increased consumption of gasoline and adds that a kerosene carburetor would allow a car to run on kerosene, thus relieving the present shortage.

The recent rapid increase in the price of gasoline, the report says, has been caused by a combination of factors. The report states that the price of oil has risen sharply since the beginning of the year, and that the demand for gasoline has increased rapidly.

MILITARY SCIENCE TO BE TAUGHT IN AMERICUS SCHOOL

Americus, Ga., February 3.—(Special) Plans for the installation of military instruction in the Americus High School beginning in the fall term were made by Superintendent J. P. Mathis and the board of education. It is expected that an army officer will have charge of the instruction which is in line with the popular plans for preparedness.

HIS GOLD WATCH FOUND NEAR SCENE OF MURDER

Buffalo N. Y., February 3.—John Edward Tempa, a gold watch, which he declared was stolen from his pocket Sunday night when he claimed highway robbery, was found by a newspaper reporter in a field not far from the spot where the murder of Mrs. Agnes Teiper had been reported.

It was lying alongside a stone which it had evidently struck. The watch was found by a newspaper reporter in a field not far from the spot where the murder of Mrs. Agnes Teiper had been reported.

HIS PAL ESCAPED ASSETS ABELSON

Man Who Passed Fraudulent Cashiers' Checks on Local Banks Brought Back to Atlanta by Detective Shaw.

Detective T. D. Shaw arrived in Atlanta at 11 o'clock last night, with Dave Abelson, alias E. G. Flind, alias A. M. Cline, said to be wanted all over the United States as a forger and fraudulent bank operator, who is charged with swindling the Fourth and American National banks of this city out of \$2,000 early Wednesday in Atlanta he went under the name of J. H. Homer.

Immediately upon arriving in Anniston Shaw stated that the authorities there tried to force him to pay them a \$200 reward for the delivery of Abelson.

Rough Automobile Trip

To forestall that I got an automobile and made the trip across the rough mountain I have ever seen to Hell. There we were able to take the train and come on in to Atlanta.

Abelson, who registered at headquarters as a 31 year old bachelor of New York city, is a small, quiet man with the face of a student, emphasized by the thick-lensed glasses which he wears.

CLAIMS COLOMBIA WILL REJECT PACT

Continued From First Page.

It is quite natural that Colombia profoundly regrets the loss of the Isthmus of Panama. An expression of regret by her in the treaty of April 6, 1914 would have been an irony without precedent in the annals of diplomacy.

It is the fact that the company concerned the \$25,000,000 offered in the treaty does not cover even the tenth part of the damage done to Colombia taking into account only the actual value of the Isthmus.

Calumnies Spread Abroad.

"Confident that the senate of the United States would approve the treaty signed in Bogotá on April 16, 1914, at the instance of the American government, my government had decided to apply the entire amount of the indemnity to the sanitation of the ports of Bogotá and Cartagena and to the construction of various railroads and other public works, from all of which the country has derived and will continue to derive great benefit."

WATSON GUILTY, DECLARES GREGORY

Continued From First Page.

Georgia by the posting of newspapers there, insist that the case be tried there. If an indictment should be found, "We do not admit that under the law and the statute referred to the defendant can be tried in Georgia and that our jurors are not controlled by prejudice, but will determine any case by the law and evidence submitted. The jurisdiction of the case is in Georgia and the suggestion emanates from those who do not know the people as we do. We take this position not merely because of the case presented, but because further the fair name of Georgia and her citizens has been recently characterized by a department which appears to be an official sanction of an assertion which we know to be absolutely false and wholly unwarranted."

Two Saloons Raided, Four Cases Are Made And Whisky Is Seized

Charged with keeping liquor on hand for the purpose of illegal sale, cases were made by detectives last night against the proprietor and bartender of one saloon and the bartender and porter of another.

The officers raided the Ira saloon, 3 Edgewood avenue, and the Diamond saloon, 14 Luckie street, and, according to their statements, obtained evidence of whisky sales in both places. At each of the saloons, they state, they confiscated a large quantity of liquor.

ZEPPELIN AIRSHIP LOST IN NORTH SEA

Continued From First Page.

man Charles Hillier. The Franz Fischer was a captured enemy vessel employed as a coasting collier. Hillier described the disaster as follows:

About 10:30 o'clock Tuesday night we heard a noise overhead such as we had never heard before. Presently a Zeppelin came right on top of us and dropped a bomb which fell near the engine room. A tremendous explosion followed the vessel remaining afloat only two minutes.

LOOS IS SHELLED BY THE GERMANS

London, February 3.—The following British official statement on the campaign in the western zone was issued today:

There was heavy hostile shelling during the day. It was directed against our trenches around Loos and against our lines in the region of the Somme. There has been mining activity about the Hohenzollern redoubt and between this redoubt and Le Béthune. This activity was mainly on our part.

CANNONADING HEAVY ON WESTERN FRONT

Berlin, February 3.—Via London.—Notable artillery activity by both sides along the Franco-Belgian frontier was reported by German army headquarters in today's official statement. The allied artillery fire has been particularly heavy in the vicinity of Neuveville, where the Germans recently made a considerable gain of ground. English guns in the vicinity of Bulloch were occupied by German troops.

GERMANS ATTACKING FRENCH FRONTIERS.

Paris, February 3.—Via London.—The following statement was given out at the war office this afternoon:

The night was calm and there is nothing of importance to report. Shortly after midnight the enemy followed a spirited bombardment the Germans launched an attack against our positions in the Bois de la Ligne, north of the Aisne in the region of the village of Bois.

To Drive Out Malaria, and Build Up the System

Take the Old Standard GREGORY'S TASTELESS chill tonic. You know what you are taking as the formula is printed on every label showing it is Quinine and Iron in a tasteless form.

Watson Guilty, Declares Gregory

Georgia by the posting of newspapers there, insist that the case be tried there. If an indictment should be found, "We do not admit that under the law and the statute referred to the defendant can be tried in Georgia and that our jurors are not controlled by prejudice, but will determine any case by the law and evidence submitted. The jurisdiction of the case is in Georgia and the suggestion emanates from those who do not know the people as we do. We take this position not merely because of the case presented, but because further the fair name of Georgia and her citizens has been recently characterized by a department which appears to be an official sanction of an assertion which we know to be absolutely false and wholly unwarranted."

COLD AGAIN TODAY SAYS FORECASTER

More cold weather today. The weather man says the temperature will drop below freezing all over Georgia early this morning. It didn't seem that the mercury could drop any lower than yesterday morning, when Atlanta suffered in the clutches of a cold wave that was penetrating as it was windy—which is saying much. The mercury dropped to 18.8 Thursday. Fair weather will prevail, however, which is no small amount of consolation.

WHITE AND VIC MORAN BOX EIGHT FAST ROUNDS

Chattanooga, Tenn., February 2.—Charlie White, of Chicago, and Vic Moran, of New Orleans, boxed eight fast no-decision rounds here tonight. White admitted defeat on top of the recorder's court. The first three were required to give \$200 bond. No bond was required for Castro, who was at home at the time the fight was made.

BURGLARS GET AWAY WITH 5 DOZEN EGGS

Burglars entered the home of J. L. Duncan, 1000 North 10th street, last night while the family was away. They carried away a dress suit, a dark gray suit, a pistol and five dozen of eggs. The thieves were seen by the neighbors who called the police.

MISTRIAL LIKELY IN CHANCE'S CASE

Americus, Ga., February 3.—(Special) The case of Claud Chance (banned charged with the murder of A. D. Oliver) reached the jury of eleven men early Thursday afternoon after an exhaustive charge by Judge Z. A. Littlejohn.

GEORGIA'S AWAKENING

There is nothing the matter with public sentiment in Georgia as regards lynchings and mob law. Georgia's mind and Georgia's heart are both on the right side. The trouble has been that Georgia's conscience has been asleep somebody had to touch the nerve to awaken it. When the nerve was touched—when the situation put before the people in all its terrible and its threatening aspects—they see it in the true light, and they are at last aroused from their lethargy.

It could not be questioned that when talk of federal intervention became strong enough to reach the point of threatening, even almost the point of action through the department of justice in planning to take a citizen of Georgia to another state for trial that public sentiment would be aroused and aroused deeply.

Georgia's awakening has come even more quickly than anticipated. The public sentiment so far aroused against the continued degradation of the state through mob law and mob assassination has been nothing short of wonderful. Georgia's awakening means that Georgia must and will clear her skirts of lawlessness and in future present a clean and orderly record to the world.

Deep gratification will be prompted every where on the part of good and conservative Georgians over the sweeping declaration of Governor Nat E. Harris, of his purpose to work with the legislature to bring an end to lynching. Dr. L. G. Hardman, of Commerce candidate for governor has promised that he too will come out strongly against mobs and their destructive work.

There has been no more significant action bearing directly upon the subject than the resolutions unanimously adopted by the democrats of Habersham county in mass meeting Wednesday commending the fight. The Constitution is making for the enforcement of law and order, urging the press of the state to battle for the supremacy of law, demanding that Georgia officials enforce the law, and that candidates for office shall state clearly what they propose to do to put an end to the lawlessness that has so greatly damaged the state's good name.

The daily and weekly press of Georgia is already speaking out upon the subject in no uncertain terms. The candidate or candidates who stand out strongly for law enforcement will find no lack of commendation or approval in their course from press, from public, from pulpit. Ministers and high church officials in every quarter of the state are demanding the re-enthronement of law and order.

Such powerful crystallization of sentiment can have but one meaning, and that is, Georgia proposes to wipe out this blot upon her name and to administer punishment for crime in legal and orderly way through her constituted courts.

There is opportunity here for a great work not only on the part of candidates and of officials in high office, but for the press, for the school teachers in talking to the children of their classes, for the people themselves, and above all, for the ministers of the state to take hold of and bring the seriousness of this proposition to the doorstep of every home.

There is opportunity here for them to teach and firmly implant the eternal lesson that if we admit justification of mob law for any single crime whatsoever, it opens the door to and means the ultimate justification of anarchy.

It was Georgia's vital mistake that she did not crush the mob spirit in its very shell.

Hatched and full grown, it has become a hydra headed menace to conquer which Georgia must marshal her best and most powerful forces.

Georgia can crush it; more than that, she will!

THE COMING AIR-BATTLES.

The long-expected "battles in the air" have not materialized—to any extent. There have been several daring, spectacular feats of cloud warfare, in which wonderful heroism, at the expense of life, was displayed, but not very much has been accomplished by the air defenders of France and England in meeting the Zeppelin attacks that happen at the times scheduled for them, the yellow terrors coming and departing with fatal efficiency.

It is to little purpose that the great London searchlights sweep the sky they discover the enemy, but it is generally when his deadly work has been done. After the slaughter of the sleeping—mostly women and children—the Zeppelins make good their escape.

"The recent raids in England and France demonstrate the leisure-like efficiency of the German airmen, who seem to come and go at will, unhindered by home-defense. They bide their time, strike like lightning, and vanish as swiftly.

England's boast is that she has the German submarine situation well in hand, but she has made little progress in combating the danger from above. It is minimized by the English accounts of air raids, but eye-witnesses of the havoc wrought by the Zeppelins tell a different story.

From the German activity in perfecting a new and deadlier air craft—from the increased number of airships on raiding expeditions, it is evident that the time for the great air battles is at hand, and England especially must look to her air defenses as never before.

THE PROGRESSIVE PLAN.

Let us as farmers of south Georgia quit planting the all cotton crop and spend more of our valuable time in raising more live stock and stock feed. That will pay us more money than raising cotton for Mr. Holt.

So writes a progressive farmer of Tift county to The Tifton (Ga.) Gazette. It is in line with the diversified farming plan which is being followed successfully by Georgia farmers who know that work on the live-at-home principle means plenty on the farm and money in bank.

Attention is called to what has been accomplished in stock raising on the Joe Battle farm at Moultrie, Ga., where the best breeds of stock are on exhibition—guinea, hogs, cows, hogs, modern barns; also "five or six large silos that he fills with ensilage enough to feed his stock for a long period of time."

In his communication the Tifton correspondent puts these pertinent questions to farmers who have not advanced far on the progressive, diversified plan.

Why can't we take this man for an example and do likewise?
Because we have never tried.
Why don't we have improved farm land and improved implements?
Because we have never tried.
We can buy an automobile, but we can't have our land stumped.
We lose enough time and labor cleaning and hoeing around our stumps every year to have them taken out.
Well, why don't we have improved implements?

Because we can't afford them.
Neither will we ever have them if we don't stop planting so much cotton.
We can afford to buy our sundries, oil and gasoline for our autos, but we can't spend any money on our farm for its betterment.

That is plain, practical talk which strikes home, and wherever there are fine farms, with modern equipment—farms that feed themselves and ship a ready money crop to market, it will be found that they are owned by farmers who believe in greater diversification.

The farmers of the south are coming to see that there are more money crops than one, and on that basis they are building better for the future.

THE DEATH-PITS.

On the scientific war fronts there is little need of a truce between battles to bury the dead.

In some instances the soldiers dig their own graves and creep in to await the blast that buries them.

For enemy mines are exploded, wrecking trenches and burying men alive.

An appalling picture of this sort of warfare is given in a Paris cable of the recent renewal of the German attacks on the western French lines.

The mines blown up, formed craters 80 feet wide and 30 feet deep, "literally closing up the French trenches with the men buried inside."

And this picture of the fighting that followed is given:

Before the smoke was cleared away the Germans charged. They occupied the craters and flowed over the rims upon the trenches beyond.

There came a terrible battle in the craters. Men reeled as they grappled down the steep sides and fought stampeding on the heaps of dead and dying.

In the contemplation of such scenes it is no wonder an English war correspondent has written that some of the dark men of alleged "heathen" tribes, who are assisting Christians in the carnage, have expressed themselves as being sick of it.

When congress flatters itself that it is "getting there," it's certainly annoying to be confronted with the question "When are you going to begin?"

King Constantine is talking-mad. Had he been fighting-mad at first he would now have more standing room.

If all the men who know how to run the country are willing to fight for it the country will be safe.

"All for England" is the slogan now. And we can see Baron Astor counting his coin.

FOODS "They Build or Destroy"

Amazing But Rarely Suspected Truths About the Things You Eat.

By ALFRED W. McCANN

(Copyright 1916 by Alfred W. McCann)

CHAPTER VII.

Condensed prisoners fed on adulterated food and were stricken with disease, but recovered when natural food was restored to them.

Animals, human or dumb brutes die when their food is wrong. We see what happens when someone kills another's chickens with bad food, but when a hundred food frauds

take a way the

darling of the

home to whom

will the grieving

father and mother

go for redress?

The very number

of food frauds

makes it impossible

for anyone to

near to the grand

jury. This par-

ticular food killed

my little boy or

girl.

For months,

perhaps for years,

one juggled food

product brought

substances to the

child's diet of

which her body

could make no

use. Her vitality was sapped by nature's

poison, but was not

noted by any particular food. An

inadequate combination of foods simply caused

her vitality to lose its tone.

Another food, from another source, had

been processed in a way that removed

some of its most indispensable elements. In

its debased state it robbed her little frame of

the very materials which she required for

growth.

Slowly, month by month, the artificial com-

bination of loaded, drugged or adulterated foods

wormed its cruel way to the dinner table and

all the forces of nature were called in to

struggle with the unseen enemy of health and

life.

Commercial expediency and a blind heart-

less hunger for big grain sales and cooked

meats as the great war was in the child's

body, but nature had been supplied with poor

fighting materials. The child's resistance was

broken at last by the combined attack of

unnatural and unsuspected forces—buckled,

cracked in and she was gone.

There is no pathologist, no lawyer, no

district attorney who can accuse the food

faster of her death. Let this be fully under-

stood at the beginning.

Therefore we can correct a single food fraud

by law we must bring the body of a dead

child into the courtroom and say to the jury:

"This child was destroyed by this

particular juggled food."

Scientists will be on hand to testify the

other way. The food makers have been paying

scientists for twenty five years to testify in

their behalf before judge and jury.

I have listened to their testimony and

have seen it fall, but the facts have rarely

been reported to the public. Fear of adver-

tising losses has closed the columns of the

press and the uplift magazine against them.

Judges confused by conflicting expert evi-

dence, in numerous instances have imposed

EDITED BY DICK JENKINSON.

Frank Culling Out Crackers

LOOKING THEM OVER

WITH BILLY EVANS

DISCUSSING PLAYS THAT CONFLICT AND CONFUSE

MAY SELECT CAMP FOR LOCALS TODAY

Albany, Dothan and Valdosta Making Spirited Fight for Crackers—Redding Is Sold to Charlotte.

By Dick Jenkinson.

Manager Frank was having the time of his life last night at the Analee hotel opening telegrams. There is a three-cornered fight on for the honor of entertaining the Crackers during the spring training season and the telegrams were regarding this.

Albany and Valdosta in Georgia and Dothan in Alabama are warring a spirited fight for the honor and as fast as one makes a proposition, the other goes it a little better, and Manager Frank is enjoying the contest immensely.

At noon today he will submit his proposition to all three cities. He will advise them just what he wants and all express willingness to do anything he wants to get him to take his team to their city.

"Anything you want we'll give you," says Valdosta. "The town is yours," says Dothan. "We don't take no for an answer, you just must come," states Albany, and each succeeding mail brings further substantiation of their statements.

That Manager Frank will get an ideal training camp, under terms that will be just what he wants, no matter which city he takes, is certain.

Redding is sold. Manager Charles Frank continues to use the ax on the Crackers camp. Yesterday afternoon he announced that Fletcher and Redding had been sold to the Charlotte club of the North Carolina league.

Reading came to the Crackers from the Columbus South Atlantic league team last season after the Sally closed its season, and finished the season with a record of 100 wins and 100 losses.

This makes the fourth of the remainder of last year's team to go, Bissland and Allen going by waivers and Milton Reed being given his outright release.

Up to a few years ago, one of the requisites of a coacher third base was ability to tackle well. College players with football experience were invariably given preference when a coacher was sent to the third base line. It was a habit, almost a duty, with the coacher at third to stop in any manner the base runner from continuing on the plate, provided the coacher figured he had no chance to score. The safe and sure way was to wig with the arms, letting the runner know whether he should continue to the plate or pull up at third. With some players such a system worked fine, with others it was always necessary to use far rougher methods.

There are some players who actually run wild when they get on the bases. They pay little or no attention to the coacher. With such players the wigging of the arms is not a very successful system. In a good many cases it was necessary for the coacher to either grab or tackle the runner in rounding third, stop his progress and often push him back to third. Coachers, by such tactics, very often saved the runner from being thrown out a mile at the plate. This system of stopping runners has been the cause of much of the bad feeling between the players and the coaches. It has been a source of much trouble and has often led to the breaking up of teams.

Section 17 was added to rule 56, which relates to all cases where base runners are out. The new section reads thus: "If a coacher at third base touch or hold a base runner at third base, or a base runner who is rounding third base for the home plate, the umpire shall declare such base runner out. This is a most excellent rule, but a number of happenings that have arisen since the rule was made prove conclusively that common sense can often be used to advantage in interpreting some possible situations.

Shortly after the rule was incorporated in the playing code a Federal league batter knocked a ball over the fence, which had greater distance than the regulation limit. The hit came at a critical stage of the game, practically meaning victory for the home team. As the base runner who made the hit was rounding third base, the coacher in glee rushed from his lines

to the runner, and as he rounded third base, patted him on the back several times, as is customary on the ball field after one of the athletes does something out of the ordinary. The home crowd was in an uproar over the hit, imagine the state of affairs if you can when it dawned on the crowd that the umpire had declared the batter out. He had hit the ball over the fence. Believe me, there was some protesting.

The umpire based his decision on the part of the rule which says the umpire shall declare the runner out if the coacher touch or hold the base runner who is rounding third base for the home plate. In the case cited the coacher certainly did touch the runner as he was rounding third for the home plate. He surely had that much of the rule on his side. There is, however, another rule that relates to such a play, and which takes a directly contrary side to the case. Section 7 of rule 18 says: "A fair batted ball that goes over the fence shall entitle the batsman to a home run unless it pass out the ground at a less distance than 235 feet from the home plate." The batsman must touch the base in regular order, and the umpire is entitled to score a run, while the coacher's rule is regular because of the coacher's infraction.

President Johnson, of the American league, has proposed an amendment to this rule that I believe is a very satisfactory one. Mr. Johnson says the rule was made to cover situations that I believe is a very satisfactory one. Mr. Johnson says the rule was made to cover situations that I believe is a very satisfactory one. Mr. Johnson says the rule was made to cover situations that I believe is a very satisfactory one.

PRICE OF GOLF BALLS IS REDUCED 15 CENTS

New York, February 2.—A reduction of 10 to 15 cents each in the retail price of golf balls was announced by dealers and was attributed to the approaching expiration of the Haskell patent on April 11. The cut in the price of the balls applies to the medium grade, but not to the extra grade, which the reduction will not apply to the very cheapest balls, which are now being made to sell as low as 25 cents each, in order to compete with the British shilling ball.

Squash Play.

New York, February 3.—Walter Kinsella, of the Squash club, world's professional champion, has virtually accepted a challenge for a match for the championship with Stephen Peron, of the same club. Kinsella defeated Peron in a championship match a year ago after Peron had held the title for about ten years.

RIVAL A. C. FIVES PLAY HERE SATURDAY

Great Game Expected When They Clash at Local Gymnasium.

Atlanta basketball fans have become keyed up for what will probably be the best basketball game of the season Saturday night, when the Atlanta Athletic club five plays their old rivals, the Birmingham Athletic club. This game will be a rip-roaring front start to finish, as the result will determine the champions of basketball in the South.

The Birmingham five defeated Atlanta in Birmingham recently, the locals claiming that Referee Pritchard helped the Birminghams to their victory by calling unnecessary and unfair fouls on the locals.

That the locals had just cause for their complaint of Pritchard was proven by a story from Chattanooga regarding the treatment their five received in Birmingham, and the subsequent refusal of the Columbus five to play with Pritchard refereeing.

Saturday night, Janis Brown will handle the indicator, and both teams are assured of splendid officiating, and the spectators will be treated to a splendid play with him handling the whistle.

A record crowd is certain to be out. If Birmingham should win, the title will be out of the running for the title. If Atlanta wins, they will have an equal claim with Birmingham and both will have to reach the remainder of the season without a defeat to have an equal claim at the conclusion of the season.

The usual dancing feature will be enjoyed after the game.

Atlanta Bowlers Will Roll Chattanooga and Knoxville on Saturday

A team of Atlanta bowlers will go to Chattanooga tomorrow night for a three-cornered game with the Chattanooga and Knoxville five-men teams. The match will be between five-men teams, total pins in the three games to count. This match will also stimulate interest in the Southern Bowling congress, which will be held here in April.

CONGRATULATIONS.

Germany Schaefer Is 34 Years Old Today.

Herman W. Schaefer, formerly of the Washington Climbers, now of the Yankees, known as the clown of the baseball world on account of his funny stunts on the coaching lines, was born in Chicago, February 4, 1882. Schaefer has worked in the major leagues over ten years, and while he has slowed up a bit as a player, he is still able to hold down a job in the big show through his original coaching methods. He started his professional career in 1900 in Kansas City, and in 1901 was with the St. Paul team. He has since played for the Milwaukee club but returned to fast company the next season as a member of the Detroit Tigers. He played with the Tigers in 1906-08, and was one of the star second basemen of the American league. In 1909 he was traded to the Washington club, where he played until he jumped to the Reds. Now he is with the Yankees.

WILLARD AND MORAN ARE SIGNED TO BOX

Chicago, February 3.—Jesse Willard, heavyweight champion, will be paid at the rate of \$1,583.33 per minute for his ten-round fight with Frank Moran in New York March 17. Willard signed an agreement to meet Moran today, the promoters who secured the fight, Tex. Rickard and Sam McCracken, agreeing to pay the champion \$11,540, win, lose or draw, in addition to a percent of the moving picture rights and the money derived from advertising privileges.

WESLEY MEMORIAL FIVE BEATEN BY S. V. D. TEAM

S. V. D.'s basketball five defeated the Wesley Memorial quintet on the latter's court last night in a fast game, the score being 34 to 11.

At the end of the first half the score was tied at 10 and 10. By better endurance than their better opponents and a burst of speed that has seldom been equaled by an amateur team in Atlanta, S. V. D. managed to forge ahead in the second period of play. In this half the playing of Captain "Scrappy" Sullivan, at forward, and Jerry, at guard for S. V. D., featured, while Captain Fincher and Jim Lowry, at forwards, did some star work for Wesley Memorial.

IMPORTANT PREP GAME SCHEDULED FOR TODAY

The game between Marist and B. H. S. basketball teams, to be played Friday afternoon, will be the most important game in the prep league so far. Neither team has won a game yet, and the result may have an important bearing on the championship. The comparative scores of games played so far seem to show the teams are about evenly matched, and a close game will be staged.

The Marist-B. H. S. games have generally been the hardest fought in the prep league, these two teams being usually the closest contestants for the pendant. The game will be played Friday afternoon, at 3 o'clock, on the Marist court, weather permitting. The admission is 15 cents, in case of wet weather, the game will take place at the Atlanta Athletic club.

NELSON AND WOLGAST ARE SIGNED TO BOX

La Crosse, Wis., February 3.—Battling Nelson and A. Wolgast have signed an agreement to box at Appleton, Wis., February 22, the sixth anniversary of the defeat Nelson by Wolgast, for the lightweight championship. It was announced here today.

Fans Petition Council for The Auditorium for Bouts

Frank Whitney, in an effort to give Atlanta boxing fans the best boxing with the best boys in the country participating, is making an effort to secure the Auditorium-Armory.

But Frank wants to find out whether or not the fans really want the best boys brought here, and he is going to give the fans an opportunity to show how they stand by circulating petitions for their signatures.

These petitions are addressed to the Auditorium committee of the city council. They will be placed in prominent places around the city and the fans are urged to sign them. The petition follows:

"To the Honorable Auditorium Committee of the General Council of the City of Atlanta, to wit: Messrs. Farlingham, Ray, Inman, Freeman and Bell:

We, the undersigned citizens of the city of Atlanta, respectfully petition and request your honorable committee to permit the Auditorium building to be used for the holding of a boxing contest on February 22.

"These high type men command high salaries for their services. Their services are in demand in all of the large cities of the country. In order for Atlanta to see these men in action, it is absolutely necessary to have the use of the Auditorium.

"The participants of the proposed boxing contest are of the highest type men, the country has never seen other than our own well-known Frank Whitney and the sensational Charlie White, of Chicago. Both of

these men are of the very best and cleanest sportmen in the boxing game.

"Boxing is already Atlanta's. It has a large following here; the people want good contests. This fact needs no further proof than the enormous crowd that turned out to see the Welsh-Whitney contest recently staged here.

"Boxing is like any other game to get the best we have to pay the highest price. IF ATLANTA IS GOING TO HAVE BOXING CONTESTS, WHY NOT HAVE THE BEST? In order to have the best, we must have the Auditorium to stage the contest in, as it is the only building in the city large enough to accommodate sufficient people to pay for the best contest in Atlanta.

"A boxing contest between the nearest applicants to the lightweight championship of the world, such as the White-Whitney contest would be a great advertisement for Atlanta. The Auditorium belongs to the city, why not use it for the city?

1823-Jem Ward defeated Ned Baldwin in 20 rounds at Wimbledon Common, London. Considering the amount of money he had won for defending his title, this bout affords a strange contrast. For Ward, who was then the leading contender for the title he afterwards held, fought for a purse of \$25. Moreover, he had no advance knowledge of the man he was to fight, for his opponent was called an "unknown," and Jem had no idea as to his identity until he faced him in the ring. It developed that Jem's opponent was a dark horse who had been trained by Bill Eaton and had won two of his best judges of brawlers. On that day, Baldwin fought gamely, but he took an awful beating in the 20 rounds which lasted only 15 minutes. Baldwin, nicknamed "The Whitehead," afterward became one of the foremost fighters of the period, while Jem soon afterwards attained the championship goal.

CONGRATULATIONS.
Knockout Brennan Is 28 Years Old Today.

"Knockout" Brennan, the Buffalo middleweight, who has lately been making an excellent showing in the ring, is 28 years old today. William Brennan, to give him the name with which he is best known, was born in 1888, in Buffalo, and has German blood in his veins. Only 5 feet 5 1/2 inches tall, he has a reach of 70 inches, and for his lack of stature, as many of his opponents have discovered, to their cost, he is a very effective fighter. He has won his nickname most honestly by knocking out twenty-six opponents during his first year in the ring. His best fight was with a boxer named "The Hammer," who was a very powerful puncher, but he was so much in evidence.

CHRISTIAN COLLEGE
FIVE WINS 20 TO 9

Auburn, Ga., February 3.—(Special.) The Christian college baseball team returned last night from Commerce, where they won a victory on yesterday over the team from the Commerce High school. The game was rather slow at times, due to a wet court. The team, as a whole, did good passing, and the victory was celebrated by a night shirt parade through the town. The score was 20 to 9.

GEORGIA FIVE PLAYS
COLUMBUS TONIGHT

Athens, Ga., February 3.—(Special.) The University of Georgia basketball team is on a short tour to Friday night they will play the Columbus Y. M. C. A. at Columbus, and Saturday night the Rome Athletic club in Rome.

Yale's Grid Dates.

New Haven, Conn., February 3.—Yale football schedule for next season, announced today, shows the Virginia Polytechnic Institute has replaced Springfield as the opponent for the first game, which will be played at Princeton, N. J., all the games will be in the schedule.

Baseball on Ice.

Baseball on ice, which has become a popular sport in many cities this winter, is not a new thing. The first contest of this kind was played fifty-five years ago today, February 4, 1861, in Brooklyn, where the Brooklyn Atlantics of that city put on their skates and defeated the equally famous Charleston Oaks.

Two Runners Barred.

New York, February 3.—The board of governors of the Amateur Athletic Union, by a majority vote, has approved the action of the registration committee in finding Abel R. Kiviat and Harry Smith, New York state athletes, guilty of professionalism, it was announced tonight. This is the final judgment in the cases of the runners unless they appeal to the courts.

Prater Wins.

Prater won from Hewlett in the second block, 110 to 100, making the score, Prater 210 to 100. The first block will be played tonight at 8:30 at the Office Hilliard parlors, 224 Decatur street.

Who is a "Go-Fan?"
A "Go-Fan" is anybody who goes.
"Go-Fans" go afternoons and night.
They dance; they auto; they visit the movies and theaters; they go to receptions and teas; they play cards; they are at clubs. They spend their afternoons and nights seeking amusement.

Sports in Short Metre

Farmer Burns thinks Wrestling Champion Frank Gotch will defeat Joe Stecher, the Dodge, Neb., expert who has been showing such wonderful feats of late. Burns says, "Gotch knows too much for Stecher; he knows more than all the men Stecher has beaten put together."

Ben Wallis, a former Yale oarsman, and Ted Meyer, a Harvard crewman, are in charge of the 250 candidates after places in University of California freshmen and varsity eight-oared crews. The varsity crew includes three of last year's eight. The principal race will be with Stanford and University of Washington (Seattle) in April.

New Orleans boasts the largest boxing arena in the United States. It is in course of construction, and will be called the Louisiana auditorium, and will be first used for the contest between the Louisiana and Herman, the bantamweight boxers, February 7. It will seat 15,000. Included in the addition to the arena is a new building, a roadhouse and gymnasium, and perhaps either a 100-yard cinder track or a circular track around the arena to be used by the boxers in their preliminary training. The arena is located on a space 225 feet square.

PROFESSIONAL VIEWS
ON COTTON SITUATION

New York, February 3.—(Special.)—Bull market was somewhat irregular today, which brought about a better market for cotton. The market was rather quiet, but the demand for cotton was steady. The market was rather quiet, but the demand for cotton was steady. The market was rather quiet, but the demand for cotton was steady.

There was some near month liquidation, but the offerings were well taken up. The market was rather quiet, but the demand for cotton was steady. The market was rather quiet, but the demand for cotton was steady.

SUGAR.

New York, February 3.—(Special.)—The market for raw sugar was steady with buyers and sellers about 1-16 apart in the local market. The market was rather quiet, but the demand for sugar was steady. The market was rather quiet, but the demand for sugar was steady.

will then come to Atlanta. From here he intends to go to Augusta, Savannah, Columbia, Charlotte, Greensboro and Charlottesville, Va.

General Wood is greatly encouraged over the prospects for success and a large attendance at the Fort Oglethorpe camp as indicated so far.

Concerning the training camp at Fort Oglethorpe General Wood said: "I am very anxious to find out that there is a great number of men in the south who will be glad to take up arms."

Establish Camp in Atlanta I believe it will be a great success. I believe it will be a great success. I believe it will be a great success.

Speaking of the manufacture of arms, General Wood said: "The country is just now able to produce the increased output for which they have been famous."

Facilities for Making Arms I think that arrangements should be made for the manufacture of such arms as the country needs.

General Wood said: "The country is just now able to produce the increased output for which they have been famous."

Who is a "Go-Fan?" A "Go-Fan" is anybody who goes.

"Go-Fans" go afternoons and night—They dance; they auto; they visit the movies and theaters; they go to receptions and teas; they play cards; they are at clubs. They spend their afternoons and nights seeking amusement—

BUT THEY READ THE CONSTITUTION IN THE MORNING

LODGE NOTICES
